Transmittal No. 1859

Ms. Marlene H. Dortch
Secretary
Federal Communications Commission
Washington, D.C. 20554

Attention: Wireline Competition Bureau

The accompanying tariff material, issued by Ameritech Operating Companies (Ameritech) and bearing Tariff F.C.C. No. 2, is sent to you for filing in compliance with the requirements of the Communications Act of 1934, as amended.

This filing, scheduled to become effective June 22, 2017, consists of the tariff pages as indicated on the following check sheets

Tariff F.C.C. No.
2

Check Sheet Revision No.
1677th Revised Page 1
254th Revised Page 1.4

Pursuant the Federal Communications Commission's (FCC's) Report and Order and Further Order of Proposed Rulemaking (USF/ICC Order), FCC No. 11-161 released November 18, 2011, price cap carriers are required to bifurcate their terminating tandem rate elements to reflect traffic terminating to the Telephone Companies own end office and traffic terminating to non-Telephone Company 3rd party locations based on call recordings.

With this filing, Ameritech is restructuring its tandem transport and host remote rate elements.

In accordance with Section 61.14, this transmittal letter and associated attachments are being filed electronically today via the Federal Communications Commission's Electronic Tariffing System (ETFS) in compliance with the electronic filing procedures.

ACCESS SERVICE

6. Switched Access Service (Cont'd)

6.8 Rate Regulations (Cont'd)

6.8.2 Description and Application of Rates and Charges (Cont'd)

(D) Application of Rates (Cont'd)

(4) Tandem-Switched Transport Rate Application

Tandem-Switched Transport rates are usage sensitive and are applied equally to all customers except as noted in herein. Tandem-switched transport rate elements are billed as Originating, Terminating to Telephone Company's own end office, and Terminating to non-Telephone Company 3rd party locations based on call recordings. Non-Telephone Company 3rd party locations are all offices or other locations not owned by the Telephone Company. Examples of 3rd party locations include terminations to other local exchange and wireless carriers. The rate application for the Tandem-Switched Transport rate elements is as follows:

(N)
(N)
(N)
(N)
(N)
(N)
(N)

(a) Tandem-Switched Termination Rate

The Tandem-Switched Termination rate is assessed to all switched access minutes that are transported over Tandem-Switched Transport Services, except where Tandem-Switched Transport Services originate or terminates to a Class 4/5 switch.

(This page filed under Transmittal No. 1859)

ACCESS SERVICE

6. Switched Access Service (Cont'd)

6.8 Rate Regulations (Cont'd)

6.8.2 Description and Application of Rates and Charges (Cont'd)

(D) Application of Rates (Cont'd)

(8) Trunk Ports (Cont'd)

(b) End Office Common Trunk Port Rate

The End Office Common Trunk Port rate will apply to all originating and terminating minutes of use between the access tandem and the end office. This rate will also be assessed on FGA minutes of use terminating outside of the dial tone office, and all minutes of use originating or terminating at a RSS/RSM. The Common Trunk Port rate is assessed to all switched access minutes over Tandem Switched Transport Services, except where Tandem Switched Transport Services originate or terminate to a class 4/5 switch.

The common Trunk Port charge does not apply for Switched Access Services provided in conjunction with a cellular carrier or RCC which is directly connected at an access tandem.

(c) End Office Dedicated Trunk Port Rate

The End Office Dedicated Trunk Port rate is assessed on all direct-routed facilities between the serving wire center or the hub, and the end office terminating in an end office trunk port. The rate is assessed for all Feature Group services on a per LT-1 basis. Each voice grade trunk terminating will be assessed 1/24th of the LT-1 rate. When Direct Transport is provided as an LT-3, LT-3 to LT-1 multiplexing is required.

Dedicated End Office Port is billed as originating and terminating based on a Percent Originating Usage (POU) factor of 50%.

Originating Calculation = PIU x Originating Rate x Quantity x POU

Terminating Calculation = PIU x Terminating Rate x Quantity x (100-POU)

(9) Switched Transport Multiplexing

(a) Common Multiplexing

Common Multiplexing is assessed on a per minute basis at the access tandem for all switched access minutes that are transported over Tandem-Switched Transport between the end office and the access tandem. The Common Multiplexing Charge applies whenever the Tandem Switching rate applies. Common Multiplexing is billed as Originating, Terminating to Telephone Company's own end office, and Terminating to non-Telephone Company 3rd party locations based on call recordings. Non-Telephone Company 3rd party locations are all offices or other locations not owned by the Telephone Company. Examples of 3rd party locations include terminations to other local exchange and wireless carriers.

