ACCESS SERVICE7. Special Access Service (Cont'd)7.2 Rate Regulations (Cont'd)

This section contains the specific regulations governing the rates and charges that apply for Special Access.

7.2.1 Rate Categories (Cont'd)(A) Channel Termination (Cont'd)

For a Special Access Digital Data Service 56.0 or 64.0 Kbps Bit Rate or High Capacity Service Connecting a customer designated premises to a Frame Relay Access Service as described in Section 16.1, following, there will be a charge for only one Channel Termination.

For a 1.544 Mbps or 44.736 Mbps High Capacity Service or for an OC3 or OC12 Synchronous Optical Channel Service connecting a customer designated premises to an Asynchronous Transfer Mode Cell Relay Access Service as described in Section 16.2, following, there will be a charge for only one Channel Termination. For a 44.736 Mbps High Capacity Service or for an OC3 or OC12 Synchronous Optical Channel Service connecting a customer designated premises to an either an Ethernet Transport Service as described in Section 16.3, following, a Metro Ethernet Service (Metro Ethernet) as described in Section 16.5, following, or a Stand-Alone Broadband Network Transport Service as described in Section 16.8, there will be a charge for only one Channel Termination. For a 1.544 Mbps or 44.736 Mbps High Capacity Service or for an OC3/OC3c Synchronous Optical Channel Service connecting a customer designated premises to a DSL Access Service Connection Point as described in the respective Wireline Broadband Internet Access Transmission Services under either Section 8.1 (ADSL), Section 8.2 (SDSL), Section 16.2 (ADSL), 16.3 (SDSL) or Section 16.6 (High Speed Internet Access Service) following, for interconnection with wireline broadband Internet access services provided by the Telephone Company under this tariff or for interconnection with a wireline broadband Internet transmission service provided on a non-tariffed, common carrier basis, there will be a charge for only one Channel Termination.

ACCESS SERVICE16. Public Packet Data Network (Cont'd)16.5 Metro Ethernet Service (Metro Ethernet) (Cont'd) (T)16.5.1 General Description(A) Basic Service Description

Metro Ethernet Service (Metro Ethernet) is a high-speed packet based service for the transmission of data between a customer designated premises (CDP), the customer's Serving Wire Center, and either another CDP served by the Telephone Company, a CDP served by another telephone company or another telecommunications carrier. Metro Ethernet services between CDP within the Telephone Company's serving areas and CDPs outside the Company's serving areas will be provided either on a joint basis by the Telephone Company and another telephone company or by a telecommunications carrier connecting to the Telephone Company through a CDP within the Company's serving areas. If joint-provisioning by the Telephone Company and another telephone company is required, it is the responsibility of the Customer to order and pay for services provided by the other telephone company. Where joint-provision applies, the Telephone Company will provide its portion of jointly-provided services on a Multiple Bill basis as described at Section 2.4.7(B)(2) preceding. (T)

For purposes of this Section, the term Telephone Company refers individually to the issuing carriers listed as providers of Metro Ethernet services in the Metro Ethernet Provider Table preceding. (T)

Metro Ethernet provides dedicated bandwidth at the capacities indicated for the respective Telephone Companies offering Metro Ethernet listed at the Metro Ethernet Provider Table preceding. (T)

In connection with Metro Ethernet, the Telephone Company offers Metro Ethernet Virtual Local Area Network (VLAN) service through use of Virtual Private Networks (VPN) functions. (T)

16. Public Packet Data Network (Cont'd)

16.5 Metro Ethernet Service (Metro Ethernet) (Cont'd) (T)

16.5.1 General Description (Cont'd)

(B) Service Provisioning

Metro Ethernet is provisioned over existing Telephone Company facilities. Metro Ethernet will be provided subject to the availability and limitations of the Telephone Company wire centers and outside plant facilities. New construction may be undertaken at the option of the Telephone Company at additional cost to the Customer. (T)
(T)

The subscriber is provided with an Ethernet electrical interface.

Metro Ethernet is available 24 hours per day, 7 days per week, except for preventative maintenance. (T)

Material currently on this page formerly appeared on 1st Revised Page 16-41.

(C) Responsibility of the Telephone Company

The Telephone Company will provision and maintain Metro Ethernet for the customer. (T)

The Telephone Company is not responsible for the installation, operation, or maintenance of any equipment provided by the customer.

Company provided shared network equipment, for use in Metro Ethernet is not accessible for the customer. (T)

(D) Responsibility of the Customer

The customer is responsible for the provision and maintenance of all customer provided equipment and to insure that the operating characteristics of this equipment are comparable with and do not interfere with the service offered by the Telephone Company.

