SECTION 2 – TERMS AND CONDITIONS

2.8 Restoration of Service

If Service has been discontinued for nonpayment or as otherwise provided herein and the Customer wishes it continued, Service shall, at SBCLD's discretion, be restored when all past due amounts are paid or the events giving rise to the discontinuance (if other than nonpayment) is corrected.

2.9 Cancellation of Application for Service

When the Customer or Applicant cancels an application for Service prior to the start of installation of Service, or prior to the start of special construction, no charge applies. Where installation of Service has been started prior to cancellation, a cancellation charge equal to the costs incurred by SBCLD but not greater than the charge for the minimum period of Service shall apply. If special construction has either begun or has been completed, but Service has not been provided at the time the Customer cancels Service, the Customer is responsible for all construction costs incurred by SBCLD on the Customer's behalf.

2.10 Initial Contract Period

Unless otherwise stated the initial contract period for Service is one month. Thereafter, contract periods shall be for successive one-month periods.

SECTION 2 – TERMS AND CONDITIONS

2.11 Obtaining Services; Proof of Authorization and Identity

To obtain Service, SBCLD requires the Customer to provide SBCLD with whatever authorization SBCLD deems appropriate. Upon SBCLD's acceptance of this authorization, all applicable SBCLD terms and conditions, as amended from time-to-time, become the agreement for Service between SBCLD and the Customer. SBCLD reserves the right, at any time, to require any Customer to present proof of identification to SBCLD as SBCLD may then deem acceptable. Acceptance or use of Service offered by SBCLD shall be deemed an application for such Service and an agreement by the Customer to subscribe to, use, and pay for such Service.

(D)
(D)

2.12 Establishment of Credit and Deposits; Toll Restriction; Credit Limits

2.12.1 SBCLD reserves the right to require all Applicants to establish credit worthiness to the reasonable satisfaction of SBCLD. In addition, if the conditions of Service or the basis on which credit was originally established have materially changed, an existing Customer may be required to establish additional credit. SBCLD reserves the right to examine the credit record and check the references of any Customer at any time. If the Customer's financial condition is unknown or unacceptable, SBCLD reserves the right to require a security deposit, which SBCLD may apply to overdue charges. The security deposit amount shall be up to three month's estimated usage, with SBCLD determining the amount of the deposit. SBCLD shall pay interest on deposits as required under state law. SBCLD shall review the account periodically to determine if all amounts due have been paid within the terms and conditions of this agreement. In that event, SBCLD shall refund the deposit in full within the time prescribed under state law, but in no event later than one year following the deposit.

SECTION 2 – TERMS AND CONDITIONS

2.12 Establishment of Credit and Deposits; Toll Restriction; Credit Limits (continued)

- 2.12.2 SBCLD reserves the right to refuse Service to any Applicant who is indebted to SBCLD for Service(s) previously furnished until satisfactory payment arrangements have been made for all such indebtedness. SBCLD further reserves the right to refuse Service to any Applicant who is currently indebted to SBCLD for Service(s) on another SBCLD account, until satisfactory payment arrangements have been made for all such indebtedness. SBCLD may also refuse Service to any Applicant attempting to establish service for a former Customer who is indebted for previous Service(s), regardless of whether or not the previous Customer was furnished Service at the same location, until satisfactory payment arrangements have been made for the payment of all such prior indebtedness. If Service is established and it is subsequently determined that any of the foregoing conditions exist, SBCLD may suspend or terminate such Service until satisfactory arrangements have been made for the payment of the prior and/or concurrent indebtedness. Where a Customer subscribes to more than one active telephone account, and SBCLD suspends or terminates Service to one or more of the Customer's accounts for nonpayment, SBCLD may, at its option, initiate action for collection, including the action to suspend or terminate some or all of the other active Customer accounts, with notice as prescribed under these terms and conditions. Finally, SBCLD reserves the right to discontinue granting any further credit to Customer in the event of Customer's repeated delinquency in payment for Services, fraudulent use, suspension or disconnection of Service, initiation of a proceeding by or against the Customer under the United States Bankruptcy Code, or any other material breach, where not prohibited by federal law, rule or regulation. In such event, SBCLD may, at its sole discretion, require the Customer to pre-pay for all future Services as thereafter directed by SBCLD.

