## **SECTION 1 INTRODUCTION AND SUMMARY**

### **Introduction**

The Consolidated Communications Companies hereby provide a Description and Justification for its correction of certain rates in it's F.C.C. Tariff No. 2 (Consolidated Communications of Pennsylvania Company). Because of oversight, CCPA did not apply an originating / terminating traffic split to its Information Surcharge Rates. CCC did lower the terminating rates in its July and September Access filings, and only submits corrections to re-establish its originating rates. No impacts to previous filings occur.
