CC Docket No. 02-33
April 29, 2016

Shoreham Telephone LLC ("Company") hereby provides notice that it plans to terminate provision of Wireline Broadband Internet Access Service ("WBIAS") on a tariffed basis, effective July 1, 2016, at which time it plans to offer permissive detariffed WBIAS on a Title II common-carriage basis pursuant to paragraph 94 of the Federal Communications Commission's *Wireline Broadband Order*.¹ The Company currently offers WBIAS through Asymmetric Digital Subscriber Line ("ADSL") Access Service and Symmetric Digital Subscriber Line ("SDSL") Access Service under National Exchange Carrier Association ("NECA") Tariff F.C.C. No. 5, for which the Company is an issuing carrier.

The Company has requested of NECA that it remove the Company as a carrier listed in NECA Tariff F.C.C. No. 5 as a provider of ADSL and SDSL Access Services (hereinafter "WBIAS") under the tariff effective July 1, 2016.

Impact on Customers

The only customer for the Company's WBIAS is the Company's affiliate nonregulated Internet Service Provider ("ISP") operation. The affiliate purchases WBIAS for use as a component in its broadband internet service sold to consumers and business customers. The discontinuance of the tariffed offering of WBIAS will have no effect on the end user service provided by the affiliate.

Serving Area

The Company's provision of WBIAS is limited to its ILEC serving area in rural Vermont.

Future Availability of WBIAS on a Permissive-Detariffed Common Carriage Basis

The Company will continue to make WBIAS available on a common-carriage basis through posting of rates, terms, and conditions on its internet website in a manner similar to that required for interstate and international interexchange services under Section 42.10 of the FCC's rules (47 C.F.R. § 42.10).

Notice of Discontinuance of Common Carrier Broadband Internet Access Transmission Service Under Tariff and Continued Provision of Service on a Permissive Detariffed Basis

CC Docket No. 02-33

Delhi Telephone Company hereby provides notice that the Company has requested from NECA that it remove the Company [or Cooperative] as a provider of Digital Subscriber Line Access Services under Tariff F.C.C. No. 5, effective July 1, 2016

Delhi Telephone Company will continue to provide common carrier wireline broadband Internet access transmission service on a permissive detariffed basis. Delhi Telephone Company will post the rates, terms and conditions of its broadband Internet access transmission services to its website of www.delhitel.com. The Company will also make physical copies of its offering reflecting the rates, terms and conditions available for public inspection at its business office, at the address provided below:

Delhi Telephone Company
P.O Box 271
Delhi, NY 13753

The discontinuance of Delhi Telephone Company's offering of broadband Internet access transmission service under tariff, and the continued provision of such service on a detariffed basis, will apply to the entirety of the Company's study area. This includes the following exchanges: Delhi, NY

That customer is the Company's own non-regulated Internet service provider (ISP) affiliate. The Company's affiliated ISP purchases broadband Internet access transmission service for use as an input for the broadband Internet access services it offers to residential and business end-user customers. The discontinuance of the tariffed offering of broadband Internet access transmission service will have no effect on the end-user services provided by the Company's affiliated ISP.

On May 2, 2016, Delhi Telephone Company furnished its affiliated ISP with the attached memorandum, which notifies the ISP of the Company's plan to discontinue its provisioning of broadband Internet access transmission service under tariff and to continue providing such service on a detariffed basis.

The Company has requested of NECA that it remove the Company as a carrier listed in NECA Tariff F.C.C. No. 5 as a provider of ADSL and SDSL Access Services (hereinafter “WBIAS”) under the tariff effective July 1, 2016.

Impact on Customers

The only customer for the Company’s WBIAS is the Company’s nonregulated Internet Service Provider (“ISP”) division. The division purchases WBIAS for use as a component in its broadband Internet service sold to consumers and business customers. The discontinuance of the tariffed offering of WBIAS will have no effect on the end user service provided by the division.

Serving Area

The company’s provision of WBIAS is limited to its ILEC serving area in Illinois.

Future Availability of WBIAS on a Permissive-Detariffed Common Carriage Basis

The Company will continue to make WBIAS available on a common-carriage basis through posting of rates, terms and conditions on its Internet web-site in a manner similar to that required for interstate and international interexchange services under Section 42.10 of the FCC’s rules (47 C.F.R. § 42.10).