16.5.2 Typical Arrangements

Typical arrangements are shown on the following page. The abbreviations used in the diagrams are as follows:

- CDP – Customer Designated Premises
- CDPI – Customer Designated Premises Interface
- ISPI - Internet Service Provider Interface
- MPI – Meet Point Interface
- MRC – Monthly Recurring Charge
- SWC –Serving Wire Center

Transmittal No. 186

ACCESS SERVICE16. Public Packet Data Network (Cont'd)16.5 Metro Ethernet Service (Metro Ethernet) (Cont'd) (T)16.5.3 Rate Regulations (Cont'd)(C) Rate Elements

There are five types of rates and charges applicable to Metro Ethernet. These are a nonrecurring charge and four types of monthly recurring charges. (T)

(1) Metro Ethernet Nonrecurring Charge (T)

A single Metro Ethernet Nonrecurring charge applies to each Metro Ethernet circuit installed by the Telephone Company, whether the circuit is provisioned only between the Customer Designated Premises (CDP) and the SWC Ethernet switch for which an existing link to another carrier or Internet Service Provider (ISP) already exists or is provisioned beyond the SWC Ethernet switch to an Internet Service Provider Interface (ISPI) or to a Meet Point Interface (MPI) with another carrier. (T)

(2) Metro Ethernet Customer Designated Premises Interface (CDPI) (T)

The Metro Ethernet Customer Designated Premises Interface (CDPI) rate element is for a standard Ethernet defined interface between the CDP and the Telephone Company serving wire center (SWC) at which the Ethernet switch or router is located. Standard Ethernet signaling protocols provided by the Telephone Company shall apply to the interface. The CDPI rate element includes termination at both the CDP and the SWC, the facility from the CDP to the SWC, port access to the Ethernet switch and the Ethernet switch. (T)

A CDPI charge applies to each Metro Ethernet connection between a CDP and the SWC at which the Ethernet switch designated by the Telephone Company is located. (T)

Transmittal No. 186

ACCESS SERVICE16. Public Packet Data Network (Cont'd)16.5 Metro Ethernet Service (Metro Ethernet) (Cont'd) (T)16.5.3 Rate Regulations (Cont'd)(C) Rate Elements (Cont'd)(3) Metro Ethernet Internet Service Provider Interface (ISPI) (T)

The Internet Service Provider Interface (ISPI) rate element is for a standard Ethernet defined interface between the SWC Ethernet switch and an ISP with a presence in the SWC. ISP presence in the SWC may be either through local facilities for an ISP physically located in the Telephone Company's local exchange service area or through an interexchange carrier with an existing connection for an ISP not located in the Telephone Company's local exchange service area. Standard Ethernet signaling protocols provided by the Telephone Company shall apply to the interface. The ISPI rate element includes termination at both the network side of the Telephone Company Ethernet switch and the connection to the ISP's existing connection.

An ISPI charge applies to each connection for a Metro Ethernet circuit originating at a CDP and terminating at the Telephone Company Ethernet switch which is, in turn, connected to the ISP's existing connection at the Ethernet switch SWC. (T)

ACCESS SERVICE16. Public Packet Data Network (Cont'd)16.5 Metro Ethernet Service (Metro Ethernet) (Cont'd) (T)16.5.3 Rate Regulations (Cont'd)(C) Rate Elements (Cont'd)(4) Metro Ethernet Bridge Interface (T)

The Metro Ethernet Bridge Interface provides for the bridging of up to ten (10) CDPI links to one ISPI link or one CDPI link at the serving wire center. A Metro Ethernet Bridge Interface monthly recurring charge applies to each Metro Ethernet Bridge Interface in addition to the Metro Ethernet CDPI monthly recurring charges for each of the circuits connected to the Metro Ethernet Bridge Interface and, if applicable, Metro Ethernet ISPI or MPI monthly recurring charges. In the event a Metro Ethernet Bridge Interface is installed for existing Metro Ethernet CDPIs, without installation of additional CDPIs at the same time, a Metro Ethernet Nonrecurring charge shall apply in addition to the Metro Ethernet Bridge Interface monthly recurring charges.

(5) Metro Ethernet Meet Point Interface (MPI) (T)

The Metro Ethernet Meet Point Interface (MPI) rate element is for a standard Ethernet defined interface between the SWC Ethernet switch and either a CDL outside the Telephone Company's serving area or an ISP, through a circuit jointly provided by the Telephone Company and another carrier. Standard Ethernet signaling protocols provided by the Telephone Company shall apply to the interface. The MPI rate element includes termination at the network side of the Telephone Company Ethernet switch and the Telephone Company's portion of the facilities up to the meet point.

