

CenturyLink Operating Companies

2017 Annual Access Tariff Filing

June 16, 2017

Description and Justification

1.0 Introduction

The CenturyLink Operating Companies (CLOC)¹ hereby submit the following information in support of the accompanying revisions to CLOC Tariff F.C.C. Nos. 1, 2, 3, 6, 7, 8, 9 and 11. This information is being filed on not less than 15 days' notice in accordance with the Federal Communication Commission's (FCC's) *2017 TRP Notice*,² and includes price cap adjustments consistent with the requirements of Sections 61.41 through 61.49 of the FCC's Rules.

In addition to the description and justification contained in this submission, the following information is submitted to provide specific support data at the proposed tariff level of detail for the CenturyLink Operating Companies.

Description and Justification

- Exhibit 1 - CenturyLink Operating Companies and Study Area Designators
- Exhibit 2 - PCI Development
- Exhibit 3 - CenturyLink ELOC Pooling (CLOC Tariff F.C.C. No. 9)
- Exhibit 4 - CMT Per Line Composite Rate
- Exhibit 5 - Jurisdictional EUCL and PICC Composite Rate Development (CLOC Tariff F.C.C. Nos. 1, 8, 9 & 11)
- Exhibit 6 - Price Cap Revenue Impact Analysis

¹ The CenturyLink Operating Companies are listed in Exhibit 1 at the end of this volume.

² *In the Matter of Material to be Filed in Support of 2017 Annual Access Tariff Filings*, WCB/Pricing File No. 17-65 (DA 17-386), released April 24, 2017 (*2017 TRP Notice*).

*Both Public and Confidential Exhibits are included.

2.0 PCI Development

In accordance with the Commission's Rules, the PCIs for each service basket were calculated as shown in Exhibit 2a RDEV-1, Page 1 of 4. A GDP-PI factor of 1.5385%³ was used in calculating the PCIs and is based on the percentage change in the Gross Domestic Product Price Index (GDP-PI) between the 4th quarter ending December 31, 2016 and the corresponding quarter of the 2015 GDP-PI.

As directed by the Commission,⁴ a workpaper identifying the transmittal or letter filing date where the last index changes were implemented for the price cap categories has been included as Exhibit 2b, RDEV-1, Page 1 of 1.

³ GDP-PI is rounded to four decimal places on all exhibits for presentation purposes.

⁴ 2017 TRP Notice, Supra., Paragraph 19.

2.1 Determination of Exogenous Changes

In accordance with the Commission's Rules, CenturyLink developed certain exogenous changes for inclusion in the price cap formula. These changes include: (1) North American Number Plan Administration; (2) regulatory fees; and (3) telecommunications relay service. CenturyLink has also adjusted the exogenous amounts to reflect any shift in revenue growth. The result is that no exogenous adjustment is made if the support rate has not changed. In other words the rate per dollar of revenue remains unchanged if the factor is unchanged.

Exogenous cost changes were individually developed for each of the items outlined above, and in the aggregate for all changes. A brief description of each change follows and a summary of the exogenous changes is shown in Exhibit 2, RDEV-1, Pages 2 to 4 of 4. Exhibit 2b contains the transmittal number of the indexes used in this filing. The detail of the exogenous cost changes is shown in the Tariff Review Plan, Form EXG-1, Pages 1 through 3.

North American Numbering Plan Administration (NANPA)

On June 27, 2001, the Federal Communications Commission released an order approving the compensation plan for the North American Numbering Plan Administration (NANPA) for fiscal year 2001⁵. The Commission has not issued an order establishing a new contribution factor for September 2017 through August 2018. Therefore, CenturyLink is using the current

⁵ *In the Matter of Administration of the North American Number Plan*, CC Docket No. 92-237 and *North American Number Plan Cost Recovery Contribution Factor and Fund Size*, NDS File No. L-00-72, Order (DA 01-1524), released June 27, 2001 (*NANP Order*).

factor of 0.0000368⁶ to be applied to total end user revenues from the 2016 FCC 499a adjusted for Price Cap only revenues for the NANPA 2016 Fiscal Year (October 2016 to September 2017). Any impact of NANPA support changes will be included as an exogenous cost in this filing and will be shown in Exhibit 2a, RDEV-1, Page 2 of 4. Once an Order is issued setting a new factor for fiscal year 2017, CenturyLink will implement potential changes at that time. Last year on August 8, 2016 the FCC released a DA 16-899 with a slight decrease in the factor taking it from the .0000387 to .0000368. CenturyLink chose not to change the rate at that time. This year CenturyLink is calculating the exogenous amount from the .0000387 to the new factor of .0000368. This is the first year that CenturyLink - Qwest has sought to recover for the NANPA expense to be consistent with the rest of CenturyLink, so since none of the cost have been recovered through their rates this filing will take the latest factor times their 2016 End User Revenues that were filed on the FCC 499a.

