TARIFF FORMAT

- A. Page Numbering** - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 14 and 15 would be 14.1.
- B. Page Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th revised Page 14 cancels the 3rd revised Page 14. Because of the various suspension periods and deferrals the Commission follows in its tariff approval process, the most current page number on file with the Commission is not always the tariff page in effect. Consult the check page for the page currently in effect.
- C. Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2
 - 2.1
 - 2.1.1
 - 2.1.1.A
 - 2.1.1.A.1
 - 2.1.1.A.1.(a)
 - 2.1.1.A.1.(a).I
 - 2.1.1.A.1.(a).I.(i)
 - 2.1.1.A.1.(a).I.(i).(1)
- D. Check Sheets** - When a tariff filing is made with the Commission an updated check sheet accompanies the filing. The check sheet lists the pages contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There shall be no other symbols used on this page if these are the only changes made to it. The tariff user should refer to the latest check sheet to find out if a particular page is the most current on file with the Commission.

2.7 Taxes and Fees

All applicable taxes (e.g. excise taxes, sales taxes, municipal taxes) are listed as a separate line item on the Customer's bill and are not included in the quoted rates and charges set forth in this tariff.

2.7.1 To the extent that a municipality, other political subdivision or agency of government, or the Commission imposes upon and collects from the Company a gross receipts tax, occupation tax, license tax, permit fee, franchise fee, or regulatory fee, such taxes and fees shall, insofar as practicable and allowed by law, be billed pro rata to Customers receiving service from the Company within the territorial limits of such municipality, other political subdivision or agency of government.

2.7.2 The Company may adjust its rates and charges or impose additional rates and charges on its Customers in order to recover amounts it is required by governmental or quasi-governmental authorities to collect from or pay to others in support of statutory or regulatory programs. Examples of such programs include, but are not limited to, the Universal Service Fund (USF). Imposition, billing and collection of such rates and charges are subject to billing and other system changes by the Company.

2.7.3 Fees

A. For recovery of contributions paid by the Company to support Universal Service Fund Fee (USF)

Telecommunications services provided by the Company are subject to an undiscountable monthly Universal Service Fund Fee, payable by the Customer. The fee shall be calculated as follows:

The gross amounts (exclusive of taxes) attributable to interstate and international services billed to the Customer by the Company will be multiplied by the rate specified by the appropriate official agency applicable on the date the charges are billed.

This percentage will be subject to periodic adjustment by the Company.

The USF Fee will not be applied to services sold by the Company to a Customer for resale for which the Customer has filed a Universal Service Worksheet, unless the Customer has a de minimis exemption which exempts the Customer from paying directly into the Universal Service Fund.

B. For recovery of contributions paid by the Company to recover Pay Phone Per Call Compensation Surcharge

In order to recover the Company's expenses to comply with the Commission's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), unless otherwise stated in this tariff, an undiscountable per call charge is applicable to all international calls that originate from any domestic pay telephone, not served by a line presubscribed to the Company, used to access the Company's services on a dial-around basis. The Pay Telephone Surcharge, which is in addition to standard usage charges and any applicable service charges and surcharges associated with the Company's service, applies for the use of the instrument used to access the Company service and is unrelated to the Company's service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (i.e., using the "#" symbol).

Whenever possible, the Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information that the originating station is an eligible pay telephone.

C. Federal Access Charge

(T)

Telecommunications services provided by the Company are also subject to an undiscountable monthly charge imposed by the Company and payable by the Customer. The charge, noted on the Customer's bill as a Federal Access Charge, shall be added to each long distance line and is calculated as follows:

Business Customers	\$ 3.85 per line per month	(T)
Centrex	\$ 1.50 per line per month	
ISDN PRI	\$17.55 per interface* per month	
Residential Customers	\$ 1.99 per line per month	(N)

The line determination is based on available Company and/or LEC-provided information. Where line charges cannot be determined by the underlying carrier, all line charges are \$3.85.

