**SECTION 3 - DESCRIPTION OF SERVICE (Cont'd)**

**3.6 Ordering Switched Access Service (Cont'd)**

**3.6.18 Switched Access Facilities Monthly Recurring Rates (Cont'd)**

**(3) Tandem-Switched Transport**

- Terminating Tandem 3rd Party rates are applicable when Terminating Tandem Switched Transport is provided through an Access Tandem not owned by Grande and the Terminating End Office is owned by Grande otherwise, Terminating – Tandem End Office rates apply. Originating Tandem rates are applicable when originating Tandem Switched Transport is provided.

Tandem-Switched Transport is provided as the following:

- Tandem-Switched Transmission/Common Transport
- Tandem Switching
- Dedicated Tandem Trunk Port

**(a) Tandem-Switched Transmission/Common Transport**

Tandem-Switched Transmission/Common Transport has two rates: a per access minute of use rate and a per access minute of use per mile rate. The per access minute of use rate applies to the non distance sensitive portion of the Tandem-Switched Transport for the termination of both ends of the facility. The per access minute of use per mile rate applies to the distance sensitive portion of the Tandem-Switched Transport facility. When the mileage for Tandem-Switched Transmission/Common Transport is zero, these rates will not apply. A per access minute of use and the per access minute of use per mile rate also applies to interoffice links that are provided for the common use of all customers but which are not switched through an access tandem. The Telephone Company will identify this application of Tandem-Switched Transmission as Common Transport. Common Transport may be associated with both tandem routed services and with direct routed services. Mileage for Common Transport is always measured separately from Tandem-Switched Transmission and Direct-Trunked Transport.