An MPI charge applies to each Metro Ethernet circuit connection between the Telephone Company and another carrier. (T)

Transmittal No. 186

ACCESS SERVICE16. Public Packet Data Network (Cont'd)16.5 Metro Ethernet Service (Metro Ethernet) (Cont'd) (T)16.5.3 Rate Regulations (Cont'd)(C) Rate Elements (Cont'd)(6) Metro Ethernet VLAN Aggregation (T)

A virtual LAN, commonly known as a VLAN, is a group of hosts with a common set of requirements that communicate as if they were attached to the same broadcast domain, regardless of their physical location. A VLAN has the same attributes as a physical LAN, but it allows for end stations to be grouped together even if they are not located on the same network switch. Network reconfiguration can be done through software instead of physically relocating devices.

Customers subscribing to a Metro Ethernet VLAN arrangement may order configuration by the Company of VLAN service (T)

through use of Metro Ethernet with the VLAN Aggregation feature. VLAN Aggregation provides multiple LAN connectivity (T)

across a common physical connection through use of Virtual Private Network (VPN) functions. This feature supports customer aggregation of traffic from multiple remote customer locations. This aggregated traffic can be transported back to a central location and across a common Metro Ethernet Service interface. VLAN Aggregation utilizes IEEE 802.1Q VLAN Tagging procedures. There is one charge associated with VLAN provisioning, a VLAN Service Establishment Charge. (T)

a) VLAN Service Establishment Charge

The VLAN Service Establishment Charge is a non-recurring charge and applies to each individual VLAN provisioned.

(E) Service Suspension

Suspension of service by the Customer during the service period is not allowed.

Transmittal No. 186

ACCESS SERVICE16. Public Packet Data Network (Cont'd)16.5 Metro Ethernet Service (Metro Ethernet) (Cont'd) (T)16.5.3 Rate Regulations (Cont'd)(F) Term Discounts

Metro Ethernet may be ordered at the customer's option on a monthly rate basis or for Term Discount periods of 36 months (3 years) or a customer specified term of 60 months (5 years) or greater up to 84 months. (T)

The minimum service period for service ordered on a monthly rate basis or under a Term Discount plan is twelve months. The customer must specify the length of the service commitment period at the time the service is ordered.

For customers that subscribe to the Term Discount plan for 36 months (3 years) or 60 months (5 years) or greater up to 84 months, the Term Discount percentage as set forth in 17.4.8 following will be frozen from Company initiated decreases, for the entire discount period at the percent in effect at the beginning of the Term Discount period.

If a Term Discount Percentage increase occurs during the term of an existing Term Discount plan, the increased percentage will be applied automatically to the remainder of the current Term Discount period.

At the end of the Term Discount period, the customer may convert to month-to-month service or subscribe to a new Term Discount plan. If the customer does not submit an access service request or other written notice of election for a new Term Discount plan fifteen business days prior to the end of the discount period, the rates will automatically convert to month-to-month service rates.

To be included in a Term Discount plan all eligible Metro Ethernet rate elements must be ordered for the same commitment term (i.e., all 36 months, all 60 months, or all at the specified months ordered greater than 60 months) and with the same service date. When additional capacity is subsequently added, it will be available only on a month-to-month basis unless the discount period of the entire service is upgraded. (T)

Metro Ethernet ordered for a minimum service period of 12 months or for Term Discount periods of 36 months or 60 months or greater, up to 84 months, will be exempt from Telephone Company initiated rate increases throughout the selected service period established at the beginning of that service commitment period. (T)

Transmittal No. 186

ACCESS SERVICE16. Public Packet Data Network (Cont'd)16.5 Metro Ethernet Service (Metro Ethernet) (Cont'd) (T)16.5.3 Rate Regulations (Cont'd)(F) Term Discounts (Cont'd)

Eligible Metro Ethernet rate elements are all monthly recurring charges for services provided by the Telephone Company. As long as the number of Metro Ethernet services included in a Term Discount plan remains constant, customer requests to install and disconnect Metro Ethernet services, including changes affecting different wire centers and/or customer designated premises, will not change the current Term Discount period or the minimum service period and Discontinuance of Service charges as set forth in (3) following will not apply. (T)

(1) Upgrades in Term Discounts

Services provided under monthly rates or Term Discount rates may be upgraded to a Term Discount plan at any time without incurring nonrecurring charges or discontinuance charges for existing services. The new Term Discount plan must meet or exceed the service term of the plan being upgraded. For example, a service with a 36 month commitment period may be upgraded to a new 36 month, 60 month service period or a customer specified period greater than 60 months up to 84 months. The monthly rates will be those that are in effect at the time the service is upgraded. A new minimum service period applies to all Metro Ethernet that is upgraded. (T)

(2) Upgrades in Capacity

If the customer chooses to upgrade a service under the Term Discount rate plan to a higher capacity (i.e., 10 Mbps to 100 Mbps), discontinuance charges will not apply, provided all the following conditions are met:

- the customer's order for the disconnect of the existing 10 Mbps Metro Ethernet service and the installation of the new 100 Mbps Metro Ethernet service are received at the same time and specifically reference the application of upgrade in capacity; (T)
- the customer's disconnect order for the existing 10 Mbps Metro Ethernet service must reference the 100 Mbps Metro Ethernet Service installation order; (T)

Transmittal No. 186

ACCESS SERVICE16. Public Packet Data Network (Cont'd)16.5 Metro Ethernet Service (Metro Ethernet) (Cont'd)

(T)

16.5.3 Rate Regulations (Cont'd)(F) Term Discounts (Cont'd)(2) Upgrades in Capacity (Cont'd)

- the new Term Discount period meets or exceeds the Term Discount period being discontinued.

