

**Cincinnati Bell Telephone LLC**

**Tariff FCC No. 35**

**Transmittal No. 881**

**DESCRIPTION & JUSTIFICATION**

Cincinnati Bell Telephone (CBT) proposes to introduce a new service, Ethernet Point-to-Point Service. Ethernet Point-to-Point Service is a high volume Optical transport in a point-to-point circuit configuration between one customer-designated premises to another customer-designated premises, or between a customer-designated premises, and a Telephone Company location.

Ethernet Point-to-Point Service is available with a one-year minimum period, and available with 12-month, 24-month, 36-month, 48-month, 60-month and 84-month options.

CBT also proposes to introduce a Wavelength Expedite Charge rate element in Section 22 - Wavelength Service. The charge for the Wavelength Expedite Charge is the same as that for the existing OCn Expedite charge found in Section 5.2.2(D).
