**CASE NO:** 2000-4  
**CUSTOMER:** State of Colorado  
**EFFECTIVE:** 11-21-2000

**DESCRIPTION:** Colorado Facility Reservation provides the customer, the State of Colorado, with up to 44 ATM Service Points (ANAPs) designated by the customer which are either working or reserved for activation throughout the entire state. The ANAPs include bandwidth of at least 20 Mbps.

The State of Colorado agrees to pay for the up to 44 designated ANAPs per month until this agreement expires. The ANAPs rate element guarantees that the customer will have at least 20 Mbps of interoffice bandwidth available for use and does not replace any existing rate element.

The initial term of this case is 60 months which will complete on November 21, 2005. The customer has elected to extend this plan through June 30, 2010. The Nonappropriations Clause, as set forth in 10.8.1.E., preceding, also applies to this offering.

If this service becomes a general tariff offering within the term of this Case, this arrangement will be converted to that general offering at the applicable rates. If the customer chooses not to convert to the general tariff offering, the service will be terminated without assessing Termination Liability.