AMERITECH OPERATING COMPANIES
DESCRIPTION AND JUSTIFICATION
June 7, 2017
TRANSMITTAL NO. 1859

PURPOSE

Pursuant the Federal Communications Commission's (FCC's) Report and Order and Further Order of Proposed Rulemaking (*USF/ICC Order*), FCC No. 11-161 released November 18, 2011, price cap carriers are required to bifurcate their terminating tandem rate elements to reflect traffic terminating to the Telephone Companies own end office and traffic terminating to non-Telephone Company 3rd party locations based on call recordings. In discussions between the Price Cap Industry and the FCC following transitional rules for the treatment of tandem traffic were developed:

- Traffic Terminating from a Price Cap ILEC-owned Tandem to its own or any other Price Cap ILEC End Office owned by the same Holding Company, will be considered "Tandem-to-End Office" that will transition to \$0.0007 (July 2017).
- All other Tandem Traffic that traverses an ILEC-owned tandem and does not terminate to an end user served by the ILEC End Office will be considered "Tandem-to- 3rd Parties," and will continued to be billed at the current Interstate rates. This includes traffic that terminates from a Price Cap ILEC-owned tandem to an affiliated CLEC or wireless end office.
- Terminating traffic switched through a Tandem to an End Office to a Host and then to a Remote that are all owned by the same Price Cap LEC, should be billed at the transitional rates – (Tandem to End office).
- For terminating traffic delivered to a Host Office through a direct trunk transport then to a Remote where the Price Cap LEC owns the Host/Remote facilities, the rate depends on whether or not the Tandem within the study area (Homing Tandem) is owned by the Price Cap LEC.
 - Terminating Traffic delivered to a Host Office through a direct trunk transport then to a Remote where the Price Cap LEC owns the Host/Remote facilities and the Price Cap LEC also owns the Homing Tandem within the study area, should be billed at the transitional rates – (Tandem to End office). (The reasoning for using the transitional rates is because the opportunity exists for the terminating traffic to be switched through the Tandem owned by the Price Cap LEC and be billed at transitional rates).

With this filing, Ameritech Operating Companies (Ameritech) is restructuring its tandem transport and host remote rate elements to comply with the above rules.

DESCRIPTION

Currently, Ameritech's Tariff FCC No. 2 has a single set of rate elements that apply to all terminating tandem traffic and they are Tandem-Switched Transmission/Common Transport per access minute, per access minute of use per mile, and terminating Host Remote. Ameritech will split that single set into two sets – one set of rate elements for terminating tandem traffic that traverses the Telephone Company's own Tandem and terminates to the Telephone Company's own end office ("Tandem to End Office"); the second set of rate elements for terminating tandem traffic that traverses the Telephone Company's own Tandem and terminates to non-Telephone Company 3rd party locations ("Tandem to 3rd Party"). The splitting of the tandem rate elements is administrative in nature. The existing tandem rates are not changing with this filing.

This filing is being made on a 15-days' notice.

Kristen Shore
Assistant Vice President – Regulatory

ACCESS SERVICE

6 - BellSouth SWA Service (Cont'd)

6.1 General (Cont'd)

6.1.3 Rate Categories (Cont'd)

(A) BellSouth SWA Transport (Cont'd)

(2) Switched Interoffice Channel (Cont'd)

(b) Switched Common Interoffice Channel (Cont'd)

The SW CIOC transmission charge is a per minute of use, per mile charge. Facility termination charges are assessed on a per minute of use for greater than zero miles.

SW CIOC transmission and facility termination charges are billed as Originating, Terminating to Telephone Company's own end office, and Terminating to non-Telephone Company 3rd party locations based on call recordings. Non-Telephone Company 3rd party locations are all offices or other locations not owned by the Telephone Company. Examples of 3rd party locations include terminations to other local exchange and wireless carriers.

(3) Access Tandem Switching

Access Tandem Switching provides for the function of switching traffic through the Access Tandem from or to the end office switch(es). The Access Tandem Switching charge is assessed on all originating and terminating minutes of use switched at the Access Tandem.. Access Tandem Switching charges are billed as Originating, Terminating to Telephone Company's own end office and Terminating to non-Telephone Company 3rd party locations based on call recordings. Non-Telephone Company 3rd party locations are all offices or other locations not owned by the Telephone Company. Examples of 3rd party locations include terminations to other local exchange and wireless carriers.

(N)

(4) Dedicated Tandem Trunk Port

The Dedicated Tandem Trunk Port provides for termination of transport facilities at the Telephone Company tandem switch. This service is required for all BellSouth SWA Dedicated Transport ordered to the access tandem for switching at the tandem. It is available on a DS0/VG and DS1 trunk port basis. Rates and charges are set forth in 6.8.1(C)(2) following.

(5) Interconnection

The Interconnection charge shall be assessed upon all customers interconnecting with the Telephone Company Switched Access Network. Interconnection is applicable to all switched access originating and terminating minutes of use. Separate originating and terminating Interconnection charges are applicable to those customers utilizing Telephone Company transport facilities and those customers not using Telephone Company transport facilities to gain access to the Telephone Company switched network.

