

ALASKA COMMUNICATIONS SYSTEMS, INC.
2014 Mid-Year Access Charge Tariff Filing
Issue September 16, 2014

DESCRIPTION AND JUSTIFICATION

I. Introduction

A. Background

Alaska Communications Systems, Inc. hereby submits this filing to implement required exogenous cost adjustments to reflect changes in the annual regulatory fee for Interstate Telecommunications Service Providers ("ITSP"), the Telecommunications Relay Service ("TRS") carrier contribution factor, and the North American Numbering Plan Administration ("NANPA") contribution factor. This information is being filed on 15 days' notice pursuant to the Federal Communications Commission's ("Commission" or "FCC") streamlined filing procedures, and includes adjustments consistent with the requirements of Sections 61.41 through 61.49 of the Commission's Rules, 47 C.F.R. §§ 61.41 – 61.49 (2012). The issuing carriers ("ACS Companies") for the ACS Companies Tariff FCC No. 1 are listed below:

Company	Study Area	COSA
ACS of Anchorage	Anchorage	AKAN
ACS of Fairbanks	Fairbanks	AKFB
ACS of Alaska	Greatland	AKGL
ACS of Alaska	Juneau	AKJU
ACS of the Northland	Glacier State	AKGS
ACS of the Northland	Sitka	AKSK

B. Waivers

The ACS companies list below all currently applicable waivers that permit rate elements different than those specified in 47 C.F.R., Part 69.

The Commission in Order, In the Matter of ACS of Alaska, Inc., ACS of Anchorage, Inc., ACS of Fairbanks, Inc., and ACS of the Northland Inc., Petition for Conversion to Price Cap Regulation and Limited Waiver Relief, released April 17, 2009, DA 09-854, Released April 17, 2009, provided the ACS Companies with the requested relief to convert its companies subject to rate-of-return regulation to price cap regulation and establish initial price cap indexes ("PCIs") for price cap baskets.

II. Index and Rate Development

A. Existing Indices

The existing indices are those indices that will be in effect on September 30, 2014. See IND-REF for transmittal numbers under which existing indices became effective.

B. Exogenous Costs

The ACS Companies developed exogenous cost changes according to the Price Cap Rules. These exogenous costs were measured at the 2013 base period level of operations adjusted for rate changes made effective July 1, 2014, and apportioned on a cost-causative basis among the price cap baskets. Exogenous cost changes and allocations are shown in Exhibit EXG.

1. Regulatory Fees

Local Exchange Companies are allowed to recover the impact of regulatory fees as an exogenous cost. The calculations of the regulatory fees to be paid

in the 2014 tariff year are based on the factor of 0.00343 as referenced in Attachment B of the *Assessment and Collection of Regulatory Fees for Fiscal Year 2014*, MD Docket No. 14-92, *Report and Order and Further Notice of Proposed Rulemaking*, FCC 14-129, released August 29, 2014.

2. Telecommunications Relay Service Fee

All common carriers providing interstate telecommunications services are required to contribute to a fund designated to support telecommunications relay services. For the 2014 tariff year, the fee will be based on the factor of 0.01219 as set forth in , *Telecommunications Relay Services and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities* , CG Docket No. 03-123, Order DA 14-946, released June 30, 2014.

3. North American Numbering Plan Administration Fee

In the North American Numbering Plan Administration (“NANPA”) Order, the Commission required all telecommunications carriers to contribute to the cost recovery for numbering administration. To remain consistent in the price cap treatment of such fees, *i.e.*, Regulatory Fee and Telecommunications Relay Services Fee, the NANPA fee is treated as an exogenous change. For the 2014 tariff year, the fee will be based on the factor of 0.0000365 as set forth in Public Notice, Wireline Competition Bureau Announces the Proposed North American Numbering Plan Administration Fund Size Estimate and Contribution Factor For July 2014 through June 201, CC Docket No. 92-237, DA 14-792, released June 13, 2014.

C. CMT Per Line Revenue

Section 61.3(d) of the Commission's Rules, 47 C.F.R. § 61.3(d) (2012), sets forth the calculation of the maximum SLC for residential and single-line business customers,

non-primary residential, and multi-line business service categories based on the average common line, marketing and transport interconnection charge revenue (“CMT” revenue) per line. Exhibit CMT depicts the CMT per line calculation.

III. Access Recovery Charge (ARC) & CAF ICC Support

This filing has no impact on ACS Companies Access Recovery Charge (ARC) or CAF ICC Support. ACS of the Northland, LLC – Sitka includes an increase of \$551 in its Exogenous Cost Change Detail Exhibit that would be allowable in the calculation of the ARC. This amount is insignificant and does not change the current tariffed ARC rate. Therefore no Eligible Recovery, Rate Ceiling or Tariff Rate Comparison Tariff Review Plans (TRP) are being provided in this filing.

Filing Date: September 16, 2014
