Within rate tables, four types of entries are allowed:

- Rate Amount

The rate amount indicates the dollar value associated with the service.

- A dash "-"

There will be no other symbols used on the check sheet if these are the only changes made to it (i.e., the format, etc., remains the same). The tariff user should refer to the latest check sheet to find out if a particular page is the most current on file.

1.4.6 EXPLANATION OF CHANGE SYMBOLS

2. TERMS AND CONDITIONS**2.9 VALIDATION OF CREDIT**

The Company reserves the right to validate the credit worthiness of users through available credit card, calling card, call number, and third party telephone number verification procedures. Where a requested billing method cannot be validated, the user may be required to provide an acceptable alternate billing method or the Company may refuse to place the call.

For consideration of any disputed charge, a user must submit in writing or by telephone to the Company, within 30 days of the date the bill is issued, the call details and the bases for any requested adjustment. The Company will promptly investigate and advise the user as to its findings and disposition. Any undisputed charges must be paid on a timely basis.

The customer will give the Company at least 30 days from the time the customer first notifies the Company to resolve the dispute.
- C. If arbitration is required, the arbitration will be conducted by a single arbitrator engaged in the practice of law. 2. TERMS AND CONDITIONS**2.16 CALCULATION OF DISTANCE**

Usage charges for all mileage sensitive products are based on the airline distance between rate centers associated with the originating and terminating points of the call. The airline mileage between rate centers is determined by applying the formula below to the vertical and horizontal coordinates associated with the rate centers involved. The Company uses the rate centers and associated vertical and horizontal coordinates that are produced by Telcordia in their NPA-NXX V & H Coordinates Tape and NECA Tariff F.C.C. No. 4.

$$\text{Formula} = \sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$

2.17 SERVICE OFFERINGS

The operator assisted services of the Company consist of the provision of Collect, approved telephone company Calling Card, Credit Card, Bill to Third Party, Station-to-Station, and Person-to-Person call services provided to users pursuant to arrangements established by the Company's subscribers.

Customers who place calls from a pay telephone will incur an undiscountable payphone surcharge per call. This charge is applicable to the following types of calls which originate from a public or semi-public pay station: calling card calls, toll-free calls, and calls placed using a carrier access code (i.e. 10XXX-0). For applicable charges, refer elsewhere in this Section.

Notwithstanding any statement to the contrary contained in this Tariff, in the event that any regulatory agency, legislative body or court of competent jurisdiction promulgates regulations or modifies existing ones including, without limitation, regulations regarding payphone compensation, access charges and/or universal service ("Regulatory Activity"), Qwest reserves the right, at any time and without notice to: (i) pass through to the customer all, or a portion of, any charges or surcharges directly or indirectly related to such Regulatory Activity; or, (ii) modify the rates, including any rate guarantees, and/or terms and conditions contained in this Tariff to reflect the impact of such Regulatory Activity.