**Notice of Discontinuance of Common Carrier Broadband Internet Access Transmission Service
Under Tariff and Continued Provision of Service on a Permissive Detariffed Basis**

CC Docket No. 02-33

Melrose Telephone Company currently offers common carrier broadband Internet access transmission service under tariff through the National Exchange Carrier Association (NECA) Tariff F.C.C. No. 5. Melrose Telephone Company hereby provides notice that the Company has requested from NECA that it remove the Company [or Cooperative] as a provider of Digital Subscriber Line Access Services under Tariff F.C.C. The Company will also make physical copies of its offering reflecting the rates, terms and conditions available for public inspection at its business office, at the address provided below:

Melrose Telephone Company
150 Second Street SW
Perham, MN 56373

The discontinuance of Melrose Telephone Company's offering of broadband Internet access transmission service under tariff, and the continued provision of such service on a detariffed basis, will apply to the entirety of the Company's study area. The Company's affiliated ISP purchases broadband Internet access transmission service for use as an input for the broadband Internet access services it offers to residential and business end-user customers. The discontinuance of the tariffed offering of broadband Internet access transmission service will have no effect on the end-user services provided by the Company's affiliated ISP.

On May 2, 2016, Melrose Telephone Company furnished its affiliated ISP with the attached memorandum, which notifies the ISP of the Company's plan to discontinue its provisioning of broadband Internet access transmission service under tariff and to continue providing such service on a detariffed basis.

Tri-County Telephone Company, Inc. (“Company”) hereby provides notice that it plans to terminate provision of wireline broadband Internet access service (WBIAS) on a tariffed basis effective July 1, 2016 at which time it plans to offer permissive detariffed WBIAS on a Title II common-carriage basis pursuant to paragraph 94 of the Federal Communications Commission’s *Wireline Broadband Order*.¹ The Company currently offers WBIAS through Asymmetric Digital Subscriber Line (“ADSL”) Access Service and Symmetric Digital Subscriber Line (“SDSL”) Access Service under National Exchange Carrier Association (“NECA”) Tariff F.C.C. The Company has requested of NECA that it remove the Company as a carrier listed in NECA Tariff F.C.C. No. 5 as a provider of ADSL and SDSL Access Services (hereinafter “WBIAS”) under the tariff effective July 1, 2016.

Notice of Discontinuance of Common Carrier Broadband Internet Access Transmission Service Under Tariff and Continued Provision of Service on a Permissive Detariffed Basis

Totelcom Communications hereby provides notice that the Company has requested from NECA that it remove the Company as a provider of Digital Subscriber Line Access Services under Tariff F.C.C. No. 5, effective July 1, 2016.

Totelcom Communications will continue to provide common carrier wireline broadband Internet access transmission service on a permissive detariffed basis. Totelcom Communications will post the rates, terms and conditions of its broadband Internet access transmission services to its website of www.totelcom.net. The Company will also make physical copies of its offering reflecting the rates, terms and conditions available for public inspection at its business office, at the address provided below:

Totelcom Communications, LLC
6100 Highway 16
De Leon, Texas 76444

The discontinuance of Totelcom Communications' offering of broadband Internet access transmission service under tariff, and the continued provision of such service on a detariffed basis, will apply to the entirety of the Company's study area. This includes the following exchanges: Carbon, De Leon, Desdemona, Gorman, Newburg, Olden, Proctor and Sidney.

Totelcom Communications currently has only one customer for its broadband Internet access transmission service. That customer is the Company's own non-regulated Internet service provider (ISP) affiliate. The Company's affiliated ISP purchases broadband Internet access transmission service for use as an input for the broadband Internet access services it offers to residential and business end-user customers. The discontinuance of the tariffed offering of broadband Internet access transmission service will have no effect on the end-user services provided by the Company's affiliated ISP.

On May 9, 2016, Totelcom Communications furnished its affiliated ISP with the attached memorandum, which notifies the ISP of the Company's plan to discontinue its provisioning of broadband Internet access transmission service under tariff and to continue providing such service on a detariffed basis.