The application of originating and terminating Interconnection rates on the originating end for BellSouth SWA FGA, BellSouth SWA LSBSA, 700, BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening service and BellSouth SWA 900 service will follow the application of originating and terminating Carrier Common Line rates for those services as specified in 3.8.5 preceeding. Interconnection rates are provided in 6.8.1(D) following.

6 - BellSouth SWA Service (Cont'd)

6.1 General (Cont'd)

6.1.3 Rate Categories (Cont'd)

(A) BellSouth SWA Transport (Cont'd)

(8) BellSouth SWA High Capacity and BellSouth SWA DS0 Transport Services
(Cont'd)

(d) Channelization Equipment (Cont'd)

BellSouth SWA DS3 to BellSouth SWA DS1 - An arrangement that channelizes a 44.736 Mbps channel to 28 DS1 channels.

BellSouth SWA DS1 Basic Channelization System - An arrangement that channelizes a 1.544 Mbps channel to a maximum of twenty-four (24) 64 Kbps channels. A BellSouth SWA DS1 Basic Channelization System requires a Central Office Channel Interface for each channel of lesser capacity.

A BellSouth SWA DS1 that is directly terminated into a digital switch is restricted to trunk side switched traffic and cannot be used for line side connections or Special Access (a.k.a. BellSouth SPA) circuits.

A BellSouth SWA DS1 that is directly terminated into an analog switch is restricted to trunk side switched traffic and cannot be used for line side connections or Special Access (a.k.a. BellSouth SPA) circuits.

The Central Office Channel Interface (COCI) is necessary to activate the Sub DS1 Service capable of carrying BellSouth SWA Access traffic. The COCI is required in addition to the Basic Channelization System.

Rates applicable to the Channelization Systems and the applicable Central Office Channel Interfaces are provided in 6.8.1 following.

(9) Channelization for Common Transport Interoffice Channels

The following rate elements apply where the customer orders BellSouth SWA Common Transport.

(a) DS3 to DS1 Multiplexer

This rate element is for use of DS3 to DS1 multiplexer equipment within the Telephone Company common transport network and is required for customers utilizing BellSouth SWA Common Transport. The rate element applies for each BellSouth SWA Common Transport minute of use between the access tandem and the end office, as well as for each minute of use between a host and remote end office, and each terminating minute of use between a BellSouth SWA FGA or BellSouth SWA LSBSA dial tone office and the end office. DS3 to DS1 Multiplexer charges are billed as Originating, Terminating to Telephone Company's own end office, and Terminating to non-Telephone Company 3rd party locations based on call recordings. Non-Telephone Company 3rd party locations are all offices or other locations not owned by the Telephone Company. Examples of 3rd party locations include terminations to other local exchange and wireless carriers. The rate for this element is found in 6.8.1(B)(2)(a) following.

BELLSOUTH TELECOMMUNICATIONS, LLC.
DESCRIPTION AND JUSTIFICATION
June 7, 2017
TRANSMITTAL NO. 129

PURPOSE

Pursuant the Federal Communications Commission's (FCC's) Report and Order and Further Order of Proposed Rulemaking (*USF/ICC Order*), FCC No. 11-161 released November 18, 2011, price cap carriers are required to bifurcate their terminating tandem rate elements to reflect traffic terminating to the Telephone Companies own end office and traffic terminating to non-Telephone Company 3rd party locations based on call recordings. In discussions between the Price Cap Industry and the FCC following transitional rules for the treatment of tandem traffic were developed:

- Traffic Terminating from a Price Cap ILEC-owned Tandem to its own or any other Price Cap ILEC End Office owned by the same Holding Company, will be considered "Tandem-to-End Office" that will transition to \$0.0007 (July 2017).
- All other Tandem Traffic that traverses an ILEC-owned tandem and does not terminate to an end user served by the ILEC End Office will be considered "Tandem-to- 3rd Parties," and will continued to be billed at the current Interstate rates. This includes traffic that terminates from a Price Cap ILEC-owned tandem to an affiliated CLEC or wireless end office.
- Terminating traffic switched through a Tandem to an End Office to a Host and then to a Remote that are all owned by the same Price Cap LEC, should be billed at the transitional rates – (Tandem to End office).
- For terminating traffic delivered to a Host Office through a direct trunk transport then to a Remote where the Price Cap LEC owns the Host/Remote facilities, the rate depends on whether or not the Tandem within the study area (Homing Tandem) is owned by the Price Cap LEC.
 - Terminating Traffic delivered to a Host Office through a direct trunk transport then to a Remote where the Price Cap LEC owns the Host/Remote facilities and the Price Cap LEC also owns the Homing Tandem within the study area, should be billed at the transitional rates – (Tandem to End office). (The reasoning for using the transitional rates is because the opportunity exists for the terminating traffic to be switched through the Tandem owned by the Price Cap LEC and be billed at transitional rates).

