

**CenturyLink Operating Companies**

**Tariff F.C.C. Nos. 1, 2, 3, 6, 7, 8 and 9**

**Transmittal No. 58**

***Description and Justification***

The CenturyLink operating companies (CLOC) hereby submit the following information in support of the accompanying tariff filing, as required by Sections 61.38 and 61.41 through 61.49 of the Federal Communications Commission's Rules and Regulations.

This portion of the filing is made on 15 days notice under the Commission's streamlined filing procedures. This filing changes the Ethernet Virtual Private Line (EVPL) service channel mileage free allowance from 30 miles to 45 miles.

***1.0 Ethernet Virtual Private Line Channel Mileage***

EVPL Channel Mileage provides transport between two Telephone Company serving wire centers. This filing seeks to change the EVPL channel mileage rate that will be applied on a per mile basis for each mile exceeding the first 30 miles of transport between Telephone company service wire centers to each mile exceeding the first 45 miles of transport between Telephone company service wire centers. The EVPL channel mileage rate applies regardless of the speed of the UNI or NNI port connection. The EVPL channel mileage associated with ICO NNI is still applicable to all miles. The EVPL channel mileage charge associated with the High Volume Discount Plan is not applicable.

Exhibit A displays the change in revenue by increasing the channel mileage free allowance from 20 to 30 miles. Annual 2013 demand was utilized for all entities that had such a service arrangement in 2013.

***3.0 Conclusion***

The CenturyLink operating companies are submitting the accompanying tariff revisions to increase the channel mileage free allowance and in accordance with the Commission's Rules governing the provision of interstate access services.

Filing Date: 07/16/2014

Filing Entity: CenturyLink Operating Companies (CLOC #1, #2, #3, #6, #7, #8 & #9)