A new minimum service period applies to all upgrades. Nonrecurring charges for an equivalent capacity of the existing services being upgraded to the higher speed service will not be assessed.

(3) Discontinuance of Service

If the customer chooses to disconnect all or a portion of the service prior to the expiration of the Term Discount period, discontinuance charges will apply to the portion of the service being discontinued.

Should the customer choose to discontinue a Term Discount plan prior to the completion of the minimum service period, discontinuance charges will apply. Discontinuance charges equal to one-hundred percent of the total undiscounted monthly rates, less any amounts previously paid, will apply for the minimum service period. Additionally, discontinuance charges of twenty-five percent of the total undiscounted monthly charges will apply to the remaining portion of the discount service term.

Should the customer choose to discontinue service ordered under a Term Discount plan after the minimum service period but before the completion of the discount period, discontinuance charges will apply. Discontinuance charges of twenty-five percent of the total undiscounted monthly charges will apply to the remaining portion of the discount period. For example, a customer has a 10 Mbps Service which it chooses to discontinue after 33 months into an 84-month service term. The discontinuance charge would be 0.25 times 51 months times the undiscounted monthly rates for that service.

16. Public Packet Data Network (Cont'd)

16.5 Metro Ethernet Service (Metro Ethernet) (Cont'd) (T)

16.5.3 Rate Regulations (Cont'd)

(F) Term Discounts (Cont'd)

(4) Metro Ethernet Fixed Rate Option (T)

Where offered, the Metro Ethernet Fixed Rate Option (Metro Ethernet FRO) provides the Metro Ethernet Term Discount Plan customer with stabilized rates that will apply to the customer's Metro Ethernet service elements throughout the length of the customer's selected Metro Ethernet Term Discount Plan commitment period.

(T)
|
(T)

When the customer subscribes to a Metro Ethernet FRO, the stabilized rates for the Metro Ethernet service elements included under a Metro Ethernet FRO plan will not be subject to any Telephone Company initiated rate increases and decreases during the customer's selected term commitment period.

(T)
|
(T)

The Metro Ethernet FRO is only available from those Telephone Companies listed in the table at Section 16.5, preceding, which offer the Metro Ethernet FRO during the availability window specified in Section 17, following.

(T)
(T)

The Metro Ethernet FRO is only available when the customer establishes a new 36 month or 60 month Metro Ethernet Term Discount Plan commitment with the Telephone Company. An existing Metro Ethernet Term Discount Plan customer wishing to subscribe to an available Metro Ethernet FRO may replace its existing term plan commitment with a new 36 month or 60 month Metro Ethernet Term Discount Plan commitment. If applicable, term plan discontinuance charges as described in (3), above, would apply to the customer's Metro Ethernet Term Discount Plan being replaced, and would be calculated using the monthly rates specified in Section 17, following.

(T)

ACCESS SERVICE16. Public Packet Data Network (Cont'd)16.5 Metro Ethernet Service (Metro Ethernet) (Cont'd) (T)16.5.3 Rate Regulations (Cont'd)(F) Term Discounts (Cont'd)(4) Metro Ethernet Fixed Rate Option (Cont'd) (T)

In order to subscribe to an available Metro Ethernet FRO, the customer must notify the Telephone Company in writing during the time period specified in that Metro Ethernet FRO plan that it wishes to establish a new 36 month or 60 month Metro Ethernet Term Discount Plan with Metro Ethernet FRO stabilized rates. (T)

The stabilized rates specified in Section 17, following, for an available Metro Ethernet FRO apply in lieu of the non-stabilized rates specified in Section 17, following. The Metro Ethernet FRO stabilized rates will apply to the customer's Metro Ethernet service elements only during the 36 month or 60 month commitment period established by the customer at the time it subscribes to the Metro Ethernet FRO plan. (T)

Except as provided herein, all other provisions related to the Metro Ethernet Term Discount Plan as specified in Section 16.5.3(F) apply to a Metro Ethernet Term Discount Plan customer that subscribes to a Metro Ethernet FRO plan. (T)

