## 2. ACCESS SERVICES DESCRIPTIONS (Cont'd)

## 2.1 General (Cont'd)

## 2.1.4 Toll VoIP-PSTN

All Toll VoIP-PSTN traffic will be assessed switched access charges at the rates set forth in this tariff.

The Company shall assess and collect Switched Access rate elements under this tariff for access services, regardless of whether the Company itself delivers such traffic to the called party's premises or the traffic is delivered to the called party's premises by an affiliated or unaffiliated provider of VoIP Service that does not itself seek to collect Switched Access charges for the same traffic. The Company will not charge for functions not performed by the Company or any affiliated or unaffiliated provider of VoIP Service. For purposes of this provision, functions provided by the Company as part of transmitting telecommunications between designated points using, in whole or in part, technology other than TDM transmission in a manner that is comparable to a service offered by a local exchange carrier constitutes the functional equivalent of carrier access service.