SECTION 2 – TERMS AND CONDITIONS

2.12 Establishment of Credit and Deposits; Toll Restriction; Credit Limits (continued)

- 2.12.3 SBCLD may regularly review any Customer's toll usage in order to protect itself from fraudulent or excessive usage by high-risk Customers or Customers who are delinquent in their payments. When SBCLD determines that the usage volume increases the likelihood that a particular Customer will not pay or will be unable to pay for usage, SBCLD may implement its toll blocking process. Pursuant to that process, SBCLD may place a restriction on or discontinue Customer's use of domestic and/or international long distance services 1+, 0+, and/or all 900/976/700/500 calls until the Customer makes payment arrangements satisfactory to SBCLD. Access to local calling, operator-assisted calls, emergency services (9-1-1), 800 and 888 calls will not be affected. In the event that toll access is restricted or blocked pursuant to the foregoing, Customers attempting to access restricted services will be automatically routed to either a recorded announcement or a service representative for information regarding restoration of service. This process allows SBCLD to reasonably limit the amount of toll usage Customers may accumulate. (D)
- 2.12.4 SBCLD may establish credit limits for new and existing Customers. Where a credit limit is established for a Customer, the Customer will be notified of the Customer's initial credit limit amount and any subsequent credit limit changes. Where a Customer becomes delinquent in payments, a new credit limit may be established that is lower than the Customer's initial credit limit. In the event a Customer's established credit limit is exceeded, or in the event a Customer becomes delinquent in the Customer's payments, SBCLD may implement its toll blocking process, as described above. SBCLD shall provide notice of adverse action regarding credit limits in accordance with Federal and State laws. (D)

SECTION 2 – TERMS AND CONDITIONS

2.13 Advanced Payments; Credit Card Authorization

SBCLD reserves the right to require an advanced payment from Customers and Applicants who, in SBCLD's judgment, present an undue risk of nonpayment. Such advanced payment may be required instead of or in addition to a security deposit. SBCLD shall be authorized to apply such advanced payments against any Service charges incurred by the Customer. The advanced payment shall be equal to or less than estimated installation charges plus two months' estimated billing. Advance payment requirements may be increased or decreased by SBCLD as it deems necessary in the light of changing conditions. SBCLD shall pay interest on advance payments only where required under state law. SBCLD may alternatively require such Customers and Applicants to authorize credit card billing for advance payments as described in the payment and billing section herein.

2.14 Payment and Billing

2.14.1 Monthly recurring charges for Service components are billed in advance of Service and reflect the rates in effect as of the date of the invoice. For the purpose of computing partial-month charges, a month is considered to consist of thirty days. SBCLD will bill calls in whole minute increments, unless otherwise stated in the service description of your calling plan. If the charge for a call includes a fraction of a cent of \$.005 or more, the fraction of such charge is rounded up to the next higher whole cent. Otherwise, the charge is rounded down to the next lower whole cent. Rounding for charges for Service(s) is on a call-by-call basis.

2.14.2 Bills are due and payable upon receipt. The Customer is liable for any reasonable fees and expenses including attorney's fees SBCLD incurs in order to collect the charges owed to SBCLD. SBCLD may also charge the Customer a late fee on the overdue charges of \$5.00 per month, or up to the maximum amount allowed under state law. Charges may be assessed for unbilled traffic up to two (2) years in arrears, except for fraud, where no limitation shall apply.

SECTION 2 – TERMS AND CONDITIONS

2.14 Payment and Billing (continued)

- 2.14.3 Customers that are direct-billed (as opposed to shared-billed by a LEC or CLEC) must provide SBCLD updated information within fifteen (15) days of a change in billing address and/or contact information. If the Customer fails to timely provide such updated information, SBCLD reserves the right to terminate service on five (5) days verbal or written notice to last known address/contact, and the Customer shall be responsible for any and all cancellation penalties.
- 2.14.4 The Customer is responsible for payment of all charges for Service furnished to the Customer or the Customer's agents or End Users. SBCLD reserves the right to assess a charge of \$25.00 whenever a check or draft presented for payment of Service is not accepted by the institution upon which it was written.
- 2.14.5 Credit card billing and automatic withdrawal from the Customer's checking or savings account may be available. However, if a Customer presents an undue risk of nonpayment at any time, SBCLD may require the Customer to pay its bill in cash or the equivalent of cash. With credit card billing, charges for Services provided by SBCLD are billed on the Customer's designated and approved credit card. Should the Customer cancel or change their designated credit card for billing, the Customer shall promptly inform SBCLD and designate new information for billing. Charges for Service are billed monthly in accordance with terms and conditions between the Customer and the Customer's designated credit card company. Call detail will not be included in the credit card bill; call detail will be provided by SBCLD by separate mailing.