The Federal Access Charge helps to defray the cost of access charges and fees that Local Exchange Carriers assess on interexchange carriers. This is a Company surcharge, not a tax, and is subject to change.

(C)
(C)

The Federal Access Charge will be billed at 50% of the applicable rate when the line is seasonally suspended.

(C)
(C)

* The ISDN PRI charge is per pipe, not per channel.

The changes reflected on this revision will be implemented on a full bill period basis on the customer's January bill statement.

2.8 Terminal Equipment

The Company's facilities and service may be used with or terminated in Customer-provided terminal equipment or Customer-provided communications systems, such as a telephone set, PBX or key system. Such terminal equipment shall be furnished and maintained at the expense of the Customer, except as otherwise provided in this tariff or separately agreed upon by the Customer and the Company. The Customer is responsible for all costs at his or her premises, including, but not limited to, personnel, wiring, electrical power, and the like, incurred in the use of the Company's service. When such terminal equipment is used, the equipment shall comply with applicable rules and regulations of the Federal Communications Commission, including, but not limited to, Part 68. In addition equipment must comply with generally accepted minimum protective criteria standards and engineering requirements of the telecommunications industry which are not barred by the Federal Communications Commission.

2.9 Installation

No installation of the Company's services at the Customer's Premises is required to use the Company's service. Service is initiated by request of the Customer. 2.10 Payment for Service

- 2.10.1** Service is provided and billed on a monthly basis unless otherwise stated in the service description in this tariff. Bills are due and payable upon receipt. A late fee equal to that charged by the local exchange carrier serving the Customer, 1.5% per month, or the maximum amount allowed by law, whichever is lower, may apply to any unpaid and past due balance. The late fee may be charged by the Company directly or by the Company's billing services provider. The late fee begins to accrue no sooner than the 25th day after the billing date. In the event that the Company incurs fees or expenses, including attorney's fees, collecting, or attempting to collect, any charges owed to the Company, the Company or its billing services provider may charge the Customer, and the Customer will pay, all such fees and expenses reasonably incurred. Collection fees on overdue charges apply in addition to all applicable late payment charges and shall begin to accrue when the Account is assigned to an outside collection agency.
- 2.10.2** The Customer is responsible for payment of all charges for service furnished to or used by the Customer, or the Customer's agents, servants, employees or Customers. The Customer is also responsible for payment of charges for all other third persons' use of service to which the Customer subscribes. All charges due from the Customer are payable to the Company or to the Company's authorized billing agent in immediately available U.S. dollars. Any objections to billed charges must be reported to the Company or its billing agent within six months after receipt of bill. Adjustments to the Customer's bill shall be made to the extent that circumstances exist which reasonably indicate that such changes are appropriate.
- 2.10.3** The security of the Customer's Authorization Codes is the responsibility of the Customer. All calls placed using such Authorization Codes shall be billed to and shall be the obligation of the Customer. The Customer is responsible for all calls placed via the Customer's Authorization Code, whether such use is as a result of the Customer's intentional or negligent disclosure of the Authorization Code or otherwise. However, the Customer shall not be responsible for charges in connection with the unauthorized use of Authorization Codes arising after the Customer notifies the Company of the loss, theft, or other breach of security of such Authorization Codes.

2.10 Payment for Service, (Cont'd.)

- 2.10.4** The Company reserves the right to assess a charge of \$20.00, or the maximum amount allowed by law, whenever a check or draft presented for payment of service is not accepted by the institution upon which it is written.
- 2.10.5** The Customer shall be responsible for payment of rates and charges for all calls placed by or through Customer's equipment by any person. In particular and without limitation of the foregoing, the Customer is responsible for payment of rates and charges for any calls placed by or through the Customer's equipment via any remote access features.
- 2.10.6** The Company reserves the right to examine the credit record or other available external sources of credit of an applicant or Customer. The Customer whose service has been disconnected for nonpayment of bills shall be required to pay any unpaid balance due to the Company before service is restored, and a deposit may be required.
- 2.10.7** The Company shall make no refund of overpayment by the Customer unless the claim for such overpayment, together with proper evidence, is submitted within two years of the date of alleged overpayment. In calculating refunds, any applicable discounts shall be adjusted based upon the actual monthly usage after all credits and adjustments have been applied.

