Re: CC Docket 02-33 – Notice of Permissive Detariffing of Wireline Broadband Internet Access Service by Granite State Telephone, Inc. (Study Area 120039)

Dear Valued Customer:

Our records indicate that Granite State Long Distance, Inc. is currently purchasing wholesale broadband transport services from Granite State Telephone, Inc. ("Granite") under NECA Tariff No. 5 ("Tariff"). This letter is to advise you that Granite's study area 120039 will discontinue provisioning service on July 1, 2015, pursuant to the Tariff. Thereafter, services will be made available to you on a common carrier non-tariffed basis. The existing relevant rates, terms and conditions will not change until the end of your term or upon replacement with a broadband commercial agreement. Granite's rates, terms and conditions for its non-tariffed wireline broadband access service will be available at its office located at 600 South Stark Highway, Weare, NH 03281 and on its website at [www.mygsc.com](http://www.mygsc.com).

The actions described above are taken in accordance with the FCC's Report and Order (FCC 15-150) released September 23, 2015 in Docket No. 02-33. In the order, the FCC determined that facilities-based wireline broadband internet service providers could offer their services on a common carrier, permissively detariffed basis.

Sincerely,

Re: **CC Docket 02-33 – Notice of Detariffing of Common Carrier Wireline Broadband Internet Access Transmission Service**

Dear Ms. Dortch:

By this letter, consistent with the requirements of paragraph 101 of the Federal Communications Commission's *Report and Order and Notice of Proposed Rulemaking* in CC Docket Numbers 02-33 and 01-337 released September 23, 2005, FCC 05-150 ("*Broadband Internet Order*"), *Armstrong Telephone Company - PA* ("Company") hereby notifies the Commission that the Company intends to commence offering its wireline broadband internet access transmission service (WBIATS) on a detariffed basis effective July 1, 2015. While the service will be detariffed, it will continue to be offered on a common carrier basis. Accordingly, the Company has notified the National Exchange Carrier Association ("NECA") and requested the Company be removed from the list of carriers providing Digital Subscriber Line service under NECA Tariff F.C.C. No. 5, effective July 1, 2015.

*The Company* has only one customer currently taking WBIATS and that customer is the nonregulated Internet Service Provider ("ISP") operation of the Company. The nonregulated operation of the Company purchases WBIATS as a component in its broadband Internet service sold to consumer and commercial end user customers. The discontinuation of the tariffed offering of WBIATS will have no effect on the end user Internet service provided by the Company.

Pursuant to the requirements of paragraph 101 of the *Wireline Broadband Order*, a copy of this notice is being sent to the Governor of Pennsylvania, the Pennsylvania Public Utility Commission, and the Special Assistant for Telecommunications at the Department of Defense. A copy of this notice is also being sent to NECA.

If you have any questions, please do not hesitate to contact me.

Sincerely,

James W. Ranko  
Director of Regulatory Compliance

**Armstrong Telephone Company – PA  
Study Area 170189  
1755 State Route 30

**CC Docket No. 02-33**

July 1, 2015

Pursuant to Federal Communications Commission's *Report and Order and Notice of Proposed Rulemaking* in CC Docket Numbers 02-33 and 01-337 adopted August 5, 2005 and released September 23, 2005, FCC 05-150 (*"Broadband Internet Order"*), facilities-based wireline carriers are permitted to offer broadband Internet access transmission common carrier service pursuant to tariff, or on a detariffed basis. Effective July 1, 2015, Armstrong Telephone Company – PA ("Company") will begin offering its wireline broadband Internet access transmission service (normally referred to Digital Subscriber Line or DSL service or WBIATS) on a detariffed basis. The Company is required to provide notice to certain parties of the carrier's intent to discontinue providing WBIATS on a tariffed basis. This notice by the Company fulfills that requirement.

The Company will continue to make WBIATS available on a detariffed common-carriage basis through posting on its Internet website (<http://armstrongonewire.com/support/tariffs/>), with a copy of the generally available terms, conditions and rates available for public inspection at 1755 State Route 30, Clinton, PA 15026.

The reasons the Company has elected to make this change in its offering of WBIATS are cost and competition related. Currently, the company is required to offer WBIATS under the rates, terms and conditions of National Exchange Carrier Association (NECA) Tariff F.C.C. No. 5. The rates per NECA's tariff are nationwide average rates. By detariffing its wireline broadband Internet access transmission service, the Company will gain greater flexibility which will enable the Company to respond to changing customer demands more quickly than under a tariffing regime. By electing this option, the Company will be able to not only offer more competitive prices but also offer new and innovative service arrangements that respond to the customer needs. The Company's hope is that this change will increase the use of broadband Internet access, a goal shared not only by the Company but also by the Federal government and State of Pennsylvania.

Notice by Armstrong Telephone Company - PA

To Provide Wireline Broadband Internet Access Service on a Detariffed Basis

Page 2

While the detariffing of this service does not constitute a discontinuance of service, the Federal Communications Commission has asked carriers that implement detariffing to follow procedures similar to those required for the discontinuance of service. Consistent with those requirements, you are hereby informed that the business office address for Armstrong Telephone Company – PA is 1755 State Route 30, Clinton, PA 15026. Please also be informed that the geographic areas affected by this change are the certified telecommunications territory served by the Company's 899 exchange in Clinton, PA. The FCC will normally authorize this proposed discontinuance of service (or reduction or impairment) unless it is shown that customers would be unable to receive the discontinued service or a reasonable substitute from another carrier or that the public convenience and necessity is otherwise adversely affected.