Regulatory Fees

Earlier Commission decisions⁷ allow local exchange companies to reflect the impact of regulatory fees as an exogenous cost in annual price cap filings. The impact of regulatory fee changes for the July 2017-June 2018 fiscal year was calculated using a new factor of .00302 as prescribed in the Commission's *Notice of Proposed Rulemaking*,⁸ the contribution

⁶ *In the Matter of Administration of the North American Numbering Plan*, Proposed North American Numbering Plan Administration Fund Size Estimate and Contribution Factor for September 2016 through August 2017, Public Notice (DA 16-899), released August 8, 2016, CC Docket No. 92-237.

⁷ *Price Cap Treatment of Regulatory Fees Imposed by Section 9 of the Communications Act*, 9 FCC 6060 (1994), erratum (November 2, 1994).

⁸ *In the Matter of Assessment and Collection of Regulatory Fees for Fiscal Year 2017*, Notice Of Proposed Rulemaking, FCC17-62 released May 23, 2017 (*Regulatory Fee NPRM*).

factor is applied to the 2016 Interstate end user revenues from the FCC 499a adjusted for Price Cap only revenues and has been included as an exogenous cost in this filing and is shown in Exhibit 2, RDEV-1, Page 2 of 4. Last year on September 2, 2016 the FCC released a FCC Order 16-121 with a slight increase in the factor taking it from the .00370 to .00371. CenturyLink chose not to increase the rate at that time. This year CenturyLink is calculating the exogenous amount from the .00370 to the new factor of .00302. Once an Order is issued setting a final factor for fiscal year 2017, CenturyLink will implement potential changes at that time.

Telecommunications Relay Service

The Americans with Disabilities Act (ADA) required that all common carriers providing interstate voice telecommunications provide Telecommunications Relay Service (TRS) to customers effective July 26, 1993. In its *TRS Notice* in CG Docket No. 03-123, 10-51,⁹ the Commission required that all common carriers providing interstate telecommunications services contribute to an interstate shared fund to support the TRS function. In its *TRS Notice* in CG Docket No. 03-123, 10-51,¹⁰ the Commission required that all common carriers providing interstate telecommunications services contribute to an interstate shared fund to support the TRS function. The impact of the TRS exogenous cost

⁹ *In the Matter of Administration of the Telecommunications Relay Services and Speech –to-Speech Services for Individuals with Hearing and Speech Disabilities*, CG Docket No. 03-123, FCC 16-750, released June 30, 2016 (*TRS Notice*).

¹⁰ *Rolka Loube Saltzer Associates Submits Payment Formulas and Funding Requirement For the Interstate Telecommunications Relay Services Fund for the 2017-2018 Fund Year*, CG Docket No. 03-123, 10-51, released June 2, 2017 (*TRS Notice*).

for this filing is calculated using the proposed .02244 contribution factor prescribed in the TRS Notice.

The amount of the current TRS recovery at the .02244 contribution factor is applied to the 2016 Interstate end user revenues from the FCC 499a adjusted for Price Cap only revenues. Work papers reflecting this exogenous change are shown in Exhibit 2a.

3.0 CenturyLink LOC Pooling (Applicable to CLOC Tariff F.C.C. No.9)

Pursuant to Section 61.48(m)(1)(ii) of the Commission's rules, CenturyLink elected to pool local switching revenues transferred to the common line basket. Exhibit 3, Page 1, shows the local switching revenues subject to pooling along with the allocation of the shortfall between companies from the 7/1/2016 Transmittal #84 filing. Pages 2 and 3 of the exhibit display the new pooled local switching amount based on access line growth along with the allocation of the pooled revenues to the multi-line business SLC for each individual CLOC Tariff F.C.C. No. 9 operating company.