2.11 Deposits

2.11.1 Each applicant for service may be required to establish credit. Any applicant whose credit has not been duly established may be required to make a deposit at the time of application to be held as a guarantee of payment of charges. In addition, an existing Customer may be required to make a deposit or increase a deposit currently held. The Company shall pay interest on deposits pursuant to applicable rules and regulations.

2.11.2 A deposit shall not exceed the estimated charges for two months service, plus installation, and shall be returned:

- A.** When an application for service has been canceled prior to the establishment of service. Such deposit shall be applied to any applicable charges, and the excess portion of the deposit shall be returned.
- B.** At the end of twelve (12) consecutive months of a satisfactory credit history.
- C.** Upon discontinuation of service. The Company shall apply the Customer deposit against any outstanding balances due. If a credit balance exists, the Company shall refund the balance to the Customer.

2.11.3 The fact that a security deposit has been made in no way relieves the Customer from the prompt payment of bills upon presentation.

2.12 Advance Payments

The Company reserves the right to require an advance payment from the Customer instead of, or in addition to, a security deposit. The advance payment shall be in an amount equal to or less than estimated installation charges plus two months' estimated billing.

2.13 Interruption of Service

2.13.1 Credit allowances for interruptions of service which are not due to the Company's testing or adjusting, to the negligence or other wrongful act or omission of the Customer, or to the failure of services, channels, equipment and/or communications systems provided by the Customer or the Customer's agents, servants, employees or Customers, are subject to the general liability provisions set forth in this tariff. It shall be the obligation of the Customer to notify the Company immediately of any interruption in service for which a credit allowance is desired by the Customer. Before giving such notice, the Customer shall ascertain that the trouble is not within his or her control, or is not in wiring or equipment, if any, furnished by the Customer. Interruptions caused by Customer-provided, or Company-provided automatic dialing equipment are not deemed an interruption of service as defined herein since the Customer has the option of using the long distance network via dial access code.

2.13.2 For purposes of credit computation, every month shall be considered to have 30 days and every day 24 hours. For all Company services no credit shall be allowed for an interruption of continuous duration of less than twenty-four hours. For services billed on a usage basis, credits will be limited to, at maximum, the price of the call that was in progress at the time of the service interruption.

For services with a monthly recurring charge, credit is computed by multiplying the monthly recurring rate by the ratio that the number of hours in the period of interruption bears to 720 hours (30 days times 24 hours). The credit shall be based upon the non-usage charges for the month during which the interruption occurred, excluding equipment and access line charges. Credits for services billed on a usage basis will be determined as set forth above.

2.13.3 An interruption is measured from the time the Customer notifies the Company of the interruption until the trouble is cleared. Each interruption is considered separately for the purposes of establishing credit allowance. Unless otherwise specified in this tariff, the credit for a billing period shall not exceed the monthly rate.

The Customer shall pay such bills in full in accordance with the payment terms of this tariff.

2.14.1 Cancellation by the Customer

The Customer may have service canceled upon written or verbal notice to the Company. The Customer shall pay the Company for service furnished until the cancellation date specified by the Customer or until the date that the written cancellation notice is received, whichever is later. Cancellation of service is subject to early termination liability obligations set forth in this tariff.