SECTION 2 – TERMS AND CONDITIONS

2.15 Disputed Bills

Customers must notify SBCLD of any disputed charges in writing within 60 calendar days after the bill giving rise to such dispute is rendered. In the case of a billing dispute which cannot be settled with mutual satisfaction the Customer may, within 30 days of the date of the bill containing the disputed amount, request an in-depth investigation and review of the disputed amount. SBCLD shall communicate the results of such investigation and review as soon as reasonably possible. The undisputed portion and subsequent bills must be paid on a timely basis.

2.16 Changes to Rates and Charges

SBCLD may adjust its current rates and charges for Service(s) by providing ten (10) days written notice to the Customer before the changes take effect.

2.17 Tax Exemption Certificate

In order to be granted tax exempt status, a Customer claiming tax exempt status must provide SBCLD with copies of all tax exemption certificates and documents required by SBCLD at the time Service is ordered. SBCLD may accord the Customer tax exempt status upon receipt of the required documentation after Service is ordered. However, the Customer will be billed for all applicable taxes and will be responsible for the payment of same until such time as SBCLD has ceased billing the applicable taxes. SBCLD is not liable for refunding the amount of the taxes paid by the Customer. The Customer is responsible for seeking refunds for such taxes from the appropriate taxing authority.

SECTION 2 – TERMS AND CONDITIONS

2.18 Notices

Any notices provided by SBCLD are deemed given and effective upon the earlier of (a) actual receipt by Customer or (b) three days after mailing if sent by mail, the day after express overnight delivery, or the day the notice is left at the Customer's Premises. SBCLD may interrupt Service at any time, without penalty or liability, due to the departure from or reasonable suspicion of the departure from any of these terms and conditions. Upon reasonable notice, the facilities or equipment provided by SBCLD shall be made available to SBCLD for such tests and adjustments as may be necessary for their maintenance in a condition satisfactory to SBCLD. The operator dialed per call charge applies to: Station-to-Station and Person-to-Person calls when the caller has the ability to dial all the digits necessary for call completion but instead asks the long distance operator to place the call. The operator dialed per call charge will not be applied to:

SECTION 3 – DESCRIPTION OF SWITCHED SERVICES

3.5 Miscellaneous International Service Information

3.5.1 Timing of Calls

- (A) On Station-to-Station calls and on Direct-Dialed calls chargeable time begins when the called station answers and the connection is established between the calling station and the called station, miscellaneous common carrier, mobile radio system, or PBX system. Answer detection is determined based on standard industry answer detection methods, including hardware and software answer detection. However, when Services are directly connected to a customer-provided communications systems at the Customer's or End User's premises, chargeable time begins when a call terminates in, or passes through, the first Customer equipment on that Customer-provided communications system. It is the Customer's responsibility to furnish appropriate answer supervision to the point of interface with the Company's Service so that chargeable time may begin.
- (B) On Person-to-Person calls, chargeable time begins when connection is established between the calling person and the particular person or station specified or an agreed alternate.
- (C) Chargeable time ends when the calling station hangs up thereby releasing the network connection. SECTION 3 – DESCRIPTION OF SWITCHED SERVICES

3.5 Miscellaneous International Service Information (continued)

3.5.2 Rate Periods

(A) Peak and Off Peak Rate Periods

When peak and off peak rate periods apply to a particular Service offering, the definition of the peak rate period is included with the rate table associated with that Service. The rate table shows the beginning time to but not including the ending time. For example, 7a - 1p is read 7:00 A.M. to but not including 1:00 P.M. The peak rate period applies Sunday through Saturday, seven (7) days a week. The off peak rate period applies all times not included in the definition of the peak rate period.

(B) Holiday

For Operator Toll Assistance Services with peak and off-peak rate schedules, holiday rates apply for calls to Canada. Company specified holidays include Christmas and New Years Day. International calls to Canada placed on holidays during the peak rate period will be rated at the off peak rate.

SECTION 3 – DESCRIPTION OF SWITCHED SERVICES

3.5 Miscellaneous International Service Information (continued)

3.5.3 Determining Rate In Effect

For outbound Services that are time-of-day sensitive, the time-of-day at the central office or POP associated with the calling station determines the rate in effect. If a unit of time is split between two (2) or more rate periods, each rate period applies to the portion of the call that occurred during that rate period rounded to the nearest billing increment. If a call is completed by an operator, the time at the beginning of each initial or additional rate period determines the applicable rate period. When a message spans more than one rate period, total charges for each rate period are calculated and the results for each rate period are totaled to obtain the total message charge.

