SECTION 2.0 - RULES AND REGULATIONS, (CONT'D.)

2.15 Taxes, Surcharges and Other Miscellaneous Charges, (Cont'd.)

2.15.4 Universal Service Fund Charge (USF)

The Federal Universal Service Fund Charge is assessed to all Customers of services included in this tariff where billing capabilities exist. The charge is based on a percentage of Customer's net interstate and international charges incurred during a month and will be equal to the quarterly assessment factor set by the Federal Communications Commission. This charge is in addition to the tariffed per minute usage rates and any applicable monthly service fees and surcharges associated with utilizing the Company's service and is assessed based on billing capability.

For carrier-customers, the Universal Service Fund Charge will not be applied to services sold by the Company to a Customer for resale for which the Customer has filed a Universal Service Worksheet, unless the Customer has a de minimus exemption which exempts the Customer from paying directly into the fund.

SECTION 2.0 - RULES AND REGULATIONS, (CONT'D.)

2.15 Taxes, Surcharges and Other Miscellaneous Charges, (Cont'd.)

2.15.6 Public Pay Telephone Surcharge

In order to recover the Company's expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all interstate, intrastate and international calls that originate from any domestic pay telephone used to access the Company's services. The Public Pay Telephone Surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with the Company's service, applies for the use of the instrument used to access the Company service and is unrelated to the Company's service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Public Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (i.e., using the "#" symbol).

Whenever possible, the Public Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.

The Public Pay Telephone Surcharge does not apply to calls placed from pay telephones at which the Customer pays for service by inserting coins during the progress of the call.
