ACCESS SERVICE

10.   Public Packet Data Network (cont'd)

   10.1   Ethernet Service (cont'd)

      10.1.2   Service Description (cont'd)

      The transmission quality of ES is not guaranteed and is offered to customers at a best effort level. The Telephone Company will attempt to deliver all Ethernet packets received; however, network congestion may result in a loss of Ethernet packets. Transmission speeds using copper facilities may be affected by distance from the Telephone Company central office and other technical limitations in the Telephone Company's copper network and are also not guaranteed.

      Service is provided, where available, between CDPs and designated Telephone Company Facility Hubs. ES will be furnished where suitable facilities exist as determined by the Telephone Company. The Telephone Company will identify its ES-equipped Serving Wire Centers (SWCs) in the NATIONAL EXCHANGE CARRIER ASSOCIATION, INC. Tariff F.C.C. No. 4.

(D)

      10.1.3   Obligations of the Customer

      In addition to the regulations described in other sections of this tariff, the following provisions apply to ES:

      (A)   The customer is responsible for providing the Telephone Company with the necessary information to provision ES as specified in Section 5 Ordering Requirements, preceding.

      (B)   The customer is responsible for providing and maintaining all required CPE, which is compatible with ES and complies with the standards specified in Technical Reference IEEE Standard 802.3-2005, Part 3, Sections 1 though 5.
