Transmittal No. 10

Marlene H. Dortch, Esq. Secretary
Federal Communications Commission
445 12th Street, S.W.
Washington, DC 20554

Re: Electric Lightwave, LLC
FRN # 0015577745
Revision to Tariff FCC No. 2.

Dear Ms. Dortch:

Please find attached revisions to Tariff FCC No. 2, interstate access services, of Electric Lightwave, LLC. This filing is made pursuant to 47 C.F.R. § 61.58(2)(i), and is filed on fifteen (15) days' notice, with an issue date of July 14, 2017 and an effective date of July 29, 2017. It consists of the following revised pages:

<u>Page</u>	<u>Revision</u>
2	9
48	2
59.1	3

With this filing, Electric Lightwave, LLC complies with the requirements set forth by the Federal Communications Commission's Order FCC No. 11-161 (released on November 18, 2011) and Rule 47 C.F.R. § 61.26 "Tariffing of competitive interstate switched exchange access services." To comply with this rule, Electric Lightwave is benchmarking its end office terminating switched access rates to the levels of the corresponding dominant incumbent local exchange carrier's rates.

Electric Lightwave, LLC is a non-dominant carrier and, therefore, cost support documentation under 47 C.F.R. § 61.38 of the Commission's Rules is not required.

Payment has been submitted through the Electronic Tariff Filing System. If you have any questions about these revisions, please contact me.

ACCESS SERVICE

5.0 SWITCHED ACCESS SERVICES (Continued)

5.4 FGD Service Description (Continued)

Where no access code is required, the number dialed by the Customer's End User shall be a seven or ten-digit number for calls in the North American Numbering Plan (NANP). For international calls outside the NANP, a seven to twelve-digit number may be dialed. The form of the numbers dialed by the Customer's End User is NXX-XXXX, 0, 00, or 1 + NXX-XXX, NPA + NXX-XXX, 0, 00 or 1 + NPA + NXX-XXXX, and, when the end office is equipped for International Direct Dialing, 01 + CC NN or 011 + CC + NN.

When the 101XXXX access code is used, FGD switching also provides for dialing the digit 0 or 00 for access to the Customer's operator, 911 for access to emergency reporting service, or at the Customer's option, the end-of-dialing digit (#) for cut-through access to the Customer's premises.

A Customer may order 950 or FGD to activate a Customer's designated 950-XXXX access code. This will allow the Company to direct those designated 950-XXXX calls dialed by the Customer's End Users to the Customer's access service. The Customer must be prepared to handle normally dialed FGD calls, as well as calls dialed with the designated 950-XXXX access code which requires the Customer to receive additional address signaling. Such calls will be rated as FGD.

5.4.1 Unless otherwise ordered by the Customer, the Company will provision Switched Access Services on a Tandem Connect Basis.

5.4.1.1 Tandem Connect: Tandem Connect consists of circuits from the point of interconnection with Customer's tandem provider to the Company's local switch(es). Tandem Connect service utilizes the Company's Common facilities between the Company's local switch(es) and the Customer's tandem provider.

5.4.1.1.1 Where Tandem Connect Basis is ordered from a Company access tandem, the Tandem Transmission Terminating-Tandem End Office rates apply. Where Tandem Connect Basis is ordered from a non-Company access tandem, the Tandem Transmission Terminating – Tandem 3rd Party rates apply.

5.4.1.2 Direct Connect: The Company will provide Direct Connect between the Customer's equipment and the Company's local switch(es). This transmission path is dedicated to the use of a single Customer.
