## SECTION 3 - SWITCHED ACCESS SERVICE

### 3.1 GENERAL

Switched Access Service, which is available to Customers for their use in furnishing their services to End Users, provides a two-point electrical communications path between a Customer's premises and an End User's premises. It provides for the use of common terminating, switching and trunking facilities, and for the use of common subscriber plant of the Company.

The application of rates for Switched Access Service is described in Section 3.3 following.

### 3.2 RATE CATEGORIES

The rate categories that apply to Switched Access Service, as provided by Company, are:

Switched Access Service, which is available to customers for their use in furnishing their services to End Users, provides a two-point communications path between a customer-designated premises and an End user's premises. It provides for the use of terminating, switching, switched transport facilities and common subscriber plant of the telephone company. Switched Access Service provides for the ability to originate calls from an End user's premises to a customer-designated premises, and to terminate calls from a customer-designated premises to an End user's premises in the LATA where it is provided.

The provision of each feature group requires Switched Transport and the appropriate Local Switching functions. Switched Transport provides for the transmission facilities between the customer's premises and the end office switch where the customer's traffic is switched to originate or terminate traffic. Local Switching provides for the local end office switching and end user termination functions necessary to complete the transmission of the customer's communications over Switched Access facilities to and from the end users served by the local end office.

A Customer is agreeing to order Switched Access service by routing traffic to the Company, or accepting traffic from the Company, through the tandem of another local exchange carrier to which the Customer is connected (the "tandem provider"). Rates and charges are set forth in 3.3 in this tariff.

### 3.3 RATES

The following rates apply to carrier billing:

Service	Rates
Blended Switched Access per minute of use Originating	\$0.002991
Blended Switched Access per minute of use Terminating	\$0.00070
800 Data Base Query, per query	\$0.004053
