With this filing, NBTC is proposing to introduce Expanded Interconnection cross connects for AT&T Switched Ethernet ServiceSM (ASE). ASE is currently available as a non-tariffed offering in Part 5, Section 4, of the AT&T Interstate Access Guidebook at <http://att.com/guidebook/>. These options will allow customers to connect to ASE via 1 and 10 Gigabit Ethernet connections in the Telephone Company's Central Offices.

Cost support is attached in support of pricing for the ASE cross connects.

It is AT&T's position that the cross-connects that are the subject of this filing are not required to be tariffed given the relief provided in the Memorandum Opinion and Order of October 12, 2007, *In the Matter of Petition of AT&T Inc. for Forbearance under 47 U.S.C. §160(c) from Title II and Computer Inquiry Rules with Respect to Its Broadband Services*, WC Docket WC 06-125. This submission is not intended to alter, and should not be construed as altering, that position, and AT&T reserves all rights regarding the relief provided under the Memorandum Opinion and Order.