2.14.2 Refusal, Suspension or Cancellation of Service without Prior Notice

- A.** Service may be suspended by the Company, without prior notice to the Customer, by blocking traffic and all services to certain cities, countries, or NPA-NXX exchanges, or individual telephone numbers, or by blocking calls using certain Customer Travel Cards when the Company deems it necessary to take such action to prevent unlawful or fraudulent use of its service. The Company will restore services as soon as it can be provided without undue risk, and will upon request by the Customer, assign new Travel Card numbers and authorization codes to replace ones that have been deactivated.
- B.** For violation of law or this tariff: Except as provided elsewhere in this tariff, the Customer shall be subject to refusal, suspension or cancellation of service, without prior notice, for any violation of terms of this tariff, for any actual or apparent violation of any law, rule, regulation, order, decree or policy of any government authority of competent jurisdiction, or by reason of any order or decision of a court or other government authority having jurisdiction which prohibits the Company from furnishing such service or prohibits Customer from subscribing to, using, or paying for such service.

The Company provides telecommunications services between locations within the United States and foreign locations as specified herein. The Company's charges may be based upon call duration, time of day rate period, mileage, volume, location, and/or call type.

All rates specified in this tariff are expressed in US dollars and cents.

All usage rates are expressed as rate per minute, unless otherwise clearly indicated.

SECTION 3 - DESCRIPTION OF SERVICE AND RATES, (CONT'D.)

3.2 Calculation of Distance

Usage charges for all mileage sensitive services are based on the airline distance between the rate center locations associated with the originating and terminating points of the call.

The distance between the originating and terminating points is calculated by using the industry standard "V" and "H" coordinates of the applicable rate centers, in the following manner:

Step 1 - Obtain the "V" and "H" coordinates for the rate center of the originating and the destination points.

Step 2 - Obtain the difference between the "V" coordinates of each of the rate centers. Obtain the difference between the "H" coordinates.

Step 3 - Square the differences obtained in Step 2.

Step 4 - Add the squares of the "V" difference and "H" difference obtained in Step 3.

Step 5 - Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.

Step 6 - Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating rate centers of the call.

Formula:

$$\sqrt{\frac{(V_1 V_2)^2 + (H_1 H_2)^2}{10}}$$

SECTION 3 - DESCRIPTION OF SERVICE AND RATES, (CONT'D.)

3.3 Timing of Calls

Billing for calls placed over the network is based in part on the duration of the call.

- 3.3.1** Timing for all calls begins when the called party answers the call (i.e. when two way communications are established.) Answer detection is based on standard industry answer detection methods, including hardware and software answer detection.
- 3.3.2** Chargeable time for all station to station calls begins when connection is established between the calling party and the called party and ends when the calling party hangs up, thereby releasing the network connection. If the called party hangs up but the calling station does not, chargeable time ends when the network connection is released, either by automatic timing equipment in the network or by an operator.
- 3.3.3** Minimum call duration for billing purposes is one minute unless otherwise specified in the individual rate schedules of this tariff.
- 3.3.4** Calls are measured and billed in one minute increments on a per-call basis, unless otherwise indicated in this tariff. Fractional billing increments are rounded to the full billing increment as stated in the product description.
- 3.3.5** No charges apply to incomplete calls. An incomplete call is a station call in which the called station does not answer, or a person to person call in which the station does not answer or the requested person is unavailable, or a collect call for which the called party refuses to accept the charges.
- 3.3.6** Usage charges are computed on a per call basis. When computation of call charges result in fractional cents, the resulting charge is rounded to the nearest penny.

SECTION 3 - DESCRIPTION OF SERVICE AND RATES, (CONT'D.)

3.5 International Message Telecommunications Service (IMTS)

3.5.1 General

International Message Telecommunications Service (IMTS) is the basic international long distance service offered to Residential and Business Customers for outbound direct dialed calling. IMTS Service is the default service for Customers that make international calls, but have not selected a specific international option. Rates are available 24 hours a day, seven (7) days a week.

IMTS is available to Customers who are presubscribed to Long Distance Message Telecommunications Service (LDMTS), or any of the Company's domestic plans, for outbound interexchange direct dialed calling.

If a customer no longer purchases or is disconnected from the Company's outbound interexchange direct dialed calling plans, the Customer will also be disconnected from IMTS.