With this filing, BellSouth Telecommunications, LLC. (BellSouth) is restructuring its tandem transport and host remote rate elements to comply with the above rules.

DESCRIPTION

Currently, BellSouth's Tariff FCC No. 1 has a single set of rate elements that apply to all terminating tandem traffic and they are Tandem-Switched Transmission/Common Transport per access minute, per access minute of use per mile, and terminating Host Remote. BellSouth will split that single set into two sets – one set of rate elements for terminating tandem traffic that traverses the Telephone Company's own Tandem and terminates to the Telephone Company's own end office ("Tandem to End Office"); the second set of rate elements for terminating tandem traffic that traverses the Telephone Company's own Tandem and terminates to non-Telephone Company 3rd party locations ("Tandem to 3rd Party"). The splitting of the tandem rate elements is administrative in nature. The existing tandem rates are not changing with this filing.

This filing is being made on a 15-days' notice.

Transmittal No. 300

Ms. Marlene H. Dortch
Secretary
Federal Communications Commission
Washington, D.C. 20554

Attention: Wireline Competition Bureau

The accompanying tariff material, issued by Nevada Bell Telephone Company (NBTC) and bearing Tariff F.C.C. No. 1, is sent to you for publication in compliance with the requirements of the Communications Act of 1934, as amended.

This filing, scheduled to become effective June 22, 2017, consists of the tariff pages as indicated on the following check sheets

Tariff F.C.C. No.
1

Check Sheet Revision No.
280th Revised Page 1
34th Revised Page 1.4

Pursuant the Federal Communications Commission's (FCC's) Report and Order and Further Order of Proposed Rulemaking (USF/ICC Order), FCC No. 11-161 released November 18, 2011, price cap carriers are required to bifurcate their terminating tandem rate elements to reflect traffic terminating to the Telephone Companies own end office and traffic terminating to non-Telephone Company 3rd party locations based on call recordings.

With this filing, NBTC is restructuring its tandem transport and host remote rate elements.

In accordance with Section 61.14, this transmittal letter and associated attachments are being filed electronically today via the Federal Communications Commission's Electronic Tariff Filing System (ETFS) in compliance with the electronic filing procedures.

June 7, 2017

Payment in the amount of \$925.00 has been electronically transmitted to the US Bank in St. Louis, Missouri, in accordance with the fee program procedures. The Form 159 is being transmitted electronically via ETFS as a proprietary document. These actions have been committed on the date established as the issued (filed) date as reflected above.

Personal or facsimile service petitions against this Letter, as required under Section 1.773(a)(4) of the Commission's Rules, should be sent to Rosemary Chambers, Area Manager – Access Regulatory, 311 S. Akard, Room 9-A19, Dallas, Texas 75202, facsimile number (214) 464-2006. All other correspondence and inquiries concerning this Transmittal should be addressed to Debra L. Clemens, Director-Federal Regulatory, (202) 457-3066, 1120 20th Street, N.W., Suite 1000, Washington, D.C. 20036.

Sincerely,

A handwritten signature in cursive script, appearing to read "Krista E. Shum".

ACCESS SERVICE

6. Switched Access Service (Cont'd)6.7 Rate Regulations (Cont'd)6.7.1 Description and Application of Rates and Charges (Cont'd)(D) Application of Rates (Cont'd)(2) Direct Trunked Transport

Direct Trunked Transport includes the charge for transport from a customer's serving wire center to an end office for switching of a customer's originating and terminating traffic, a hub location for multiplexing or an Access Tandem for interconnection to Tandem Switched Transport to an end office(s). The rates are applied for a Voice Grade, DS1 and DS3 Transport Channel on a per month fixed and per month per mile basis. The mileage between the end office, hub or access tandem involved and the customer's serving wire center is determined as set forth in 6.7.11 following. The rates as set forth in 6.8.2(B) following apply for the selected Transport Channel even if all the transmission paths on the selected Transport Channel are not activated. DS3 Direct Trunked Transport requires DS3 to DS1 multiplexing as set forth in 6.7.1(D) (5) following. Additionally, a DS1 to DS0 multiplexing chargeable optional feature is available as set forth in 6.7.1(D) (5) following.

(3) Tandem Switched Transport

Tandem Switched Transport includes charges for transport from end offices to the access tandem and for Tandem Switching at the access tandem.

