## SECTION 2 - TERMS AND CONDITIONS

### 2.1 Undertaking of the Company and Locations of Service

The Company's service is furnished to Customers for domestic interstate interexchange communications originating and terminating within certain areas of the United States under the terms of this tariff. The Company's service is available twenty-four hours per day, seven days per week, except as otherwise provided in the Company's tariffs.

The Company arranges for installation, operation, and maintenance of the service provided in this tariff for the Customer in accordance with the terms and conditions set forth in this tariff. The Company may, when authorized by the Customer, act as the Customer's agent for ordering access connection facilities provided by other carriers or entities (such as the local exchange company), to allow connection of a Customer's location to the Company's service. The Customer shall be responsible for all charges due for such service arrangement.

Where network facilities and billing systems permit, the Company will block casual dialing.

### 2.2 Use of Service

2.2.1 Service may be used for any lawful purpose for which it is technically suited. Service may not be used for unlawful purposes.

2.2.2 The Customer obtains no property right or interest in the use of any specific type of facility, service, equipment, number, process, or code. All right, title and interest to such items remain, at all times, solely with the Company or its underlying carrier or service provider, as appropriate.

The Company may decline applications for service to or from a location where the necessary facilities or equipment are not available. The Company may discontinue furnishing service in accordance with the terms of this tariff.

- 2.3.4 The Company reserves the right to refuse to process Third Party Billed calls when the billed party and/or standard validation techniques do not confirm acceptance, or based on characteristics of the originating or terminating location.
- 2.3.5 The Company reserves the right to refuse to process calling card billed calls when authorization for use of the card cannot be validated or to prevent the unlawful use of service. The Customer may be required to provide an acceptable alternate billing method or the Company may refuse to place the call. (D)
- 2.3.6 The Company reserves the right to discontinue service, limit service, or to impose requirements as required to meet changing regulatory or statutory rules and standards, or when such rules and standards have an adverse material affect on the business or economic feasibility of providing service, as determined by the Company in its reasonable judgment. In such circumstances, the Company's tariff will be revised accordingly.

The Company's acceptance of an application or order for service by an applicant whose credit has not been duly established may be subject to the deposit, advance payment and/or refusal of service provisions described in this tariff. The Company may also require a signed authorization from the Customer for additions to or changes in existing service for such Customer. An application for service canceled by the applicant or by the Company prior to the establishment of service is subject to the provisions of this tariff concerning cancellation charges.

### 2.4 Assignment or Transfer

The Customer may not transfer or assign the use of service offered by the Company without the express prior written consent of the Company. - 2.5.2 In no event shall the Company be liable for any incidental, indirect, special, or consequential damages (including, but not limited to, lost revenue or profits) of any kind whatsoever regardless of the cause or foreseeability thereof.
- 2.5.3 When the services or facilities of other common carriers or other service providers are used separately or in conjunction with the Company's services, facilities or equipment in establishing connection to points not reached by the Company's services, facilities or equipment, the Company shall not be liable for any act or omission of such other common carriers or other service providers, or their respective agents, servants or employees.

The Company is not liable for any damages, including toll usage charges, the Customer may incur as a result of the unauthorized use of its telecommunications facilities. 2.7 Taxes and Fees, (Cont'd.)

2.7.3 (Cont'd.)

- A. For recovery of contributions paid by the Company to recover Long Distance Access Charges. (T)

Telecommunications services provided by the Company are also subject to an undiscountable monthly charge imposed by the Company and payable by the Customer. The charge, noted on the Customer's bill as a Long Distance Access Charge (formerly Federal Access Charge), shall be added to each long distance line as follows: (T)  
(T)

Single Line Business Customers	\$1.85 per line per month
Multi-line Business Customers	\$3.85 per line per month
Centrex/CustoPak	\$1.85 per line per month
ISDN PRI	\$17.55 per interface* per month

The line determination is based on available Company and/or LEC-provided information. Where line types cannot be determined by the Company, the charge is \$3.85. (T)  
(T)

The Long Distance Access Charge defrays the cost of access charges and fees that LECs assess on interexchange carriers. This is a Company surcharge, not a tax, and is subject to change. (N)  
|  
(N)

\* The ISDN PRI charge is per pipe, not per channel.

SECTION 2 - TERMS AND CONDITIONS, (Cont'd.)

2.7 Taxes and Fees, (Cont'd.)

2.7.3 (Cont'd.)

