

SECTION 2 - REGULATIONS, (CONT'D.)

2.17 Adjustment to Rates and Charges, (Cont'd.)

2.17.3 Presubscribed Interexchange Carrier Charge (PICC)

For Customers who select the Company as their Primary Interexchange Carrier, the Company will assess the Customer a monthly recurring charge, called a Presubscribed Interexchange Carrier Charge (PICC). This charge will be assessed on a per line basis as shown below. PICCs will not be prorated for a partial month of service and are not subject to discounts nor contribute to any monthly minimums or revenue commitments which may apply to Company services subscribed to by the Customer. Credits for interruption of service as described in Section 2.14 of this tariff do not apply to PICCs.

Per Multi-Line Business Line or Trunk: \$0.00

2.17.4 Primary Interexchange Carrier (PIC) Change Charge

The Company may, at its option, elect to incur the PIC change charge on the Customer's behalf for new Customers who presubscribe their interstate service, for all products in Section 4 of this tariff, to the Company through Company-designated sales channels for Company-designated marketing campaigns and where the appropriate arrangements are in place between the Company and the eligible Customer's local exchange carrier. In the event that no such arrangements are in place, the Company may, at its option, reimburse the Customer, or issue the appropriate credits on the Customer's invoice upon Customer's proof of payment of such PIC change charges.

2.17.5 Carrier Cost Recovery Fee

The Company will assess residential Customers who have presubscribed to the Company as their primary interexchange carrier a Carrier Cost Recovery Fee to recover certain costs associated with state-to-state access charges, expenses associated with regulatory proceedings and compliance, and billing expenses. A Carrier Cost Recovery Fee of \$1.99 will be applied per billing account in each month in which a residential Customer has Company long distance interstate or international charges, such as monthly service charges or direct dialed usage charges, on an invoice. The fee will apply in full for any portion of a billing period in which the Customer has applicable interstate or international charges. This fee is not a tax or charge imposed or required by any government entity.

2.17.6 Federal Regulatory Fee

The Federal Regulatory Fee is a non-discountable monthly charge to recover amounts paid to the federal government for regulatory costs and telecommunications services for the hearing impaired and is applied on a monthly basis to Business Customers only. The Federal Regulatory Fee is equal to the Customer's total net charges for interstate and international telecommunications services, after application of all applicable discounts and credits, multiplied by 1.92%.

(T)(R)
(D)

SECTION 6 - INTERNATIONAL RATES AND CHARGES

6.1 General

Customers are billed based on their usage of the Company's services. Rates may vary based upon service type, call duration, time of day rate period, day of week, mileage, call type, calling plan and/or foreign location. Fixed recurring charges, not dependent upon usage, are billed in advance. Usage-based charges are billed after each usage cycle.

Customers will be charged for each individual call placed through the Company. Call duration is determined as described in Section 3 of this tariff. For distance or time of day sensitive offerings, charges are determined based on mileage calculations and applicable rate periods found in Section 3 unless otherwise specified in this tariff.

Outbound direct dial services are available from originating locations within the United States. Calls may be placed to locations between the United States and those countries listed herein.

Operator Services are available from originating locations within the United States where Customers have the ability to dial directly to the Company's network. Calls may be placed to locations between the United States and those countries listed herein.

An additional per-minute International Mobile Termination Charge (IMTC) is applied to all international calls originating in the United States and terminating in certain countries to (1) wireless devices; and (2) ranges of fixed wireless telephone numbers which the foreign telecommunications company designates to be for special services. Because many foreign telecommunications companies impose extra fees on the Company to complete these calls, the Company charges the IMTC, in addition to all other applicable charges. The IMTC amount varies by country and changes from time to time. Please check codes and rates periodically for current information. Codes and rates can be found at www.att.com/mobileterm. The applicable International Mobile Termination Charge can also be found in Section 6.5 of this Tariff.
