CONSUMER TELECOMMUNICATIONS SERVICE

TITLE PAGE

This tariff applies to Consumer Telecommunications Service (CTS) furnished for interstate or foreign telecommunications in accordance with the Communications Act of 1934, as amended. CTS is furnished:

Between one or more stations in Alaska and one or more stations:

- In different states in the Mainland,
- In Hawaii, Puerto Rico, the U.S. Virgin Islands, or Canada,
- In the Commonwealth of the Northern Mariana Islands (CNMI), American Samoa or Guam,
- In a foreign country or area, or overseas domestic location,

CTS is furnished by means of wire, radio, satellite, fiber optics, or any suitable technology or combination of technologies.

CONSUMER TELECOMMUNICATIONS SERVICE

SECTION 1 - GENERAL TARIFF INFORMATION

1.1. General - The section contains general information relevant to this tariff.

1.1.1. How to Use This Tariff - The following information is provided to assist tariff users in understanding and maintaining copies of this tariff.

A. Tariff Structure - This tariff is structured in a manner which separates regulations from rates. The regulations applicable to the services offered in this tariff are placed in sections in the forward part of the tariff; while the rates for those offerings are placed in a single rate section in the rear of the tariff, Section 8. References are provided in the service sections of the tariff to assist the tariff user in the location of rates. Similarly, the rate section contains a list of services with applicable rate section numbers.

To locate the section for a particular service, refer to the Master Table of Contents, Page 2. If a more detailed listing of the material contained in that section is required, refer to the Table of Contents which starts on Page 3.

B. Tariff Format

1. Page Numbering - Page numbers appear in the upper-right corner of the page. Pages are numbered sequentially within each section. When a new page is added between existing pages with whole numbers, a decimal is added. For example, a new page in Section 1 added between pages 1-6 and 1-7 would be 1-6.1

2. Page Revision Numbers - Revision numbers also appear in the upper-right corner of the page. These numbers are used to determine the most current page version on file with the FCC. For example, the 4th revised page 3-4 cancels the 3rd revised page 3-4. Because of deferrals, notice periods, etc., the most current page revision number on file with the FCC is not always the tariff page in effect. Consult check sheets and supplements for the page currently in effect.

3. Section Numbering Sequence - There are nine levels of alpha-numeric coding used in this tariff. Each level is subservient to its next higher level. The following is an example of the numbering sequence used.

2.
2.1.
2.1.1.
2.1.1.A.
2.1.1.A.1.

Original Page 1-2
Effective: August 1, 2001

CONSUMER TELECOMMUNICATIONS SERVICE

SECTION 1 - GENERAL TARIFF INFORMATION

1.1.1. How to Use This Tariff (continued)

C. Check Sheets - When a tariff filing is made with the FCC, an updated check sheet accompanies the tariff filing.

The check sheet lists the pages contained in the tariff, with a cross reference to the current revision number on file with the FCC. When new pages are added, the check sheet is changed to reflect the revision. All revised pages in a given filing are designated by an asterisk (*) on the check sheet. A supplement put into effect is also reflected on the check sheet.

The tariff user should refer to the latest check sheet to determine if a particular page is the most current page on file with the FCC.

D. Supplements - A supplement can be used to list a group of tariff pages that are being deferred, suspended or advanced. A supplement contains a brief explanation of the circumstances and a list of the pages involved. It also informs the user of the disposition of these pages. The supplements in effect are listed on the check sheet of the tariff. When a supplement is no longer in effect, it is deleted from the subsequent check sheet. A supplement can also be used to cancel a complete tariff.

E. Abbreviations and Definitions - This section of the tariff contains a list of the abbreviations used (see Explanation of Abbreviations, Section 1.1.4., following).

1.1.3. EXPLANATION OF SYMBOLS - Coding Of Tariff Revisions

Revisions to this tariff are coded through the use of symbols. These symbols appear in the right margin of the page. The symbols and their meanings are:

- C - to signify changed rate or regulation.
- M - to signify matter relocated without change.
- D - to signify discontinued rate or regulation.

SECTION 2 - APPLICATION OF TARIFF

2.1. APPLICATION

2.1.1. General - This tariff contains the regulations and rates applicable to state-to-state and foreign (international) Consumer Telecommunications Service (CTS) as described on the Title Page.

2.1.2. Jurisdiction - Jurisdiction refers to the classification of a CTS call as interstate (subject to the jurisdiction of the Federal Communications Commission) or as intrastate (subject to the jurisdiction of a state regulatory body). Jurisdiction is a matter of law, not of Company discretion or policy, or Customer preference. The law describing what constitutes interstate jurisdiction is the Communications Act of 1934, as amended. The Title Page of this tariff describes the jurisdictional scope of this tariff.

CONSUMER TELECOMMUNICATIONS SERVICE

SECTION 3 - GENERAL REGULATIONS

3.1. UNDERTAKING OF THE COMPANY

3.1.1. General - Consumer Telecommunications Service (CTS) is furnished for the transmission of voice communications but may also be used for data, facsimile, signaling, metering, or other similar communications, subject to the transmission capabilities of the service and as specified in Section 3.2.2., following.

CTS is available twenty-four hours a day, seven days per week.

The Company does not transmit messages. However, CTS may be used for that purpose.

3.1.2. Transmission Medium - The Company selects and/or arranges for the channels and/or service components used to provide CTS. Any suitable technology or combination of technologies may be used. The Company may modify or change the channels and service components used to furnish CTS at any time subject to the regulations in 3.7.3.

3.1.3. Provision of Customer Equipment - Customer equipment may be used with CTS. The Company does not provide Customer equipment.

3.1.4. Through Transmission of Signals - The Company is responsible for the provision of CTS from station to station. It is not responsible for the quality of transmission or signaling on the Customer's side of the interface at a Customer's premises.

3.1.5. Availability of CTS -

A. Availability

1. Subject to compliance with C., following, where a shortage of service components exists at any time either for temporary or protracted periods, the establishment of two-point Consumer Telecommunications Service, provided under this tariff and two-point AT&T Commercial Long Distance Service, provided under AT&T Tariff F.C.C. No. 4, shall take precedence over all other services provided by the Company.

(C)

2. Service is furnished subject to the availability of the service components required. The Company will determine which of those components shall be used and make modifications to those components at its option. "Service components" shall include, but not be limited to, the existence of access and/or billing arrangements on an originating and/or terminating basis. In the absence of access arrangements between the Company and the access provider at a particular Station, a Customer may be unable to place calls from or to the affected Station.

B. Restoration of Service - The use and restoration of CTS will be in accordance with Part 64, Subpart D, of the Federal Communications Commission's Rules and Regulations.

CONSUMER TELECOMMUNICATIONS SERVICE

3.2. USE

3.2.1. General - CTS may be used for any lawful purpose consistent with the transmission and switching parameters of the telecommunications network. CTS is furnished for use by the Customer but may be used by others when so authorized by the Customer, provided that all such usage shall be subject to the provisions of the tariff.

3.2.2. Non-Voice Transmission - CTS may be used for non-voice transmission to points other than Mexico (except non-voice facsimile transmission may be used to Mexico). CTS may not be used for non-voice transmission to certain other international countries or areas.

3.2.3 Abuse and Fraudulent Use - Service is furnished subject to the condition that there will be no abuse or fraudulent use of the service. The Company may, immediately and without advance notice to the Customer, discontinue or suspend, or refuse to furnish any and/or all service(s) without incurring any liability if the Company deems that such action is necessary to prevent or to protect against abuse or fraud or to otherwise protect its personnel, agents, facilities, assets or services.

Except for willful misconduct, the discontinuance or suspension of service by the Company does not relieve the Customer of any obligation to pay the Company for charges due and owed for service furnished up to the time of discontinuance or suspension.

3.2.4. Abuse - The abuse of CTS is prohibited. The following activities constitute abuse:

- A. Using CTS to make calls which might reasonably be expected to frighten, abuse, torment, or harass another, or
- B. Using CTS in such a way that it interferes unreasonably with the use of the service by others.
- C. Artificially stimulating calling or other usage volumes: to numbers advertised or intended for accessing information programs and services, including but not limited to chat lines or Audiotex programs ("Audiotex"); or to routing codes or international area or city codes reserved or used by the subject telecommunications administration for Audiotex; or to special routing codes or international area or city codes for which the cost of terminating switched access is higher than that incurred for terminations to other areas or city codes within the same jurisdiction; or to Multiquest 900 Service, Toll Free Service, Premium Rate Service or Personal Number Service, or other similar services where the party(ies) causing the artificial stimulation derives revenues or other financial benefit from, or is compensated based upon said calling or other usage volumes in a capacity other than as a communications carrier, or, if acting as a communications carrier, earns a surcharge or similar increment (or an entity with a common financial interest with the party stimulating the traffic earns a surcharge or similar increment) merely by virtue of the termination of calls to the subject service. Such artificial stimulation may include, but is not limited to, use of electronic or other automatic means to generate such call volumes, or hiring of agents or contractors principally to make calls or otherwise generate usage to such numbers or types of services, but does not, without more, include advertising or promotion of Audiotex or similar programming to stimulate calling by third parties with no financial or other beneficial interest in the service or called program.

CONSUMER TELECOMMUNICATIONS SERVICE

3.2. USE - (cont'd)

3.2.5. Fraudulent Use - The fraudulent use of, or the intended or attempted fraudulent use of, CTS is prohibited. The following activities constitute fraudulent use:

A. Using CTS to transmit a message, locate a person, or otherwise give or obtain information, without payment for the service,

B. Using or attempting to use CTS with the intent to avoid the payment, either in whole or in part, of any of the Company's tariffed charges by:

1. Rearranging, tampering with, or making connections not authorized by this tariff to any service components used to furnish CTS, or

2. Using fraudulent means or devices, tricks, schemes, false or invalid numbers, false representation, false credit devices, or electronic devices.

