

ALASKA COMMUNICATIONS SYSTEMS, INC.

2013 Mid-Year Access Charge Tariff Filing

DESCRIPTION AND JUSTIFICATION

I. Introduction

A. Background

Alaska Communications Systems, Inc. hereby submits this filing to implement required exogenous cost adjustments to reflect changes in the Telecommunications Relay Service (“TRS”) carrier contribution factor and the annual regulatory fee for Interstate Telecommunications Service Providers (“ITSP”). This information is being filed pursuant to the Federal Communications Commission’s (“Commission” or “FCC”) streamlined filing procedures, and includes adjustments consistent with the requirements of Sections 61.41 through 61.49 of the Commission’s Rules. The issuing carriers (“ACS Companies”) for the ACS Companies Tariff FCC No. 1 are listed below:

Company	Study Area	COSA
ACS of Anchorage	Anchorage	AKAN
ACS of Fairbanks	Fairbanks	AKFB
ACS of Alaska	Greatland	AKGL
ACS of Alaska	Juneau	AKJU
ACS of the Northland	Glacier State	AKGS
ACS of the Northland	Sitka	AKSK

B. Waivers

The ACS companies list below all currently applicable waivers that permit rate elements different than those specified in 47 C.F.R., Part 69.

The Commission in Order, In the Matter of ACS of Alaska, Inc., ACS of Anchorage, Inc., ACS of Fairbanks, Inc., and ACS of the Northland Inc., Petition

for Conversion to Price Cap Regulation and Limited Waiver Relief, released April 17, 2009, DA 09-854, Released April 17, 2009, provided the ACS Companies with the requested relief to convert its companies subject to rate-of-return regulation to price cap regulation and establish initial price cap indexes ("PCIs") for price cap baskets.

II. Index and Rate Development

A. Existing Indices

The existing indices are those indices that will be in effect on September 30, 2013. See IND-REF for transmittal numbers under which existing indices became effective.

B. Exogenous Costs

The ACS Companies developed exogenous cost changes according to the Price Cap Rules. These exogenous costs were measured at the 2012 base period level of operations adjusted for rate changes made effective July 2, 2013, and apportioned on a cost-causative basis among the price cap baskets. Exogenous cost changes and allocations are shown in Exhibit EXG.

1) Regulatory Fees

Local Exchange Companies are allowed to recover the impact of regulatory fees as an exogenous cost. The calculations of the regulatory fees to be paid in the 2013 tariff year are based on the factor of 0.00347 as referenced in Attachment C of the *Assessment and Collection of Regulatory Fees for Fiscal Year 2013*, MD Docket No. 13-140, *Report and Order*, FCC 13-110, released August 12, 2013.

2) Telecommunications Relay Service Fee

All common carriers providing interstate telecommunications services are required to contribute to a fund designated to support telecommunications relay services. For the 2013 tariff year, the fee will be based on the factor of 0.01484 as set forth in , Telecommunications Relay Services and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities, , CG Docket No. 03-123, *Order*, DA 13-1483, released July 1, 2013.

C. CMT Per Line Revenue

Section 61.3(d) of the Commission's Rules, 47 C.F.R. § 61.3(d) (2011), sets forth the calculation of the maximum SLC for residential and single-line business customers, non-primary residential, and multi-line business service categories based on the average common line, marketing and transport interconnection charge revenue ("CMT" revenue) per line. Exhibit CMT depicts the CMT per line calculation.

III. USF/ICC Transformation Order

The following describes the methodology and supporting calculations to implement the Transitional Intrastate Access Service reductions required by 47 C.F.R. Part 51.907 and related recovery mechanisms. Descriptions, exhibits and FCC spreadsheets submitted with ACS's annual access charge filing issued under Transmittal No. 27 that require changes as a result of this mid-year access charge filing are included in this filing. Descriptions, exhibits and FCC spreadsheets submitted in connection with ACS's annual access charge filing that do not require changes as a result of this mid-year filing are available in the Electronic Tariff Filing System issued by ACS under Transmittal No. 27.

A) Access Recovery Charge (ARC)

The Commission adopted a transitional recovery mechanism, including an Access Recovery Charge (ARC), which is intended to partially mitigate the effect of reduced inter-carrier revenues. The ARC TRP spreadsheets demonstrate the calculations

necessary to arrive at an ARC rate for filing carriers pursuant to section 51.915(e) of the Commission's rules.

There are two different ARC TRP spreadsheets. The first is the Rate Ceiling- CAF TRP and is being provided in this filing as ACSTARC13.xls. The second is the Tariff-Rate Comparison CAF TRP and is being provided in this filing as ACSTTRC13.xls. The Rate-Ceiling CAF TRP reflects the ACS Companies compliance with Part 51.915 of the commission rules while the Tariff-Rate Comparison CAF TRP reflects the proposed ARC tariffed rate.

Portions of both the Rate Ceiling CAF TRP (ACSTARC13.xls) and the Tariff Rate Comparison CAF TRP (ACSTTRC13.xls) contain information considered to be confidential and that confidential information has been redacted from the Public Version of the filing. The confidential version has been filed under seal subject to protective order issued in WCB Pricing File No. 13-76, Public Notice DA 13-1318.

B) Eligible Recovery

ACS eligible recovery per section 51.915(d) can be found in TRP ACSTER13.xls of the ACS filings. The eligible recovery was calculated by using the Non-Calls Study Area Base Factor of 100% applied to the cumulative amount of its reduction in Transitional Intrastate Access Service revenues and Net CMRS Reciprocal Compensation revenues multiplied by the Price Cap Carrier Traffic Demand Factor (81%) plus Exogenous Costs.
