ACCESS SERVICES

SECTION 1 - GENERAL REGULATIONS

1.1 Application Of Tariff

- 1.1.1 This tariff (the "Tariff") contains the regulations and rates applicable to interstate switched and dedicated access telecommunications services provided by the Company for telecommunications between points within the United States. The Company's services are furnished subject to the availability of Facilities and subject to the terms and conditions of this Tariff.
- 1.1.2 The rates and regulations contained in this Tariff apply only to the services furnished by the Company. These services may be offered over the Company's own Facilities or facilities it resells.
- 1.1.3 The Customer is entitled to limit the use of the Company's services by End Users at the Customer's facilities, and may use other Carriers in addition to or in lieu of the Company; provided, however, that the Customer shall make payment pursuant to this Tariff for all use of the Company's services by Customer, its Users, and other End Users.
- 1.1.4 At the option of the Company, service may be offered on a contract basis to meet specialized requirements of the Customer not contemplated in this Tariff as approved, authorized, or permitted by the Commission. The terms of each contract shall be mutually agreed upon between the Customer and Company and may include discounts off of rates contained herein, waiver of recurring or nonrecurring charges, charges for specially designed and constructed services not contained in the Company's general service offerings, or other customized features. The terms of the contract may be based partially or completely on the term and volume commitment, type of originating or terminating access, mixture of services or other distinguishing features. Service shall be available to all similarly situated Customers for a fixed period of time following the initial offering for the first contract Customer as specified in each individual contract.

ACCESS SERVICES

SECTION 1 - GENERAL REGULATIONS (CONT'D.)

1.3 Undertaking Of The Company

1.3.1 Undertaking of the Company

The Company shall be responsible only for the installation, operation and maintenance of service which it provides and does not undertake to transmit messages under this Tariff.

Services provided under this Tariff are provided 24 hours a day, seven days per week, unless otherwise specified in applicable sections of this Tariff.

1.3.2 Obligation of the Company

In furnishing Facilities and service, the Company does not undertake to transmit messages, but furnishes the use of its Facilities to its Customers for communications. The Company undertakes to furnish communications service pursuant to the terms of this Tariff in connection with one-way and/or two-way information transmission between points within the United States.

- A. The Company reserves the right to limit or to allocate the use of existing Facilities, or of additional Facilities offered by the Company, when necessary because of lack of Facilities, or due to some other cause beyond the Company's control.
- B. The furnishing of service under this Tariff is subject to the availability on a continuing basis of all the necessary Facilities and is limited to the capacity of the Company's Facilities as well as facilities the Company may obtain from other Carriers to furnish service from time to time as required at the sole discretion of the Company.

The Company's obligation to furnish Facilities and service is dependent upon its ability (a) to secure and retain, without unreasonable expense, suitable Facilities and rights for the construction and maintenance of the necessary circuits and equipment; (b) to secure and retain, without unreasonable expense, suitable space for its plant and Facilities in the building where service is or will be provided to the Customer; or (c) to secure reimbursement of all costs where the owner or operator of a building demands relocation or rearrangement of plant and Facilities used in providing service therein.

Issued: September 30, 2011

Effective: October 1, 2011

ACCESS SERVICES

SECTION 1 - GENERAL REGULATIONS (CONT'D.)

1.3 Undertaking Of The Company (Cont'd.)

1.3.2 Obligation of the Company (Cont'd.)

The Company shall not be required to furnish, or continue to furnish, Facilities or service where the circumstances are such that the proposed use of the Facilities or service would tend to adversely affect the Company's plant, property or service.

The Company reserves the right to refuse an application for service made by a present or former customer who is indebted to the Company for service previously rendered pursuant to this Tariff until the indebtedness is satisfied.

Whenever Facilities are not immediately available to furnish service to all applicants, the order of precedence, by categories, will continue to be that followed under the Civilian Production Administration Utilities Order U-2 as amended August 7, 1946.

Issued: September 30, 2011

Effective: October 1, 2011

ACCESS SERVICES

SECTION 1 - GENERAL REGULATIONS (CONT'D.)

1.3 Undertaking Of The Company (Cont'd.)

1.3.3 Liability of the Company

- A. The Liability of the Company for damages arising out of the furnishing of these services, including but not limited to mistakes, omissions, interruptions, delays, or errors, or other defects, representations, or use of these services or arising out of the failure to furnish the service, whether caused by acts of commission or omission, shall be limited to the extension of allowances as set forth in this Tariff. The extension of such allowances shall be the sole remedy of the Customer, authorized user, or joint user and the sole liability of the Company. The Company will not be liable for any direct, indirect, incidental, special, consequential, exemplary or punitive damages a Customer may suffer, whether or not caused by the intentional acts or omissions or negligence of the Company's employees or agents.
- B. The Company shall not be liable for any delay or failure of performance or equipment due to causes beyond its control, including, but not limited to: acts of God, fire, flood, explosion, or other catastrophes; any law, order, regulation, direction, action or request of the federal government, or of any other government, including federal and local governments having or claiming jurisdiction over the Company, or of any department, agency, commission, bureau, corporation, or other instrumentality of any one or more of these federal, state, or local governments, or of any civil or military authority; national emergencies; insurrections; riots; wars; unavailability of rights-of-way or materials; or strikes, lock-out, work stoppages, or other labor difficulties.
- C. The Company shall not be liable for (i) any act or omission of any entity furnishing to the Company or the Company's Customers' facilities or equipment used for or with the services the Company offers; or (ii) the acts or omissions of any other Carriers.
- D. The Company shall not be liable for any damages or losses due to the fault or negligence of the Customer or due to the failure or malfunction of Customer provided equipment or facilities.

Issued: September 30, 2011

Effective: October 1, 2011

SECTION 1 - GENERAL REGULATIONS (CONT'D.)

1.3 Undertaking Of The Company (Cont'd.)

1.3.3 Liability of the Company (Cont'd.)

- E. The Company shall not be liable for the claims of vendors supplying equipment to Customers of the Company which may be installed at the Premises of the Company nor shall the Company be liable for the performance of said vendor or vendor's equipment.
- F. The Company does not guarantee nor make any warranty with respect to installations it provides for use in an atmosphere that is explosive, prone to fire, dangerous, or otherwise unsuitable for such installations. The Customer indemnifies and holds the Company harmless from any and all loss, claims, demands, suits, or other action, or any liability whatsoever, whether suffered, made, instituted, or asserted by any other party or person(s), and for any loss, damage, or destruction of any property, whether owned by the Customer or others, caused or claimed to have been caused directly or indirectly by the installation, operation, failure to operate, maintenance, removal, presence, condition, location, or use of any installation so provided. The Company has the right to require each Customer to sign an agreement acknowledging acceptance of the provisions of this section as a condition precedent to such installations.
- G. The Company shall not be liable for any damages resulting from delays in meeting any service date due to delays resulting from normal construction procedures. Such delays shall include, but not be limited to, delays in obtaining necessary regulatory approvals for construction, delays in obtaining right-of-way approvals and delays in actual construction work.
- H. The Company is not liable for any defacement of or damage to the Premises of the Customer (or authorized or joint user) resulting from the furnishing of services or equipment on such Premises or the installation or removal thereof, when such defacement or damage is not the result of negligence or willful misconduct on the part of the agents or employees of the Company.
- I. The Company shall not be liable for any damages whatsoever associated with service, facilities, or equipment which the Company does not furnish or for any act or omission of Customer or any other entity furnishing facilities or equipment used for or in conjunction with the Company's service.

K. Claims

1. The Company shall be indemnified, defended and held harmless by the Customer, End User, or User against any claim, loss, or damage arising from Customer's, End User's, or User's use of services, involving claims for libel, slander, invasion of privacy, or infringement of copyright arising from the Customer's, End User's or User's own communications.
2. The Company shall be indemnified, defended and held harmless by the Customer, End User, or User from and against any and all claims, loss, demands, suits, expense, or other action or any liability whatsoever, including attorney fees, whether suffered, made, instituted, or asserted by the Customer or by any other party, for any personal injury to or death of any person or persons, and for any loss, damage or destruction of any property, including environmental contamination, whether owned by the Customer or by any other party, caused or claimed to have been caused directly or indirectly by the installation, operation, failure to operate, maintenance, presence, condition, location, use or removal of any Company or Customer equipment or facilities or service provided by the Company.
3. The Company assumes no responsibility for the availability or performance of any cable or satellite systems or related facilities under the control of other entities, or for other facilities provided by other entities used for service to the Customer, even if the Company has acted as the Customer's agent in arranging for such facilities or services. Such facilities are provided subject to such degree of protection or non-preemptibility as may be provided by the other entities.
4. Any claim of whatever nature against the Company shall be deemed conclusively to have been waived unless presented in writing to the Company within thirty (30) days after the date of the occurrence that gave rise to the claim.

1.3 Undertaking Of The Company (Cont'd.)

1.3.9 Governmental Authorizations

The provision of services under this Tariff is subject to and contingent upon the Company obtaining and retaining such approvals, consents, governmental authorizations, licenses and permits, as may be required or be deemed necessary by the Company. Company shall use reasonable efforts to obtain and keep in effect all such approvals, consents, authorizations, licenses and permits that may be required to be obtained by it. Company shall be entitled to take, and shall have no liability whatsoever for, any action necessary to bring the services into conformance with any rules, regulations, orders, decisions, or directives imposed by the Public Service Commission or other applicable agency, and Customer shall fully cooperate in and take such action as may be requested by Company to comply with any such rules, regulations, orders, decisions or directives.

1.3.10 Assignment

The Company may, without obtaining any further consent from Customer, assign any rights, privileges, or obligations under this Tariff. Customer shall not, without prior written consent of Company, which consent shall not be unreasonably withheld, assign, transfer, or in any other manner dispose of, any of its rights, privileges, or obligations under this Tariff, and any attempt to make such an assignment, transfer, disposition without consent shall be null and void.