4.0 CMT Per Line Revenue

Part 61.3(d) of the Commission's Rules and the *CALLS Order*¹¹ discuss the calculation of the maximum SLC for the residential and single line business, non-primary residential, and multi-line business service categories based on the average common line, marketing, and transport interconnection charge revenue (CMT revenue) per line. Exhibit 4 displays the current CMT per line rate for each individual CenturyLink operating company

¹¹ *CALLS Order*, Supra., Paragraphs 70-72.

and aggregated filing entity, and calculates the adjusted CMT per line rate for each state and aggregated filing entity based on 2016 access lines.

5.0 Jurisdictional EUCL and PICC Composite Rate Development

(Applicable to CLOC Tariff F.C.C. Nos. 1, 8, 9 & 11)

Exhibit 5 displays the state specific EUCL and PICC rates, along with each state's demand. State revenues are first calculated by multiplying demand times rate; composite rates are the result of dividing total revenue by total demand for each state. This exhibit is provided for the CenturyLink system wide rollup for each applicable tariff.

6.0 Price Cap Revenue Impact Analysis

Exhibit 6 is included as required by the Commission's Rules, and depicts the change in revenues associated with the rate adjustments resulting from the price cap revisions included in this filing. This exhibit details the end user and carrier common line impacts, along with the impacts for special access charges, both recurring and nonrecurring.

7.0 Excluded Services

Consistent with the requirements of the *TRP Notice*¹², Exhibit 7 provides a detailed listing of the services CenturyLink has elected to remove from price cap regulation, along with those services which have not been included under price cap.

¹² 2017 TRP Notice, Supra., Paragraph 29.

8.0 New Services

In compliance with the Commission's Rules, new access service offerings must be included in the first annual price cap filing following the completion of the base year in which the new services become effective.

9.0 Currently Applicable Part 69 Rule Waivers (Applicable to CLOC Tariff F.C.C. No. 9 & 11)

In compliance with the *TRP Notice*¹³, CenturyLink is including as Exhibit 9 a list of all currently applicable Part 69 Waivers that result in rate elements different from those specified in Part 69 of the Commission's Rules. This exhibit contains the following information for each waiver: (1) the citation of the applicable waiver grant, (2) a description of the waiver to include new rate elements created, and (3) the price cap basket and service category treatment of these rate elements.

10.0 Revenue Volume Discount Plan (RVDP)

(Applicable to CLOC Tariff F.C.C. No. 9)

The RVDP provides monthly discounts off tariff rates for specific special access services included in the RVDP to any customer participating in the RVDP. The discount percentages are reflected in CLOC Tariff F.C.C. No. 9, Section 7.5.17(A)(1), page number 7-425. Interstate access revenues are reduced by the amount specified in the plan as determined by the billed revenue. The RVDP is applied to month-to-month service rates, and the revenue realized by CenturyLink by any changes to those rates would be impacted by the RVDP.

¹³ *2017 TRP Notice*, Supra., Paragraph 30.

CenturyLink has not proposed any change to the various month-to-month service rates in this filing. However, Exhibit 10 displays the calculated impact of the RVDP on the revenue generated by the month-to-month service rates for each filing entity through March 2016 when the plan terminated. The 2016 discount percent was calculated based on actual 2016 demand under the RVDP, and the total revenues subject to the RVDP. The revenues subject to the RVDP were calculated using current rates and the percent of discount reflects no change to the average monthly revenues under the RVDP. Since month-to-month rates did not change, there is no impact to the RVDP included with this filing.

9.0 Third Quarter Universal Service Support

(Applicable to CLOC Tariff F.C.C. Nos. 9, 11)

Consistent with the requirements of the Commission's *USF Interim Methodology Orders*¹⁴, CenturyLink recovers its federal universal service contributions through per line monthly charges assessed to end users subscribing to local exchange service (i.e., primary residential, non-primary residential, ISDN-BRI, single-line business, multi-line business, ISDN-PRI, and Centrex). Contributions for end users being billed switched dedicated, special access, or other interstate access services (i.e., Presubscription Change Charges, Access Recovery Charge) are recovered by applying a surcharge equal to the third quarter 2017 USF contribution factor of 0.171¹⁵ to the total of the end user customer's interstate

¹⁴ *In the Matter of Federal-State Joint Board on Universal Service*, CC Docket No. 96-45, Report and Order and Second Further Notice of Proposed Rulemaking (FCC 02-329), released December 13, 2002; Order and Second Order on Reconsideration (FCC 03-58), released March 14, 2003; and Public Notice (DA 03-1909) (Collectively *USF Interim Methodology Orders*).