C. 800 callers using CTS with the intent of gaining access to a CTS Customer's outbound calling capabilities on an unauthorized basis.

D. Using fraudulent means or devices, tricks, schemes, false or invalid numbers, false representation, false credit devices or electronic devices to defraud or mislead callers.

E. Refusing to provide, or providing false information to the Company regarding the Customer's identity, address, credit worthiness, current or past use of telecommunications services or its planned use of the Company's service.

F. Refusing to provide payment, or security for the payment for service(s), advance payments or deposits as specified in this tariff.

G. If a Customer (or any reseller or intermediary in the sales chain between the Customer and an end user) fails to comply with Section 3.2.6. (Use of AT&T Alaska and/or AT&T Marks), following, the Company may, on written notification to the Customer, immediately deny requests for additional service and/or restrict service to the non-complying Customer. If the non-compliance is not cured to AT&T Alaska's reasonable satisfaction within 30 days after the date of notification, the Company may discontinue the service upon five days prior written notice to the Customer (such cure may require, among other things, corrective communications with end users, in addition to cessation of the non-complying use of AT&T Alaska's and/or AT&T's Marks). The Company may pursue any other available remedies with respect to the conduct that constitutes the non-compliance. C C C

CONSUMER TELECOMMUNICATIONS SERVICE

3.2.6. Use of AT&T Alaska and/or AT&T Marks - When CTS is resold, neither the Customer nor any other reseller or intermediary in the sales chain between the Customer and an end user may make any use (including but not limited to use in advertising, promotional materials, Internet or other on-line website, stationery, business cards, billing material or signage) of AT&T Alaska's and/or AT&T's name, logo, trademarks and service marks (registered and unregistered), trade dress or other symbols that serve to identify and distinguish AT&T Alaska and/or AT&T from its competitors ("AT&T Alaska's and/or AT&T's Marks"), or of any confusingly similar name, logo, trademarks and service marks (registered and unregistered), trade dress or other symbols, except that a reseller may:

A. use AT&T Alaska's and/or AT&T's Marks in comparative advertising solely to identify AT&T Alaska and/or AT&T as a competitor, or to identify AT&T Alaska's and/or AT&T's competing services, provided such use is not made in a factually incorrect or misleading context or in a manner that is likely to cause confusion or mistake, or to deceive or to identify AT&T Alaska and/or AT&T as an underlying provider of the reseller's service;

B. use AT&T Alaska's and/or AT&T's Marks pursuant to the terms of a separate written brand licensing agreement;

C. use AT&T Alaska's and/or AT&T's name to the extent it is specifically required by statute, regulation or other government requirement to do so, and;

D. indicate, in response to an unsolicited inquiry from an end user (including a prospective end user), that it uses AT&T Alaska and/or AT&T as its underlying carrier, provided the reseller also:

1. advises the end user that a portion of its service will be provided using reseller's own switching or transmission facilities (if applicable);

2. identifies any other long distance providers the reseller uses in providing service to the end user;

3. advises the end user it will not be an AT&T Alaska Customer for the resold service, and;

4. does not emphasize AT&T Alaska's name more than either its own name or that of any other long distance provider the reseller uses.

For purposes of this provision, CTS is resold if the Customer (or any other reseller or intermediary in the sales chain between the Customer and an end user) uses CTS to reoffer telecommunications service to others (with or without "adding value") for profit.

3.3. RESPONSIBILITIES OF THE COMPANY

3.3.1. Liability

A. The Company's liability, if any, for its willful misconduct is not limited by this tariff. With respect to any other claim or suit, by a Customer or by any others, for damages associated with the installation, provision, termination, maintenance, repair or restoration of CTS, and subject to the provisions of B. through H. following, the Company's liability, if any, shall not exceed an amount equal to the initial period charge provided for under this tariff for the CTS call for the period during which the call was affected. This liability for damages shall be in addition to any amounts that may otherwise be due the Customer under this tariff as a credit allowance (see Credit Allowances for Interruptions, Section 3.6.).

B. The Company is not liable for damages associated with service, channels, or equipment which it does not furnish.

C. The Company is not liable for damages to a premises resulting from the furnishing of CTS, including the installation and removal of equipment and associated wiring, unless the damage is caused by the Company's negligence.

D. The Company shall be indemnified, defended, and held harmless by the Customer and User against all claims, losses, or damages arising from the use of CTS furnished pursuant to this tariff, involving:

1. Claims for libel, slander, invasion of privacy, or infringement of copyright arising from any communication;

2. Claims for patent infringement arising from combining or using CTS furnished by the Company in connection with facilities or equipment furnished by others; or

3. All other claims arising out of any act or omission of others relating to CTS provided pursuant to this tariff.

E. The Company does not guarantee or make any warranty with respect to CTS when used in an explosive atmosphere. The Company shall be indemnified, defended, and held harmless by the Customer and User against all claims, losses or damages by any person relating to CTS provided pursuant to this tariff when used in an explosive atmosphere.

CONSUMER TELECOMMUNICATIONS SERVICE

3.3.1. Liability (continued)

F. No license under patents (other than the limited license to use) is granted by the Company or shall be implied or arise by estoppel, with respect to any service offered under this tariff. The Company will defend the Customer and User against claims of patent infringement arising solely from the use by the Customer or User of CTS offered under this tariff and will indemnify such Customer or User for any damages awarded based solely on such claims.

G. The Company's failure to provide or maintain service under this tariff shall be excused by labor difficulties, governmental orders, civil commotions, acts of God, and other circumstances beyond the Company's reasonable control, subject to the Credit Allowances for Interruptions provisions of this tariff.

H. The applicable terms, rates and conditions specified in this tariff constitute the only agreement between the parties with respect to the service(s) to which the Customer has subscribed. Statements (whether written or oral) may have been made about the service(s) specified in this tariff. Such statements, however, do not constitute warranties, shall not be relied upon by the Customer and are not part of the parties' relationship. All prior agreements, proposals, representations or understandings concerning the service(s) are also deemed superseded upon the Customer's subscription. The applicable tariff sections constitute the complete and exclusive expression of the parties' relationship. These tariff provisions may only be modified by: (1) a subsequent tariff filing; or (2) a written agreement, signed by an authorized Company representative, which identifies both the tariff provision being modified or superseded, if applicable, and the specific nature of the change.

All implied warranties, including the implied warranty of merchantability, are disclaimed. The Company does not warrant that the service(s) are fit for any particular purpose of the Customer. The Company makes no warranties with respect to the service(s) other than that the service(s) will conform to the description contained in this tariff.

CONSUMER TELECOMMUNICATIONS SERVICE

3.4. RESPONSIBILITIES OF THE CUSTOMER

3.4.1. General - The Customer's general responsibilities are described in this section. When Customer equipment or a Customer-provided communications system is connected to CTS, the Customer assumes additional responsibilities that are described in the Connections section of this tariff (see Connections, Section 3.7.).

A. Placement of Orders, Payment of Bills and Compliance with Regulations - The Customer is responsible for placing any necessary orders and complying with tariff regulations for CTS and for assuring that its Users comply with tariff regulations. The Customer is also responsible for the payment of bills for CTS. This includes payment for CTS calls or services:

- Originated at the Customer's number(s),
- Accepted at the Customer's number(s) (e.g., Collect Calls),
- Billed to the Customer's number via Third Number Billing, if the Customer is found to be responsible for such call or service, or the use of a Company-assigned Special Billing Number, and
- Incurred at the specific request of the Customer.

The Customer may appoint an agent to act on its behalf, as specified in B. following.

1. Information the Customer Must Provide - When a Customer places an order for CTS, the following information must be provided:

- The Customer contact name, telephone number, and address at each premises where installation will be made, and
- The Customer's billing name and address.

2. Automatic Number Identification/Charge Number Service - Customers who obtain a caller's Billing Number through Automatic Number Identification or Charge Number Service must comply with the following regulations adopted by the Federal Communications Commission:

- Customers are permitted to use the caller's telephone number and billing information for billing and collection, routing, screening and completion of the originating call or transaction, or for services directly related to the originating call or transaction;

- Customers are prohibited from reusing or selling the telephone number or billing information without 1) first notifying the originating caller and 2) obtaining the affirmative consent of such caller for such reuse or sale; and

- Customers are prohibited from disclosing, except as permitted by 1) and 2), above, any information derived from the Billing Number Service for any purpose other than: 1) performing the services or transactions that are the subject of the originating caller's call, 2) ensuring network performance security and the effectiveness of call delivery, 3) compiling, using and disclosing aggregate information, and 4) complying with applicable law or legal process.

CONSUMER TELECOMMUNICATIONS SERVICE

3.4. Responsibilities of the Customer (continued)

B. Agency Agreement - The Company will accept orders from an agent appointed by the Customer. An agency appointment must be sent to the Company in writing. If directed by the Customer, the bill for CTS will be sent to the agent. The bill will be issued in the name of the Customer, in care of the agent.

The Customer retains responsibility for compliance with tariff regulations and any act or omission of the agent, regardless of any limitations the Customer may place on the agent's authority.

C. Establishing Identity

1. The calling party is responsible for establishing its identity as often as necessary during the course of a call.

2. The calling party assumes full responsibility for identifying the station, party, or person with whom connection is made at the called number or numbers.

D. Floor Space, Conduit and Electrical Power at a Customer's Premises - The Customer must provide any equipment space, supporting structure, conduit and electrical power required to terminate CTS at a premises without charge to the Company. The space, structure, conduit and power must be made available in sufficient time to permit the installation of CTS to be completed prior to its due date. Selection of ac or dc power will be a matter of mutual agreement between the Customer and the Company.