- B. For recovery of contributions paid by the Company to support Universal Service Fund Fee (USF)

Telecommunications services provided by the Company are subject to an undiscountable monthly Universal Service Fund Fee, payable by the Customer. The fee shall be calculated as follows:

The gross amounts (exclusive of taxes) attributable to interstate and international services billed to the Customer by the Company will be multiplied by the following percentages:

13.2 percent for bills rendered on April 1, 2013 through June 30, 2013;  
12.8 percent for bills rendered on or after July 2, 2013.

(T)  
(R,T)

These percentages will be subject to periodic adjustment by the Company.

The USF Fee will not be applied to services sold by the Company to a Customer for resale for which the Customer has filed a Universal Service Worksheet, unless the Customer has a de minimis exemption which exempts the Customer from paying directly into the Universal Service Fund.

C. For recovery of contributions paid by the Company to recover Pay Phone Per Call Compensation Surcharge

In order to recover the Company's expenses to comply with the Commission's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), unless otherwise stated in this tariff, an undiscountable per call charge is applicable to all interstate calls that originate from any domestic pay telephone not served by a line presubscribed to the Company used to access the Company's services on a dial-around basis. The Pay Telephone Surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with the Company's service, applies for the use of the instrument used to access the Company service and is unrelated to the Company's service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (i.e., using the "#" symbol).

Whenever possible, the Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information that the originating station is an eligible pay telephone.

## SECTION 2 - TERMS AND CONDITIONS, (Cont'd.)

### 2.10 Payment for Service

- 2.10.1 Service is provided and billed on a monthly basis unless otherwise stated in the service description in this tariff. Bills are due and payable upon receipt. A late fee equal to that charged by the local exchange carrier serving the Customer, 1.5% per month, or the maximum amount allowed by law, whichever is lower, may apply to any unpaid and past due balance. The late fee may be charged by the Company directly or by the Company's billing services provider. The late fee begins to accrue no sooner than the 25th day after the billing date. In the event that the Company incurs fees or expenses, including attorney's fees, collecting, or attempting to collect, any charges owed to the Company, the Company, or its billing services provider, may charge the Customer, and the Customer will pay, all such fees and expenses reasonably incurred. Collection fees on overdue charges apply in addition to all applicable late payment charges and shall begin to accrue when the Account is assigned to an outside collection agency.
- 2.10.2 The Customer is responsible for payment of all charges for service furnished to or used by the Customer, or the Customer's agents, servants, employees or Customers. The Customer is also responsible for payment of charges for all other third person use of service to which the Customer subscribes. All charges due from the Customer are payable to the Company or to the Company's authorized billing agent in immediately available U.S. dollars. Any objections to billed charges must be reported to the Company or its billing agent within six months after receipt of bill. Adjustments to the Customer's bill shall be made to the extent that circumstances exist which reasonably indicate that such changes are appropriate.
- 2.10.3 The security of the Customer's Authorization Codes is the responsibility of the Customer. All calls placed using such Authorization Codes shall be billed to and shall be the obligation of the Customer. The Customer is responsible for all calls placed via the Customer's Authorization Code, whether such use is as a result of the Customer's intentional or negligent disclosure of the Authorization Code or otherwise. However, the Customer shall not be responsible for charges in connection with the unauthorized use of Authorization Codes arising after the Customer notifies the Company of the loss, theft, or other breach of security of such Authorization Codes.

2.10 Payment for Service, (Cont'd.)

- 2.10.4 The Company reserves the right to assess a charge of \$20.00, or the maximum amount allowed by law, whenever a check or draft presented for payment of service is not accepted by the institution upon which it is written.
- 2.10.5 The Customer shall be responsible for payment of rates and charges for all calls placed by or through Customer's equipment by any person. In particular and without limitation of the foregoing, the Customer is responsible for payment of rates and charges for any calls placed by or through the Customer's equipment via any remote access features.
- 2.10.6 The Company reserves the right to examine the credit record or other available external sources of credit of an applicant or Customer. The Customer whose service has been disconnected for nonpayment of bills shall be required to pay any unpaid balance due to the Company before service is restored, and a deposit may be required.
- 2.10.7 The Company shall make no refund of overpayment by the Customer unless the claim for such overpayment, together with proper evidence, is submitted within two years of the date of alleged overpayment. In calculating refunds, any applicable discounts shall be adjusted based upon the actual monthly usage after all credits and adjustments have been applied.