1.3.11 Network Management

The Company will administer its network to insure the provision of acceptable service levels to all users of the Company's network services. Generally, service levels are considered acceptable only when both End Users and Customers are able to establish connections with little or no delay encountered within the Company's network. The Company maintains the right to apply protective controls, i.e., those actions such as call gapping, which selectively cancels the completion of traffic, over any traffic carried over its network. These measures would only be taken as a result of occurrences such as failure or overload of Company or Customer facilities, natural disasters, mass calling or national security demands. In the event that the protective controls applied by the Company result in the complete loss of service to the Customer, the Customer will be granted a Credit Allowance for Service Interruptions as set forth below.

1.3.12 Use of Service

Any service provided under this Tariff may be resold to or shared (jointly used) with other persons at the Customer's option. The Customer remains solely responsible for all use of service ordered by it or billed to its telephone number(s) pursuant to this Tariff, for determining who is authorized to use its service, and for promptly notifying the Company of any unauthorized use.

1.3.13 Use and Ownership of Equipment

The Company's equipment, apparatus, channels and lines shall be carefully used. Equipment furnished by the Company shall remain its property and shall be returned to the Company whenever requested, within a reasonable period following the request, in good condition, reasonable wear and tear accepted. The Customer is required to reimburse the Company for any loss of, or damage to, the facilities or equipment on the Customer's Premises, including loss or damage caused by agents, employees or independent contractors of the Customer through any negligence.

1.3.14 Blocking of Service

The Company's Facilities cannot be used to originate Calls to other Carrier or information provider caller-paid information services. The Company reserves the right to block services that violate the prohibited use policy.

1.3.15 Allowances for Interruption in Service

- A. A credit allowance will be given for any period during which any line subscribed to by Customer hereunder is out of service, except as specified below. Out of service conditions are defined as complete loss of Call origination and/or receipt capability. Credit allowances, if any shall be deducted from the charges payable by Customer hereunder and shall be expressly indicated on the next bill to Customer. A credit allowance will be made when an interruption occurs because of a failure of any component furnished under this Tariff by Company.
- B. An interruption period begins when the Customer reports a service to be interrupted and releases it for testing and repair. An interruption period ends when the service is operative. If the Customer reports the service to be inoperative but declines to release it for testing and repair, it is considered to be impaired, but not interrupted.
- C. For calculating credit allowances, every month is considered to have thirty (30) days. A credit allowance is applied on a pro rata basis against the rates specified hereunder and is dependent upon the length of the interruption. Only those services on the interrupted portion of the circuit will receive a credit.
- D. In case of an interruption to any service, allowance for the period of interruption, if not due to the negligence of the Customer, shall be as follows:
 - 1. For Monthly Recurring Charges, no credit allowance will be given on interruptions less than thirty (30) minutes. The Customer shall be credited for an interruption of 30 minutes or more at the rate of 1/1440 of the monthly charge for the service for each period of 30 minutes or at least 15 minutes thereof that the interruptions continues.

1.3.16 Transmission Specifications

The Company's transmission path will meet the standard transmission specifications as set forth in Bellcore Technical Publications. When the Company uses facilities and services from other service providers, the Company's transmission paths will conform to Bellcore Technical Publications, to the extent that the supplying service provider's facilities and services meet the specifications. The Company will, upon notification by the Customer that the data parameters set forth are not being met, conduct tests independently or in cooperation with the Customer, and take any actions deemed by the Company to be necessary to insure that the data parameters are met.

1.3.17 Provision of Service Performance Data

Subject to availability, end-to-end service performance data available to the Company through its own service evaluation routines may also be made available to the Customer based on previously arranged intervals and format.

1.3.18 Acceptance Testing

At no additional charge the Company will, at the Customer's request and where applicable, cooperatively test at the time of installation the following parameters: loss, C-notched noise, C-message noise, 3-tone slope, d.c. continuity, and operations signaling. Balance parameters may also be tested where applicable.

1.3.19 Routine Testing

At no additional charge the Company will, at the Customer's request and where applicable, test after installation on an automatic or manual basis, 1004 Hz loss, C-message noise, and Balance (Return loss). In the case of automatic testing, the Customer shall provide remote office test lines and 105 test lines with associated responders or their functional equivalent. The frequency of the tests will be as mutually agreed on by the Customer and the Company, but shall consist of not less than quarterly 1004 Hz loss and C-message noise tests, and an annual balance test. Trunk test failures requiring Customer participation for trouble resolution will be provided to the Customer on an as-occurs basis.

2.1 Use Of Facilities And Services (Cont'd.)

2.1.5 Minimum Use Contracts

The Company may offer services which require a minimum use guarantee ("MUG"). The Subscriber agrees to pay the minimum amount per period agreed to upon commencement of service. Subscribers falling below their MUG will be billed for the minimum amount due per period pursuant to the MUG agreement (even though this is below their actual usage amount).

Should the Subscriber choose to terminate a MUG agreement prior to its expiration date, the Subscriber will be liable for the minimum usage requirements contained in the agreement multiplied by the number of months remaining in the term, unless, with the Carrier's approval, Subscriber converts to another Company service with equal or greater term and minimum usage commitments. If no minimum usage requirement is specified in the agreement, upon early termination of Subscriber's agreement, Subscriber will be liable for its monthly average usage (calculated over the last three full months immediately preceding the date of termination) multiplied by the number of months remaining in the term.

The minimum initial billing liability period for any service under this section is one month. Subsequent periods shall be for additional one-month increments unless otherwise specified.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.2 Minimum Period Of Service

The minimum period of service is one month except as otherwise provided in this Tariff. The Customer must pay the regular tarified rate for the service they subscribe to for the minimum period of service. If a Customer disconnects service before the end of the minimum service period, that Customer is responsible for paying the regular rates for the remainder of the minimum service period. When the service is moved within the same building, to another building on the same Premises, or to a different Premises entirely, the period of service at each location is accumulated to calculate if the Customer has met the minimum period of service obligation.

If service is terminated before the end of the minimum period of service as a result of condemnation of property, damage to property requiring the Premises to be abandoned, or by the death of the Customer, the Customer is not obligated to pay for service for the remainder of the minimum period.

If service is switched over to a new customer at the same Premises after the first month's service, the minimum period of service requirements are assigned to the new customer if the new customer agrees in writing to accept them. For facilities not taken over by the new customer, the original Customer is responsible for the remaining payment for the minimum service period in accordance with the terms under which the service was originally furnished.

2.4 Payment For Service Rendered (Cont'd.)

2.4.2 Deposits

- A. The Company reserves the right to examine the credit record of the Customer. If the Customer's financial condition is unknown or unacceptable to the Company, the Customer may be required to provide the Company with a security deposit which the Company may apply against overdue charges. The amount of the security deposit shall be equal to two month's estimated usage but may vary with the Customer's credit history and projected usage. The Customer shall be apprised that after one year of service the Account shall be reviewed, and in the event that all amounts due have been paid within the terms and conditions of this Tariff, the deposit shall be refunded in full. If subsequent payment or usage patterns change, the Company may request an increase in or re-submission of the security deposit as appropriate. The Company may also require a security deposit before service is restored (along with the payment of overdue charges) from the Customer whose service has been discontinued for nonpayment of overdue charges. Such security deposit may be based on a new credit history (taking into account the discontinuance of service) and estimates of usage.
- B. The fact that a deposit has been made shall in no way relieve the applicant or Customer from complying with the Tariff regulations for the prompt payment of bills on presentation. Each applicant from whom a deposit is collected will be given a certificate of deposit and circular containing the terms and conditions applicable to deposits, in accordance with the Rules and Regulations of the Commission pertaining to Customer deposits.
- C. Inadequate Deposit

If the amount of a deposit is proven to be less than required to meet the requirements specified above, the Customer shall be required to pay an additional deposit upon request.

2.4.2 Deposits (Cont'd.)

D. Return of Deposit

When a deposit is to be returned, the Customer may request that the full amount of the deposit be issued by check. If the Customer requests that the full amount be credited to amounts owed the Company, the Company will apply the deposit to any amount currently owed to the Company, and return any remaining amount of the deposit to the Customer by check.

E. Interest on Deposits

Simple interest at the rate specified by the Commission shall be credited or paid to the Customer while the Company holds the deposit.

2.4.3 Advance Payments

The Company reserves the right to require an advance payment from the Customer instead of or in addition to a security deposit. The advance payment shall be in an amount equal to or less than estimated installation charges plus two months estimated billing.

2.4.4 Payment of Charges

The Customer is responsible for payment of all charges incurred by the Customer or other users for services and Facilities furnished to the Customer by the Company as set forth in this Tariff or by mutual written agreement of the parties.

- A. Non-recurring charges are due and payable as set forth in Section 2.4.4.B. The Company shall present invoices for Recurring Charges monthly to the Customer, in advance of the month in which the service is provided, and Recurring Charges shall be due and payable as set forth in Section 2.4.4.B. When billing is based upon Customer usage, usage charges will be billed monthly for the preceding billing period.

- C. When service does not begin on the first day of the month, or end on the last day of the month, the charge for the fraction of the month in which service was furnished will be calculated on a pro rata basis. For this purpose, every month is considered to have 30 days.
- D. Billing of the Customer by the Company will begin on the Service Commencement Date, which is the day on which the Company notifies the Customer that the service or facility is available for use, except that the Service Commencement Date may be postponed by mutual agreement of the parties, or if the service or facility does not conform to standards set forth in this Tariff or the Service Order. Billing accrues through and includes the day that the service, circuit, arrangement or component is discontinued.
- E. If service is disconnected by the Company in accordance with Section 2.8.1 and Section 2.8.4 following and later reinstalled, service will be subject to all applicable installation charges. If service is suspended by the Company and later restored, service will be subject to all applicable restoration charges.