E. Access to Customer's Premises - The Customer is responsible for arranging premises access at any reasonable time so that Company personnel may install, repair, maintain, inspect or remove CTS components. Premises access must be made available at a time mutually agreeable to the Customer and Company.

F. Locations Involving High Voltage Power - When a Customer orders CTS installed at a location where high voltage power is present, the Customer shall:

1. Install, maintain and pay for any special facilities and protective apparatus required by federal, state or local regulations.

2. Pay for protective apparatus recommended for the location by the Company.

G. Availability for Maintenance, Testing or Modifications - The Customer must make CTS available for maintenance, testing, or implementation of changes it has ordered, at any reasonable, mutually agreeable time. Occasionally an impairment may only be evident at certain times (e.g., a certain hour of the day). In such cases, CTS must be made available for testing during the same time periods if the trouble condition is to be corrected.

CONSUMER TELECOMMUNICATIONS SERVICE

3.4. Responsibilities of the Customer (continued)

H. Damage to CTS - The Customer must pay the Company for replacement or repair of any CTS component(s) when damage results from:

- The negligence or willful act of the Customer or others,
- Improper use of CTS, or
- Any use of equipment or systems provided by the Customer or others.

After receipt of payment for the damages, the Company will cooperate with the Customer in its claim against any third party causing the damage.

I. Loss - The Customer must pay for the loss through theft of any Company-provided equipment installed at a Customer's premises.

CONSUMER TELECOMMUNICATIONS SERVICE

3.5 PAYMENTS AND CHARGES

3.5.1 General - The charges for a CTS call are applied on a per call basis. Applicable charges are contained in Section 8. of this tariff.

3.5.2 Application of Charges - The rates and charges that are in effect in this tariff when CTS is furnished are the rates and charges used to determine the Customer's bill.

3.5.3 Payment of Charges - Payment for CTS is due upon presentation of the bill. Alascom may bill Customers on other than a monthly basis (e.g., every other month, every third month) unless a Customer requests monthly billing. In no case, will Alascom issue bills less frequently than once every three months. CTS may be denied for nonpayment of a bill (see Violation of Regulations, Section 3.9.3).

3.5.4 Late Payment Charge - When the Company provides the billing function for CTS, a late payment charge of .875% will be assessed by service on the portion of the total amount for long distance service charges that are not received by the payment due date. The first occurrence will be waived. If a rate has been established by the appropriate legal authority in the state where CTS is provided to the Customer, then such rate will apply. When a local exchange company provides the billing function on behalf of the Company, the local exchange company's local exchange service late payment charge applies.

(C)
|
(C)

3.5.5 Deposits - The following deposit provisions are applicable to CTS:

A. When the Company provides the billing function for CTS, the Company may require a deposit to guarantee payment of bills for services rendered if the Company establishes that the Customer or applicant (1) has an unsatisfactory credit rating, or (2) has an insufficient credit history upon which a credit rating may be based, or (3) has illegally or without appropriate authorization used or interfered with the service of the Company within the last five (5) years, or (4) is determined by the Company to be high risk due to past, or current, delinquencies.

The fact that a deposit has been made in no way relieves the Customer or applicant from complying with the Companies regulations as to the payment of bills. Service may be denied or discontinued for failure to furnish a deposit.

1. Deposit Amount - The deposit for CTS will not exceed an amount equal to the estimated nonrecurring charges and three times the estimated average monthly usage charges and/or the monthly recurring charges.

2. Interest on a Cash Deposit - Interest will be paid to a Customer for the period that a cash deposit is held by the Company. The interest rate used will be simple interest at the rate of four percent annually unless a different rate has been established by the appropriate legal authority in the state where the CTS offering is located.

CONSUMER TELECOMMUNICATIONS SERVICE

3.5.5.A. Deposits (continued)

3. Return of a Deposit - Deposits received from Customers who have made nondelinquent payments of undisputed bills for service over a period of twelve (12) consecutive billing months shall be returned to the Customer. At such time as service is terminated, the amount of the deposit is credited to the Customer's account and any credit balance, which may remain, is refunded.

B. When a local exchange company provides the billing function on behalf of the Company, the local exchange company's local exchange service deposit regulation will apply.

Interest on the cash deposit and return of the deposit will also be as specified in the local exchange company's local exchange service deposit regulation.

3.5.6. Notice of Discontinuance - Alascom requires notice when CTS is to be discontinued. Discontinuance will be effective as of the date Alascom is notified that the Customer is no longer subscribed to Alascom.

3.5.7. Types of Charges - The following usage charges and applicable per call service charges are associated with CTS.

A. Usage Charges - Usage charges are stated as a function of, and vary with, use (e.g., per unit of time, time-of-day, day of week, calling distance). Usage charges are billed in arrears.

B. Service Charges - Service charges apply on a per call basis when specified by the CTS offering in this tariff. Service charges are billed in arrears.

C. Connection Charges - Connection charges apply on a per call basis when specified by the CTS offering in this tariff. Connection charges are billed in arrears.

3.5.8 Monetary Units

A. For CTS from foreign countries or areas, including ships or aircraft, to stations in the United States, when the charges to Customers are made by a company or administration not subject to the Communications Act of 1934, as amended, the following conditions apply:

1. For service from foreign countries or areas, the charges are quoted in the currency of the country or area involved.

2. For service from ships of United States registry, the charges from this tariff are quoted in United States dollars.

3. For service from ships of foreign registry, the charges from this tariff are quoted in United States dollars or are converted to the currency of the country of ship registry at the current rate of exchange with respect to United States dollars.

B. When this Company bills the charges for CTS from foreign countries or areas including ships or aircraft, to stations in the United States, the charges from this tariff, plus charges of foreign administrations and Ship Station Charges, if any, in United States dollars, apply to all calls.

CONSUMER TELECOMMUNICATIONS SERVICE

3.5. PAYMENTS AND CHARGES (continued)

3.5.9. Optional Billing Arrangements - When a CTS call is not billed to the calling station, the Company offers certain billing options depending on the type of call. These options are:

A. Collect Calls - This option allows a call to be billed to the called station, if the charges are accepted by the called party, station, or number. Collect calls covered by this tariff are limited to CTS Collect calls received from international countries/areas that are billed to the Customer's residential telephone account as specified in Section 6, following.*

B. Third Number Billing* - This option allows a call to be billed to a telephone number identified with a station other than the calling or called one. Charges to be billed to a third number are subject to verification by the Company that they will be accepted at the third number, prior to completion of the call. Other efforts may be undertaken subsequently by the Company, as necessary, to determine responsibility for payment of such calls.

*Information regarding rates and regulations for state-to-state and international Third Number Billed calls and Collect calls not covered by this tariff are contained in AT&T Consumer Services Agreement. Such information along with the Alascom Service Guides can be viewed at <http://www.att.com/serviceguide/home>.

CONSUMER TELECOMMUNICATIONS SERVICE

3.5. PAYMENTS AND CHARGES (continued)

3.5.11. Other Miscellaneous Rates And Charges - The following rates and charges apply to recover amounts Alascom is required by governmental authorities to, either directly or indirectly, collect from or pay to others in support of statutory or regulatory programs, plus associated administrative costs.

A. Universal Connectivity Charge - a Universal Connectivity Charge applies monthly per billed telephone number account. The AT&T Alaska Universal Connectivity Charge is a monthly percentage charge to Customers designed to recover amounts AT&T Alaska will be expected to pay into a federal program called the Universal Service Fund (USF). The USF percentage is set each quarter by the Federal Communications Commission (FCC).

C
C

The USF helps provide affordable telecommunications services for low-income customers and customers in rural areas. It also provides discounts on Internet access for eligible schools, libraries and rural health care providers. The Universal Connectivity Charge applied to customer bills is the percentage prescribed by the Federal Communications Commission (FCC) for the USF (also known as the "Contribution Factor").

C

AT&T Alaska may, at its option, mark up the charge of a particular call to account for the Universal Connectivity Charge in lieu of having the Universal Connectivity Charge assessed as a separate line item on the bill.

C

AT&T Alaska may, at its option, include the applicable Universal Connectivity Charge associated with a particular charge on the same line item as that charge rather than being included in the Universal Connectivity Charge total shown on a separate line item.

CONSUMER TELECOMMUNICATIONS SERVICE

3.5. PAYMENTS AND CHARGES (continued)

3.5.12. Credit Limits - Where the Company provides the billing function for CTS, the Company may establish credit limits for new and existing Customers based on credit scores assigned by commercial credit reporting agencies or based on the Customer's payment history. Where a credit limit is established for a Customer, the Customer will be notified of his/her initial credit limit amount and any subsequent credit limit changes. Customers will be notified at least 5 days in advance of any credit limits that are placed in effect. In the event that the established credit limit is exceeded on the Customer's billing account, access to Alascom's Telecommunications Toll Services including 1+, 0+ and all 900/976 calls will be restricted where facilities are available. Access to local calling, operator assisted calls, emergency services (9-1-1), 800, 866, 877, 888 will not be affected by this restriction. Customers attempting to access restricted services will be automatically routed to either a recorded announcement or a service representative for information regarding service restoral.

In the event the Customer has become delinquent in his/her payments, Alascom may place a restriction on continued use of Alascom Telecommunications Toll Services including 1+, 0+ and all 900/976 calls until the Customer is able to make arrangements satisfactory to the Company. A new credit limit may be set which is lower than the Customer's initial credit limit due to his/her delinquent status. Access to local calling, operator assisted calls, emergency services (9-1-1), 800, 866, 877, 888 will not be affected by this restriction. In the event that access is restricted due to payment delinquencies, Customers attempting to access restricted services will be automatically routed to either a recorded announcement or a service representative for information regarding service restoral.

