Transmittal No. 18

SECTION 3 – SWITCHED ACCESS SERVICE**3.1 Rates and Charges****3.1.1 Rates and Charges – AT&T Territory**

The Company bills for the following access rate elements:

Tandem-Switched Transport - Termination: Includes the transport and termination equipment between the Customer designated premises and the end office switch(es) where the Customer's traffic is switched to originate or terminate the Customer's communications. This rate element is billed on a per minute basis.

Tandem-Switched Transport - Facility: A per minute per mile rate based on the transport distance between the Company's switch and the End Office.

Access Tandem Switching: Provides for access tandem switching features and functions.

Common Transport Multiplexing (CMUX): Provides for use of multiplexing equipment within the transport network.

Common Trunk Port (CTP): Provides for termination of common transport trunk facilities at end office switches.

Where applicable, the Switched Transport – Termination, Switched Transport - Facility, CMUX and CTP components also apply to transport between an end office which serves as host for a remote switching system or module (RSS or RSM) and the RSS or RSM.

Local Switching: Provides for local end office switching features and functions.

The terminating tandem-switched transport rate schedules are bifurcated into “3rd Party” and “End Office” rates. The Company bills the End Office terminating switched transport rates, in accordance with Commission Rules 51.907(g)(2) and 51.907(g), for “terminating traffic traversing a tandem switch that the terminating carrier or its affiliates owns.” All other terminating switched transport traffic is billed the 3rd Party terminating switched transport rates.