Service is offered subject to the availability of the necessary facilities, equipment and/or Customer information, including, but not limited to, billing systems and information required for billing. The Company may decline applications for service to or from a location where the necessary facilities or equipment are not available.

3.5 International Message Telecommunications Service (IMTS), (Cont'd.)

3.5.2 Billing Increments

Calls are billed in one (1) minute increments after an initial minimum call duration of one (1) minute. Any partial minute is rounded up to a full minute. Fractional charges are rounded up to the next cent.

In addition to the calling plan usage rates, Premium Termination surcharges apply to Dial 1 switched calls to premium services in certain localities. When Premium Termination surcharges are applicable, the surcharge usage rate is added to the plan usage rate and will appear on the Customer's bill as a single combined rate.

3.7 International Operator Assisted Calling

3.7.1 General Description

Subject to Section 2.1 of this tariff, the Company's International Operator Assisted Calling is available to Customers or consumers. Operator Services allow Customers and consumers to place calls using operator assistance for call completion or billing. Operator Assisted calls are billed in one (1) minute increments after an initial minimum call duration of one (1) minute at the rates specified in Section 3.7.3 below. Partial minutes are rounded up to the next minute. International Operator Assisted Calling rates apply to all classes of operator assisted calls, as specified in Section 3.7.3 of this tariff, except to Travel Card and Joint Offer Card calls. A service charge applies to each completed operator assisted call, as specified in Section 3.7.2, except for Travel Card and Joint Offer Card calls.

Usage charges and an appropriate service charge will be assessed on a per call basis, as stated in this tariff. For calls made using a Travel and/or Calling Card, acceptance of the card will be dependent upon the Company's ability to verify the card as valid. Only those cards accepted by the Company may be used to bill the Company's services. The Company reserves the right to verify acceptance of charge prior to billing charges to a third party number.

- A.** Operator Services may be used by a Customer and by an Aggregator and their respective Consumers (i.e., patrons, guests, invitees or employees) to complete Operator Station, Person-to-Person, Collect, Third-Party, and/or Calling Card calls.
- B.** Charges for Operator Assisted Calls include two components: a usage-sensitive component and a fixed per-call service charge based upon the type of operator service provided.
- C.** The usage-sensitive portion of the charge for an Operator Assisted Call is set forth in Section 3.7.3 below.

SECTION 3 - DESCRIPTION OF SERVICE AND RATES, (CONT'D.)

3.7 International Operator Assisted Calling, (Cont'd.)

3.7.1 General Description, (Cont'd.)

- D.** The fixed per-call service charge portions of the charge for an Operator Assisted Call are set forth in Section 3.7.2 below.
- E.** The Company reserves the right to validate the billing method of Customers through available Calling Card, called number, Third Party telephone number and room number verification procedures. Where a requested billing method cannot be validated, the Customer/Consumer may be required to provide an acceptable alternate billing method or the Company may refuse to place the call.
- F.** The Company shall not bill the Customer for any surcharges or fees imposed by the Aggregator. With respect to charges imposed by the Aggregator for the use of the telephone, the Aggregator is responsible for charging a flat rate and for posting of the charge in plain view at each telephone.
- G.** Service may be suspended by the Company, without notice to the Customer or the Aggregator, by blocking traffic to certain countries, cities, or NPA-NXX exchanges or individual telephone number, or by blocking calls using certain Customer Authorization Codes, or Calling Cards, when the Company deems it necessary to take such action to prevent unlawful or fraudulent use of service. The Company shall restore service as soon as it can be provided without undue risk, and shall, upon request by the Customer affected, assign a new Authorization Code to replace the one that has been deactivated. The Company reserves the right to validate the credit worthiness of Customers through available Calling Card, called number, Third Party telephone number and room number verification procedures. Where a requested billing method cannot be validated, the Customer or Consumer may be required to provide an acceptable alternate billing method or the Company may refuse to place the call.
- H.** The Calling Card holder or local exchange company service subscriber is responsible for payment of the Company's charges for all calls billed to a Calling Card or a telephone line number, respectively.