3.5.13. Casual Usage - Alascom may limit a residential consumer's toll usage in order to protect the Company from potential non-payment by non-subscribers utilizing AT&T Alascom's network. In the event access is restricted, Customers attempting to access AT&T Alascom's network will be automatically routed to either a recorded announcement or a service representative for information regarding service restoral.

3.5.14. Return Check Charge - An administrative charge of \$25.00 is applied to the Customer's bill for each occasion that a check, bank draft or electronic funds transfer is returned for the reason of insufficient funds or no account. If a rate has been established by the appropriate legal authority in the state where CTS is provided to the Customer, then such rate applies. When a local exchange company provides the billing function on behalf of the Company, the local exchange company's local exchange service return check charge applies.

CONSUMER TELECOMMUNICATIONS SERVICE

3.5. PAYMENTS AND CHARGES (continued)

3.5.15. Credit Establishment - The Company may conduct a credit investigation of each residential service Customer or applicant prior to accepting the service order, customer deposit or advance payment.

3.5.16. Right to Refuse Service - The Company may refuse service to a Customer or applicant whose service has been discontinued for non-payment of charges. The Customer or applicant will be required to pay all bills due the Company for services furnished or make other arrangements satisfactory to the Company to re-establish credit before service is restored or any service started.

If service is established and it is subsequently determined that the Customer or applicant is indebted to the Company for service previously furnished, the Company may suspend or terminate such service until satisfactory arrangements have been made for the payment of the prior indebtedness.

3.5.17. Advance Payment - The Company may require a Customer or applicant who cannot establish credit satisfactory to the Company to make an advance payment as a condition of continued or new service. The Company reserves the right to require from an applicant for new or continued service, advance payments of estimated usage charges, as well as other charges as may be deemed necessary by the Company for safeguarding its interests.

3.5.18. Collection Fees - In the event the Company incurs fees or expenses, including attorney's fees, in collecting or attempting to collect any charges owed to the Company, the Customer will be liable to the Company for the payment of all such fees and expenses reasonably incurred.

3.5.19. Restoral of Disconnected Service - If service has been suspended or discontinued for nonpayment, service will be reestablished upon receipt of all charges due, which includes charges for services and facilities during the period of suspension and which may include a service restoral fee. If the Customer has a history of payments returned for insufficient funds, the Company may require payment by cash, money order or certified check. If such payment is made by personal check, restoral of service will be effected upon bank clearance of the check.

CONSUMER TELECOMMUNICATIONS SERVICE

3.6. CREDIT ALLOWANCES FOR INTERRUPTIONS

3.6.1. General - A credit allowance is applicable to that portion of a call which is interrupted due to poor transmission (e.g., noisy circuit condition), one-way transmission (one party is unable to hear the other), or involuntary disconnection (cut-off) of the call caused by components of CTS. A Customer may also be granted credit for reaching a wrong number. To receive the proper credit, the Customer must notify the Company operator or Company office and furnish the called number, the trouble experienced (e.g., cut-off, noisy circuit, reached wrong number, etc.), the class of call, and the approximate time the call was placed. At the Customer's option, when the Company operator is notified, the operator will attempt to re-establish the call. CTS charges will apply to the re-established call.

All Customer requests for Credit Allowances are subject to limits and verification by Alascom.

A. Interruptions to Established Calls - When a call to be billed under this tariff is interrupted due to cut-off, one-way transmission, or poor transmission conditions the Customer will receive credit equivalent to the period in which the call was interrupted, i.e., the initial or additional period.

B. Wrong Numbers - When a wrong number is reached, a credit equivalent to the initial period of the call will be granted if the Customer reports the situation promptly to the Company operator or a Company office.

C. When Credit Allowances Do Not Apply - Credit allowances for a CTS call do not apply for:

- Interruptions not reported to the Company,
- Interruptions that are due to the failure of power, equipment or systems not provided by the Company, or
- Interruptions caused by the failure of other services provided by this Company which are connected to CTS.

3.6.2. Use of Another Means of Communication - If the Customer elects to use another means of communication during the period of interruption, the Customer must pay the charges for the alternative service used.

CONSUMER TELECOMMUNICATIONS SERVICE

3.7. CONNECTIONS

3.7.1. General - When Customer Equipment is connected to CTS it must comply with Part 68 of the FCC's Rules and Regulations, 47 C.F.R. Part 68 (commonly known as the FCC's Registration Program). When any equipment or system which is not subject to Part 68 of the FCC's Rules and Regulations is connected, the Minimum Protection Criteria specified in this tariff must be met.

CTS offerings are not represented as adapted for connection to other services or Customer-provided communications systems.

The Company is responsible for the quality of transmission from station to station.

3.7.2. Responsibilities of the Customer - When Customer equipment or a Customer-provided communications system is connected to CTS, the Customer assumes responsibility for the connection as follows:

A. Compatibility with CTS - The Customer is responsible for the compatibility of its equipment or system with CTS. This responsibility applies at the initial installation and on a continuing basis as long as the connection is made.

B. Interface Information - The Customer must specify the type of interface which is required to enable the equipment or system to function with CTS.

C. Interference and Hazard - The operating characteristics of the Customer equipment or Customer-provided communications system connected to CTS must not interfere with, or impair, any of the services offered by this Company. In addition, they must not endanger the safety of Company employees or the public, damage or interfere with the proper functioning of Company equipment, or otherwise injure the public in its use of CTS.

D. Changes to CTS - The Company is not obligated to alter or modify CTS because of additions or changes to Customer equipment or a Customer-provided communications system.

E. Testing and Maintenance - If a trouble condition occurs on an assembly, the Customer must determine whether the fault is in (1) the connected Customer equipment or Customer-provided communications system, or (2) CTS. The Company will test and maintain only CTS.

The testing of CTS will usually be made from a central office. The Company will not dispatch a repair person to a Customer's or User's premises if a trouble condition (or suspected trouble condition) exists on the local exchange service. The Customer is responsible for requesting such dispatch from the provider of the local exchange service. The Customer is also responsible for the payment of such provider's charges, if any, for the dispatch.

CONSUMER TELECOMMUNICATIONS SERVICE

3.7. Connections (continued)

3.7.3. Responsibilities of the Company

A. General - The Company will furnish and maintain its service components in a manner suitable for CTS. The Company will make available information as required by Part 68 of the FCC's Rules and Regulations (e.g., the number of ringers that may be connected to a particular line). In addition, the Company will be responsible for the compatibility of its equipment or services with CTS when such equipment or services are connected to CTS at a central office.

B. Changes in Components, Operations, or Procedures - The Company is not responsible to any party if a change in its CTS components, operations, or procedures, which is consistent with the Registration Program, (1) affects any facilities, Customer equipment or Customer-provided communications systems provided by others in any way, or (2) requires their modification in order to be used with CTS. However, if such changes can be reasonably expected to materially affect the operating or transmission characteristics of the CTS or render any Customer equipment or Customer-provided communications system incompatible with CTS, the Company will provide adequate notice, in writing, to allow the Customer an opportunity to maintain uninterrupted service.

3.7.4. Connection to a Customer-provided Communications System or to Service(s) Provided by Others - Any system or service connected to a CTS offering must be operated and maintained so it will work satisfactorily with CTS. Connections to CTS will be made in accordance with the following:

A. Answer Supervision - Answer supervision must be provided when a CTS offering is connected to switching equipment or a Customer-provided communications system which is not subject to Part 68 of the FCC Rules and Regulations, 47 C.F.R. Part 68. In such cases, the equipment or system must provide answer supervision so that the measure of chargeable time begins upon the delivery of the CTS call to the switching equipment or to the equipment connected to the communications system and ends upon termination of the call by the calling party.

B. Minimum Protection Criteria - The connection at the station used for CTS must be made so that it continually complies with the specified Minimum Protection Criteria (see Minimum Protection Criteria, Section 3.7.5.).

C. Customer-provided Communications System Failures - When a Customer-provided communications system fails and the connection to CTS is not through switching equipment, the Customer-provided communications system must be arranged to promptly return the CTS to an idle (on-hook) state. In addition, the Customer must notify the Company when the Customer-provided communications system fails.

D. Use of Satellite Facilities - If a Customer-provided communications system uses satellite facilities (directly or indirectly), and is connected to CTS, there may be two or more satellite links involved in the combined connection. In such cases, the Company will not be responsible for any deterioration in transmission. It will continue to furnish CTS using the service components that it considers to be appropriate. Credit allowance will not be granted unless the CTS offering is interrupted.

CONSUMER TELECOMMUNICATIONS SERVICE

3.7.5. Minimum Protection Criteria

A. General - Minimum Protection Criteria have been specified so that Company personnel, equipment, and services will be protected from the harmful effects of signal power overload, hazardous voltages and longitudinal imbalance. Minimum Protection Criteria apply to the direct electrical, acoustic, or inductive connections of Customer Equipment, test equipment and Customer-provided communications systems to CTS.

B. All Connections - Customer Equipment, test equipment and Customer-provided communications systems which are connected to CTS on a direct electrical basis or an acoustic or inductive basis, must comply with the following:

1. To protect other Company services, it is necessary that the signal which is applied at the station meets the following limits:

(a) Metallic Voltage

I. 4 kHz to 270 kHz

<u>Center Frequency (f) Of 8 kHz Band</u>	<u>Maximum Voltage in All 8 kHz Bands</u>	<u>Metallic Terminating Impedance</u>
8 kHz to 12 kHz	- (6.4+12.6 log f) dBV*	300 ohms
12 kHz to 90 kHz	(23 - 40 log f) dBV	35 ohms
90 kHz to 266 kHz	- 55 dBV	135 ohms

*dBV = 20 log₁₀ voltage in volts

II. The root-mean-square (RMS) value of the metallic voltage components in the frequency range of 270 kHz to 6 MHz shall, averaged over 2 microseconds, not exceed -15 dBV. This limitation applies with a metallic termination having an impedance of 135 ohms.