¹⁵ *In the Matter of Federal-State Joint Board on Universal Service*, CC Docket No. 96-45, Public Notice (DA 17-580), released June 13, 2017.

access charges. Both the per line charge and percentage surcharge are reflected as a separate line item, clearly identified on the customer's bill.

Access Reduction Worksheet

In compliance with the FCC's USF/ICC Transformation Order,¹⁶ CenturyLink is including Access Reduction Workbooks for CLOC Tariff F.C.C. Nos. 1, 2, 3, 6, 7, 8, 9 & 11. To implement the Transitional Intrastate Access Service reductions required by 47 C.F.R. §51.907(g), CenturyLink prepared the "Access Reduction Spreadsheet" templates released by the FCC on April 24, 2017, for calculating the July 1, 2017 interstate and intrastate access rate changes and eligible recovery.

The FCC spreadsheet template provides the methodology for calculating the rate reductions and identifies in detail the interstate and intrastate access rates that are required to be reduced consistent with the rules. And, in these materials, CenturyLink follows the guidance provided by Commission staff in recent discussions with the Price Cap Industry Forum (PCIF) – without waiving, and while expressly reserving, all rights with respect to the lawfulness of this guidance. That guidance was: First, in accordance with Section 51.907(g), Interstate Terminating End Office Access rates to bill-and-keep (not to exceed \$0.0000/MOU.) Second, that Step 6 of the USF/ICC Transformation Order also requires Tandem-Switched Transport Access Service rates to be reduced to \$.0007/MOU for traffic that traverses a Tandem switch that the terminating carrier or its ILEC affiliates own. And,

¹⁶ *Connect America Fund; A National Broadband Plan for Our Future; Establishing Just and Reasonable Rates for Local Exchange Carriers; High-Cost Universal Service Support; Developing a Unified Intercarrier Compensation Regime; Federal-State Joint Board on Universal Service; Lifeline and Link-Up; Universal Service Reform—Mobility Fund*; WC Docket Nos. 10-90, 07-135, 05-337, 03-109, CC Docket Nos. 01-92, 96-45, GN Docket No. 09-51, WT Docket No. 10-208, Report and Order and Further Notice of Proposed Rulemaking, 26 FCC 17663 (2011) (*USF/ICC Transformation Order and FNPRM*); *pet. for review pending sub nom. In re: FCC 11-161*, No. 11-9900 (10th Cir. filed Dec. 8, 2011).

to implement this second requirement, the Tandem-Switched Transport demand should be split between usage where CenturyLink ILEC owns both the Tandem and End-Office (Tandem to End Office) and usage where CenturyLink ILEC did not own the End Office or did not own the Tandem (i.e. Tandem to 3rd Party). To determine the amount of Tandem to 3rd Party traffic, a study using 2016 usage was conducted and all traffic not terminating with a CenturyLink ILEC End Office location was deemed Tandem- to 3rd Party usage. 3rd Party traffic was divided by the total 2016 tandem usage by element times the total October 2010 thru September 2011 usage in the ICC models. This 3rd Party usage was then subtracted from the total usage and only the remaining usage was adjusted to the .0007/MOU tandem composite target rate. In CenturyLink's Tariff Filing Transmittal #91, the tariff structure change was made and in this filing CenturyLink has clarified the Host to Remote arrangements. This filing makes the rate reduction for the Tandem to End Office. Other Tandem-Switched Transport Rates remain at their current levels including Tandem Trunk Ports per Rule 51.903(i) which expressly excludes rate elements in Part 69.111. Respective Intrastate Terminating End Office and Terminating Tandem rates are then set to no more than the corresponding Interstate rates thus keeping rates and rate structure in parity.

Subject to the above, Section 51.907(g) of the FCC Rules sets forth the specific steps to calculate the rates for Transitional Intrastate Access Service to be effective July 1, 2017. The required rate reductions are taken to meet reduction obligations and the eligible recovery amount is determined. These models have been filed along with tariff changes in compliance with the applicable state regulations.

CenturyLink has prepared redacted and non-redacted versions of the template workbooks.