2.4.5 Returned Check Charge and Collections Fees

- A. The Company reserves the right to assess a charge of \$25.00 whenever a check or draft presented for payment of service is not accepted by the institution upon which it is written. The foregoing shall not limit the Company's right to discontinue service for returned checks or drafts.
- B. In the event that the Company incurs fees or expenses, including attorney's fees, collecting, or attempting to collect, any charges owed to the Company, the Company may charge the Customer all such fees and expenses reasonably incurred, including a collection fee on the overdue charges accruing at the rate of 1.5 percent a month or the highest rate allowed by law, whichever is lower. Collection fees on overdue charges shall begin to accrue when the Account is assigned to an outside collection agency. Such collection fees are separate and distinct from attorney's fees and other costs incurred in collecting charges owed to the Company

2.4.6 Late Payment Charges

If any portion of the payment is received by the Company after the date due, or if any portion of the payment is received by the Company in funds which are not immediately available upon presentment, then a late payment penalty shall be due to the Company. The late payment penalty shall be the portion of the payment not received by the date due, multiplied by a late factor. The late factor shall be the lesser of:

- A. a rate of 1.5 percent per month; or
- B. the highest interest rate which may be applied under state law for commercial transactions.

2.5 Disputed Bills

2.5.1 General

All bills are presumed accurate, and shall be binding on the Customer unless notice of the disputed charge(s) is received by the Company within 90 days (commencing 5 days after such bills have been mailed or otherwise rendered per the Company's normal course of business). For the purposes of this section, "notice" is defined as written notice to the Company, containing sufficient documentation to investigate the dispute, including the account number under which the bill has been rendered, the specific invoice disputed, the date of the bill, the specific items on the bill being disputed, and the justification for the dispute.

In order to withhold payment for disputed amounts, the Customer must 1) pay all undisputed amounts by the due date and 2) provide written documentation of the dispute as described in (A) above by the due date for the billing period in question.

2.5.2 Late Payment Charge

- A. The undisputed portions of the bill must be paid by the payment due date to avoid assessment of a late payment charge on the undisputed amount under Section 2.4.6, preceding.
- B. In the event that a billing dispute is resolved by the Company in favor of the Customer, any disputed amount withheld pending resolution of the billing dispute shall not be subject to the late payment charge.
- C. In the event that a billing dispute is resolved in favor of the Company, the Customer shall pay the late payment charge.

- B. In the event that the Company resolves the billing dispute in favor of a Customer who has paid the total amount of the disputed bill, the Company will credit the Customer's account for any overpayment by the Customer in the billing period following the resolution of the dispute.
- C. In the event that the Company resolves the billing dispute in favor of a Customer who has paid the total amount of the disputed bill but canceled the service, the Company will issue a refund of any overpayment by the Customer.
- D. All adjustments or refunds provided by the Company to the Customer at the Customer's request, or provided by the Company to the Customer by way of compromise of a billing dispute, and which are accepted by the Customer, are final and constitute full satisfaction, settlement, and/or compromise of all of the Customer's claims for the billing period for which the adjustment or refund was issued.

2.5.4 Disputes Resolved in Favor of the Company

In the event that the billing dispute is resolved in favor of the Company, the withheld disputed amount and the late payment charge(s), as set forth in Sections 2.4.6 and 2.5.2 are due and payable in immediately available funds by the next bill due date.

2.6 Taxes And Other Surcharges

Customer shall pay all sales, use, gross receipts, excise, access, bypass, or other local, state, and federal taxes, charges, or surcharges, however designated, imposed on or based upon the provision, sale or use of the services (excluding taxes on Company's net income). Such taxes shall be separately stated on the applicable invoice.

Universal Service Fund (USF)

In connection with the FCC's Universal Service Orders, the Company will pay a percentage of its retail revenues to support the Universal Service Fund ("USF"). The Company will pass-through the USF assessment to its Customers by assessing a surcharge equal to the most recent USF contribution factor(s) established by the Universal Service Administrative Company ("USAC").

The USF Fee will not be applied to services sold by the Company to a Customer for resale for which the Customer has filed a Universal Service Worksheet, unless the Customer has a de minimis exemption which exempts the Customer from paying directly into the fund. These percentages will be subject to periodic adjustment.

2.7 Inspection, Testing And Adjustment

2.7.1 The Company may, upon reasonable notice, make such tests and inspections as may be necessary to determine whether the terms and conditions of this Tariff are being complied with in the installation, operation or maintenance of the Customer's or the Company's Facilities or equipment. The Company may interrupt service at any time, without penalty or liability, due to the departure from or reasonable suspicion of the departure from any of these terms and conditions.

2.7.2 The Customer shall be responsible for making arrangements or obtaining permission for safe and reasonable access for Company employees or agents of the Company to enter the Premises of the Customer or any joint user or customer of the Customer at any reasonable hour for the purpose of inspecting, repairing, testing or removing any part of the Company's Facilities.

2.7.3 Upon reasonable notice, the Facilities or equipment provided by the Company shall be made available to the Company for such tests and adjustments as may be necessary for their maintenance in a condition satisfactory to the Company. No interruption allowance shall be granted for the time during which such tests and adjustments are made, unless such interruption exceeds twenty-four hours in length and is requested by the Customer.

- A. In the event that any bill rendered or any deposit required is not paid, the Company may suspend service or terminate service until the bill or the required deposit has been paid. If service is suspended or terminated for nonpayment, the Customer must remit a Connection Charge as well as any payment due and any applicable deposits prior to reconnection.
- B. Suspension or termination shall not be made until:
 - 1. At least 10 days after written notification has been served personally on the Customer, or at least 20 days after written notification has been mailed to the billing address of the Customer or;
 - 2. At least 10 days after the Customer has either signed for or refused a registered letter containing written notification mailed to the billing address of the Customer.
- C. Access service shall only be suspended during the hours between 8:00 AM and 4:00 PM, Monday through Thursday. It shall not be suspended or terminated for nonpayment on weekends, public holidays, other federal and state holidays proclaimed by the President or the Governor, or on days when the main business office of the Company is not open for business, or during the periods from December 23rd through December 26th or December 30th through January 1st.

A. General

The Company, after notice in writing to the Customer and after having given the Customer an appropriate opportunity to respond to such notice, may terminate service and sever the connection(s) from the Customer's Premises under the following conditions:

1. in the event of prohibited, unlawful or improper use of the Facilities or service, or any other violation by the Customer of the rules and regulations governing the Facilities and service furnished, or
2. if, in the judgment of the Company, any use of the Facilities or service by the Customer may adversely affect the Company's personnel, plant, property or service. The Company shall have the right to take immediate action, including termination of the service and severing of the connection, without notice to the Customer when injury or damage to telephone personnel, plant, property or service is occurring, or is likely to occur, or
3. in the event of unauthorized use, where the Customer fails to take reasonable steps to prevent the unauthorized use of the Facilities or service received from the Company, or
4. in the event that service is connected for a Customer who is indebted to the Company for service or Facilities previously furnished, that service may be terminated by the Company unless the Customer satisfies the indebtedness within 20 days after written notification.

B. Prohibited, Unlawful or Improper Use of the Facilities or Service

Prohibited, unlawful or improper use of the Facilities or service includes, but is not limited to:

1. The use of Facilities or service of the Company without payment of Tariff charges;
2. Permitting fraudulent use.

C. Abandonment or Unauthorized Use of Facilities

1. If it is determined that Facilities have been abandoned, or are being used by unauthorized persons, or that the Customer has failed to take reasonable steps to prevent unauthorized use, the Company may terminate access service.
2. In the event that access service is terminated for abandonment of Facilities or unauthorized use and service is subsequently restored to the same Customer at the same location:
 - a. No charge shall apply for the period during which service had been terminated, and
 - b. Reconnection charges will apply when service is restored. However, no charge shall be made for reconnection if the service was terminated due to an error on the part of the Company.

Any change in the Company's ability (a) to secure and retain suitable Facilities and rights for the construction and maintenance of the necessary circuits and equipment or (b) to secure and retain suitable space for its plant and Facilities in the building where service is provided to the Customer may require termination of a Customer's service until such time as new arrangements can be made. No charges will be assessed the Customer while service is terminated, and no connection charges will apply when the service is restored.

2.8.5 Emergency Termination of Service

The Company will immediately terminate the service of any Customer, on request, when the Customer has reasonable belief that the service is being used by an unauthorized person or persons. The Company may require that the request be submitted in writing as a follow-up to a request made by telephone.

2.9 Obligations Of The Customer

2.9.1 Damages

The Customer shall reimburse the Company for damages to Company Facilities utilized to provide services under this Tariff caused by the negligence or willful act of the Customer, or resulting from improper use of the Company's Facilities, or due to malfunction of any Facilities or equipment provided by other than the Company, except that no Customer shall be liable for another Customer's actions.

2.9.2 Ownership of Facilities

Facilities utilized by the Company to provide service under the provisions of this Tariff shall remain the property of the Company. Such Facilities shall be returned to the Company by the Customer, whenever requested, within a reasonable period following the request in as good condition as reasonable wear permits.

2.9.3 Equipment Space and Power

The Customer shall furnish to the Company, at no charge, equipment space and electrical power required by the Company to provide services under this Tariff at the points of termination of such services. The selection of AC or DC power shall be mutually agreed to by the Customer and the Company. The Customer shall make necessary arrangements in order that the Company will have access to such spaces at reasonable times for installation, testing, repair, maintenance or removal of Company service. Customer shall provide a safe place to work which complies with all laws and regulations along the rights-of-way and in the equipment spaces which it is responsible for obtaining, and at which Company authorized personnel, employees, or agents may be installing, inspecting, maintaining, replacing, repairing or removing Facilities and equipment.