An Metro Ethernet Term Discount Plan customer with Metro Ethernet FRO stabilized rates may replace or discontinue its Metro Ethernet Term Discount Plan at any time during its selected term commitment period subject to the provisions described in (3), above. If applicable, term plan discontinuance charges as described in (3), above, apply and would be calculated using the monthly rates specified in the Metro Ethernet FRO plan to which the customer subscribed. (T)

Transmittal No. 186

16. Public Packet Data Network (Cont'd)

16.5 Metro Ethernet Service (Metro Ethernet) (Cont'd) (T)

16.5.3 Rate Regulations (Cont'd)

(F) Term Discounts (Cont'd)

(4) Metro Ethernet Fixed Rate Option (Cont'd) (T)

An Metro Ethernet Term Discount Plan customer with Metro Ethernet FRO stabilized rates may not renew or extend its Metro Ethernet FRO plan subscription beyond the end of the term commitment period selected at the time it subscribed to the Metro Ethernet FRO plan. At the end of the customer's term commitment period, a Metro Ethernet Term Discount Plan customer with Metro Ethernet FRO stabilized rates may choose to:

- subscribe to a new Metro Ethernet Term Discount Plan commitment period with the monthly rates and nonrecurring charges specified in Section 17, following; (T)
- subscribe to a new Metro Ethernet Term Discount Plan commitment period with Metro Ethernet FRO stabilized rates, if an alternative Metro Ethernet FRO plan is available at that time, as specified in Section 17, following; or (T)
- revert to the undiscounted monthly rates and nonrecurring charges specified in Sections 17, following. (T)

If the customer does not notify the Telephone Company in writing of its choice by the end of its existing term commitment period, the Telephone Company will automatically convert the customer's Metro Ethernet billing for current and future Metro Ethernet service elements to the undiscounted monthly rates and nonrecurring charges specified in Section 17, following. (T)

An Access Order Charge does not apply to establish a new or discontinue an existing Metro Ethernet FRO. An Access Order Charge also does not apply when at the end of the customer's Metro Ethernet Term Discount Plan the customer subscribes to a new Metro Ethernet Term Discount Plan or reverts to billing using the undiscounted monthly rates and nonrecurring charges specified in Section 17, following. (T)

Transmittal No. 186

ACCESS SERVICE16. Public Packet Data Network (Cont'd)16.5 Metro Ethernet Service (Metro Ethernet) (Cont'd)16.5.3 Rate Regulations (Cont'd)(G) Service Level Commitment

Service Level Commitment (SLC) and associated guarantees for network performance and operational measurements will be available with the Company's Metro Ethernet where technically feasible. There is no additional charge for an SLC.

In order for technical feasibility for SLC to exist, the Company must have installed at the Customer's premises Company-owned terminating equipment capable of supporting an SLC for the individual Metro Ethernet service. The Company will install such equipment for all new Metro Ethernet orders. For existing Metro Ethernet service, the Company is undertaking to upgrade any existing Company-owned Metro Ethernet customer premises terminating equipment to Company-owned equipment capable of supporting an SLC. Until such time as the Company is able to install Metro Ethernet customer premises terminating equipment and formally notifies the Customer of successful installation of the terminating equipment, an SLC will not apply to a Metro Ethernet Service circuit or any offering related to the circuit.

Notwithstanding the requirement for installation and provision by the Company of Metro Ethernet customer premises terminating equipment as described above, other factors may affect technical feasibility. If such other factors prevent technical feasibility for an SLC for a Metro Ethernet circuit, the circuit will not qualify for an SLC.

SLC is exclusively applicable to On-Net Service. "On-Net Service" is defined as one or more Services for which all termination points and all transitory paths are directly connected by and to the Company facilities-based network.

ACCESS SERVICE

16. Public Packet Data Network (Cont'd)

16.5 Metro Ethernet Service (Metro Ethernet) (Cont'd)

16.5.3 Rate Regulations (Cont'd)

(G) Service Level Commitment (Cont'd)

For the purposes of SLC, Metro Ethernet is considered “Protected” if it is ordered and provisioned through geographically diverse paths, in which case communications are automatically re-routed during a Metro Ethernet interruption until normal operating conditions are restored. Metro Ethernet is considered “Unprotected” if it is ordered without geographically diverse routing.

(1) Installation

After assigning facilities for Metro Ethernet, the Company will supply Customer with an Order Confirmation. The Order Confirmation will include information regarding the provisioning of Metro Ethernet and an anticipated activation date. Unless prevented by circumstances beyond its control, the Company will install Metro Ethernet by the due date. The Company’s failure to meet the due date target will entitle the Customer to a nonrecurring credit toward the monthly recurring charges (MRC) as follows:

Installation Credit

Number of Days Past Anticipated Activation Date	Nonrecurring Credit for Affected Service
3 business days	None
4 business days	5% of the MRC of the Service
Each business day beyond 4 days	An additional 5% of the MRC, capped at 100% of the MRC for any Service

(G) Service Level Commitment (Cont'd)

(2) Service Availability

Service Availability is the percentage of time during a billing period that Metro Ethernet is capable of exchanging data between the Company-provisioned termination points of the Service.