Reciprocal Compensation

In compliance with the FCC's USF/ICC Transformation Order,¹⁷ CenturyLink is including a single workbook to encompass the Holding Company¹⁸ required Reciprocal Compensation reductions. CenturyLink utilized the "2017 Recip-Comp" template released by the FCC on April 24, 2017 to determine the amount of eligible recovery from CMRS (Commercial Mobile Radio Service) Net Reciprocal Compensation revenues allowed by 47 C.F.R. §51.915(d)(1)(vi) E. and the amount of eligible recovery from non-CMRS Net Reciprocal Compensation revenues allowed by 47 C.F.R. §51.915(d)(1)(vi) F.

The FCC spreadsheet template provides the methodology for calculating the CMRS Net Reciprocal Compensation. For each study area, CenturyLink's FY 2011 CMRS revenues for intraMTA non-transit usage based traffic are reduced by CenturyLink's 2011 FY expenses for intraMTA non-transit usage based traffic. The total CMRS Net Reciprocal Compensation Revenues for CenturyLink as a holding company are reduced to reflect the impact of removing disputed revenues or, revenues otherwise not recovered pursuant to paragraph 880 of the USF/ICC Transformation Order, CMRS expenses are then subtracted from the net revenue with the resulting Eligible Recovery included in the Eligible Recovery Form.

Per, §51.915(d)(1)(vi)F.3 CenturyLink has elected to forgo any recovery of net non-CMRS reciprocal compensation reductions.

CenturyLink has prepared redacted and non-redacted versions of the template workbooks.

¹⁷ *Ibid*

¹⁸ CenturyLink Operating Companies Tariff F.C.C. Nos. 1, 2, 3, 6, 7, 8, 9 & 11

Access Recovery Charge (ARC-Rate Ceiling) Worksheet

In compliance with the FCC's USF/ICC Transformation Order, CenturyLink is including the Rate Ceiling-No CAF and the Tariff Rate Comparison-No CAF workbooks. The Rate Ceiling-No CAF workbook is utilized by CenturyLink to calculate the Access Recovery Charge (“ARC”) allowed by 47 C.F.R. §51.915(e). Since CenturyLink’s Eligible Recovery is less than the Maximum ARC Revenue in 2017, CenturyLink is not permitted any CAF ICC 47 C.F.R. §51.915(f). CenturyLink’s supporting calculations utilize the templates released by the FCC on April 24, 2017.

The FCC Rate Ceiling-No CAF workbook template provides the methodology for calculating Expected Access Recovery Charge Revenues and any CAF ICC. For each exchange, CenturyLink totaled the Residential Rate Ceiling Components and measured against the Residential Rate Ceiling benchmark of \$30.00¹⁹. A maximum Residential ARC is determined as \$0.00 when the total of the Residential Rate Ceiling Components are \$30.00 or greater, up to \$2.50 when the total of the Residential Rate Ceiling Components is between \$27.50 and \$30.00 or capped at \$2.50 when rate ceilings are below \$27.50. Once the residential ARC per line is determined that value is multiplied by the eligible lines to result in the Residential ARC Revenue.

Single line business ARC Revenue is determined by multiplying single line business line counts by the per-line cap of \$2.50. Multiline business ARC Revenue is capped when the multi-line business end user common line charge plus the ARC is greater than \$12.20.

¹⁹ 47 C.F.R. §51.915(b)(12)

Therefore the Multiline business ARC is either the difference between \$12.20 and the multi-line end user charge or the per-line cap of \$5.00²⁰.

The total Maximum ARC Revenue from residential, single-line business and multiline business are compared to the total Eligible Recovery. CenturyLink's total Maximum ARC Revenue is greater than the Eligible Recovery and therefore CenturyLink is not eligible for CAF ICC support²¹,

The Tariff Rate Comparison-No CAF workbook demonstrates that CenturyLink has not included any tariff rates which would allow for greater recovery than allowed through the ARC methodology included in the Rate Ceiling-No CAF template. This workbook includes the ARC tariff by exchange.

CenturyLink has prepared redacted and non-redacted versions of the workbooks.

Access Recovery Charge True-Up Worksheet

In compliance with the FCC's USF/ICC Transformation Order, CenturyLink is including the ARC True-Up workbook. With their 2017 Tariff Review Plans, carriers are required to include True-Up Revenues for ARC for the year beginning July 1, 2015. True-up revenue is determined by taking the difference in the Projected Access Lines for the time period and the Actual Access Lines for the time period multiplied by the ARC tariff rate. Lines eligible for an ARC assessment include those assessed an end user common line charge pursuant to 47 C.F.R. §69.152. CenturyLink extracted the line counts meeting the definition criteria for in-service lines within the time period.