- (a) Tandem Switched Transport rates are applied on a per minute of use fixed and per minute of use per mile basis. Tandem Switched Transport rate elements are billed as Originating, Terminating to Telephone Company's own end office, and Terminating to non-Telephone Company 3rd party locations based on call recordings. Non-Telephone Company 3rd party locations are all offices or other locations not owned by the Telephone Company. Examples of 3rd party locations include terminations to other local exchange and wireless carriers. The chargeable minutes of use for determining the charges are the minutes that are carried over the involved Tandem Switched Transport facilities. The mileage between the end office involved and the access tandem is determined as set forth in 6.7.11 following. The rates are as set forth in 6.8.1(C) following.

6. Switched Access Service (Cont'd)6.7 Rate Regulations (Cont'd)6.7.1 Description and Application of Rates and Charges (Cont'd)(D) Application of Rates (Cont'd)(3) Tandem Switched Transport (Cont'd)

- (b) Tandem Switching rates are applied on a per minute of use basis. Tandem Switching rates are billed as Originating, Terminating to Telephone Company's own end office, and Terminating to non-Telephone Company 3rd party locations based on call recordings. Non-Telephone Company 3rd party locations are all offices or other locations not owned by the Telephone Company. Examples of 3rd party locations include terminations to other local exchange and wireless carriers. (N)

The chargeable minutes of use for determining the charges are the minutes that are carried over the involved Tandem Switched Transport facilities. The chargeable minutes are determined as set forth 6.7.6 following. The rates are as set forth in 6.8.1(C) following.

- (c) Host Remote Transmission rates are applied on a per access minutes of use and a per access minutes of use per mile basis. These rates also apply to Common Transport facilities that are provided for the common use of all customers but which are not switched through an access tandem.
- Host Remote Transmission may be associated with both tandem routed services and direct routed services such as when Tandem-Switched Transport is ordered to a host office to access remotes. Mileage is always measured separately from Tandem-Switched Transmission and Direct-Trunked Transport.

Mileage measure is described in 6.7.11.

6. Switched Access Service (Cont'd)6.7 Rate Regulations (Cont'd)6.7.1 Description and Application of Rates and Charges (Cont'd)(D) Application of Rates (Cont'd)(3) Tandem Switched Transport (Cont'd)

(d) Tandem End Office Multiplexing

Rates are applied on a per minute of use basis for the use of the multiplexing equipment on the end office side of the access tandem. Tandem End Office Multiplexing rates are billed as Originating, Terminating to Telephone Company's own end office and Terminating to non-Telephone Company 3rd party locations based on call recordings. Non-Telephone Company 3rd party locations are all offices or other locations not owned by the Telephone Company. Examples of 3rd party locations include terminations to other local exchange and wireless carriers.

(M)

(N) (M)

(N)

(e) Dedicated Tandem Trunk Port

(M)

Rates are applied on a monthly per port basis, for each dedicated trunk on the serving wire center side of the access tandem.

Dedicated Tandem Trunk Port is billed as originating and terminating based on a Percent Originating Usage (POU) factor of 50%.

Originating Calculation = PIU x Originating Rate x Quantity x POU

Terminating Calculation = PIU x Terminating Rate x Quantity x (100-POU)

(M)

Material appearing on this page previously appeared on age 6-113, preceding.

NEVADA BELL TELEPHONE COMPANY
DESCRIPTION AND JUSTIFICATION
June 7, 2017
TRANSMITTAL NO. 300

PURPOSE

Pursuant the Federal Communications Commission's (FCC's) Report and Order and Further Order of Proposed Rulemaking (*USF/ICC Order*), FCC No. 11-161 released November 18, 2011, price cap carriers are required to bifurcate their terminating tandem rate elements to reflect traffic terminating to the Telephone Companies own end office and traffic terminating to non-Telephone Company 3rd party locations based on call recordings. In discussions between the Price Cap Industry and the FCC following transitional rules for the treatment of tandem traffic were developed:

- Traffic Terminating from a Price Cap ILEC-owned Tandem to its own or any other Price Cap ILEC End Office owned by the same Holding Company, will be considered "Tandem-to-End Office" that will transition to \$0.0007 (July 2017).
- All other Tandem Traffic that traverses an ILEC-owned tandem and does not terminate to an end user served by the ILEC End Office will be considered "Tandem-to- 3rd Parties," and will continued to be billed at the current Interstate rates. This includes traffic that terminates from a Price Cap ILEC-owned tandem to an affiliated CLEC or wireless end office.
- Terminating traffic switched through a Tandem to an End Office to a Host and then to a Remote that are all owned by the same Price Cap LEC, should be billed at the transitional rates – (Tandem to End office).
- For terminating traffic delivered to a Host Office through a direct trunk transport then to a Remote where the Price Cap LEC owns the Host/Remote facilities, the rate depends on whether or not the Tandem within the study area (Homing Tandem) is owned by the Price Cap LEC.
 - Terminating Traffic delivered to a Host Office through a direct trunk transport then to a Remote where the Price Cap LEC owns the Host/Remote facilities and the Price Cap LEC also owns the Homing Tandem within the study area, should be billed at the transitional rates – (Tandem to End office). (The reasoning for using the transitional rates is because the opportunity exists for the terminating traffic to be switched through the Tandem owned by the Price Cap LEC and be billed at transitional rates).