Service Availability is guaranteed to be 99.999% for a Protected Service and 99.95% for an Unprotected Service.

“Outage” is the unavailability of Metro Ethernet for reasons other than (i) negligence or acts of the Customer or its agents, (ii) failure of Customer-provided power source, (iii) failure or malfunction of Customer-owned equipment, (iv) causes beyond the reasonable control of the Company including but not limited to acts of God, fire, lightning, storm, flood, or other natural disaster, (v) laws, orders, rules, regulations, directions, or actions of governmental authorities having jurisdiction over service, (vi) any civil or military action including national emergencies, riots, war, terrorism and civil insurrections, or (vii) Planned Maintenance.

16.5 Metro Ethernet Service (Metro Ethernet) (Cont'd)

16.5.3 Rate Regulations (Cont'd)

(G) Service Level Commitment (Cont'd)

(2) Service Availability (Cont'd)

The measurement of Outage length begins when the Customer opens a trouble ticket with the Company regarding Outage, or at the logged date/time indicated on a Metro Ethernet impairment-related alarm generated by Company-operated network equipment. The Outage period ends when Metro Ethernet is restored for use by Customer. If Customer opens a trouble ticket with the Company but declines to release Metro Ethernet Service for testing and repair by the Company, the service is assumed to be capable of exchanging data, and shall not be considered eligible for Outage credit during that time.

Nonrecurring credit due as a result of Outage will be determined as set forth in the following tables:

Protected Service

Length of Outage (cumulative)	Nonrecurring Credit for Affected Service
30 seconds or less (~ 99.999% Service Availability)	None
Between 30 seconds and 6 hours	10% of the MRC
Between 6 hours and 12 hours	20% of the MRC
Between 12 hours and 18 hours	30% of the MRC
Between 18 hours and 24 hours	40% of the MRC
24 hours and above	50% of the MRC

(2) Service Availability (Cont'd)

(N)

Unprotected Service

Length of Outage (cumulative)	Nonrecurring Credit for Affected Service
30 minutes or less (~ 99.95% Service Availability)	None
Between 30 minutes and 6 hours	10% of the MRC
Between 6 hours and 12 hours	20% of the MRC
Between 12 hours and 18 hours	30% of the MRC
Between 18 hours and 24 hours	40% of the MRC
24 hours and above	50% of the MRC

The credits specified above are non-cumulative, however, in any billing period, the Customer shall be entitled to the highest level of credit justified based on the total combined duration of any Outages.

(a) Chronic Unavailability

Notwithstanding the service unavailability reasons defined at 16.5.3.G(2), preceding, Protected Service is considered to be chronically unavailable if Metro Ethernet experiences three or more Outages within a 30-day period, or cumulative Outage time exceeding 12 cumulative hours within a 30- day period.

Notwithstanding the service unavailability reasons defined at 16.5.3.G(2), preceding, Unprotected Service is considered to be chronically unavailable if Metro Ethernet experiences three or more separate Outages of more than 12 hours each within a 30-day period or for more than 36 cumulative hours within a 30-day period.

(2) Service Availability (Cont'd)

(a) Chronic Unavailability (Cont'd)

If Metro Ethernet is deemed chronically unavailable, the Customer shall have the option to either (a) obtain credits as set forth above or (b) terminate the affected service prior to the end of the committed term without penalty. To be eligible for termination without penalty as a result of chronic unavailability, the request to terminate Metro Ethernet must be delivered to the Company in writing within 30 days of chronic unavailability.

(3) Latency

“Latency” is the average round-trip transmission time required for a packet to travel between the Company-provisioned termination points of Metro Ethernet within the Company’s network during a billing period. Latency is expressed in milliseconds (ms). The Company’s Latency target is 20 ms or less.

Nonrecurring credits due as a result of excess Latency will be determined as set forth in the following table:

Latency	Nonrecurring Credit for Affected Service
20 ms or less	None
20.01 - 30.00 ms	10% of the MRC
30.01 - 40.00 ms	20% of the MRC
40.01 - 50.00 ms	30% of the MRC
50.01 - 60.00 ms	40% of the MRC
• 60.01 ms or above	• 50% of the MRC

(5) Jitter

“Jitter” is the average variation in Latency during a billing period. Jitter is expressed in milliseconds (ms). The Company’s Jitter target is 2 ms or less.