Customer shall arrange access to any of the rights-of-way, conduit, and equipment space which it is responsible for obtaining at any time so that Company's authorized personnel, employees, or agents may install, repair, maintain, inspect, replace or remove any and all Facilities and associated equipment provided by Company. Access to such sites shall be made available at a time mutually agreeable to Customer and Company. Customer acknowledges that, when repair work is required to restore services after interruption, it may be necessary to provide access on a twenty-four hour, seven day a week basis.

2.9.3 Equipment Space and Power (Cont'd.)

Company shall also have the right to obtain access to the cable installed in Customer provided conduit at any splice or junction box. No credit allowance will be made for the period during which service is interrupted for such purposes.

Customer shall be responsible for obtaining and continuing in effect all approvals, consents, authorizations, licenses, and permits as may be required to permit Customer to comply with its obligations hereunder.

Customer use of any service obtained from other service providers by the Company and resold to Customer shall also be subject to any applicable restrictions in the underlying providers' publicly available tariffs.

2.9.4 Testing

The services provided under this Tariff shall be made available to the Company at mutually agreed upon times in order to permit the Company to test, adjust and maintain the services in satisfactory operating condition. No credit will be allowed for any interruption during such tests and adjustments.

2.9.5 Design of Customer Services

The Customer shall be responsible for its own expense for the overall design of its services and for any redesigning or rearrangements of its services which may be required because of changes in Facilities, operations or procedures of the Company, minimum protection criteria or operating or maintenance characteristics of the Facilities.

2.9.6 Network Contingency Coordination

The Customer shall, in cooperation with the Company, coordinate in planning the actions to be taken to maintain maximum network capability following natural or man-made disasters which affect telecommunications service.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.9 Obligations Of The Customer (Cont'd.)

2.9.7 Jurisdictional Reports

Where possible, the Company will determine the jurisdiction of both originating and terminating Calls from the call detail records generated via the switched network, and bill usage according to such determination. A Call that enters the Customer's network in a state different from the state in which the called station is located will be classified as interstate. A Call that enters the Customer's network at a point within the same state where the called station is located will be classified as intrastate.

In those cases where it is not possible for the Company to determine the jurisdiction of the Call from the call detail, the Customer may provide the Company with a percent interstate use. The percent, which should be represented as a whole number, is determined by taking the total interstate usage and dividing by the total minutes of use. The Customer should update the jurisdictional percentages reported to the Company on the First of January, First of April, First of July, and First of October. Reports should be received no later than the 20th of each month. Reports will be used on a go-forward basis, and will be in effect until the Customer submits a revised report. Customers beginning service in the middle of a quarter may submit a jurisdictional report at the onset of service.

2.9.7 Jurisdictional Reports (Cont'd.)

In the absence of a Customer-provided percent interstate use, with respect to those cases where it is not possible for the Company to determine the jurisdiction of the Call from the call detail records, the Company will apply a default percent interstate use of eighty percent (80%) to such access traffic. The amount deemed interstate in nature will be subject to assessment by the Company pursuant to the terms of this Tariff, and the remaining minutes and/or Facilities or other services will be assessed by the Company under the terms of the applicable state access Tariff or, if applicable, other written agreement between the Customer and the Company.

No pro-rating or back-billing will be done based on the report. The Company may require call detail records to substantiate projected interstate usage provided to the Company. In the event that the required jurisdictional report is not provided, the Company recorded or estimated percentage of interstate usage will be applied to the bill.

The Company reserves the right to verify the percents on the Customer's jurisdictional reports by examination of the underlying data. The Company may submit a request for verification in writing to the Customer. Once the request is received, the Customer will have 30 days to supply or otherwise make available the data to the Company.

The Company may request this detailed information annually. If the audit results represent a substantial deviation from the Customer's previously reported PIU for the period upon which the audit was based, the call detail records may be requested more than once annually.

2.9.8 Mixed Interstate and Intrastate Access Service

When mixed interstate and intrastate Access Service is provided, all charges, including nonrecurring charges, usage charges, and optional features, will be prorated between interstate and intrastate. The percentage provided in the reports as set forth in this Tariff will serve as the basis for prorating the charges. The percentage of an Access Service to be charged as intrastate is applied in the following manner:

- A. For nonrecurring chargeable rate elements, multiply the percent intrastate use times the quantity of chargeable elements times the state Tariff rate per element.
- B. For usage sensitive chargeable rate elements, multiply the percent intrastate use times actual use (measure or Company assumed average use) times the stated rate.

2.9.9 Measurement of Access Minutes

Customer traffic will be measured (recorded or assumed) by the Company at End Office Switches or Access Tandem switches. Originating and terminating Calls will be measured or imputed to determine the basis for computing chargeable Access Minutes for all applicable billing elements.

With Multifrequency Address Signaling, usage measurement begins when the originating Entry Switch receives the acknowledgment wink supervisory signal forwarded from the Customer's Point of Termination. For originating Calls with SS7, usage measurement begins when either the Exit Message (EXM) or the Address Complete Message (ACM) is received.

The measurement of originating call usage ends when the Entry Switch receives disconnect supervision from either the originating End User's end office, indicating the originating End User has disconnected, or the Customer's Point of Termination, whichever is recognized first by the Entry Switch.

2.9.9 Measurement of Access Minutes (Cont'd.)

For terminating Calls, the measurement of Access Minutes begins when the terminating Entry Switch receives Answer Supervision from the terminating End User's end office, indicating the terminating End User has answered.

The measurement of terminating call usage ends when the terminating Entry Switch receives disconnect supervision from either the terminating End User's office, indicating the terminating End User has disconnected, or the Customer's Point of Termination, whichever is recognized first by the Entry Switch.

2.9.10 Network Congestion

When a Customer offers service for which a substantial call volume is expected during a short period of time, the Customer must notify the Company at least 48 hours in advance of each peak period. Notification should include the nature, time, duration, and frequency of the event, an estimated call volume, and the telephone number(s) to be used. On the basis of the information provided, the Company may invoke network management controls to reduce the probability of excessive network congestion. The Company will work cooperatively with the Customer to determine the appropriate level of such controls.

2.10 Automatic Number Identification

2.10.1 General

This option provides the automatic transmission of a seven or ten digit number and information digits to the Customer's Premises for Calls originating in the LATA, to identify the calling station. The ANI feature, which is a software function, will be associated on a Call-by-Call basis with (1) all individual transmission paths in a Trunk group routed directly between an end office and a Customer's Premises or, where technically feasible, with (2) all individual transmission paths in a Trunk group between an Access Tandem and a Customer's Premises.

Additional ANI information digits are available with Feature Group D only. These information digits will be transmitted as agreed to by the Customer and the Company.

2.10.2 Up to 7 Digit Outpulsing of Access Digits to Customer

This Option provides for the end office capability of providing up to 7 digits of the uniform Access Code (950-10XX) to the Customer Premises. The Customer can request that only some of the digits in the Access Code be forwarded. The Access Code digits would be provided to the Customer Premises location using multifrequency signaling, and transmission of the digits would precede the forwarding of ANI if that feature were provided. It is available with Feature Group B.

2.10.3 Regulations

The Company will provide Automatic Number Identification (ANI) associated with an interstate service, by Tariff, to any entity (ANI recipient), only under the following terms and conditions:

- A. The ANI recipient or its designated billing agent may use or transmit ANI information to third parties for billing and collection, routing, screening, ensuring network performance, and completion of a telephone subscriber's Call or transaction, or for performing a service directly related to the telephone subscriber's original Call or transaction, or for performing a service directly related to the telephone subscriber's original Call or transaction.
- B. The ANI recipient may offer to any telephone subscriber with whom the ANI recipient has an established Customer relationship, a product or service that is directly related to products or service previously purchased by the telephone subscriber from the ANI recipient.
- C. The ANI recipient or its designated billing agent is prohibited from utilizing ANI information to establish marketing lists or to conduct outgoing marketing Calls, except as permitted by the preceding paragraph, unless the ANI recipient obtains the prior written consent of the telephone subscriber permitting the use of ANI information for such purposes. The foregoing provisions notwithstanding, no ANI recipient or its designated billing agent may utilize ANI information if prohibited elsewhere by law.
- D. The ANI recipient or its designated billing agent is prohibited from reselling, or otherwise disclosing ANI information to any other third party for any use other than those listed in Provision A, unless the ANI recipient obtains the prior written consent of the subscriber permitting such resale or disclosure.

Violation of any of the foregoing terms and conditions by any ANI recipient other than a Telephone Corporation shall result, after a determination through the Commission's complaint process, in suspension of the transmission of ANI by the Company until such time as the Commission receives written confirmation from the ANI recipient that the violations have ceased or have been corrected. If the Commission determines that there have been three or more separate violations in a 24 month period, delivery of ANI to the offending party shall be terminated under terms and conditions determined by the Commission.
- F. The ten digit ANI telephone number is only available with Feature Group D. The ten digit ANI telephone number consists of the Numbering Plan Area (NPA) plus the seven digit ANI telephone number. The ten digit ANI telephone number will be transmitted on all Calls except in the case of ANI failure, in which case only the NPA will be transmitted (in addition to the information digit described below).
- G. Where ANI cannot be provided, information digits will be provided to the Customer.
- H. The information digits identify: (1) telephone number is the station billing number - no special treatment required, (2) ANI failure has occurred in the End Office Switch which prevents identification of calling telephone number - must be obtained by operator or in some other manner. The ANI telephone number is the listed telephone number of the Customer and is not the telephone number of the calling party.

SECTION 3 - SWITCHED ACCESS SERVICE

3.1 General

Switched Access Service, which is available to Customers for their use in furnishing their services to End Users, provides a two-point electrical communications path between a Customer Designated Premises (or an interconnection point established through Direct Connects) and an end user or other customer's Premises. It provides for the use of common terminating, switching and trunking Facilities, and for the use of common subscriber plant of the Company. Switched Access Service provides for the ability to originate Calls from an End User or other customer's Premises to a Customer Designated Premises (including a collocated interconnection location on an interconnection point established through Direct Connects) and to terminate Calls from a Customer Designated Premises (including a collocated interconnection location or an interconnection point established through Direct Connects) to an End User or other customer's Premises.