CONSUMER TELECOMMUNICATIONS SERVICE

3.7.5.B. All Connections (continued)

(b) Longitudinal Voltage

I. 4 kHz to 270 kHz

<u>Center Frequency (f)</u> <u>Of 8 kHz Band</u>	<u>Maximum Voltage in</u> <u>All 8 kHz Bands</u>	<u>Longitudinal</u> <u>Terminating</u> <u>Impedance</u>
8 kHz to 12 kHz	-(18.4+20 log f) dBV	500 ohms
12 kHz to 42 kHz (23	(3 - 40 log f) dBV	90 ohms
42 kHz to 266 kHz	- 62 dBV	90 ohms

*dBV = 20 log₁₀ voltage in volts

II. The root-mean-square (RMS) value of the longitudinal voltage components in the frequency range of 270 kHz to 6 MHz shall, averaged over 2 microseconds, not exceed -30 dBV. This limitation applies with a longitudinal termination having an impedance of 90 ohms.

2. To prevent the interruption or disconnection of a CTS call, it is necessary that the signal power applied at the station be limited. Specifically, the signal at the station shall at no time have energy concentrated solely in the 2450 to 2750 Hz band. If there is signal power at the station in the 2450 to 2750 Hz band, it must not exceed the power present at the same time in the 800 to 2450 Hz band.

C. Direct Electrical Connections - In addition to the regulations in B. preceding, Customer Equipment, test equipment and Customer-provided communications systems which are connected to CTS on a direct electrical basis must comply with the following:

To prevent excessive noise and crosstalk, it is necessary that the power of the signal presented at the serving office not exceed 12dB below one milliwatt when measured over any three second interval. To insure that this limit is not exceeded, the power of the signal which may be applied by the Customer Equipment, test equipment or Customer-provided communications system to the station will be specified for each Customer location. In no case shall the power exceed one milliwatt.

CONSUMER TELECOMMUNICATIONS SERVICE

3.7.5. Minimum Protection Criteria (continued)

D. Acoustic or Inductive Connections - In addition to the regulations in B., preceding, Customer equipment and Customer-provided communications systems, which are connected to CTS on an acoustic or inductive basis, must comply with the following:

To prevent excessive noise and crosstalk, it is necessary that the power of the signal which is applied by the equipment to the station located on the Customer's or User's be limited so that the signal power does not exceed 9dB below one milliwatt when averaged over any three-second interval. However, to permit each Customer, independent of distance from the serving office, to supply signal power which at the serving office approximates 12dB below one milliwatt when averaged over any three-second interval, the Company, at the Customer's request, will specify, for each Customer location, the signal power at the station, which shall in no case exceed one milliwatt.

3.7.6. Recording of Two-way Telephone Conversations - CTS is not represented as adapted to the recording of two-way telephone conversations. However, voice-recording equipment which is directly, acoustically or inductively connected with CTS may be used for the recording of such conversations subject to the following regulations which have been adopted by the FCC:

A. Recording Requirements - The voice recording equipment must be arranged so that it can be connected or disconnected (or switched on or off) at the will of the Customer. In addition, one of the following conditions must apply:

- All parties to the telephone conversation must give their prior consent to the recording of the conversation, and the prior consent must be obtained in writing or be part of, and obtained at the start of, the recording, or

- All parties to the telephone conversation must be verbally notified at the beginning of the conversation and the notification must be recorded as part of the call, by the recording party, or

- A distinctive recorder tone, repeated at intervals of approximately fifteen seconds, is required to alert all parties when the recording equipment is in use. The distinctive recording tone can be provided as part of (1) the recording equipment, or (2) registered or grandfathered protective circuitry.

A broadcast licensee shall be exempt from the above recording requirements provided at least one of the following requirements is met:

- the licensee informs each party to the call of its intent to broadcast the conversation; or

- each party to the call is aware of the licensee's intent to broadcast the call; or

- such awareness of the licensee's intent to broadcast the call may be reasonably imputed to the party.

CONSUMER TELECOMMUNICATIONS SERVICE

3.7.6.B. Exceptions - The FCC has established the following exceptions to the foregoing requirements:

1. Recordings made of incoming calls to telephone numbers publicized for emergencies involving health or safety of life and property (e.g., emergency situations involving fire, health care, police, public utilities and emergency road service) and outgoing calls made in immediate response to such calls. Included in this exception are:

(a) Recordings made at the United States Department of Defense Command Centers of emergency communications transmitted over the Department of Defense's private line system when connected to CTS.

(b) Recordings made by the United States Nuclear Regulatory Commission of the Department of Energy with respect to the telephone systems located at its Operations Center.

2. Recordings of calls made for patently unlawful purposes, such as bomb threats, kidnap ransom requests and obscene telephone calls. Outgoing calls made in immediate response to such calls are also excepted. Included in this exception are:

(a) Recordings made by the United States Secret Service of the Department of the Treasury for recording of two-way telephone conversations which concern the safety and security of the person of the President of the United States, members of his immediate family, or the White House and its grounds.

3. Recordings of calls made by Federal, State or local law enforcement authorities, or federal intelligence authorities, acting under color of law.

3.7.7. Connections to Other Services Provided by the Company - A CTS offering may be connected at a Customer's premises to other services provided by this Company, if they are electrically compatible. Connections at an Alascom Central Office may be made to Alascom Private Line Service. All connections are subject to the regulations in this tariff and the regulations under which the other service is furnished.

CONSUMER TELECOMMUNICATIONS SERVICE

3.8. RATE DETERMINATION - The rate for a CTS call which is charged on a per call basis is determined by factors such as:

- The distance between the rate centers of the originating (calling) station and the terminating (called) station; the distance between the V&H coordinates of an Alascom Central Office; and the rate center of a station or the V&H coordinates of an Alascom Central Office,
- The time of day and the day of week,
- The duration of the call,
- The class of service applicable to the call,
- Other Line charges (when applicable) and,
- The type of egress or terminating service, including, for example, but not by way of limitation, whether international terminations are done via switched or special access, or to a mobile or like service (or to a routing code established for mobile or like services terminations or access) in the non-US country or area.

The specific factors which apply to a given CTS call and their application are listed in the section applicable to that type of call. The regulations pertaining to those factors are as follows:

3.8.1. Distance Measurements - When the distance between the calling and the called stations is a factor in CTS rate determination, the distances are calculated according to the following:

A. The distance between stations in Alaska and the Mainland, Alaska and Hawaii, and Alaska and Canada is measured on the basis of airline mileage between the rate centers of the stations involved.

ALASCOM, INC.

TARIFF F.C.C. No. 16
Original Page 3-25
Effective: August 1, 2001

CONSUMER TELECOMMUNICATIONS SERVICE

3.8.1. Distance Measurements (continued)

B. The distance between stations in Alaska and station in foreign countries or area, except for Canada, is measured on the basis of the world geographical region to which the country or area is assigned.

3.8.2. Time of Day and Day of Week - The rate charged for a CTS call may be determined in part by the day of the week and the time of day at the originating (calling) station. Different rates may be applicable to a call at different times of the day and on certain days of the week as specified in the appropriate rate section for that call.

3.8.3. Class of Service - For the purposes of rate application, the following classes of service may apply to a CTS call. The classes of service are Dial Station and Collect. The Dial Station class of service includes state-to-state Dial Station and international Dial Station calls. Collect calls covered by this tariff are limited to Collect calls received from international countries/areas that are billed to the Customer's residential telephone account.

Each class of service and its specific regulations follow.

CONSUMER TELECOMMUNICATIONS SERVICE

3.8.3. Class of Service - (continued)

A. Dial Station - Dial Station rates apply to 1) calls billed to the Customer's residential telephone account for which the initial subscription to Alascom is made through a local service provider other than Alascom, as specified in Section 4, following, 2) calls billed to the Customer's residential telephone account under the "Casual Calling Service" specified in Section 5, following and 3) calls billed to the Customer's residential telephone account under the Alascom Satellite Service specified in Section 5.1.B, following. Dial Station rates apply when:

(C)

1. The person originating the call dials the telephone number desired and completes the call without the assistance of a Company Operator or the Company's automated operator system, and the call is billed to the calling station. Callers using Alascom Casual Calling Service must first dial the appropriate Alascom carrier access code as specified in Section 5, following.

2. The calling party cannot complete a domestic or international call due to trouble on the telecommunications network, and chooses to re-dial the call.

3. A calling party re-establishes a domestic or international Dial Station call that has been involuntarily interrupted after the station has been reached. Customers may take credit for the interrupted call as specified under Section 3.6., preceding.

4. A call is forwarded by Call-Forwarding Equipment.

5. A Company Operator places a call for a calling party who identifies himself/herself as being handicapped and unable to dial the call because of his/her handicap,

6. A Company Communications Assistant completes a call between persons with hearing and/or speech disabilities who use a Text Telephone (TT) or its equivalent and hearing persons who use an ordinary telephone (the completed call is rated and billed as a call from the calling station to the called station),

7. A Company Operator places a domestic or international call because Automatic Number Identification (0+) is not available for dial completion.

B. Collect - The "Collect" classification of service applies to calls received from international countries/areas that are billed to the Customer's residential telephone account, as specified in Section 6, following. Rates for a Collect call apply when the party at the called number agrees to accept charges for a collect call received from an international country/area.

Effective: August 1, 2001

CONSUMER TELECOMMUNICATIONS SERVICE

3.8.4. Determining the Chargeable Time of a Call - The chargeable time for a CTS call is determined by the duration of the call. Chargeable time includes the initial period plus the additional time involved, if any, and is determined as follows:

A. On all calls chargeable time begins when connection is established between the calling station and the called station.