Nonrecurring credits due as a result of excessive Jitter will be determined as set forth in the following table:

Jitter	Nonrecurring Credit for Affected Service
Less than 2 ms	None
2.01 – 4.00 ms	10% of the MRC
4.01 – 6.00 ms	20% of the MRC
6.01 – 8.00 ms	30% of the MRC
8.01 – 10.00 ms	40% of the MRC
10.01 ms or above	50% of the MRC

(6) Service Credits

Service Credits will be based on the Company’s network performance data. All Service Credits are non-cumulative between Service Level Guarantees. The total of all Service Credits within any single billing period shall not exceed 100% of the MRC for Metro Ethernet Service.

Request for credit must be made in writing within 30 days of the impairment occurrence. Impairment type, impairment date, and Service-identifying information must be included in the request.

16.8.1 General

- (A) Stand-Alone Broadband Network Transport (SABNT) Service is a high-speed packet-based advanced data service that provides connectivity between Customer Locations, using packet-switching technology and Internet Protocol (IP). In connection with SABNT, the Company offers Virtual Local Area Network (VLAN) service through use of Virtual Private Network (VPN) functions.
- (B) SABNT Service provides transport services with capabilities for various service arrangements that may be used to meet individual customer needs.

Transmittal No. 186

ACCESS SERVICE16. Public Packet Data Network (Cont'd)16.8 Stand-Alone Broadband Network Transport (SABNT) (Cont'd)16.8.2 Regulations (Cont'd)(E) Term Discounts

SABNT Service may be ordered at the customer's option on a monthly rate basis, subject to a minimum service period of twelve months, or for a Term Discount period of either 36 months (3 years), 60 months (5 years), 96 months (8 years), or 120 months (10 years) as specified in Section 17 following. (C)
(C)
(C)

The minimum service period for SABNT Service is twelve months.

For customers that subscribe to the Term Discount plan for 36 months (3 years), 60 months (5 years), 96 months (8 years), or 120 months (10 years) discount percentages and monthly recurring charge rates set forth in Section 17.4 following will be frozen against, respectively, decreases in discount percentages and increases in monthly recurring charge rates filed in this tariff for the duration of the committed term Discount term. Any increases in discount percentages or decreases in monthly recurring charges filed in the tariff during the committed Term Discount term will be passed through to customers subscribing to the Term Discount plan on a going-forward basis from the effective date of the revised percentage and/or rates. (C)
(C)
(C)
(T)

At the end of the Term Discount period, the customer may convert to month-to-month service or subscribe to a new Term Discount plan. If the customer does not submit an access service request or other written notice of election for a new Term Discount plan sixty calendar days prior to the end of the discount period, the rates will automatically convert to month-to-month service rates. (C)

To be included in a Term Discount plan all eligible SABNT rate elements must be ordered for the same commitment term (i.e., all 36 months, all 60 months, all 96 months or all 120 months as the case may be) and with the same service date. When additional capacity is subsequently added, it will be available only on a month-to-month basis unless the discount period of the entire service is upgraded. (C)

(E) Term Discounts (Cont'd)

(3) Discontinuance of Service (Cont'd)

Should the customer choose to discontinue service ordered under a 60 month Term Discount plan after the minimum service period but before the completion of the first 36 months of the Term Discount period, discontinuance charges equal to the charges for the months of service rendered at the undiscounted monthly rates less any amounts previously paid will apply.

Should the customer choose to discontinue service ordered under a 60 month Term Discount plan after completion of the first 36 months of the Term Discount period, discontinuance charges equal to the charges for the months of service rendered at 36 month (3 year) Term Discount monthly rates less any amounts previously paid will apply.

Should the customer choose to discontinue service ordered under a 96 month Term Discount plan after the minimum service period but before the completion of the first 60 months of the Term Discount period, discontinuance charges equal to the charges for the months of service rendered at the undiscounted monthly rates less any amounts previously paid will apply.

Should the customer choose to discontinue service ordered under a 96 month Term Discount plan after completion of the first 60 months of the Term Discount period, discontinuance charges equal to the charges for the months of service rendered at 60 month (5 year) Term Discount monthly rates less any amounts previously paid will apply.

Should the customer choose to discontinue service ordered under a 120 month Term Discount plan after the minimum service period but before the completion of the first 96 months of the Term Discount period, discontinuance charges equal to the charges for the months of service rendered at the undiscounted monthly rates less any amounts previously paid will apply.

Should the customer choose to discontinue service ordered under a 120 month Term Discount plan after completion of the first 96 months of the Term Discount period, discontinuance charges equal to the charges for the months of service rendered at 96 month (8 year) Term Discount monthly rates less any amounts previously paid will apply.

