INTERSTATE ACCESS SERVICES TARIFF

SECTION 1 - DEFINITIONS AND ABBREVIATIONS

Access Service Request (ASR) - The service order form used by access service Customers and the Company for the process of establishing, moving or rearranging access services provided by the Company.

Access Tandem - A switching system that provides a traffic concentration and distribution function for originating or terminating traffic between End Office Switches and Switched Access Customers. Upon acceptance by the Company, the Application for Service becomes a binding contract between Customer and the Company for the provision and acceptance of Service.

Authorized User – A person, firm, corporation, or other entity that is authorized by Customer to be connected to the Service of Customer.

Automatic Number Identification (ANI) - The automatic transmission of a caller's billing account telephone number to a local exchange company, Interexchange Carrier or a third party Customer. The primary purpose of ANI is for billing toll calls.

Bit - The smallest unit of information in the binary system of notation.

Bps - Bits per second. The number of bits transmitted in a one second interval.

Business Office – The phrase “Business Office” means the primary location where the business operations of the Company are performed and where a copy of the Company’s tariffs are made available for public inspection. The address of the business office is 560 Village Boulevard, Suite 120, West Palm Beach, Florida 33409.

SECTION 3 - SWITCHED ACCESS SERVICE, (Cont'd.)

3.2 Manner of Provision

3.2.1 Switched Access Service is furnished for the Customer's use in originating calls from and terminating calls to End Users, and includes any functional equivalent of the incumbent local exchange carrier switched access services.

3.2.2 [Reserved for Future Use]

3.2.3 [Reserved for Future Use]

3.2.4 Switched Access service will be provided with SS7 Signaling or a compatible form of signaling.

3.2.5 Two types of Switched Access are available:

A. Tandem Connect Access: This option applies when the Customer has no direct facilities to the Company's Serving Wire Center or POI. Traffic is routed to and from the Company's Facilities via a third-party provided Access Tandem. Delivery of calls to, or acceptance of calls from, End User(s) via Company-provided Tandem Connect Access services shall constitute a Constructive Order and an agreement by the Customer to purchase the Company's switched access services as described and priced herein. (C)

1. The Customer must order a connection to the Access Tandem from the Carrier operating that tandem, in accordance with that Carrier's applicable terms and conditions of service.

B. Direct Connect Access: This option applies when the Customer connects to the Company's Serving Wire Center or POI by means of dedicated facilities. This transmission path is dedicated to the use of a single Customer. The Customer is responsible for providing such facilities itself or for negotiating such arrangements with possible suppliers. To the extent that the Company is able to provide such arrangements, the dedicated portion of Direct Connect Access would be provided on an Individual Case Basis as Special Service Arrangements pursuant to Section 6 of this tariff.