B. Chargeable time ends when the calling station "hangs up." If the called station "hangs up" but the calling station does not, chargeable time ends when the connection is released either by automatic timing equipment in the telecommunications network or by the Company operator.

C. When CTS is directly connected to a Customer-provided communications system at a Customer's or User's premises, chargeable time for all classes of service begins when a CTS call terminates in, or passes through, the first Customer Equipment on that Customer-provided communications system. It is the Customer's responsibility to furnish appropriate answer supervision to the point of interface with the CTS so that chargeable time may begin.

3.8.5. Determining the Applicable Rate in Effect

A. For calls between the Alaska and other countries or areas, the rate in effect at the calling station at the time the connection is established applies to the entire call.

B. For all other calls, when a call is established in one rate period and ends in another rate period, the rate in effect at the calling station for each rate period applies to the portion of the call occurring within that rate period. When a unit of time is split between two rate periods, the rate applicable to that unit of time is based on the rate period in which it began.

C. Chargeable time for a rate period (e.g., 8 AM - 5 PM) begins with the first stated hour (e.g., 8 AM) and continues to, but does not include, the second stated hour (e.g., 5 PM).

CONSUMER TELECOMMUNICATIONS SERVICE

3.8.6. Call Forwarding - Call Forwarding is an Exchange Service feature offered by certain Local Exchange Companies or other providers of the call forwarding feature. This feature enables Customers to arrange for incoming calls to be automatically forwarded to a different telephone number designated by the Customer. The charges for a forwarded call are as follows:

1. A charge for the portion of the call from the calling station to the called station (call forwarding number), if applicable,
2. A charge for the portion of the call from the call forwarding number to the terminating number designated by the Customer,

For a Collect Call received from an international country or area that is placed to a call forwarding number, the Collect Call charges apply to the portion of the call described in 1., preceding, if the call is answered at the terminating number. If the portion of the call described in 2., preceding, is a state-to-state call, it will be billed at the Dial Station rate from this tariff.

For a Collect Call which is not accepted by a party at the terminating number, for the portion of the call described in 2., preceding, the Dial Station rate in effect in this tariff will be charged to the call forwarding number location.

3.8.7. International Terminations - Alascom reserves the right to block calls to routing codes or numbers identified as a termination type carrying a surcharge or other differential rate for termination where Alascom reasonably believes or discovers that the called station or termination point is not in fact of the termination type to as to which the surcharge or other differential rate has been agreed with the terminating carrier.

CONSUMER TELECOMMUNICATIONS SERVICE

3.9. VIOLATION OF REGULATIONS

3.9.1. General - The Company may take immediate action to protect its services or interests when certain regulations contained in this tariff are violated. The specific regulations involved and the action(s) which will be taken by this Company are as specified in 3.9.2., 3.9.3., 3.9.4. and 3.9.5., following.

3.9.2. Interference, Impairment or Improper Use - The Company may temporarily restrict service immediately when a Customer violation results in any of the following:

- subjects Company or non-Company personnel to hazardous conditions as specified in Section 3.7.2.C. (Interference and Hazard), preceding,
- circumvents the Company's ability to charge for its services as specified in Section 3.2.5. (Fraudulent Use), preceding, or
- results in an immediate harm to the CTS network or other Company services as specified in Section 3.7.5. (Minimum Protection Criteria).

In such cases, the Company will make a reasonable effort to give the Customer prior notice before restricting service.

If a Customer fails to comply with Section 3.2. (Use), 3.7.2.C. (Interference and Hazard), 3.7.4.A. (Answer Supervision), 3.7.4.C. (Customer-provided Communications System Failures), and 3.7.5. (Minimum Protection Criteria), preceding, the Company may, on ten days written notice by certified U.S. Mail to the Customer deny requests for additional service and/or restrict service to the non-complying Customer. If the Company does not deny or restrict the service involved on the date of the ten days notice, and the Customer non-compliance continues, nothing contained herein shall preclude the Company's right to deny or restrict the service without further notice.

When a violation results in a denial for additional service and/or restriction of service, the denial and/or restriction will be removed when the Customer is in compliance with the regulation and so advises the Company.

The Company may temporarily restrict the ability of 800 callers using CTS from certain telephone numbers when calls from those numbers are made to gain unauthorized access to a CTS Customer's outbound calling capabilities on an unauthorized basis, or are otherwise made in violation of Sections 3.2.3. and 3.2.4.C., preceding. The Company will notify the party responsible for the affected telephone number by letter within 48 hours of the restriction. The restriction will be removed within six days, but will be reimposed if unauthorized access to a CTS Customer's outbound calling capabilities on an unauthorized basis, or abusive calling recurs. After the second restriction, calling will only be reinstated after the Company discusses with the party responsible for the calling telephone number a method to prevent access to a CTS Customer's outbound calling capability on an unauthorized basis or abusive calling.

CONSUMER TELECOMMUNICATIONS SERVICE

3.9. VIOLATION OF REGULATIONS (continued)

3.9.2. Interference, Impairment or Improper Use (continues)

If a Customer (or any reseller or intermediary in the sales chain between the Customer and an end user) fails to comply with Section 3.2.6. (Use of AT&T Marks), preceding, the Company may, on written notification to the Customer, immediately deny requests for additional service and/or restrict service to the non-complying Customer. If the non-compliance is not cured to Alascom's reasonable satisfaction within 30 days after the date of notification, the Company may discontinue the service upon five days prior written notice to the Customer (such cure may require, among other things, corrective communications with end users, in addition to cessation of the non-complying use of AT&T's Marks). The Company may pursue any other available remedies with respect to the conduct that constitutes the non-compliance.

3.9.3. Nonpayment of Charges - The Company may deny and/or restrict CTS without incurring any liability for nonpayment of advance payments, deposits or charges due as specified in Section 3.5.3. (Payment of Charges), preceding. The Customer will be notified in advance of the restriction. Upon payment of charges the restriction and/or denial of CTS will be removed.

3.9.4. Fraudulent Use of Collect Calling and Third Number Billing - In order to control fraud, the Company may refuse to permit Collect Calling and Third Number Calling calls which it determines to be fraudulent and/or it may limit the use of these billing options or services to or from certain countries, areas, or to any specific line, including all or part of the United States, Puerto Rico or the U.S. Virgin Islands. Alascom will make a reasonable attempt to contact by telephone the party responsible for the billed number to discuss the fraudulent activity prior to placing a restriction against the line. The Billed Customer will be provided with written notification on billing restrictions placed against the line for Third Number or Collect Calls that are suspected to be unauthorized Toll Fraud charges within two business days. The restriction will be removed within ten days if the calls are determined not to be fraudulent. If the calls are determined to be fraudulent, calling will only be reinstated after the Company discusses with the party responsible for the billed telephone number a method to prevent unauthorized collect or third number billed calls.

3.9.5. Fraud or Abuse - In any instance in which Alascom determines that a Customer is operating an Alascom service in violation of Section 3.2.4., Alascom may, immediately and without advance notice to the Customer, and without incurring any liability except for willful misconduct, restrict, suspend or discontinue providing the service. Alascom may upon direction of the F.C.C., other government agencies, law enforcement officials or the courts, immediately and upon written notice to the Customer, and without incurring any liability except for willful misconduct, restrict, suspend or discontinue providing service which is being operated in violation of Section 3.2.5.

CONSUMER TELECOMMUNICATIONS SERVICE

3.10. DEFINITIONS

Alascom Central Office - the physical point of access for a service to the AT&T interoffice network.

Alascom Long Distance Service - the name Alascom uses to market its Consumer Services, including Dial Station State-to-State and International calls.

Alascom Toll-Free Service - also known as Alascom 800 Service, includes Service Codes of 800, 866, 877 or 888.

Assembly - a configuration consisting of Customer equipment and/or a Customer-provided communications system or systems, which is connected to CTS.

Call - a completed connection established between a calling station and one or more called stations.

Called Station - the station (e.g., telephone number) called, or the terminating point of a call.

Calling Station - the station from which a call is originated.

Collect Call - a type of call for which the caller asks that the charges for the call be billed to the residential domestic telephone number they are calling.

Company - Alascom, Inc. and its Concurring Carriers.

Customer - the person or legal entity which orders CTS (either directly or through an agent) and is responsible for payment of tariffed charges for services furnished to that Customer.

Customer Equipment - terminal equipment, a multiline terminating system or protective circuitry located at a non-Company premises.

Customer-Provided Test Equipment - non-Company test equipment which is located at a Customer or Users premises and is used for the detection and/or isolation of a communications service fault.

Customer's Main Residential Telephone Number Account - The account associated with a Customer's service to which CTS charges are billed. Such an account may include one or more local or foreign exchange telephone number(s).

CONSUMER TELECOMMUNICATIONS SERVICE

3.10. DEFINITIONS

Customer-Provided Communications System - dedicated private line channels and equipment (e.g., microwave or cable system) furnished by the Customer for communications between premises.

Dial Station - that service where the person originating the call dials the telephone number desired, completes the call without the assistance of a Company operator or the Company's automated operator system and the call is billed to the originating number.

Direct Electrical Connection - a physical connection (i.e., not through a switch) of the electrical conductors in a communications path.

800 Service - service that is called either AT&T Alaska 800 Service or AT&T Alaska Toll-Free Service. c

Electronic Funds Transfer - Transmission of monetary payment to a Customer or vendor account in lieu of cash, check or other payment instrument.

Exchange - a unit established by the Local Exchange Company for the administration of communications service in a specified area which usually embraces a city, town, or village and its environs. It consists of one or more central offices together with the associated plant used in furnishing communications service within that area.

