**ACCESS SERVICES****SECTION 2 - GENERAL REGULATIONS****2.4. PAYMENT ARRANGEMENTS AND CREDIT ALLOWANCES (continued)****2.4.1. Description of Rates and Charges (continued)****(b) Moves to a Different Building**

Moves to a different building will be treated as a discontinuance and start of service and all associated nonrecurring charges will apply. New minimum period requirements will be established for the new service. The Customer will also remain responsible for satisfying all outstanding minimum period charges for the discontinued service.

**4. Ordering Charges** - Certain nonrecurring charges apply in connection with the ordering of Access Services as set forth in Section 5 (e.g., Service Order Charge, Service Date Change Charge, Design Change Charge).

**5. Primary Interexchange Carrier Charge** - The Primary Interexchange Carrier Charge (PICC) is a flat monthly charge that pertains to each end user's common line. The PICC applies on a per presubscribed line basis to the selected interexchange carrier of the end user's common lines. If the end user line is not presubscribed to an Interexchange Carrier, the PICC will be assessed directly to the end user. This charge also applies to local exchange services that are supplied by resellers where the reseller is then responsible for the PICC, in lieu of other arrangements. If an end user has separate PICs for InterLATA and IntraLATA the InterLATA carrier is billed for the charge. The individual rate elements, types of lines and specific rate applications for all states follow:

Primary *	Single	Multi-line	Centrex	ISDN	ISDN	Non-

(R)

\*Where Primary line is:

1. The only line provided at the service location
2. The line designated as primary by the billed party at the service location.
3. The first line at that location