With this filing, Nevada Bell Telephone Company (NBTC) is restructuring its tandem transport and host remote rate elements to comply with the above rules.

DESCRIPTION

Currently, NBTC's Tariff FCC No. 1 has a single set of rate elements that apply to all terminating tandem traffic and they are Tandem-Switched Transmission/Common Transport per access minute, per access minute of use per mile, and terminating Host Remote. NBTC will split that single set into two sets – one set of rate elements for terminating tandem traffic that traverses the Telephone Company's own Tandem and terminates to the Telephone Company's own end office ("Tandem to End Office"); the second set of rate elements for terminating tandem traffic that traverses the Telephone Company's own Tandem and terminates to non-Telephone Company 3rd party locations ("Tandem to 3rd Party"). The splitting of the tandem rate elements is administrative in nature. The existing tandem rates are not changing with this filing.

This filing is being made on a 15-days' notice.

ACCESS SERVICE

6. Switched Access Service (Cont'd)6.7 Rate Regulations (Cont'd)6.7.1 Description and Application of Rates and Charges (Cont'd)(D) Application of Rates (Cont'd)(3) Tandem Switched Transport

Tandem Switched Transport includes charges for transport from end offices to the access tandem, Tandem End Office Multiplexing and for Tandem Switching at the access tandem.

- (a) Tandem Switched Transmission rates are applied on a per minute of use fixed and per minute of use per mile basis. The chargeable minutes of use for determining the charges are the minutes that are carried over the involved Tandem Switched Transport facilities. The mileage between the end office involved and the access tandem is determined as set forth in 6.7.13, following. The rates are as set forth in 6.8.2(C), following.

Tandem Switched Transmission rate elements are billed as (N)
Originating, Terminating to Telephone Company's own end office, (N)
and Terminating to non-Telephone Company 3rd party locations (N)
based on call recordings. Non-Telephone Company 3rd party (N)
locations are all offices or other locations not owned by the (N)
Telephone Company. Examples of 3rd party locations include (N)
terminations to other local exchange and wireless carriers. (N)

- (b) Tandem Switching and Tandem End Office Multiplexing rates are applied on a per minute of use basis. The chargeable minutes of use for determining the charges are the minutes that are carried over the involved Tandem Switched Transport facilities. The chargeable minutes are determined as set forth in 6.7.8 following. The rates are as set forth in 6.8.2(C) following.

Tandem Switching and Tandem End Office Multiplexing rate (N)
elements are billed as Originating, Terminating to Telephone (N)
Company's own end office, and Terminating to non-Telephone (N)
Company 3rd party locations based on call recordings. Non- (N)
Telephone Company 3rd party locations are all offices or other (N)
locations not owned by the Telephone Company. Examples of 3rd (N)
party locations include terminations to other local exchange (N)
and wireless carriers. (N)

PACIFIC BELL TELEPHONE COMPANY
DESCRIPTION AND JUSTIFICATION
June 7, 2017
TRANSMITTAL NO. 552

PURPOSE

Pursuant the Federal Communications Commission's (FCC's) Report and Order and Further Order of Proposed Rulemaking (*USF/ICC Order*), FCC No. 11-161 released November 18, 2011, price cap carriers are required to bifurcate their terminating tandem rate elements to reflect traffic terminating to the Telephone Companies own end office and traffic terminating to non-Telephone Company 3rd party locations based on call recordings. In discussions between the Price Cap Industry and the FCC following transitional rules for the treatment of tandem traffic were developed:

- Traffic Terminating from a Price Cap ILEC-owned Tandem to its own or any other Price Cap ILEC End Office owned by the same Holding Company, will be considered "Tandem-to-End Office" that will transition to \$0.0007 (July 2017).
- All other Tandem Traffic that traverses an ILEC-owned tandem and does not terminate to an end user served by the ILEC End Office will be considered "Tandem-to- 3rd Parties," and will continued to be billed at the current Interstate rates. This includes traffic that terminates from a Price Cap ILEC-owned tandem to an affiliated CLEC or wireless end office.
- Terminating traffic switched through a Tandem to an End Office to a Host and then to a Remote that are all owned by the same Price Cap LEC, should be billed at the transitional rates – (Tandem to End office).
- For terminating traffic delivered to a Host Office through a direct trunk transport then to a Remote where the Price Cap LEC owns the Host/Remote facilities, the rate depends on whether or not the Tandem within the study area (Homing Tandem) is owned by the Price Cap LEC.
 - Terminating Traffic delivered to a Host Office through a direct trunk transport then to a Remote where the Price Cap LEC owns the Host/Remote facilities and the Price Cap LEC also owns the Homing Tandem within the study area, should be billed at the transitional rates – (Tandem to End office). (The reasoning for using the transitional rates is because the opportunity exists for the terminating traffic to be switched through the Tandem owned by the Price Cap LEC and be billed at transitional rates).