## SECTION 2 - TERMS AND CONDITIONS, (Cont'd.)

### 2.11 Deposits

2.11.1 Each applicant for service may be required to establish credit. Any applicant whose credit has not been duly established may be required to make a deposit at the time of application to be held as a guarantee of payment of charges. In addition, an existing Customer may be required to make a deposit or increase a deposit currently held. The Company shall pay interest on deposits pursuant to applicable rules and regulations. The Company may set toll usage limitations on applicants for service and existing Customers whose financial condition cannot be verified or is otherwise unacceptable to Company. Any toll usage limits may be increased or decreased by Company as it deems appropriate in light of changing conditions.

2.11.2 A deposit shall not exceed the estimated charges for two months service, plus installation, and shall be returned: 1) when an application for service has been canceled prior to the establishment of service; or 2) at the end of twelve (12) consecutive months of a satisfactory credit history; or 3) upon discontinuation of service. The Company shall apply the deposit against any outstanding balances due. If a credit balance exists after such application, the Company shall refund the balance to the Customer.

2.11.3 The fact that a security deposit has been made in no way relieves the Customer from the prompt payment of bills upon presentation.

### 2.12 Advance Payments

The Company reserves the right to require an advance payment from the Customer instead of or in addition to a security deposit. The advance payment shall be in an amount equal to or less than estimated installation charges plus two months' estimated billing.

## SECTION 2 - TERMS AND CONDITIONS, (Cont'd.)

### 2.13 Interruption of Service

- 2.13.1 Credit allowances for interruptions of service which are not due to the Company's testing or adjusting, to the negligence or other wrongful act or omission of the Customer, or to the failure of services, channels, equipment and/or communications systems provided by the Customer or the Customer's agents, servants, employees, or Customers, are subject to the general liability provisions set forth in this tariff. It shall be the obligation of the Customer to notify the Company immediately of any interruption in service for which a credit allowance is desired by the Customer. Before giving such notice, the Customer shall ascertain that the trouble is not within his or her control, or is not in wiring or equipment, if any, furnished by the Customer. Interruptions caused by Customer-provided, or Company-provided automatic dialing equipment are not deemed an interruption of service as defined herein since the Customer has the option of using the long distance network via dial access code.

For purposes of credit computation, every month shall be considered to have 30 days and every day 24 hours. For all Company services no credit shall be allowed for an interruption of continuous duration of less than twenty-four hours. For services billed on a usage basis, credits will be limited to, at maximum, the price of the call that was in progress at the time of the service interruption.

For services with monthly recurring charges, credit is computed by multiplying the monthly recurring rate by the ratio that the number of hours in the period of interruption bears to 720 hours (30 days times 24 hours). The credit shall be based upon the non-usage charges for the month during which the interruption occurred, excluding equipment and access line charges. Credits for services billed on a usage basis will be determined as set forth above.

- 2.13.2 An interruption is measured from the time the Customer notifies the Company of the interruption until the trouble is cleared. Each interruption is considered separately for the purposes of establishing credit allowance. Unless otherwise specified in this tariff, the credit for a billing period shall not exceed the monthly rate.

The Customer may have service canceled upon written or verbal notice to the Company. Requests for additional service and changes to service, upon acceptance by the Company, become a part of the agreement for service, provided that each item of additional service shall be subject to the applicable minimum term of service. ### SECTION 3 - DESCRIPTION OF SERVICE AND RATES

#### 3.1 General

Subject to Section 2.1 of this tariff, the Company provides telecommunications services between locations within the United States. The Company's service charges are based upon call duration, time of day rate period, mileage, and/or call type.

Subject to Section 2.1 of this tariff, presubscribed service is offered from locations served with equal access end offices.

The Company's service is available twenty-four hours per day, seven days a week, except as otherwise provided in the Company's tariffs.

Transmittal 140

Effective Date: April 21, 2009

SECTION 3 - DESCRIPTION OF SERVICE AND RATES, (Cont'd.)

3.2 Calculation of Distance

Usage charges for all mileage sensitive services are based on the airline distance between the rate center locations associated with the originating and terminating points of the call.

The distance between the originating and terminating points is calculated by using the "V" and "H" coordinates of the applicable rate centers as defined by Telcordia Technologies (formerly Bellcore) and on file with the FCC in AT&T Tariff FCC No. 10, in the following manner:

Step 1 - Obtain the "V" and "H" coordinates for the rate center of the originating and the destination points.