If you wish to object, you may file your comments within 30 days after receipt of this notification. Address them to the Federal Communications Commission, Washington, D.C. 20554, referencing the Section 63.71 Application of Armstrong Telephone Company – PA. Comments should include specific information about the impact of this proposed discontinuance (or reduction or impairment) upon you or your company, including any inability to acquire reasonable substitute service.

This notice is an informational notice only, required by the FCC. No action is required on your part. If you have any questions, please call me at 724.283.3692 (extension 50342).

Re: **CC Docket 02-33 – Notice of Detariffing of Common Carrier Wireline Broadband Internet Access Transmission Service**

Dear Ms. Dortch:

By this letter, consistent with the requirements of paragraph 101 of the Federal Communications Commission's *Report and Order and Notice of Proposed Rulemaking* in CC Docket Numbers 02-33 and 01-337 released September 23, 2005, FCC 05-150 ("*Broadband Internet Order*"), *Accipiter Communications, Inc.* ("Company") hereby notifies the Commission that the Company intends to commence offering its wireline broadband internet access transmission service (WBIATS) on a detariffed basis effective July 1, 2015. While the service will be detariffed, it will continue to be offered on a common carrier basis. Accordingly, the Company has notified the National Exchange Carrier Association ("NECA") and requested the Company be removed from the list of carriers providing Digital Subscriber Line service under NECA Tariff F.C.C. No. 5, effective July 1, 2015.

The Company has only one customer currently taking WBIATS and that customer is the nonregulated Internet Service Provider ("ISP") operation of the Company. The nonregulated operation of the Company purchases WBIATS as a component in its broadband Internet service sold to consumer and commercial end user customers. The discontinuation of the tariffed offering of WBIATS will have no effect on the end user Internet service provided by the Company.

Pursuant to the requirements of paragraph 101 of the *Wireline Broadband Order*, a copy of this notice is being sent to the Governor of Arizona, the Arizona Corporation Commission, and the Special Assistant for Telecommunications at the Department of Defense. A copy of this notice is also being sent to NECA.

If you have any questions, please do not hesitate to contact me.

Sincerely,

**CC Docket No. 02-33**

April 20, 2015

Pursuant to Federal Communications Commission's *Report and Order and Notice of Proposed Rulemaking* in CC Docket Numbers 02-33 and 01-337 adopted August 5, 2005 and released September 23, 2005, FCC 05-150 ("*Broadband Internet Order*"), facilities-based wireline carriers are permitted to offer broadband Internet access transmission common carrier service pursuant to tariff, or on a detariffed basis. Effective July 1, 2015, Accipiter Communications, Inc. ("Company") will begin offering its wireline broadband Internet access transmission service (normally referred to Digital Subscriber Line or DSL service or WBIATS) on a detariffed basis. The Company is required to provide notice to certain parties of the carrier's intent to discontinue providing WBIATS on a tariffed basis. This notice by the Company fulfills that requirement.

The Company will continue to make WBIATS available on a detariffed common-carriage basis through posting on its Internet website ([www.zonacommunications.com](http://www.zonacommunications.com)), with a copy of the generally available terms, conditions and rates available for public inspection at 2238 W. Long Cactus Drive, Suite 100 Phoenix, AZ 85027

The reasons the Company has elected to make this change in its offering of WBIATS are cost and competition related. Currently, the company is required to offer WBIATS under the rates, terms and conditions of National Exchange Carrier Association (NECA) Tariff F.C.C. No. 5. The rates per NECA's tariff are nationwide average rates. By detariffing its wireline broadband Internet access transmission service, the Company will gain greater flexibility which will enable the Company to respond to changing customer demands more quickly than under a tariffing regime. By electing this option, the Company will be able to not only offer more competitive prices but also offer new and innovative service arrangements that respond to the customer needs. The Company's hope is that this change will increase the use of broadband Internet access, a goal shared not only by the Company but also by the Federal government and State of Arizona.

Notice by Accipiter Communications, Inc.

To Provide Wireline Broadband Internet Access Service on a Detariffed Basis

Page 2

While the detariffing of this service does not constitute a discontinuance of service, the Federal Communications Commission has asked carriers that implement detariffing to follow procedures similar to those required for the discontinuance of service. Consistent with those requirements, you are hereby informed that the business office address for Accipiter Communications Inc. is 2238 W. Long Cactus Drive, Suite 100 Phoenix, AZ 85027. Please also be informed that the geographic areas affected by this change are the certified telecommunications territory served by the Company's Lake Pleasant and Sun Valley exchanges. The FCC will normally authorize this proposed discontinuance of service (or reduction or impairment) unless it is shown that customers would be unable to receive the discontinued service or a reasonable substitute from another carrier or that the public convenience and necessity is otherwise adversely affected.

The only customer for the Company’s WBIAS is the Company’s affiliate nonregulated Internet Service Provider (“ISP”) operation.