Exchange Area - the geographic territory served by an exchange.

Grandfathered - a term which describes Customer Equipment that was directly connected as specified below and that is grandfathered under Part 68 of the Federal Communications Commission's Rules and Regulations because:

- A. The terminal equipment was directly connected to the telecommunications network or local exchange service prior to July 1, 1979.
- B. The multiline terminating system was directly connected to the telecommunications network or local exchange service prior to January 1, 1980.
- C. The protective circuitry was directly connected to the telecommunications network or local exchange service prior to the dates set forth in A. and B. preceding.

Interface - the electrical and physical means by which a connection is made at the station.

CONSUMER TELECOMMUNICATIONS SERVICE

3.10. DEFINITIONS (continued)

International Dial Station - that class of service which is available on a Dial Station basis to certain specified international locations. International Dial Station calls are placed by the calling party dialing the number and completing the call without the assistance of a Company operator or the Company's automated operator system and the call is billed to the originating number.

Mainland - the 48 contiguous states and the District of Columbia.

Multiline Terminating System - Customer's or User's premises switching equipment and key telephone type systems which are capable of terminating more than one local exchange service line, WATS access line, circuit or Customer- provided communications system.

Premises - a building or buildings on continuous property (except railroad rights-of-way, etc.) not separated by a public thoroughfare.

Protective Circuitry - discrete electrical circuitry that is within the scope of the Registration Program and is designed to protect CTS from harm.

Rate Center - a specified geographical location used for determining mileage measurements as they relate to the prices and charges for certain types of Alascom Consumer Services calls.

Rate Center Area - the geographic area that includes the territories assigned to a rate center.

Registered - a term which means compliance with and approval within the Registration Program.

Registration Program - Part 68 of the FCC's Rules and Regulations which permits Customer Equipment to be directly connected to CTS, and certain circuits without the requirement for protective circuitry.

Standard Jack - the means of connecting Customer Equipment to CTS as specified in the Registration Program.

State-to-State Calls - calls and their related charges from one state to a different state. This includes calls to or from Puerto Rico or the US Virgin Islands and calls to Guam, American Samoa and CNMI, where billing for the applicable classification of call is available.

C

Station - any location from which CTS calls can be placed and/or received.

Switching Equipment - equipment which performs the function of establishing and releasing connections on a per call basis between stations, telecommunications services, or communications systems.

CONSUMER TELECOMMUNICATIONS SERVICE

SECTION 4 - INITIAL SUBSCRIPTION TO ALASCOM

4.1. General - The rates, terms and conditions in this Section apply to state-to-state and international Dial Station calls placed by Customers whose initial subscription to Alascom is made through a local service provider and the Customer has not yet received an AT&T Consumer Services Agreement. Alascom will issue an AT&T Consumer Services Agreement to the Customer upon notification by the local service provider to Alascom that the Customer has subscribed to Alascom as their primary interexchange carrier.

The terms and conditions that apply to the Dial Station services provided under this Section will apply until the Customer of these services receives the AT&T Consumer Services Agreement or until the Customer directly contacts Alascom and enrolls in an Alascom Calling Plan, Promotion or Service Offering that is not provided under this tariff, whichever occurs first.

The rates, terms and conditions contained in this Section apply in addition to the General Regulations specified in Section 3, preceding.

4.1.1. Dial Station - The Dial Station service furnished under this Section provides for two-point Customer-dialed state-to-state calls and two-point Customer-dialed international calls.

- State-to-state Dial Station calls billed to the Customer's domestic residential telephone account are furnished as specified in Section 4.1.1.A., following.

- International Dial Station calls billed to the Customer's domestic residential telephone account are furnished as specified in Section 4.1.1.B., following.

Customers who place Dial Station calls via the Alascom Satellite Services described in AT&T Corp. Tariff F.C.C. No. 4, will be billed the rates and charges as specified in that tariff.

CONSUMER TELECOMMUNICATIONS SERVICE

4.1.1.A. State-to-State Dial Station Calls Billed to the Customer's Domestic Residential Telephone Account - State-to-state Dial Station calls billed to the Customer's domestic residential account are furnished:

- between a station in Alaska and a station in the Mainland, Guam, American Samoa, CNMI or Hawaii,
- between a station in Alaska and a station in Puerto Rico or the US Virgin Islands,

(C)

4.1.1.A.1. Application of Rates - The specific factors used to determine the applicable charges for a call are indicated on the respective rate schedules. The following factors are common to the rate schedules:

(a). Distance Measurement - Distance measurements are determined as set forth in Section 3.8.1., preceding.

(b). Rate Periods - The following rate periods are associated with state-to-state Dial Station calls placed from Alaska.

I. State-to-State Dial Station Calls Placed from Alaska

(i). Day/Peak Rate period - The Peak Rate period is 7:00 a.m. through 6:59 p.m. Monday through Friday.

(ii). Evening/Off-Peak Rate period - The Off-Peak Rate period is 12:00 a.m. through 6:59 a.m. and 7:00 p.m. through 11:59 p.m. Monday through Friday.

(iii). Weekend Rate period - The Weekend Rate period is 12:00 a.m. Saturday through 11:59 p.m. Sunday.

CONSUMER TELECOMMUNICATIONS SERVICE

4.1.1.A.1. Application of Rates (continued)

(c). Computing the Charge for a Call - The rate applicable at the start of chargeable time at the calling station applies. If chargeable time begins during the Off-Peak Rate Period, the Off-Peak rate applies to the initial minute and to any additional minutes that the call continues during that rate period. If the call continues into a different rate period, the appropriate rates from that rate period apply to any additional minutes occurring in that rate period. If a minute is split between two rate periods, the rate period applicable at the start of the minute applies to that entire minute. The duration of each call is recorded in whole minutes, with partial minutes rounded up to the next whole minute (for example, a 45 second call will be billed as a one-minute call). Total charges for a call that include a fraction of a cent will be rounded to the nearest whole cent. For example, a \$1.254 call would be rounded down to \$1.25, and a \$1.255 call would be rounded up to \$1.26. (C)

(d). Rates Applicable for Persons with Hearing and/or Speech Disabilities - Reduced rates are available to qualified persons who have hearing and/or speech disabilities subject to the following:

I. Application - Persons who have been certified in writing by a licensed physician, audiologist, speech pathologist, or appropriate State or Federal agency as having a hearing or speech disability which precludes oral communications and who have and use a telecommunications device for visual communications, will receive an adjustment on Customer dialed station calls which do not require the intervention of a Company operator. The adjustment is applied to the appropriate rate schedules according to the following:

(i) Calls placed during the Day rate period will be charged at the applicable Off-Peak rate, (C)

(ii) Calls placed during the Off-Peak rate period will be charged at the Weekend rate, (C)

II. Certification - The written certification of the speech or hearing disability must be presented to this Company's Business/Residence Service Center which serves the residence of the certified person.

The Company's Business/Residence Service Center, upon request, will provide a certification form for use by the applicant.

III. Limitations - The adjustment is provided for use only by the Customer having the speech or hearing disability. It is only applicable to charges for state-to-state Dial Station calls originated from and billed to the Exchange Service number of the residence of the person with the certified speech or hearing disability. Only one Exchange Service number at a residence is authorized this rate adjustment.

CONSUMER TELECOMMUNICATIONS SERVICE

4.1.1. Application of Rates (continued)

(h). Carrier Cost Recovery Fee - A Carrier Cost Recovery Fee is a monthly charge that helps recover the costs associated with state-to-state access and international long distance service, including expenses for national regulatory fees and programs, connection and account servicing charges, and expenses for regulatory compliance. This fee applies each month in which the customer has any AT&T Alaska state-to-state and/or international charges on their bill. These charges include state-to-state and international usage charges, monthly recurring charges and minimum usage charges that are related to your state-to-state and/or international pricing plan. This Fee is applied in full whether or not your billing period covers a full month. It is not a tax or charge required by the government. Customers will be assessed a \$2.39 fee starting with bills issued on or after July 1, 2007.

C
C

This fee is subject to billing and technical availability.

N

(i). Monthly Recurring Charge - A Monthly Recurring Charge (MRC) applies to Customers of Consumer Telecommunications Services under this Section who: (1) select AT&T Alaska as their Long Distance Service provider.

.
. .
. .
. .

I. Application of Charge - The Monthly Recurring Charge applies per Customer account. Customers will be billed one Monthly Recurring Charge for each account. This charge applies per month. For example, a quarterly billed Customer will receive three Monthly Recurring Charges. The Monthly Recurring Charge is applied in full whether or not you make any calls, and applied in full whether or not your billing period covers a full month

CONSUMER TELECOMMUNICATIONS SERVICE

4.1.1.B. International Dial Station Calls

4.1.1.B. General - International Dial Station calls are furnished:

- between a station originating in Alaska and a station terminating in a foreign country or area, (C)

Facilities at the Alaska end of the channels used to provide international Dial Station calls are furnished by this Company. The facilities at the other end are furnished by connecting companies, foreign administrations, or both.

Rates, regulations and material in this Section are for two-point service only, and apply to international Dial Station calls.

4.1.1.B.1. Regulations - In addition to the regulations in Section 3., preceding, the following regulations also apply to international Dial Station calls:

(a). Availability of Service - International Dial Station service is generally available twenty-four hours a day, seven days a week subject to the limitations listed in II., following.

I. Countries and Areas Served - The countries and areas to which international Dial Station service is available are as indicated in the rate schedules set forth in Section 8.3.

II. Limitations - Certain factors limit the availability of international Dial Station service. Specifically, they are:

(i) Service is furnished subject to transmission, atmospheric, and similar limitations.

(ii) Calls to or from a foreign country or area, or calls routed through a foreign country or area, are subject to such restrictions as may be enforced from time to time by the authorities in that country or area.