Step 2 - Obtain the difference between the "V" coordinates of each of the rate centers. Obtain the difference between the "H" coordinates.

Step 3 - Square the differences obtained in Step 2.

Step 4 - Add the squares of the "V" difference and "H" difference obtained in Step 3.

Step 5 - Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.

Step 6 - Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating rate centers of the call.

Formula: 
$$\sqrt{\frac{|V_1 - V_2|^2 + |H_1 - H_2|^2}{10}}$$

SECTION 3 - DESCRIPTION OF SERVICE AND RATES, (Cont'd.)

3.3 Timing of Calls

Billing for calls placed over the network is based in part on the duration of the call as follows unless otherwise specified in this tariff:

- 3.3.1 Call timing for all calls begins when the called party answers the call (i.e. when two way communications are established). Answer detection is based on standard industry answer detection methods, including hardware and software answer detection.
- 3.3.2 Chargeable time for all station-to-station calls begins when connection is established between the calling party and the called party and ends when the calling party hangs up thereby releasing the network connection. If the called party hangs up but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the network or by an operator.
- 3.3.3 Minimum call duration for billing purposes is one minute unless otherwise specified in the individual rate schedules of this tariff.
- 3.3.4 Calls are measured and billed in one minute increments on a per call basis, unless otherwise indicated in this tariff. Fractional billing increments are rounded to the full billing increment as stated in the product description.
- 3.3.5 No charges apply to incomplete calls. An incomplete call is a station call in which the called station does not answer, or a person-to-person call in which the station does not answer or the requested person is unavailable, or a collect call for which the called party refuses to accept the charges.
- 3.3.6 Usage charges are computed on a per call basis. When computation of call charges result in fractional cents, the resulting charge is rounded to the nearest penny unless otherwise specified in this tariff.

## SECTION 4 - MISCELLANEOUS SERVICES

### 4.3 Operator Services

Operator Services allow Customers and Consumers to place calls using operator assistance for call completion or billing.

Usage charges and an appropriate service charge will be assessed on a per call basis, as stated in this tariff. For calls made using Calling card, acceptance of the card will be dependent upon the Company's ability to verify the card as valid. Only those cards accepted by the Company may be used to bill the Company's services. The Company reserves the right to verify acceptance of charge prior to billing charges to a third party number.

- 4.3.1 Operator Services may be used by a Customer and by an Aggregator and their respective Consumers (i.e., patrons, guests, invitees or employees) to complete Operator Station, Person-to-Person, Collect, Third-Party, and/or Calling Card calls.
- 4.3.2 Charges for Operator Assisted Calls include two components: a usage-sensitive component; and a fixed per-call service charge based upon the type of operator service provided.
- 4.3.3 The usage-sensitive portion of the charge for an Operator Assisted Call is set forth in Section 4.3.10 below.
- 4.3.4 The fixed per-call service charge portions of the charge for an Operator Assisted Call is set forth in Sections 4.3.9 below.
- 4.3.5 The Company shall not bill the Customer for any surcharges or fees imposed by the Aggregator. With respect to charges imposed by the Aggregator for the use of the telephone, the Aggregator is responsible for charging a flat rate and for posting of the charge in plain view at each telephone.
- 4.3.6 Collect Calls are permissible between all stations except that the Collect Call option is not available for calls to a public or semi-public coin station.

#### SECTION 4 - MISCELLANEOUS SERVICES

##### 4.3 Operator Services, (Cont'd.)

- 4.3.7 Service may be suspended by the Company, without notice to the Customer or the Aggregator, by blocking traffic to certain countries, cities, or NPA-NXX exchanges, or individual telephone number, or by blocking calls using certain Customer Authorization Codes, or Calling Cards, when the Company deems it necessary to take such action to prevent unlawful or fraudulent use of service. The Company shall restore service as soon as it can be provided without undue risk, and shall, upon request by the Customer affected, assign a new Authorization Code to replace the one that has been deactivated. The Company reserves the right to validate the credit worthiness of Customers through available Calling Card, called number, Third Party telephone number and room number verification procedures. Where a requested billing method cannot be validated, the Customer or Consumer may be required to provide an acceptable alternate billing method or the Company may refuse to place the call.
- 4.3.8 The Calling Card holder or local exchange company service subscriber is responsible for payment of the Company's charges for all calls billed to a Calling Card or a telephone line number, respectively.