ACCESS SERVICE16. Public Packet Data Network (Cont'd)

(N)

16.8 Stand-Alone Broadband Network Transport (SABNT) (Cont'd)16.8.2 Regulations (Cont'd)(E) Term Discounts (Cont'd)(4) SABNT Volume Discount Plan

The SABNT Volume Discount Plan (SABNT VDP) is an optional pricing plan that provides the SABNT Term Discount Plan customer with an additional discount applied against the monthly charges for its in-service committed SABNT Connections when the customer has at least 101 committed SABNT Connections in-service within the Telephone Company's operating territory.

In order to subscribe to and retain the SABNT VDP, the customer must have a SABNT Term Discount Plan commitment with the Telephone Company of 96 months in duration (eight years) or greater. The SABNT Term Discount Plan customer must notify the Telephone Company in writing it wants to establish a SABNT VDP. The customer may request a SABNT VDP at the same time as it establishes its SABNT Term Discount Plan commitment or at any time prior to the expiration of an existing SABNT Term Discount Plan. The SABNT VDP will continue for the balance of the customer's SABNT Term Discount Plan commitment.

Each month on the bill date, the Telephone Company will determine the number of the customer's committed SABNT Connections in-service. If that number falls below 101, the customer will not be eligible for the SABNT VDP discount that month. When the number of committed SABNT Connections in-service is at least 101, the SABNT VDP discount will be applied for that month after the SABNT Term Discount Plan discount for the customer's selected term length is applied.

The Metro Ethernet Fixed Rate Option (FRO) Plan 3 allows customers to freeze the rates in effect as of May 31, 2014 for either a 36-month or 60-month period corresponding with, respectively, a three-year or five-year term commitment. (T)

Customers may elect Metro Ethernet FRO Plan 3 anytime between May 31, 2014 and June 30, 2014. After June 30, 2014, FRO Plan 3 will not be available for new or added services. (T)

The frozen rates for Metro Ethernet FRO Plan 3 are listed herein in Section 17.4.8.4(G) following and will be billed in lieu of rates listed in Section 17.4.8.4(A) until the termination of the applicable term commitment period. The regulations for the Metro Ethernet FRO Plan are contained at (T)

Section 16.5.3(F)(4) preceding. The regulations applicable to Metro Ethernet Term Discount Plans are contained in Section 16.5.3(F) preceding. (T)

ACCESS SERVICE17. Rates and Charges – Lancaster Telephone Company d/b/a Comporium Communications (Cont'd)17.4 Other Services (Cont'd)17.4.8 Public Packet Data Network (Cont'd)17.4.8.4 Metro Ethernet Service (Metro Ethernet) (Cont'd) (T)(F) Metro Ethernet Fixed Rate Option Plan 3 (Metro Ethernet FRO Plan 3) (T)

The Metro Ethernet Fixed Rate Option (FRO) Plan 3 allows customers to freeze the rates in effect as of May 31, 2014 for either a 36-month or 60-month period corresponding with, respectively, a three-year or five-year term commitment. (T)

Customers may elect Metro Ethernet FRO Plan 3 anytime between May 31, 2014 and June 30, 2014. After June 30, 2014, FRO Plan 3 will not be available for new or added services. (T)

The frozen rates for Metro Ethernet FRO Plan 3 are listed herein in Section 17.4.8.4(G) following and will be billed in lieu of rates listed in Section 17.4.8.4(A) until the termination of the applicable term commitment period. (T)

The regulations for the Metro Ethernet FRO Plan are contained at Section 16.5.3(F)(4) preceding. (T)

The regulations applicable to Metro Ethernet Term Discount Plans are contained in Section 16.5.3(F) preceding. (T)

ACCESS SERVICE17. Rates and Charges – Fort Mill Telephone Company d/b/a Comporium Communications (Cont'd)17.4 Other Services (Cont'd)17.4.8 Public Packet Data Network (Cont'd)17.4.8.4 Metro Ethernet Service (Metro Ethernet) (Cont'd) (T)(F) Metro Ethernet Fixed Rate Option Plan 2 (Metro Ethernet FRO Plan 2) (T)

The Metro Ethernet Fixed Rate Option (FRO) Plan 2 allows customers to freeze the rates in effect as of March 30, 2013 for either a 36-month or 60-month period corresponding with, respectively, a three-year or five-year term commitment. (T)

Customers may elect Metro Ethernet FRO Plan 2 anytime between March 30, 2013 and June 30, 2013. After June 30, 2013, FRO Plan 2 will not be available for new or added services. The frozen rates for Metro Ethernet FRO Plan 2 are listed herein in Section 17.4.8.4(F) following and will be billed in lieu of rates listed in Section 17.4.8.4(A) until the termination of the applicable term commitment period. The regulations for the Metro Ethernet FRO Plan are contained at Section 16.5.3(F)(4) preceding. The regulations applicable to Metro Ethernet Term Discount Plans are contained in Section 16.5.3(F) preceding. (T)
