Transmittal No. 12

Issued: July 14, 2017

Effective:

July 29, 2017

By:

Carl Wolf Billek, Senior Regulatory Counsel

550 Broad Street

Newark, New Jersey 07102-3111

SECTION 3 - SWITCHED ACCESS SERVICE, (CONT'D)

3.8 Rate Regulations (Continued)

(T)

3.8.7 Application of Access Charges to Toll VoIP-PSTN Traffic

The Company shall assess and collect switched access rate elements under this tariff for access services, regardless of whether the Company itself delivers such traffic to the called party's premises or delivers the call to the called party's premises via contractual or other arrangements with an affiliated or unaffiliated provider of VoIP service that does not itself seek to collect switched access charges for the same traffic. The Company will not charge for functions not performed by the Company, its affiliated or unaffiliated provider of VoIP service. For purposes of this provision, functions provided by the Company as part of transmitting telecommunications between designated points using, in whole or in part, technology other than TDM transmission in a manner that is comparable to a service offered by a local exchange carrier constitutes the functional equivalent of carrier access service.

3.8.8 The terminating switched transport rate schedules are bifurcated into "3rd Party" and "Non-3rd Party" rates. The Company bills the Non-3rd Party terminating switched transport rates, in accordance with Commission Rules 51.907(g)(2) and 51.907(g), for "terminating traffic traversing a tandem switch that the terminating carrier or its affiliates owns." All other terminating switched transport traffic is billed the 3rd Party terminating switched transport rates.