The application of rates for Switched Access Service is described in the remainder of this Section 3. Rates and charges for services other than Switched Access Service, e.g., a Customer interLATA toll message service, may also be applicable when Switched Access Service is used in conjunction with these other services.

In conjunction with Switched Access Service, the Company may provide SMS Database Query Service, which in connection with the origination of Calls dialed by an End User to telephone numbers beginning with prefixes associated with toll free Calls, such as without limitation "800" or "888," provides for the query of the SMS database with respect to such Calls to identify the Carrier to whom the Call will be delivered.

3.2 Rate Categories

3.2.1 Service Configuration

Switched Access service supports traffic that terminates to or originates from the Customer Designated Premises or an interconnection point established through Direct Connects and which traverses the Company's network through the use of a tandem switch. The application of rates and charges for services when Standard Access is provided is set forth in Section 3.3.2.

3.2.2 Switching

Switching provides for the use of Tandem, End Office and/or remote switching equipment, as applicable. The following rate elements may be provided in connection with Switching as further specified in Sections 3.3.1 and 3.3.2 following:

- A. Tandem Switching, which is assessed per access minute when Calls are switched by the Company between two or more Carriers. For purposes of clarification, Tandem Switching (in addition to any and all other applicable elements) will also be assessed on all tandem routed calls that originate from or terminate to an End User where the Company's services or Facilities as used by Customer are provided via the Unbundled Network Element Platform or where the Company otherwise performs a tandem switching function.
- B. End Office Switching, which provides the local end office switching functions at a Company Central Office switch as well as applicable optional vertical features.
- C. Where end offices are appropriately equipped, international dialing may be provided. International dialing provides the capability of switching international Calls with service prefix and address codes having more digits than are capable of being switched through a standard equipped end office.
- D. Shared Trunk Port, an element of local switching, provides for the termination of common transport trunks. The Shared Trunk Port rate is assessed on a usage sensitive basis.

3.2.3 Common Transport Service

Common Transport Service includes the following elements:

- A. Transport Termination, which provides for the Trunk side arrangements between the Company's switching systems (whether End Office or Tandem) and either a Customer Designated Premise or a Remote Switching Location. These facilities terminate the Transport Facilities. The number of Transport Terminations provided will be determined by the Company. (T)
(T)
- B. The Transport Facility provides for the provision of transmission Facilities between 1) the Customer Designated Premises and the Company's Central Office where the Customer traffic is switched to originate or terminate the Customer's communication and/or 2) between the Company's Central Office where the Customer traffic is switched and the Remote Switching Location through which the traffic is originated or terminated. The Transport Facility is a two-way voice frequency transmission path composed of Facilities determined by the Company. The voice frequency transmission path may be comprised of any form or configuration of plant capable of and typically used in the telecommunications industry for the transmission of voice and associated telephone signals.
- C. Common Multiplexing – Common Multiplexing is provided on a usage sensitive basis. Multiplexing is required to convert common switched Facilities from one operating speed to another operating speed, such as a conversion from 44.736 Mbps to an operating speed of 1.544 Mbps and/or from 1.544 Mbps to 64 kbps or any other similar type of conversion.

Toll Free Traffic Delivery Service is an access service in which the Company transports toll free traffic originated by a third party who is not an End User or other user of (i) the Company's local exchange or exchange access service or (ii) the Company's VoIP Provider Partners' services through its wire center to an Interexchange Carrier Customer. It provides for the use of the Tandem Switching, Tandem Termination, and Tandem Transport facilities of the Company. In a Toll Free Traffic Delivery Service call, the Company will not charge Carrier Common Line, Local End Office Switching, or End Office Port charges. The rates for Toll Free Delivery Service are set forth in Section 3.8 of this Tariff.

3.2.6 Other Charges

(T)

- A. Network Blocking Charge - The Customer will be notified by the Company to increase its capability (Busy Hour Minutes of Capacity or quantities of trunks) when excessive Trunk group blocking occurs on groups carrying Calls and the measured Access Minutes for that hour exceed the capacity purchased. If the order for additional capacity has not been received by the Company within 15 days of the notification, the Company will bill the Customer, at the rate set forth in this Tariff, for each overflow in excess of ordered capacity.
- B. SMS Data Base Query Charge - This charge will apply for each toll-free 8YY Call database query from the SMS database, an SMS Database Query, performed by Company. This charge applies to all toll-free Calls placed by any End User, regardless of the type of access (e.g., Switched Access or Direct Connects) ordered from or otherwise provided by the Company. **(T)**
- C. Optional Features - Other optional features may be available on an individual case basis.

3.3 Switched Access Arrangements

Unless Customers affirmatively order another method of access, such as Direct Connects as described in Section 10, Customers originating or terminating Calls through the Company's network connect with the Company's network through a tandem switch Usage sensitive charges described in this Section 3 apply to such Switched Access arrangement. The application of these charges will be determined based on the actual rate elements furnished by the Company in connection with a Call.

SECTION 3 - SWITCHED ACCESS SERVICE (CONT'D.)

3.5 Obligations Of The Company

The Company has certain obligations pertaining only to the provision of Switched Access Service. These obligations are as follows:

3.5.1 Network Management

The Company will administer its network to provide acceptable service levels to all telecommunications users of the Company's network services. Generally, service levels are considered acceptable only when both End Users and Customers are able to establish connections with little or no delay encountered within the Company's network. The Company maintains the right to apply protective controls, i.e., those actions, such as call gapping, which selectively cancel the completion of any traffic carried over its network, including that associated with a Customer's Switched Access Service. Generally, such protective measures would only be taken as a result of occurrences such as a failure or overload of Company or Customer facilities, natural disasters, mass calling or national security demands.

Effective: October 1, 2011

SECTION 3 - SWITCHED ACCESS SERVICE (CONT'D.)

3.5 Obligations Of The Company (Cont'd.)

3.5.2 Design and Traffic Routing of Switched Access Service

The Company shall design and determine the routing of Switched Access Service, including the selection of the First Point of Switching and the selection of Facilities from the interface to any switching point and to the end offices where busy hour minutes of capacity are ordered. The Company shall also decide if capacity is to be provided by originating only, terminating only, or two-way Trunk groups. Finally, the Company will decide whether Trunk side access will be provided through the use of two-wire or four-wire Trunk terminating equipment. Selection of Facilities and equipment and traffic routing of the service are based on standard engineering methods, available Facilities and equipment and the Company's traffic routing plans. If the Customer desires different routing or directionality than that determined by the Company, the Company will work cooperatively with the Customer in determining (1) whether the service is to be routed directly to an end office or through an access tandem switch and (2) the directionality of the service.

SECTION 3 - SWITCHED ACCESS SERVICE (CONT'D.)

3.5 Obligations Of The Company (Cont'd.)

3.5.3 Provision of Service Performance Data

Subject to availability, end-to-end service performance data available to the Company through its own service evaluation routines, may also be made available to the Customer based on previously arranged intervals and format. The data provides information on overall end-to-end Call completion and non-completion performance e.g., Customer equipment blockage, failure results and transmission performance. The data does not include service performance data which is provided under other Tariff sections, e.g., testing service results. If data is to be provided in other than paper format, the charges for such exchange will be determined on an individual case basis.

3.5.4 Trunk Group Measurements Reports

Subject to availability, the Company will make available Trunk group data in the form of usage in CCS, peg count and overflow to the Customer based on previously agreed to intervals.

Issued: September 30, 2011

Effective: October 1, 2011

SECTION 3 - SWITCHED ACCESS SERVICE (CONT'D.)

3.6 Obligations Of The Customer

The Customer has certain specific obligations pertaining to the use of Switched Access Service. These obligations are as follows:

3.6.1 Report Requirements

Customers are responsible for providing the following reports to the Company, when applicable.

A. Jurisdictional Reports

When a Customer orders Switched Access Service for both interstate and intrastate use, the Customer is responsible for providing reports as set forth in this Tariff. Charges will be apportioned in accordance with those reports.

B. Code Screening Reports

When a Customer orders service call routing, Trunk access limitation or call gapping arrangements, it must report the number of trunks and/or the appropriate codes to be instituted in each end office or Access Tandem switch, for each of the arrangements ordered.

The Company will administer its network in such a manner that the impact of traffic surges due to peaked 900 Access Service traffic on other access service traffic is minimized. Network management controls as defined in This Tariff may be implemented at the Company option to ensure acceptable service levels

SECTION 3 - SWITCHED ACCESS SERVICE (CONT'D.)

3.6 Obligations Of The Customer (Cont'd.)

3.6.2 On and Off-Hook Supervision

The Customer facilities shall provide the necessary on and off-hook supervision for accurate timing of Calls.

3.6.3 Trunk Group Measurements Reports

With the agreement of the Customer, Trunk group data in the form of usage in CCS, peg count and overflow for its end of all access Trunk groups, where technologically feasible, will be made available to the Company. The data will be used to monitor Trunk group utilization and service performance and will be based on previously arranged intervals and format.

3.7.2 Cancellation of Access Service Order

A Customer may cancel an Access Order for the installation of service on any date prior to notification by the Company that service is available for the Customer's Use or prior to the service date, whichever is later. The cancellation date is the date the Company receives written or verbal notice from the Customer that the order is to be canceled. The verbal notice must be followed by written confirmation within 10 days. If a Customer or End User is unable to accept Access Service within 30 calendar days of the original service date, the Access Order will be canceled and applicable charges will apply.

A. Prior to Firm Order Confirmation Date

If an Access Order is canceled prior to the Firm Order Confirmation date, no charges will apply.