With this filing, Pacific Bell Telephone Company (PBTC) is restructuring its tandem transport and host remote rate elements to comply with the above rules.

DESCRIPTION

Currently, PBTC's Tariff FCC No. 1 has a single set of rate elements that apply to all terminating tandem traffic and they are Tandem-Switched Transmission/Common Transport per access minute, per access minute of use per mile, and terminating Host Remote. PBTC will split that single set into two sets – one set of rate elements for terminating tandem traffic that traverses the Telephone Company's own Tandem and terminates to the Telephone Company's own end office ("Tandem to End Office"); the second set of rate elements for terminating tandem traffic that traverses the Telephone Company's own Tandem and terminates to non-Telephone Company 3rd party locations ("Tandem to 3rd Party"). The splitting of the tandem rate elements is administrative in nature. The existing tandem rates are not changing with this filing.

This filing is being made on a 15-days' notice.

Kristen Shore
Assistant Vice President – Regulatory
675 W. Peachtree St. NW
Atlanta, GA 30308

FRN: 0005-9352-75

This filing is being made on a streamlined basis on 15 days notice under Section 204(a) (3) of the Communications Act.

ACCESS SERVICE

6. Switched Access Service (Cont'd)6.8 Rate Regulations (Cont'd)6.8.3 Monthly Recurring and Usage Rates (Cont'd)(E) Switched Transport (Cont'd)(3) Tandem-Switched Transport (Cont'd)(a) Tandem-Switched Transmission/Common Transport

- (1) Tandem-Switched Transmission/Common Transport has two rates: a per access minute of use rate and a per access minute of use per mile rate. Tandem Switched Transmission/Common Transport rate elements are billed as Originating, Terminating to Telephone Company's own end office, and Terminating to non-Telephone Company 3rd party locations based on call recordings. Non-Telephone Company 3rd party locations are all offices or other locations not owned by the Telephone Company. Examples of 3rd party locations include terminations to other local exchange and wireless carriers. The per access minute of use rate applies to the non distance sensitive portion of the Tandem-Switched Transport for the termination of both ends of the facility. The per access minute of use per mile rate applies to the distance sensitive portion of the Tandem-Switched Transport facility. When the mileage for Tandem-Switched Transmission/Common Transport is zero, these rates will not apply.

A per access minute of use and the per access minute of use per mile rate also applies to interoffice links that are provided for the common use of all customers but which are not switched through an access tandem. The Telephone Company will identify this application of Tandem-Switched Transmission as Common Transport.

Common Transport may be associated with both tandem routed services and with direct routed services (as set forth in 6.8.3(E)(2)(b)). Mileage for Common Transport is always measured separately from Tandem-Switched Transmission and Direct-Trunked Transport.

- (2) Mileage measurement is described in 6.8.5 (Determining Switched Transport Mileage and Charges).

ACCESS SERVICE

6. Switched Access Service (Cont'd)6.8 Rate Regulations (Cont'd)6.8.3 Monthly Recurring and Usage Rates (Cont'd)(E) Switched Transport (Cont'd)(3) Tandem-Switched Transport (Cont'd)(b) Host Remote Transmission

- (1) A per access minute of use and a per access minute of use per mile rate also applies to interoffice links that are provided for the common use of all customers but which are not switched through an access tandem.

Host Remote Transmission may be associated with both tandem routed services and direct routed services, such as when Tandem-Switched Transport is ordered to a host office to access remotes (as set forth in 6.8.3 (E)(2)(b)). Mileage is always measured separately for Tandem-Switched Transmission and Direct-Trunked Transport.

- (2) Mileage measurement is described in 6.8.5 (Determining Switched Transport Mileage and Charges).

(c) Tandem Switching

A per access minute of use rate applies to each Tandem-Switched Transport facility for the switching functions provided by the access tandem.

Tandem Switching rate elements are billed as Originating, Terminating to Telephone Company's own end office, and Terminating to non-Telephone Company 3rd party locations based on call recordings. Non-Telephone Company 3rd party locations are all offices or other locations not owned by the Telephone Company. Examples of 3rd party locations include terminations to other local exchange and wireless carriers. (N)

Rates contained in this transmittal are subject to subsequent adjustment, effective retrospectively back to the transmittal's original effective date, in the event the Commission or a court subsequently authorizes SWBT to correct its rates to allow it to calculate its price cap formulas to exclude USF contributions from the operation of the X-factor, or in the event of any other adjustment pursuant to an order of the Commission or a court.