CenturyLink utilized the "2017 True-Up" template released by the FCC on April 24,

²⁰ 47 C.F.R. §51.915(e)(5)

²¹ 47 C.F.R. §51.915(f)

2017. The FCC spreadsheet template provides the methodology for calculating the 2015 ARC True-Up revenues and the total 2015 ARC True-up Revenue are included in the Eligible Recovery Form and the 2017 Summary Eligible Recovery Form.

CenturyLink has prepared redacted and non-redacted versions of the workbooks.

Eligible Recovery Worksheet

In compliance with the FCC's USF/ICC Transformation Order, CenturyLink is including the Eligible Recovery-TRP workbook. The Eligible Recovery-TRP workbook is utilized by CenturyLink to calculate the total Eligible Recovery allowed by 47 C.F.R. §51.915(d). CenturyLink's supporting calculations utilize the "Eligible Recovery" template released by the FCC on April 24, 2017.

The FCC spreadsheet template summarizes the eligible recovery at a study area level. CenturyLink has populated the spreadsheet with the reduction of Transitional Intrastate and Interstate Switched Access Service revenues as determined pursuant to 47 C.F.R. §51.907(g) which are reduced from the ICC Access Reduction described above to reflect the impact of removing disputed revenues or, revenues otherwise not recovered, pursuant to paragraph 880 of the USF/ICC Transformation Order. In addition this spreadsheet template includes the eligible recovery for Net Reciprocal Compensation reductions as described above. Each Study Area amount is multiplied first by the July 1, 2017 Traffic Demand Factor of (90%*90%*90%*90%*90%*90% = 53.14% for all but the 3 Average Schedule Companies which have a July 1, 2017 Traffic Demand Factor of (95%*95%*90%*90%*90%*90% = 59.21% as defined at 47 C.F.R. §51.915(b)(10); and then by the CALLS/Non-CALLS Study Area Factor of 90% (§51.915(b)(2)) & (§51.915(b)(9)). Next, the True-Up Revenues for

ARC as described above, and then the Exogenous Cost ARC Recoverable amount, which is the excess exogenous cost that cannot be recovered through the subscriber line charges, included as found in Cap 5 line 610 of the included Tariff Review Plan. The final step is to add these amounts together resulting in the Eligible recovery that is used in the “Rate Ceiling” template as described above.

Summary Eligible Recovery Worksheet

Included with the 2017 Price Cap Long Forms Tariff Review Plan forms is a workbook that summarizes, at the Study Area level, the required forms outlined above for both the 2016 filing and this 2017 filing. Included in the 2017 Form is the Access Recovery True-Up values. CenturyLink has completed the form by extracting the data from the forms and populating the Summary Eligible Recovery form.

CenturyLink has prepared redacted and non-redacted versions of the workbooks.

Conclusion

The CenturyLink Operating Companies are submitting the accompanying information consistent with the requirements of the Commission's price cap regulations for local exchange carriers. The adjustments proposed herein are demonstrated to be just and reasonable, and are supported by detailed exhibits reflecting the calculation of the required revisions, price cap indices, and exogenous costs.

Currently Applicable Part 69 Rule Waivers
(Applicable to CLOC Tariff F.C.C. No. 9)***

1. Memorandum Opinion and Order, In the Matter of United Telecommunications, Inc. Petition for Waiver of Part 69 Regarding Interim 900 Access Service (DA 88-1350), released August 31, 1988.

Waiver of Part 69 to allow the establishment of separate rate elements (Assembly of Route Pattern; Activation or Deactivation of 900 NXX codes) for the recovery of costs incurred in the provision of 900 Access Service.

Price Cap Traffic Sensitive Basket; Local Switching Category.

2. Order, In the Matter of United Telephone Operating Companies Petition for Waiver of Part 69 of the Commission Rules, Equal Access End User Restriction Service (DA 89-748), released July 3, 1989.

Waiver of Part 69 to allow the establishment of separate rate elements (Standard Service; Expedited Service) for the recovery of costs incurred in the provision of Equal Access End User Restriction Service.

Price Cap Trunking Basket; Voice, WATS, Metallic, and Telegraph Service Category.

3. Order, In the Matter of Ameritech Operating Companies Petition for Waiver of Section 69.4(b) of the Commission's Rules (DA 91-274), released March 5, 1991.