B. On or After Firm Order Confirmation Date

If an Access Order is canceled on or after the Firm Order Confirmation date, the Customer will be billed a flat cancellation fee.

3.9 Presubscribed Interexchange Carrier Charge (PICC)

The Presubscribed Interexchange Carrier Charge (PICC) is a monthly charge imposed by the Company on IXC's when the Company's multi-line business, ISDN-PRI and T-1 customers presubscribe to the IXC's long distance service. For ISDN-PRI and T-1 Customers, the Company will assess five (5) PICC charges per circuit. An IXC selected by the customer for both their interLATA and intraLATA long distance service will be subject to a single PICC per line. This charge will not be prorated for a partial month of service, is not subject to any discounting and does not contribute to any monthly minimums.

**SECTION 4 - DEDICATED SERVICES, DESCRIPTIONS
AND TECHNICAL STANDARDS**

4.1 General

The various types of Carrier service offerings are described below. Carrier services are billed at predetermined monthly rates. Recurring charges are billed in advance of the month in which service is performed. In addition, the optional features and any extraordinary installation costs other than recurring and non-recurring charges may apply as described herein. Customers requesting these services may subscribe to services on a month-to-month basis, or for term discount plans of 1 to 5 years. Customers subscribing to a term discount plan may receive a discount on charges for these arrangements. Agreements for services in excess of 5 years will be negotiated on an ICB.

4.2 Service Configurations

There are two types of service configurations over which Carrier's services are provided: point-to-point service and multipoint service.

4.2.1 Point-To-Point Service

Point-To-Point Service connects two Customer-designated Premises, either on a directly connected basis, or through a hub where multiplexing functions are performed.

4.2.2 Multipoint Service

Multipoint Services connect three or more Customer-Designated Premises through a Carrier hub. There is no limitation on the number of locations connected via multipoint service. However, when more than three points are provided in tandem, the quality of service may be degraded. Multipoint service may be provided where technically possible. If Carrier determines that the requested characteristics for a multipoint service are not compatible, the Customer will be advised and given the opportunity to change the order within 60 days.

4.3 Contract Rates - Special Pricing Arrangements-ICB

- 4.3.1 In lieu of the rates otherwise set forth in this Tariff, rates and charges, including minimum usage, installation, special construction and recurring charges for Carrier's services may be established at negotiated rates on an ICB, taking into account the nature of the Facilities and services, the costs of construction and operation, the volume of traffic, the length of service commitment by the Customer, and use of Facilities by other customers. Such arrangements shall be considered Special Pricing Arrangements, the terms of which will be set forth in individual Customer contracts. However, unless otherwise specified, the terms, conditions, obligation and regulation set forth in this Tariff shall be incorporated into, and become a part of, said contract, and shall be binding on Carrier and Customer. Specialized rates or charges will be made available to similarly situated customers on a non-discriminatory basis.
- 4.3.2 In addition to any rate or charge established by the Carrier, the Customer will also be responsible for any recurring or non-recurring charges imposed by local exchange telephone companies incurred by or on behalf of the Customer in establishing and maintaining service. Such charges may be billed by the Carrier or directly by the local exchange company, at the Carrier's option.

4.4 Service Descriptions And Technical Specifications

The following service descriptions and technical specifications will apply to Carrier's services. When references to Bellcore Technical Publications on file with the F.C.C. are made for performance criteria, the criteria will be considered objectives for Carrier's performance. In no case should the reference to these Bellcore standards be construed as creating any warranties on the part of Carrier. Technical publications are available for review by the Customer upon request.

4.4.1 Voice Grade Service (DS-0)

A Voice Grade Facility is a Channel which provides voice frequency transmission capability in the normal frequency range of 300 to 3000 HZ and may be terminated as analog two-wire or four-wire, or where Facilities permit, as a four-wire in a digital format when used in conjunction with another Voice Grade Facility termination at the other end. Voice Grade Facilities are provided between Customer designated locations or between a Customer designated location and a Carrier's hub.

4.4.2 Digital Data Service (DDS)

A Digital Data Channel is a Channel for duplex four-wire transmission of synchronous serial data at rates of 2.4, 4.8, 9.6, 19.2, 56, or 64 Kbps. The actual bit rate is a function of the interface selected by the Customer. The Channel provides synchronous service with timing provided by Carrier, through Carrier facilities to the Customer in the received bit stream. Digital Data Channels are provided only between Customer designated locations and/or between Customer designated locations and a Carrier's hub.

4.4.3 DS-1 Service

DS-1 Service, or Digital Signal Level 1 Service, is a Channel for the transmission of 1.5644 Mbps data. The actual bit rate and framing format is a function of the interface selected by the Customer. DS-1 Channels are provided between Customer designated locations and between Customer designated locations and a Carrier's hub. (T)

Technical standards are defined in Bellcore Technical Reference TR-NPL-000054, TR-TSY-000342, TR-TSY-000194, and PUB 62508, PUB 62411, PUB 62411A.

4.4.5 Type II Channels

Type II digital Channels are provided where at least one endpoint of a Channel is served by the network of an entity with whom the Company's network is interconnected; such Channels are provided via a combination of the Company's Facilities and the facilities of the interconnected entity. Rates for the portions of the service provided over the Company's Facilities are based on the rates for the corresponding Type I Channel rates. Rates for the portion of the service provided over the facilities of the interconnected entity are based on the rates charged the Company by the interconnected entity. The Company may apply a service charge or mark-up to the rates charged the Company by the interconnected entity.

4.4.6 DS-3 Service

DS-3 Service, or Digital Signal Level 3 Service, is a Channel for the transmission of 44.736 Mbps data. The actual bit rate and framing format is a function of the interface selected by the Customer. DS-3 Channels are provided between Customer designated locations and/or between Customer designated locations and a Carrier's hub. DS-3 service is provided with an electrical interface. As an option, this service may be provided to a Customer with an optical interface at the Customer's Premises. Services with this option will terminate in Carrier's Optical Line Terminating Equipment (OLTE) located in Carrier's hub. The OLTE located at the Customer's Premises is subject to the mutual agreement of the parties, and must be compatible with the OLTE located in Carrier's hub. The optical interface option is available only where Facilities permit, and is offered on an Individual Case Basis (ICB)

4.5 Rate Categories

There are seven rate categories that may apply to Carrier's Services.

4.5.1 Channel Terminations (CT) / Local Distribution Channel (LDC)

The Channel Termination Rate Category provides for the communications path between a Customer designated Premises, and another Customer designated Premises. Included as part of the Channel Termination is a standard interface arrangement which defines the technical characteristics associated with the type of Facilities to which the Carrier's service is to be connected, and the type of signaling capability (if any). One Channel Termination charge applies per Customer designated Premises at which the service is terminated.

(T)

4.5.2 Channel Mileage Termination (CMT) - Fixed

This rate element applies per termination whenever there is mileage associated with the Channel; a Channel has mileage associated with it when the endpoints are located in geographic areas normally served out of separate Telephone Company end offices. Different charges may apply depending on whether the connection is a Type I (on-Net) or Type II (off-net) connection.

4.5.3 Channel Mileage (CM) - Per Mile

This rate element applies whenever there is mileage associated with the Channel. The unit rate is multiplied by the number of miles (Interoffice Mileage) between the two Telephone end offices which normally serve the geographic areas in which the endpoints of the Channel are located. Interoffice Mileage is determined according to the V&H coordinates method set forth in Section 4.7.4. Fractions of a mile are rounded up to the next whole mile before rates are applied. Different charges may apply depending on whether the connection is a Type I (on-Net) or Type II (off-net) connection.

4.5 Rate Categories (Cont'd.)

4.5.4 Optional Features and Functions

The Optional Features and Functions Rate Category provides for optional services which may be added to a Carrier's service to improve its quality or characteristics to meet specific communications requirements. These services are not necessarily identifiable with specific equipment, but rather represent the end result in terms of performance characteristics which may be obtained. These characteristics may be derived using various combinations of equipment.

4.5.5 Extraordinary Charges

From time to time, Customers may request special services not addressed specifically by rate elements in this Tariff, or services to locations that may cause Carrier to incur extraordinary expenses not contemplated in the provision of standard service offerings. These costs include, but are not limited to:

- Additional construction costs
- Building space rental or rights-of-way costs
- Additional equipment
- Special facilities routing

In these cases, the Customer will be billed additional charges computed on an ICB. Special services not addressed in this Tariff shall be approved by the F.C.C. prior to the provision of such service.

- A. Utilize the "V" and "H" coordinates for each Customer designated location.
- B. Obtain the difference between the "V" coordinates of each of the locations. Obtain the difference between the "H" coordinates.
- C. Square each difference obtained in step (ii) above.
- D. Add the square of the "V" difference and the "H" difference obtained in step (iii) above.
- E. Divide the sum of the square by 10. Round to the next higher whole number if any fraction is obtained.
- F. Obtain the square root of the whole number result obtained above. Round to the next higher whole number if any fraction is obtained. This is the airline mileage.

SECTION 5 - END USER ACCESS SERVICE (CONT'D.)

5.8 Miscellaneous End User Access Services

5.8.1 Presubscription

- A. Presubscription is an arrangement whereby an Company End User may select and designate to the Company an Interexchange Carrier (IXC) to access, without an Access Code, for intrastate interLATA Calls and interstate interLATA Calls subject to the Company's tariff. This IXC is referred to as the End User's Primary Interexchange Carrier (PIC). The End User may select as its PIC the Company, or any other IXC that orders originating Feature Group D Switched Access Service at the end office that serves the End User. After the End User's initial selection of a predesignated IXC, for any additional change in selection, a non-recurring charge, as set forth in 5.8.1.C below, applies. (T)
- B. At the request of a new or existing Company End User served by a Feature Group D end office, the Company will provide a list of IXCs the End User may select as its PIC. At no additional charge for the initial selection, the Customer may choose either of the following options. (T)
1. Designate an IXC as a PIC and dial 10XXX or 101XXXX to reach other IXCs.
 2. Designate that they do not want to be presubscribed to any IXC and choose to dial 10XXX or 101 XXXX for all Calls to all IXCs.