4.1.1.B.2. International Mobile Termination Charge (IMTC) - is an additional per minute charge that is applied to all international calls originating in the United States and terminating in certain countries to (1) wireless devices; and (2) ranges of fixed or wireless telephone numbers which the foreign telecommunications company designates to be for special services. Because many foreign telecommunications companies impose extra fees on AT&T to complete these calls, AT&T charges the IMTC, in addition to all other applicable charges. The IMTC charge amount varies by country and changes from time to time. Be sure to check codes and rates periodically for current information.

(C)

(C)

(a). Application of Charge - The International Mobile Termination Charge is a rate per country, per minute (24 hours a day, 7 days a week) that is in addition to the Customer's international Dial Station charges.

(b). Rates - The current list of countries/areas and the applicable rates for the International Mobile Termination Charge are specified in Section 8.9. The list of countries will be updated periodically, and the rates for each country will be adjusted (increase or decrease) as deemed necessary. The application of this charge is subject to billing availability.

Section 5 - Casual Calling Services

5.1. GENERAL - Alascom Casual Calling Services permit callers to access Alascom's switched network for completion of their state-to-state and international Dial Station calls by dialing carrier access code 1010288 or 1010866. The rates, terms and conditions specified in this Section apply to state-to-state and international Dial Station calls billed under the following Non-Subscriber 1010288 or 1010866 Service offerings.

The rates, terms and conditions contained in this Section apply in addition to the General Regulations specified in Section 3, preceding.

5.1.1. Non-Subscriber 1010288 or 1010866 Service - provides for state-to-state and international Dial Station calls placed via carrier access code 1010288 or 1010866 and billed to the Customer's main billed domestic telephone account that is not presubscribed to Alascom as the primary interexchange carrier.

A. Internet Service Connections - Customers will be billed the applicable Non-Subscriber 1010288 or 1010866 Service usage charges and service charges for calls connected to the Alascom network by internet service providers using carrier access code 1010288 or 1010866.

Non-Subscriber 1010288 and 1010866 Service is provided as specified in Section 5.2., following.

B. Alascom Satellite Service Calls - Customers using carrier access code 1010288 or 1010866 for completion of calls via the Alascom Satellite Services described in AT&T Corp. Tariff F.C.C. No. 4, will be billed the applicable service charge for Non-Subscriber 1010288 or 1010866 Service plus the applicable rates and charges as specified in that tariff.

(C)
(C)

CONSUMER TELECOMMUNICATIONS SERVICE

5. CASUAL CALLING SERVICES (continued)

5.2. Non-Subscriber 1010288 or 1010866 Service

5.2.1. General - Non-Subscriber 1010288 or 1010866 Service is available for state-to-state and international Dial Station calls placed from Alaska and billed to the Customer's domestic residential telephone account that is not presubscribed to Alascom as the primary interexchange carrier. Access to Non-Subscriber 1010288 or 1010866 Service for Dial Station calls must be made by dialing carrier access code 1010288 or 1010866.

5.2.2. Calls Not Subject to Non-Subscriber 1010288 or 1010866 Charges - Non-Subscriber 1010288 or 1010866 Service does not include: conference calls, calls to Alascom Directory Assistance, calls to 800 and 900 telephone numbers, Telecommunications Relay Service calls, calls placed from cellular phones, calls made by Customers with Disabilities who are Certified as described in Section 4.1.1.A.1.(d)., calls billed to a residential telephone account for which presubscription to Alascom has been discontinued but an active billing record for such account still exists in Alascom's billing system. (C)

Calls billed to a residential telephone account for which presubscription to Alascom has been discontinued but an active billing record for such account still exists in Alascom's billing system will be rated at Dial Station rates described in Section 4.1.1. In addition, the Monthly Recurring Charge described in Section 8.2 applies in any month that a subscriber makes a call at these rates.

5.2.3. Credits - Alascom will credit the charges for Non-Subscriber 1010288 or 1010866 Service reported by newly presubscribed Alascom Customers during the period between presubscription and administrative processing of the new Customer. Alascom will also credit the charges for Non-Subscriber 1010288 or 1010866 Service reported by Customers during an F.C.C. reportable incident of service outage by another interexchange carrier. To receive either of these credits, Customers must contact Alascom through an 800 number designated for billing inquiries. Applicable Dial Station charges will apply for all completed calls for which a credit is received. The credit will be given either in the form of a bill credit or a Long Distance Certificate, at Alascom's discretion.

5.2.4. Availability - The application of charges for Non-Subscriber 1010288 or 1010866 Service is subject to billing availability.

5.2.5. Rates and Charges -

- Usage charges and a per call Service Charge apply to each completed call.
- Service Charges associated with Non-Subscriber 1010288 or 1010866 Service apply in addition to all other applicable Service Charges and Surcharges.
- Charges are applicable 24 hours-a-day, 7 days-a-week.
- Duration of each call is recorded in whole minutes, with partial minutes rounded up to the next whole minute (for example, a 45 second call will be billed as a one-minute call).
- The rate schedules applicable to Non-Subscriber 1010288 or 1010866 Service are specified in Sections 8.3. and 8.4., following.

CONSUMER TELECOMMUNICATIONS SERVICE

Section 6 - Collect Calls Received From International Countries/Areas

6.1. General - Collect calls received from international countries/areas are furnished:

- to a station in Alaska from a station in a foreign country or area.

Facilities at the Alaska end of the channels used to provide international Collect calls are furnished by this Company. The facilities at the other end are furnished by connecting companies, foreign administrations, or both.

Rates, regulations and material in this Section are for two-point service only, and apply to Collect calls received from international countries/areas.

6.1.1. Regulations - In addition to the regulations in Section 3., preceding, the following regulations also apply to Collect calls received from international countries/areas:

A. Collect Calls - This option allows a call to be billed to the called station, if the charges are accepted by the called party, station, or number. Person-to-Person rates apply when the person placing the call specifies the particular party to be reached by the Company Operator. The specified party may be a person, or a station, department, extension or office. After the called station has been reached, if the called party is unavailable and calling party requests or agrees to speak to a party other than the party initially specified, the call is still billed as a Person-to-Person call. The calling party is responsible for identifying the party at the called station. Collect Calls are not permitted to a public or semi-public coin station or to CNMI, American Samoa or Guam.

B. Availability of Service - Collect calling is generally available twenty-four hours a day, seven days a week subject to the limitations listed in 2., following.

1. Countries and Areas Served - The countries and areas from which Collect calling service is available are as indicated in the schedules set forth in Section 8.8.1.

2. Limitations - Certain factors limit the availability of Collect calling service. Specifically, they are:

(a) Service is furnished subject to transmission, atmospheric, and similar limitations.

(b) Collect calls from a foreign country or area, or calls routed through a foreign country or area, are subject to such restrictions as may be enforced from time to time by the authorities in that country or area.

6.2. Alaska - Canada Service - The following applies to Collect calls received at a station in Alaska from a station in Canada.

6.2.1. Distance Measurement - Distance is calculated as stated in Distance Measurement, 3.8.1., preceding.

6.2.2. Rate Periods

A. Day Rate Period - The time-of-day and hours that include the Day Rate Period are shown on the Canada - Alaska schedule in Section 8.8.1.A., following.

B. Evening Rate Period - The time-of-day and hours that include the Evening Rate Period are shown on the Canada - Alaska rate schedule in Section 8.8.1.A., following.

C. Night Rate Period - The time-of-day and hours that include the Night Rate Period are shown on the Canada - Alaska rate schedule in Section 8.8.1.A., following.

6.2.3. Computing the Charge for a Call - The rate period applicable at the start of chargeable time at the calling station applies to the entire call. That is, if a call is initiated during the Day rate period and continues into the Night rate period, the rate for the Day rate period applies to the initial and to all additional minutes that the call continues, including minutes used in the Night rate period. The applicable rates and the times in effect are indicated on the rate schedules. The duration of a call is recorded in whole minutes, with partial minutes rounded up to the next whole minute (for example, a 45-second call will be billed as a one-minute call).

A. Rates Applicable on Certain Holidays - Rate application on holidays is the same as for all other days.

B. Rates - The rates for Canada to Alaska Collect calls are listed in Section 8.8.1.A., following.

6.4. Alaska Service from Foreign Countries or Areas other than Canada - The following applies to Collect calls received at a station in Alaska from a station in Foreign Countries or Areas Other Than Canada.

6.4.1. Rate Periods

A. Standard Rate Period - The time-of-day and hours, that include the Standard Rate Period, are shown on the Alaska from Foreign Countries or Areas Other Than Canada rate period schedule in 6.8.1., following.

B. Discount/Economy Rate Period - The time-of-day and hours that include the Discount/Economy Rate Period are shown on the Alaska from Foreign Countries or Areas Other Than Canada rate period schedule in 6.8.1., following.

6.4.2. Computing the Charge for A Call - The rate period applicable at the start of chargeable time at the calling station applies to the entire call. That is, if a call is initiated during the Standard rate period and continues into the Discount/Economy rate period, the rate for the Standard rate period applies to the initial and to all additional minutes that the call continues, including minutes used in the Discount/Economy rate period. The applicable rates and the times in effect are indicated on the rate schedules. The duration of a call is recorded in whole minutes, with partial minutes rounded up to the next whole minute (for example, a 45-second call will be billed as a one- minute call).

A. Rates Applicable on Holidays - Rates applicable on holidays are the same as those rates applicable for all other days of the year.

B. Rates - The rates for Collect calls to the Alaska from Foreign Countries or Areas other than Canada are listed in Section 8.8.1., following. Collect Calls are permissible as indicated in 6.8.2., following. When collect calls are allowed, the Person-to-Person rate applies.