SECTION 3 – DESCRIPTION OF SWITCHED SERVICES

3.5 Miscellaneous International Service Information (continued)

3.5.4 Application of Charges

(A) Rounding

Each usage sensitive Switched Service has its own specific initial period and additional period (collectively referred to as billing increments) as specified in the description of the Service. For all Services, fractions of a billing increment are rounded up to the next higher increment for billing purposes. The usage charges for each completed call during a billing month will be computed. If the charge for the call includes a fraction of a cent of \$.005 or more, the fraction of such charge is rounded up to the next higher whole cent. Otherwise, the charge is rounded down to the next lower whole cent. Rounding for charges for Service(s) is on a call-by-call basis.

(B) BTN Account Changes - Discounts

A change in Service or enrollment in a promotional offering that impacts the Customer's usage discount is effective on the first day of the next billing cycle after the change order is processed.

(C) Monthly Recurring Charges

If Service is provided for less than a billing cycle, all associated monthly recurring charges will be prorated for the time Service was provided to the Customer.

SECTION 3 – DESCRIPTION OF SWITCHED SERVICES

3.5 Miscellaneous International Service Information (continued)

3.5.5 Mileage Measurements

- (A) The mileage between rate centers is calculated based on V and H coordinates as obtained by reference to AT&T Tariff FCC No. 10. Calculation between Serving Wire Centers is based on V and H coordinates as obtained by reference to NECA FCC Tariff No. 4. The mileage for a call between Access Lines associated with stations that use the same rate center is one mile. If Feature Group B is used, the distance will be measured from the rate center of the tandem location or network site to which the Feature Group B line is connected. If Feature Group D access is used, the distance will be measured from the rate center of the calling number.
- (B) Airline mileage between service locations is calculated as follows:

The square root of:
$$\frac{(V_1-V_2)^2 + (H_1-H_2)^2}{10}$$

Where V_1 and H_1 are the V and H coordinates of point 1 and V_2 and H_2 are the coordinates of point 2.

Mileage is rounded up to an integer value to determine the airline mileage.

SECTION 5 – MISCELLANEOUS CHARGES

5.1 Payphone Origination Charge

Pursuant to the FCC's Order in CC Docket 96-128, this charge applies only to dial-around calls, i.e., calls originating using a carrier's access code, a Customer's 800/877/888 (and other area code assignments as appropriate) number and other toll free numbers and debit card calls, from payphone instruments. This charge does not apply for 0+ call for which the payphone provider would otherwise receive compensation. The Customer shall pay the Company a per call charge of \$0.60 per call for all such traffic.

5.2 Universal Service Charge

Company is required by the Federal Communications Commission (FCC) to contribute to the Federal Universal Service Fund (FUSF) to preserve and advance universal telecommunications services. The FCC sets the rate that Company is required to contribute, and the FCC can increase or decrease the rate on a quarterly basis. The FCC permits Company to assess a monthly surcharge for recovery of contributions paid by Company to FUSF and Company does assess such a charge. Company reserves the right to change the amount of the assessment based on changes made to the FUSF rate by the FCC.

SECTION 5 – MISCELLANEOUS CHARGES

5.3 Federal Regulatory Fee

5.4 Federal Regulatory Fee

Services provided pursuant to this Tariff are subject to an undiscountable monthly Federal Regulatory Fee which will enable the Company to recover some of the costs associated with telecommunications relay services and federal regulatory compliance items. This fee applies to Business Customers only and they will be assessed a monthly charge equal to a percentage of the Customer's total net interstate charges, after application of all applicable discounts and credits. This Federal Regulatory Fee is nether contributory to nor eligible to receive discounts, nor it is eligible to contribute to meeting minimum monthly or annual requirements. A Business Customer will not be required to pay this Federal Regulatory Fee if they demonstrate to the Company's reasonable satisfaction that they are acquiring the Company's service for resale. The monthly charge is 2.68% .

SECTION 5 – MISCELLANEOUS CHARGES

5.4 International Mobile Termination Charge

The International Mobile Termination Charge (IMTC) is an additional per minute charge that is applied to all international calls originating in the United States and terminating in certain countries to (1) wireless devices; and (2) ranges of fixed or wireless telephone numbers which the foreign telecommunications company designates to be for special services. Because many foreign telecommunications companies impose extra fees on AT&T to complete these calls, AT&T charges the IMTC, in addition to all other applicable charges. The IMTC charge amount varies by country and changes from time to time. Be sure to check codes and rates periodically for current information.