New End Users subscribing to the Company's Exchange Access Service which do not specify a PIC will default to the Company as their initial PIC selection. Subsequent to the installation of Exchange Access Service, and after the End User's initial selection of a PIC, for any additional change in selection, a nonrecurring charge as set forth in 5.8.1.C below, applies. This charge is billed to the End User which is the subscriber to the Exchange Access Service, or upon request by the selected IXC, billed to the IXC on behalf of the End User.

- C. PIC Change Charge: \$5.00

5.10 Regulatory Cost Recovery Fee (RCRF)

The Regulatory Cost Recovery Fee (RCRF) is a monthly charge assessed on End Users that allows the Company to recover costs associated with compliance with various federal regulatory fees and programs. This charge is not a government-imposed fee. The RCRF rate is 3.5% percent of a Customer's net interstate and international service charges, exclusive of taxes. This charge is not subject to any discounting and does not contribute to any monthly minimums. (T)

5.11 Facilities Access Charge (FAC) **

The Facilities Access Charge (FAC) is imposed upon T-1 facilities used in connection with the Company's Point-to-Point and data services. The FAC recovers the cost of the Customer's consumption of ports on the Company's network. A FAC applies to each data and Point-to-Point T-1 circuit subscribed to by the Customer. Rates are described below:

State	Per T-1 facility
Connecticut	\$45.40
Maine	\$46.00
Massachusetts	\$46.00

7.2 Recording Service

Recording is the entering on magnetic tape or other acceptable media the details of customer messages originated through switched access service. Recording is provided 24 hours a day, 7 days a week.

The Company will provide recording service in association with the offering of Feature Groups B for 900 Access Service, C, and D Switched Access Service for customer messages that can be recorded by company-provided automatic message accounting equipment. In addition, where the Company records the customer messages on manual tickets, the Company will provide recording service for the manual tickets and at offices where the Company provides Feature Group A switched access service and has the ability to record the Feature Group A call detail with automatic message accounting equipment and mark the recorded call detail as Feature Group A call detail for a specific Customer, the Company will provide the recording service for Feature Group A switched access service. At the request of the Customer, recording service will be provided for Feature Group D switched access service on an end office and type of Call basis. Type of Call means message telecommunications service (MTS) including 700 and 900 service, Calls originating and/or terminating over a WATS access line, and station message detail recording for MTS and Calls originating from a WATS access line.

The Company will provide recording service in its operating territory. The minimum territory for which the Company will provide recording service is all the appropriately equipped offices in a state operating territory for which the Customer has ordered Feature Group A, B for 900 service, C, or D switched access service. A state operating territory of a particular telephone company includes all its LATAs or market areas which are located in the same state including the areas in contiguous states which are assigned to such LATAs or market areas and served by the same company.

7.2 Recording Service (Cont'd.)

7.2.1 Undertaking of the Company

A. The Company will record all customer messages carried over Feature Group B for 900 access service, C, and D switched access service that are available to company-provided recording equipment or operators. The Company will record all customer messages carried over a Feature Group A switched access service. Unavailable customer service messages (i.e. certain Feature Group C operator and TOPS messages which are not accessible by company-provided equipment or operators) will not be recorded. The recording equipment will be provided at locations selected by the Company.

B. A standard format for the provision of the recorded customer message detail will be established by the Company and provided to the Customer. If, in the course of company business, it is necessary to change the format, the Company will notify the involved Customers six months prior to the change.

Assembly and editing, provision of customer detail, data transmission to a customer location, special orders for recording and program development will be provided to the Customer on a contractual basis.

C. Recorded customer message detail which is used at the request of the Customer to provide message processing and message bill processing service is not retained by the Company for longer than 45 days. The rates for unbilled message detail and the billed message detail is retained for reference in place of the recorded customer message detail. For recorded customer message detail not used by message processing service at the Customer's request, the Company will make every reasonable effort to recover recorded customer message detail previously made available to the Customer and make it available again for the Customer. The charges as set forth in the rate schedule, following, will apply for all such detail provided. Such a request must be made within thirty (30) days from the date the details were initially made available to the Customer.

7.4 Billing Name And Address Service

Billing Name and Address (BNA) service is the provision of the complete billing name, street address, city or town, state and zip code for a telephone number assigned by the Company.

BNA service is provided for the sole purpose of permitting the Customer to bill its telephonic communications services to its End Users and may not be resold or used for any other purpose, including marketing activity such as market surveys or direct marketing by mail or by telephone.

The Customer may not use BNA information to bill for merchandise, gift certificates, catalogs, or other services or products.

BNA services is provided on both a manual and a mechanized basis. On a manual basis, the information will be provided by voice telecommunications or by mail, as appropriate. On a mechanized basis, the information will be entered on magnetic tape containing recorded customer messages.

BNA information is furnished for sent-paid, collect, bill to third number, 700 and 900 service messages and messages charged to a calling card that is resident in the Company's database. In addition, BNA information for messages originated from data terminal numbers (DTNs) of data communications services is furnished on a manual basis only.

7.4 Billing Name And Address Service (Cont'd.)

7.4.1 Undertaking of the Company

- A. A request for information on over 100 and up to 500 telephone numbers should be mailed to the Company. The Company will provide the response by first class U.S. Mail within ten (10) business days.
- B. Upon receipt of a magnetic tape of recorded customer messages, the Company will, at the request of the Customer, provide BNA service on a mechanized basis. The tape of messages may be provided by the Customer or, where the Customer subscribes to recording service as set forth in this Tariff, may be the output from that service. The Company will enter the BNA information on the recorded message tape and send the tape to the Customer by first class U.S. Mail. Other methods of delivering the data may be negotiated, and charges based on cost will apply.

The Company will provide a response to Customer-provided tapes by mail within six (6) business days of receipt. The Company will process and mail tapes which are the output of recording service every fifth business day.
- C. The Company will specify the format in which requests and tapes are to be submitted.
- D. The BNA information will be provided for the calling number furnished to the extent a billing name and address exists in the Company Customer records information system, including non-published and non-listed numbers. If the billing name and address information for a specific calling number is confidential due to legal, national security, end user or regulatory imposed requirements, the Company will provide an indicator on the confidential records.
- E. The Company will provide the most current BNA information resident in its database. Due to normal End User account activity there may be instances where the BNA information provided is not the BNA that was applicable at the time the message was originated.

- A. Service Establishment Charges apply for the initial establishment of BNA service on a manual basis, for the initial establishment of BNA service on a mechanized basis and for establishment of a master BNA list for a Customer.
- B. A charge applies for each request for BNA information for a telephone number or DTN number on a manual basis. A charge applies for each message processed to supply BNA information on a mechanized basis.

The Company will keep a count of the requests and of the messages processed. The Company will bill the Customer in accordance with these counts whether or not the Company was able to provide BNA information for all request and messages.

- C. Where the recorded message detail is sufficient to determine a message is an intrastate message, the rates set forth in the rate schedule following will apply to each such message.

Usage for which the recorded message detail is insufficient to determine jurisdiction will be prorated by the Company between interstate and intrastate.

The percentages provided in the reports as set forth in this Tariff will serve as the basis for prorating the charges. The intrastate charges are determined as follows: For usage sensitive (i.e., requests or messages processed) chargeable rate elements, multiply the intrastate percent times actual use times the stated Tariff rate.

SECTION 8 - DESCRIPTION AND APPLICATION OF RATES AND CHARGES

8.1 Usage Rates

Usage rates for Switched Access service are rates that apply: (1) on a per Access Minute basis; (2) on a per Call blocked basis beyond the blocking threshold for Network Blocking; (3) on a per query basis for 800 Database Queries. All charges are accumulated on a monthly basis.

(T)

8.2 Monthly Rates

Monthly rates are flat recurring rates that apply each month or fraction thereof that a chargeable optional feature of basic service element is provided. For billing and prorating purposes, each month is considered to have 30 days.

8.3 Non-Recurring Charges

Nonrecurring charges are one-time charges that apply for specific work activity. The types of non-recurring charges are as follows:

8.3.1 Access Order Charge

The Access Order Charge applies to all Customer requests for new switched access service, and for additions, changes, or rearrangements to existing service. It is applied on a per order basis to each order received by the Company, and is in addition to any other applicable charges as set forth in this and other sections of this Tariff.

Access Order Charge	\$150.00
---------------------	----------

The Access Order Charge does not apply:

- to administrative changes as set forth in this Tariff;
- when a change in a pending order does not result in the cancellation of the pending order and the issuance of a new order;
- when a Company initiated network reconfiguration requires a Customer's existing access service to be reconfigured.

* Provided on Individual Case Basis

8.3.3 Service Rearrangements

All changes to existing services other than changes involving administrative activities will be treated as the discontinuance of the existing service and an installation of a new service. Installation charges as described in 8.3.2 above apply. Changes and additions to existing services which are necessary due to Company initiated network reconfigurations will be made without charge to the Customer.

A. Administrative changes include the following:

1. change of Customer name;
2. change of Customer or Customer's End User Premises address when the change of address is not the result of a physical relocation of equipment;
3. change in billing data (name, address, contract name or telephone number);
4. change of agency authorization;

9.1.1 General

DSL Access Service enables data traffic generated by the Customer's equipment to be transported to a DSL Access Service Connection Point using the Customer's local exchange service facilities. At the DSL Access Service Connection Point, the Customer's DSL Access Service must be connected to a telecommunications service provider's Customer Designated Premises using either the Company's Dedicated Access Services. A DSL Access Service Connection Point is an interconnection point designated by the Company that aggregates data traffic from and to Company DSL Serving Wire Centers (SWCs). The Customer for DSL Access Service is the subscriber of the Company's local exchange service.

