## FACILITIES FOR INTERSTATE ACCESS

5. Special Access Service (Cont'd)5.2 Description of Special Access (Cont'd)5.2.12 Ethernet Virtual Private Line (Cont'd)(A) Basic Service Description (Cont'd)

EVPL service is available 24 hours per day, 7 days per week, except for preventive maintenance. Due to the nature of EVPL it will be necessary to perform preventive maintenance and software updates. This will mean that the EVPL service will be unavailable during the period of time when preventive maintenance is being performed. The Telephone Company will provide notice to customers of such maintenance.

(1) User to Network (UNI) Port Connection

The User to Network (UNI) Port Connection is the physical interface or port that is the demarcation between the customer and the service provider. The UNI Port Connection is always provided by the service provider. The UNI Port Connection in a Carrier Ethernet Network (CEN) is a physical Ethernet Interface at operating speeds of 10 Mbps, 100 Mbps, 1000 Mbps (1 Gbps) and 10000 Mbps (10 Gbps).

(2) Network to Network (NNI) Port Connection

The Network to Network (NNI) Port Connection is the interface between distinct CENs operated by one or more customers. The NNI Port Connection is available at operating speeds of 10 Mbps, 100 Mbps, 1000 Mbps (1 Gbps) and 10000 Mbps (10 Gbps).

(2) (A) External Network to Network (E-NNI) Port Connection

The External Network to Network (E-NNI) Port Connection is the interface between two Operator CENs that are operated separately. The E-NNI Port Connection is available at operating speeds of 1000 Mbps (1 Gbps) and 10000 Mbps (10 Gbps).

## FACILITIES FOR INTERSTATE ACCESS

5. Special Access Service (Cont'd)5.6 Rate Regulations (Cont'd)5.6.20 Ethernet Virtual Private Line (Cont'd)(D) 7 Year Term Plans (Cont'd)(2) Service Element Term Plan

An Ethernet Virtual Private Line Service Element Term Plan is available for EVPL service and applies to UNI and NNI port connections, EVPL channel mileage, EVC connections and QoS. This plan provides the customer discounted rates for the rate elements listed below.

The customer orders the EVPL service element term plan under a term commitment period of 7 years. In order for a circuit to be eligible for service element term plan pricing, the customer must commit a UNI and/or NNI port connection to the service element term plan. All EVPL circuits ordered under the service element term plan will begin in month one.

The monthly rates for EVPL service under a service element term plan are set forth in 5.7.20 following.

Although the customer commits the UNI and NNI port connections to the service element term plan, the following rate elements will receive service element term plan rates:

UNI Port Connection  
 NNI Port Connection  
 External NNI Port Connection  
 EVPL Channel Mileage  
 EVC Connection  
 QoS  
 ICO NNI Trunking Arrangement  
 ICO NNI Additional Mileage

(N)

The EVPL Channel Mileage and QoS rate elements will not apply to secondary EVCs. The primary EVC and secondary EVC must terminate at the same location and the secondary EVC going to the customer designated premises shall be equal in bandwidth to that of the primary EVC. The customer will designate which EVC is to be utilized at any time as the primary EVC. Both EVCs cannot be used simultaneously as the primary EVC.
