

CenturyLink Operating Companies

Tariff F.C.C. No. 6

May 17, 2016

Description and Justification

1.0 Introduction

CenturyLink Operating Companies (CLOC)¹ hereby submits the following information in support of the accompanying revisions to CenturyLink Operating Companies Tariff F.C.C. No. 6. This filing is being made on 15 days' notice under the commission's streamlined filing procedures and proposed the following revisions to the applicable tariffs as indicated and includes price cap adjustments consistent with the requirements of Sections 61.41 through 61.49 of the Federal Communications Commission's Rules.

On December 18, 2015, CenturyLink, Inc. (CenturyLink) filed a Petition for Waiver with the Federal Communications Commission requesting "a waiver, to the extent required, of [Code of Federal Regulations, Title 47] sections 51.907 and 51.915 of the commission's rules to facilitate a pro forma internal restructuring plan whereby CenturyLink will undertake to merge some or all of its ILECs in states in which it has multiple ILECs to reduce the number of Study Areas in the state. On April 20, 2016, in Order DA-16-430, the Commission granted CenturyLink's Waiver. In this filing, CenturyLink consolidates the rates in the nine Louisiana companies² in a revenue neutral manner.

¹ The CenturyLink Operating Companies are listed in Exhibit 1 at the end of this volume.

² The Century Link Louisiana ILECs consist of the nine ILECs that operate under the trade name

In addition to the description and justification contained in this submission, the following information is submitted to provide specific support data at the proposed tariff level of detail for CenturyLink Operating Companies Tariff F.C.C. No. 6.

Tariff Review Plan (CNEVAN2015_5176.xlsx)

Rate Detail (CLOCA15_6LA.xlsx)

Access Reduction Worksheet (CLOCAR15_6_LA.xlsx)

2.0 Revenue Neutral Rate Development

For Switched Access rate development as required by the CAF/ICC 11-161 Order, CenturyLink started with the current Transitional Access Rates as filed with CenturyLink's Annual 2015 TRP for the 9 Louisiana ILECs as well as the demand data underlying that same filing (Exhibit 2). Next the sum of revenue by element was determined for each of the 9 ILECs as well as the sum of demand. Lastly, for each element, the summed revenue was divided by the summed demand for a final element level rate (See Exhibit 3). For those instances where no demand exists, CenturyLink is using the lowest of the 9 current rates for this filing. CenturyLink used the same methodology for determining rates for Special Access

"CenturyLink" in the State of Louisiana: CenturyTel of Central Louisiana, LLC; CenturyTel of Chatham, LLC; CenturyTel of East Louisiana, LLC; CenturyTel of Evangeline, LLC; CenturyTel of North Louisiana, LLC; CenturyTel of Northwest Louisiana, Inc.; CenturyTel of Ringgold, LLC; CenturyTel of Southeast Louisiana, LLC; and CenturyTel of Southwest Louisiana, LLC.

rate elements. For the Special Access Discount Plans which describe a 10% and 20% discount from month-to-month rates, CenturyLink reweighted the month-to-month rate to meet both the discount percent with revenue neutrality. (See Exhibit 4)

3.0 Consolidated 2015 ICC Model

This revenue neutral approach was also used for determining the 12/29/2011 Intrastate, 7/2/2013 Intrastate and the 12/29/2011 Interstate rates. These rates along with the consolidation of the Oct 2010 thru September 2011 Interstate and Intrastate terminating switched demand were loaded into the LA consolidated 7/1/2015 Step 4 ICC model. The 7/1/2015 interstate revenue neutral terminating switched access rates were then loaded into the interstate proposed rate column and terminating intrastate proposed rates were set equal to the terminating interstate rates. The interstate Target Composite Terminating End Office access rate was then calculated. The 2015 Effective Composite Terminating End Office access rate was calculated based on the proposed interstate rates. The effective composite resulted in a rate lower than the Target and the revenue reduction was equal to the sum of the 9 individual models. The new model resulted in an ICC reduction of \$2,755 greater than the sum of the individual models. (See Exhibit 5)

4.0 Impact of Consolidated Rates on Eligible Recovery

As a result of 2 Study Areas (Ringgold and Central LA) having rates below \$0.0007, the final consolidated Eligible Recovery is adjusted for recognition of such. The ARC True-up for Step 4, July 1, 2015 ARC development that will take place in Step 6, July 1, 2017 will reflect

the adjusted Eligible Recovery. (See Exhibit 5, Exhibit 6)

5.0 Tariff Review Plan

To consolidate the rates and prepare the consolidated Tariff Review Plan, CenturyLink prepared revenue neutral rates, consolidated indices, and aggregate exogenous costs.

Revenue neutral rates were developed as described above (See Exhibit 4.) Using the 2014 499(A) Form, CenturyLink totaled the revenue for the 9 Study Areas to arrive at End User Revenue and Interstate End User Revenue for use to determine the Exogenous Costs (See Exhibit 7.) To develop the current SBI and PCI for establishing the new consolidated TRP, CenturyLink took the 2014 Proposed which became the 2015 Existing and used a weighted revenue approach across the 9 individual Study Areas (See Exhibit 8.) Each Annual TRP requires an existing CMT per line. To develop an existing consolidated CMT per line, CenturyLink prepared a consolidated CAP-1 Form. The consolidated CAP-1 Form includes all 9 individual LA Study Areas and a Maximum CMT per line was developed using a weighting of Local Exchange Lines for each of the 9 Study Areas. The Total CMT Exogenous Cost Factor was determined by weighting the individual 9 Study Areas with their respective Local Exchange Lines. The final consolidated CMT per line was then determined by weighting the 9 individual Study Areas with their respective Local Exchange Lines and then taking the newly developed consolidated Maximum CMT per line times the Total CMT Exogenous Cost factor (See Exhibit 9.) A combined consolidated demand count was prepared and loaded into a Rate Detail file that also included the new revenue neutral rates (See Exhibit 10.) With the preparation of these various required input values for a Tariff Review Plan, CenturyLink prepared a LA Consolidated Tariff Review Plan (Exhibit 11.)

6.0 Conclusion

CenturyLink is submitting the accompanying tariff revisions and supporting exhibits in response to its Petition for Waiver in WC Docket No. 15-324 and subsequent grant by the F.C.C.'s in Order DA 16-430 on April 20, 2016. The revisions establish consolidated rates for CenturyLink's Louisiana Study Areas in F.C.C Tariff CLOC #6 by following the methodology discussed in the Petition for Waiver. They are demonstrated to be just and reasonable, and are supported by detailed exhibits reflecting the calculation of the revisions.