Blanket waiver of Part 69 to allow the establishment of separate rate elements (Operator Transfer, Busy Line Verification, and Verification with Call Interrupt) for the recovery of costs incurred in the provision of Operator Services.

Price Cap Traffic Sensitive Basket; Information Service Category.

***CenturyLink Operating Companies
Currently Applicable Part 69 Rule Waivers
(Applicable to CLOC Tariff F.C.C. No. 9)***

4. Order, In the Matter of Local Exchange Carrier Line Information Database (DA 91-1637), released December 30, 1991.

Waiver of Part 69 to allow the establishment of separate rate elements (Service Termination, Channel Mileage, DS1 to DS0 Multiplexing, STP Port Charge, Query Transport, and Query) for the recovery of costs incurred in the provision of CCS/SS7 Interconnection Service and Line Information Data Base (LIDB) Access Service.

Price Cap Traffic Sensitive Basket; Database Category and Price Cap Trunking Basket; High Capacity and Digital Data Service Category.

5. Order, In the Matter of The United and Central Telephone Companies Petition for Waiver of Sections 69.4(b) and 69.106 of Part 69 of the Commission's Rules (DA 94-1350), released November 30, 1994.

Waiver of Part 69 to allow the establishment of separate rate elements (Assembly of Route Pattern; Activation or Deactivation of 500 NXX codes) for the recovery of costs incurred in the provision of 500 Access Service.

Price Cap Traffic Sensitive Basket; Local Switching Category.

6. Memorandum Opinion and Order, In the Matter of Petition of Embarq to Establish Part 69 Rate Elements to Offer Switched Access Transport for Local Number Portability (DA 98-1437), released July 20, 1998.

Waiver of Part 69 to allow the establishment of separate rate elements (Prearranged End Office LNP Query, Prearranged Tandem LNP Query, Default End Office LNP Query, Default Tandem LNP Query, and LNP Data Base Query) for the recovery of costs incurred in the provision of Local Number Portability Query Service.

Price Cap Traffic Sensitive Basket; Database Category.

*CenturyLink Operating Companies
Currently Applicable Part 69 Rule Waivers
(Applicable to CLOC Tariff F.C.C. No. 9)*

7. Order, In The Matter of United States Telephone Association Petition for Waiver of Sections 61.152(b) and 69.153(c)(1) of the Commission's Rules, CCB/CPD 99-20 (DA 99-1122), released June 8, 1999.

Waiver of Sections 69.152(b) and 69.153(c)(1) of the Commission's access charge rules to correct an anomaly in the rules which may produce negative non-primary residential and multi-line business Presubscribed Interexchange Carrier Charges (PICCs).

Price Cap Common Line Basket; Presubscribed Interexchange Carrier Charge (PICC) Category.

*CenturyLink Operating Companies
Currently Applicable Part 69 Rule Waivers
(Applicable to CLOC Tariff F.C.C. No. 11)*

1. Memorandum Opinion and Order, In the Matter of Annual 1989 Access Tariff Filings; Petition for Waiver and Petition For Reconsideration (DA 88-1872), released December 2, 1988.

Waiver of Part 69 to allow Qwest to set the amount of the Special Access Surcharge at \$25.00 per month per line termination charge. This charge is included in the Common Line Basket.

2. Order, In the Matter of Local Exchange Carrier Line Information Database (DA 91-1637), released December 30, 1991.

Waiver of Part 69 to permit the establishment of a new switched access charge rate element to recover the costs associated with Line Information Database (LIDB). Three sub elements, two recurring and one non recurring, comprise the rate element. These element are included in the Database Access Services category of the Traffic Sensitive Basket.

3. Order, In the Matter of U S West Communications Petition for Waiver of Sections 69.4(b) and 69.106 of Part 69 of the Commission's Rules (DA 94-1350), released November 30, 1994.

Waiver of Part 69 to allow the establishment of a new switched access rate element to recover the costs associated with 500 access service. Three subelements, two non-recurring and one recurring, compromise the rate element. These elements are included in the Local Switching service category of the Traffic Sensitive basket.

4. Order, In the Matter of U S WEST Petition to Establish Part 69 Rate Elements for SS7 Signaling (DA 99-1474), released December 23, 1999.

Waiver of Part 69 to allow Qwest to charge a separate SS7 call set up charge in addition to local switching and to charge for transient call set up and database access SS7 signaling network use. These charges are included in the Traffic Sensitive Basket.