A generic view of how DSL Access Service would be interconnected with a telecommunications service provider's network is depicted in the figure following. In this example, the Customer's serving wire center is designated as a DSL Access Service Connection Point. The Customer orders DSL Access Service pursuant to the provisions specified in this section. The DSL Access Service Customer's telecommunications service provider orders Dedicated Access Service pursuant to the provisions specified in Section 4, preceeding, to connect its Customer Designated Premises to the DSL Access Service Connection Point.

SECTION 9 - ADVANCED SERVICES (CONT'D.)

9.1 Digital Subscriber Line Service (Cont'd.)

9.1.1 General (Cont'd.)

DSL ACCESS SERVICE

9.1.2 Limitations

DSL Access Service is available at transmission speeds ranging from a minimum of 128 kbps to a maximum of 1.544 Mbps. These speeds are applicable for upstream transmission (i.e., from the Customer's equipment up to the DSL Access Service Connection Point) as well as downstream transmission (i.e., from the DSL Access Service Connection Point down to the Customer's equipment). These peak speeds are not guaranteed by the Company due to factors that may affect the actual speeds delivered, including loop distance from the Company Serving Wire Center, condition of the Facilities, and limitations in the telecommunications service provider's network design.

SECTION 9 - ADVANCED SERVICES (CONT'D.)

9.1 Digital Subscriber Line Service (Cont'd.)

9.1.2 Limitations (Cont'd.)

DSL Access Service will be furnished where suitable Facilities exist as determined by the Company. Rates and regulations for DSL Access Service are in addition to any rates and regulations that apply for the DSL Access Service Customer's local exchange service. Rates and regulations for Dedicated Access Service will apply for the access service(s) provided between the telecommunications service provider's Customer Designated Premises and the DSL Access Service Connection Point, as described in Section 4, preceding.

9.1.3 Undertaking of the Company

The Company will provide DSL Access Service as follows:

- A. The Company will determine if the Customer's local exchange service line is suitable for use with DSL Access Service. Service will not be provided on lines that the Company determines are not suitable for DSL Access Service or on lines that produce interference with other services provided by the Company.
- B. The Company, after determining if the local exchange service line is suitable for DSL Access Service, will notify the Customer if any additional CPE is necessary to support DSL Access Service.
- C. The Company will provision and maintain DSL Access Service from the DSL Connection Point to the Point of Termination at the Customer's Premises.

9.1.4 Obligations of the Customer

In addition to the regulations described in other sections of this Tariff, the following provisions apply to DSL Access Service:

Issued: September 30, 2011

Effective: October 1, 2011

ACCESS SERVICES

SECTION 9 - ADVANCED SERVICES (CONT'D.)

9.1 Digital Subscriber Line Service (Cont'd.)

9.1.4 Obligations of the Customer (Cont'd.)

- A. The Customer is responsible for providing the Company with the necessary information to provision DSL Access Service. Such information would include, but is not necessarily limited to, the following:
 - 1. Customer name.
 - 2. Telephone number and Premises address
 - 3. Billing name and address when different from the Customer name and Premises address.
 - 4. Customer contact name and telephone number.
 - 5. The contact name and telephone number of the telecommunications service provider with which the Customer's DSL access service will interconnect).
- B. The Customer is responsible for providing and maintaining all required Customer provided equipment (CPE) which is compatible with DSL Access Service.

9.1.5 Rate Regulations

This section contains the regulations governing the rates and charges that apply for DSL Access Service. Regulations governing the rates and charges for the Dedicated Access Services used in conjunction with DSL Access Service are as specified in Section 4, preceding. The rates for DSL Access Service will be billed to the subscriber of the local exchange service.

A. Minimum Period

The minimum period for which DSL Access Service is provided to a Customer and for which charges are applicable is one month.

B. Moves

A move involves a change in the physical location of one of the following:

- 1. The Point of Termination at the Customer Designated Premises
- 2. The Customer Designated Premises

SECTION 11 - VOIP-PSTN TRAFFIC

(N)

11.1 VoIP-PSTN Traffic

The VoIP-PSTN Traffic category consists of all traffic that (i) is exchanged in Time Division Multiplexing ("TDM") format and (ii) originates and/or terminates in Internet protocol ("IP") format. See Federal Communications Commission Report and Order in WC Docket Nos. 10-90, etc., FCC Release No. 11-161 (Nov. 18, 2011) ("FCC Order"). These services are tariffed within the Company's federal access tariff consistent with the FCC Order.

11.2 Identification and Rating of VoIP-PSTN Traffic

11.2.1 Scope

This section governs the identification of VoIP-PSTN Traffic that is required to be compensated at interstate access rates (unless the parties have agreed otherwise) by the Federal Communications Commission in its Report and Order in WC Docket Nos. 10-90, etc., FCC Release No. 11-161 (Nov. 18, 2011) ("FCC Order"). Specifically, this section establishes the method of separating such traffic (referred to in this tariff as "Relevant VoIP-PSTN Traffic") from the Customer's traditional interstate access traffic, so that such Relevant VoIP-PSTN Traffic can be billed in accordance with the FCC Order.

11.2.2 Rating of VoIP-PSTN Traffic

The Relevant VoIP-PSTN Traffic identified in accordance with this Section will be billed at rates equal to those tariffed for the Company's interstate switched access services as described in Section 3 of this Tariff. Consistent with the FCC Order, charges are assessed by the Company for services provided by the Company and/or by any of its VoIP Provider Partner(s).

11.2.3 Calculation and Application of Percent-VoIP-Usage Factor

The Company will determine the number of Relevant VoIP-PSTN Traffic minutes of use ("MOU") to which interstate rates will be applied under subsection (B), above, by applying a Percent VoIP Usage ("PVU") factor to the total interstate access MOU (however determined – either based on call detail information or PIU) exchanged between the Company and the Customer.

A. The PVU for traffic will be derived and applied as follows:

1. The Customer will calculate and furnish to the Company a factor (the "PVU-A") representing the percentage of the total intrastate and interstate access MOU for traffic that the Customer exchanges with the Company in the State, that (a) is sent to the Company and that originates in IP format; or (b) is received from the Company and terminates in IP format. This PVU-A shall be based on information such as the number of the Customer's retail VoIP subscriptions in the state (e.g., as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information consistent with the FCC Order.
2. Company will, likewise, calculate a factor (the "PVU-B") representing the percentage of the Company's total access MOU for traffic in the State that the Company originates or terminates in IP format. This PVU-B shall be based on information such as the number of the Company's retail VoIP subscriptions in the state (e.g., as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information consistent with the FCC Order.

11.2.3 (Cont'd.)

A. The PVU for traffic will be derived and applied as follows: (Cont'd.)

3. The Company will use the PVU-A and PVU-B factors to calculate an over-all PVU factor that represents the percentage of total access MOU for service exchanged between the Company and the Customer that is originated or terminated in IP format, whether at the Company's end, at the Customer's end, or at both ends. The PVU factor will be calculated as the sum of: (A) the PVU-A factor and (B) the PVU-B factor times (1.0 minus the PVU-A factor).
4. The Company will apply the over-all PVU factor to the total service interstate access MOU exchanged with the Customer to determine the number of Relevant VoIP-PSTN Traffic MOUs for service.

11.2 Identification and Rating of VoIP-PSTN Traffic (Cont'd.)

(N)

11.2.3 (Cont'd.)

- B. Examples for PVU Factor Calculations:
(The calculation elements in these examples are generic.)

Example 1: The PVU-B is 10% and the PVU-A is 40%. The over-all PVU factor is equal to $40\% + (10\% \times 60\%) = 46\%$. The Company will bill 46% of the Customer's interstate access MOU as VoIP-PSTN Traffic, pursuant to this Section of this Tariff.

Example 2: The PVU-B is 10% and the PVU-A is 0%. The over-all PVU factor is $0\% + (100\% \times 10\%) = 10\%$. The Company will bill 10% of the Customer's interstate access MOU as VoIP-PSTN Traffic, pursuant to this Section of this Tariff.

Example 3: The PVU-A is 100%. No matter what the PVU-B factor is, the over-all PVU is 100%. The Company will bill 100% of the Customer's interstate access MOU as VoIP-PSTN Traffic, pursuant to this Section of this Tariff.

- C. Default PVU Factors

If the Customer does not furnish the Company with a PVU pursuant to the preceding paragraph 11.2.3.A.1 of this Section, the Company will utilize a PVU equal to the Company's PVU-B factors.

11.2.4 Initial PVU Factors

If the PVU factors are not available and/or cannot be implemented in the Company's billing systems by January 1, 2012, once the factors are available and can be implemented the Company will adjust the Customer's bills to reflect the PVUs retroactively to January 1, 2012. In calculating the initial PVUs, the Company will take the Customer-specified PVU-As into account retroactively to January 1, 2012, provided that the Customer provides the factors to the Company no later than April 15, 2012; otherwise, it will set the initial PVU equal to the PVU-B, as specified in subsection 11.2.3.A.2, above.

11.2.5 PVU Factor Updates

The Customer or the Company may update the PVU-A factors quarterly using the method set forth in subsection (11.2.3.A.1, above. If the Customer chooses to submit such updates, it shall forward to the Company, no later than 15 days after the first day of January, April, July and/or October of each year, a revised PVU-A factors based on data for the prior three months, ending the last day of December, March, June and September, respectively. The Company will use the revised PVU-A to calculate a revised PVU. The revised PVU factors will apply prospectively and serve as the basis for billing until superseded by new a PVU.

11.2.6 PVU Factor Verification

Not more than twice in any year, the Company may ask the Customer to verify the PVU-A factor furnished to the Company and Customer may ask the Company to verify the PVU-B factor and the calculation of the PVU factor. The party so requested shall comply, and shall reasonably provide the records and other information used to determine the respective PVU-A and PVU-B factor.