ACCESS SERVICE

6. Switched Access Service (Cont'd)6.8 Rate Regulations (Cont'd)6.8.3 Monthly Recurring and Usage Rates (Cont'd)(E) Switched Transport (Cont'd)(3) Tandem-Switched Transport (Cont'd)(d) Tandem End Office Multiplexing

A per minute of use charge applies for the use of the multiplexing equipment on the end office side of the access tandem and to each FGA BSA-A terminating minute of use between the dial tone office and the end office.

Tandem End Office Multiplexing rate elements are billed as Originating, Terminating to Telephone Company's own end office, and Terminating to non-Telephone Company 3rd party locations based on call recordings. Non-Telephone Company 3rd party locations are all offices or other locations not owned by the Telephone Company. Examples of 3rd party locations include terminations to other local exchange and wireless carriers.

(e) Dedicated Tandem Trunk Port

A monthly rate applies, per port, for each in service dedicated trunk on the serving wire center side of the access tandem.

Dedicated Tandem Trunk Port is billed as originating and terminating based on a Percent Originating Usage (POU) factor of 50%.

Originating Calculation = PIU x Originating Rate
x Quantity x POU

Terminating Calculation = PIU x Terminating Rate
x Quantity x (100-POU)

Rates contained in this transmittal are subject to subsequent adjustment, effective retrospectively back to the transmittal's original effective date, in the event the Commission or a court subsequently authorizes SWBT to correct its rates to allow it to calculate its price cap formulas to exclude USF contributions from the operation of the X-factor, or in the event of any other adjustment pursuant to an order of the Commission or a court.

SOUTHWESTERN BELL TELEPHONE COMPANY
DESCRIPTION AND JUSTIFICATION
June 7, 2017
TRANSMITTAL NO. 3443

PURPOSE

Pursuant the Federal Communications Commission's (FCC's) Report and Order and Further Order of Proposed Rulemaking (*USF/ICC Order*), FCC No. 11-161 released November 18, 2011, price cap carriers are required to bifurcate their terminating tandem rate elements to reflect traffic terminating to the Telephone Companies own end office and traffic terminating to non-Telephone Company 3rd party locations based on call recordings. In discussions between the Price Cap Industry and the FCC following transitional rules for the treatment of tandem traffic were developed:

- Traffic Terminating from a Price Cap ILEC-owned Tandem to its own or any other Price Cap ILEC End Office owned by the same Holding Company, will be considered "Tandem-to-End Office" that will transition to \$0.0007 (July 2017).
- All other Tandem Traffic that traverses an ILEC-owned tandem and does not terminate to an end user served by the ILEC End Office will be considered "Tandem-to- 3rd Parties," and will continued to be billed at the current Interstate rates. This includes traffic that terminates from a Price Cap ILEC-owned tandem to an affiliated CLEC or wireless end office.
- Terminating traffic switched through a Tandem to an End Office to a Host and then to a Remote that are all owned by the same Price Cap LEC, should be billed at the transitional rates – (Tandem to End office).
- For terminating traffic delivered to a Host Office through a direct trunk transport then to a Remote where the Price Cap LEC owns the Host/Remote facilities, the rate depends on whether or not the Tandem within the study area (Homing Tandem) is owned by the Price Cap LEC.
 - Terminating Traffic delivered to a Host Office through a direct trunk transport then to a Remote where the Price Cap LEC owns the Host/Remote facilities and the Price Cap LEC also owns the Homing Tandem within the study area, should be billed at the transitional rates – (Tandem to End office). (The reasoning for using the transitional rates is because the opportunity exists for the terminating traffic to be switched through the Tandem owned by the Price Cap LEC and be billed at transitional rates).

With this filing, Southwestern Bell Telephone Company (SWBT) is restructuring its tandem transport and host remote rate elements to comply with the above rules.

DESCRIPTION

Currently, SWBT's Tariff FCC No. 73 has a single set of rate elements that apply to all terminating tandem traffic and they are Tandem-Switched Transmission/Common Transport per access minute, per access minute of use per mile, and terminating Host Remote. SWBT will split that single set into two sets – one set of rate elements for terminating tandem traffic that traverses the Telephone Company's own Tandem and terminates to the Telephone Company's own end office ("Tandem to End Office"); the second set of rate elements for terminating tandem traffic that traverses the Telephone Company's own Tandem and terminates to non-Telephone Company 3rd party locations ("Tandem to 3rd Party"). The splitting of the tandem rate elements is administrative in nature. The existing tandem rates are not changing with this filing.

This filing is being made on a 15-days' notice.
