OPERATOR ASSISTED

STATE-TO-STATE CALLS

EFFECTIVE DATE: November 9, 2001

Operator Assisted State-to-State Calls**Description**

Operator assistance is available to callers who want to place state-to-state Operator assisted calls. The following types of calls are available for Operator Assistance:

- **COLLECT CALLS** – Operator assistance for state-to-state Collect calls will ask the caller to provide his/her name or other identification, then contact the party at the domestic telephone number specified by the caller, repeat the caller's identification and then ask if the called party will accept charges for the call. If the called party agrees to accept the charges, the call will be established and the associated charges for a Collect call will be billed to the called party's residential telephone number billing account.
- **BILLED-TO-THIRD NUMBER CALLS** – Operator assistance will establish the state-to-state call requested by the caller and arrange for billing of associated charges to a residential domestic telephone number specified by the caller that is other than the calling telephone number or the called telephone number. Requests for Third Number Billing are subject to Operator verification that the party at the telephone number to be billed will accept charges for the call. Other efforts may be undertaken subsequently by the Company, as necessary, to determine responsibility for payment of such calls.
- **PERSON-TO-PERSON CALLS** – At the caller's request, Operator assistance will attempt to place a state-to-state call to a particular party at a domestic telephone number specified by the caller. The party specified by the caller may be a person, station, department, extension or office. If successful, the Operator will establish the Person-to-Person call between the calling and called parties. If the identified party is not available and the caller requests, or agrees, to speak to a party other than the party initially specified, the call will be established and billed at the Person-to-Person call rates.

REAL TIME RATED CALLS – Operator assistance is available to provide the time (duration) and charges associated with an Operator assisted state-to-state call. A Company Operator must establish the call for which time and charges are requested. The caller must provide the calling and called telephone numbers to the Operator and also request the Operator to provide the time and charges associated with such call upon completion of the call.

- **OPERATOR DIALED CALLING CARD STATION CALLS** - Operator Dialed Calling Card Station rates apply when the Customer dials the appropriate Operator access code from an aggregator location, does not enter the called number and is transferred to an AT&T Operator and the completed call is billed to a calling card

EFFECTIVE DATE: November 9, 2001
