APPLICATION OF TARIFF

This tariff contains the regulations, rates and charges applicable to the provision of international long distance telecommunications services by Verizon Long Distance LLC between points within the United States and foreign locations. This tariff includes rates, terms and conditions applicable for the first 45 days of service.

Where network facilities and billing systems permit, the Company will block casual dialing to international destinations, including, but not limited to, the Caribbean, Mexico and Canada.

TARIFF FORMAT

- (N)
- A. Page Numbering - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 14 and 15 would be 14.1.
 - B. Page Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th revised Page 14 cancels the 3rd revised Page 14. Because of the various suspension periods and deferrals the Commission follows in its tariff approval process, the most current page number on file with the Commission is not always the tariff page in effect. Consult the check page for the page currently in effect.
 - C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
 - 2
 - 2.1
 - 2.1.1
 - 2.1.1.A
 - 2.1.1.A.1
 - 2.1.1.A.1.(a)
 - 2.1.1.A.1.(a).I
 - 2.1.1.A.1.(a).I.(i)
 - 2.1.1.A.1.(a).I.(i).(1)
 - D. Check Sheets - When a tariff filing is made with the Commission an updated check sheet accompanies the filing. The check sheet lists the pages contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There shall be no other symbols used on this page if these are the only changes made to it. The tariff user should refer to the latest check sheet to find out if a particular page is the most current on file with the Commission.

An Account may have more than one service or telephone number and/or telephone numbers billed to the same Customer address. An Account may include multiple locations for the same Customer.

Authorization Code - A pre-defined series of numbers to be dialed by the Customer upon access to the Company's system to identify the caller and validate the caller's authorization to use the services provided. The Customer is responsible for charges incurred through the use of his or her assigned Authorization Code. An example of an Authorization Code is a calling card account number and personal identification number.

Business Customer - For the purpose of this tariff, a Business Customer is a Customer of the Company whose primary use of the Company's service is for business purposes. A Business Customer is also a Customer who accesses the Company's service using an access line that has been assigned a business class of service by the local service provider.

Calling Card Call - A Calling Card Call is an operator assisted or automated call placed by a Customer where the call charges are billed to a local telephone company issued authorization code rather than to the originating or terminating telephone number.

Casual Calling - A service provided over facilities owned by the Company or an affiliate of the Company whereby the Customer accesses the Company's service by dialing an access code assigned to the Company prior to placing the call, such as 101XXX+1+area code +destination number or 101XXX+01+country code+destination number.

SECTION 2 - TERMS AND CONDITIONS, (Cont'd.)

2.11 Deposits

2.11.1 Each applicant for service may be required to establish credit. Any applicant whose credit has not been duly established may be required to make a deposit at the time of application to be held as a guarantee of payment of charges. In addition, an existing Customer may be required to make a deposit or increase a deposit currently held. The Company shall pay interest on deposits pursuant to applicable rules and regulations.

2.11.2 A deposit shall not exceed the estimated charges for two months service, plus installation, and shall be returned: 1) when an application for service has been canceled prior to the establishment of service; or 2) at the end of twelve (12) consecutive months of a satisfactory credit history; or 3) upon discontinuation of service. The Company shall apply the deposit against any outstanding balances due. If a credit balance exists after such application, the Company shall refund the balance to the Customer.

2.11.3 The fact that a security deposit has been made in no way relieves the Customer from the prompt payment of bills upon presentation.

2.11.4 Upon the discontinuance of service, the Company shall apply the Customer deposit against any outstanding balances due. If a credit balance exists, a refund shall be made to the Customer.

(N)
|
(N)

2.12 Advance Payments
