Verizon submits these tariff pages to modify certain tariff provisions related to Special Access Services and Packet Services in Tariff FCC Nos. 1, 11 and 14 in compliance with the FCC's Business Data Services Order².

With this filing, Verizon will:

- Introduce new terms for Special Access and Packet services that classify counties as Competitive and Non-Competitive as designated in the BDS Order³.
- Replace Special Access rate page references to N-MSA (non-qualifying Metropolitan Statistical Area) with "Price Cap".
- Modify the Channel Termination pages to include a footnote that will freeze End User Channel Termination monthly rates and nonrecurring charges in newly competitive counties until February 1, 2018.

² See Report and Order, *Business Data Services in an Internet Protocol Environment; Technology Transitions; Special Access for Price Cap Local Exchange Carriers; AT&T Corporation Petition for Rulemaking To Reform Regulation of Incumbent Local Exchange Carrier Rates for Interstate Special Access*, WC Docket Nos. 16-143, 05-25, GN Docket No. 13-5 and RM-10593; FCC 17-43 (adopted April 20, 2017 and rel. April 28, 2017) ("BDS Order").

³ The revisions in FCC14 are limited for now to the Pennsylvania jurisdiction.

- Remove N-MSA (Price Cap) rates for IXC POP Channel Terminations/Special Access Lines, Channel Mileage/Special Transport, Multiplexing, Rearrangements, Ports, and optional features and functions not associated with an End User Channel Termination. Price Band rates and charges will apply to these elements.
- Remove N-MSA (Price Cap) rates for the following newly competitive services: Internet Protocol Routing Service (packet), IntelliLight Shared Assurance Network (>DS3), Serial Component Video Service (>DS3), Hi-Def Video Transport Service (>DS3), IntelliLight Shared Single Path (>DS3), Enterprise SONET Service (>DS3), and NYNEX Enterprise Reconfiguration Service, a type of network management device that enables customers to reconfigure their own Special Access services (Transport), and DS1/DS3 and STS1 riders on forborne services (Transport).
- Introduce unique Price Band and Price Cap rate elements for Ordering Charges, Cancellation Charges, Additional Labor, Additional Engineering, and Testing Services when they are associated with a Special Access Service.
- Limit the application of existing Pricing Flexibility (MSA) regulations to Switched Access Services.

Also as part of this filing, Verizon will make the following administrative revisions:

- Remove California, Florida, and Texas Special Access rates from FCC14. These rates should have been deleted under TML 1330 but inadvertently were not.
- Remove both Switched and Special Facilities Management Service (FMS) from FCC11 and Switched FMS from FCC1, because there are no remaining customers. Verizon has received authority under section 214 to discontinue these services. Remove references to FCC11 FMS from FCC1, FCC14 and FCC16.
- Remove West Virginia CLLIs from the FCC1 operating territory section. These CLLIs should have been removed under TML 1094 but inadvertently were not.
- Move Coordinated Retermination regulations out of the Move section and into a general nonrecurring charge section in FCC1 and FCC11. These regulations apply to work in the wire center, not at the customer premises, so they belong in a general section.
- Remove Verizon Dedicated SONET Ring DS3 Transmux at OC3 Node rate elements from FCC14, since this port is not offered in either Pennsylvania or Virginia, the only two remaining states in the FCC14 operating territory.

- Remove the Voice Grade Rate Stability Plan and the 4.8 kbps Digital Data Service Rate Stability Plan in FCC1. There are no customers for these pricing plans. The underlying Voice Grade and DDS Services remain available to customers.
- Remove Temporary Discount regulations related to 9/11 in Section 7 of FCC11. These regulations expired in 2002.

Support material as described under Section 61.49 of the Commission's rules is not required with this filing. Associated services and revenues will be removed from Verizon's price cap indices in the next scheduled Price Cap tariff filing scheduled for mid-September.

This transmittal letter and associated attachments are being filed electronically today via the Federal Communications Commission's Electronic Tariff Filing System (ETFS). Payment in the amount of \$925.00 has been electronically transmitted to the U.S. Bank in St. Louis, Missouri, in accordance with the fee program procedures.

In accordance with the requirements of Section 61.15(a)(4) of the Commission's rules, the FCC Registration Number (FRN) for Verizon is 0003-7085-00. Verizon is making this filing on behalf of issuing carriers with the following FRNs:

<u>Tariff FCC No. 1</u>	<u>Tariff FCC No. 11</u>	<u>Tariff FCC No. 14</u>
0002-0732-03	0003-4694-42	0020249777
0002-1092-13	0003-6289-71	0001962588
0002-1668-25		
0003-2717-98		
0003-2735-05		
0003-3166-92		
<u>Tariff FCC No. 16</u>		
0020249777		
0001962588		

All correspondence and inquiries in connection with this transmittal should be forwarded to Frederick Moacdieh, Executive Director, Federal Regulatory Affairs, via facsimile on (202) 336-7922, or by hand-delivery to 1300 I Street NW, Suite 500 East, Washington, DC 20005.

A handwritten signature in black ink, appearing to read 'F. Moacdieh', with a stylized, flowing script.

Frederick Moacdieh
Executive Director
