ACCESS SERVICE

2. General Regulations (Cont'd)2.6 Definitions (Cont'd)Common Channel Signaling Access

The term "Common Channel Signaling Access" denotes the capability which allows customers access to the SS7 signaling network.

Common Line

The term "Common Line" denotes a line, trunk or other facility provided under the general and/or local exchange service tariffs of the Telephone Company, terminated on a central office switch. A common line-residence is a line or trunk provided under the residence regulations of the general and/or local exchange service tariffs. A common line-business is a line provided under the business regulations of the general and/or local exchange service tariffs.

Common Transport

The term "Common Transport" denotes the use of channels and equipment for transport by multiple customers.

Communications System

The term "Communications System" denotes channels and other facilities which are capable of communications between terminal equipment provided by other than the Telephone Company.

Competitive County

The term "Competitive County" denotes the geographic unit of a county or county-equivalent that passes or has passed a competitive market test specified by the FCC. Competitive County also denotes a county or county-equivalent that failed a competitive market test specified by the FCC, but was granted Phase II, Level 2 pricing flexibility prior to June 1, 2017.

(N)

(N)

Conduit

The term "Conduit" denotes any reinforced passage or opening in, on, under, over or through the ground between the feeder route conduit system and cable vault location capable of containing communications facilities required to bring customer-provided fiber optic feeder cable into the Telephone Company Serving Wire Center.

ACCESS SERVICE

2. General Regulations (Cont'd)2.6 Definitions (Cont'd)Noncontiguous Time Slots

The term "Noncontiguous Time Slots" denotes time slots within a common interface that are not adjacent or sequential however the channel assignment order is maintained.

Non-Standard Premises

The term "Non-Standard Premises" denotes a free-standing structure, e.g., a billboard or communication, electrical or water tower, which is used for an antenna site. See also Premises.

Nonsynchronous Test Line

The term "Nonsynchronous Test Line" denotes an arrangement in step-by-step end offices which provides operational tests which are not as complete as those provided by the synchronous test lines, but can be made more rapidly.

Non-Competitive County

The term "Non-Competitive County" denotes the geographic unit of a county or county-equivalent that failed a competitive market test specified by the FCC (excluding those that were granted Phase II, Level 2 pricing flexibility prior to June 1, 2017 and thus are defined as "Competitive Counties").

(N)

(N)

North American Numbering Plan

The term "North American Numbering Plan" denotes a three-digit area (Numbering Plan Area) code and a seven-digit telephone number made up of a three-digit Central Office code plus a four-digit station number.

ACCESS SERVICE

2. General Regulations (Cont'd)2.10 Technology Migration

(A) General

When a customer (for purposes of this Section 2.10, the term customer includes an Interexchange Carrier or Interexchange Common Carrier as defined in Section 2.6 preceding, an End User as defined in Section 2.6 preceding, or a customer who purchases Expanded Interconnection pursuant to Section 28 following) who subscribes to a Service Discount Plan (SDP) under Section 7.4.10 following, Commitment Discount Plan (CDP) under Section 25.1 following, or National Discount Plan (NDP) under Section 25.2 following wishes to disconnect certain Special Access High Capacity Services, NYNEX Enterprise DS1 Services (NES DS1) or NYNEX Enterprise DS3 Services (NES DS3) (each a **Hi-Cap Disconnect**) in order to replace them with a Telephone Company provided Ethernet private line service or a Telephone Company provided switched Ethernet service (each such service hereinafter referred to individually or collectively as a **Replacing Service** and each such replacement hereinafter referred to as a **Technology Migration**), the terms and conditions that apply to such Technology Migration are as follows:

- (1) For customers who subscribe to an SDP term plan, this Section 2.10 applies to all of its Technology Migrations ordered on or after December 2, 2010.
- (2) Reserved
- (3) For customers who subscribe to a CDP, this Section 2.10 applies to Technology Migrations ordered on or after December 2, 2010.
- (4) For customers who subscribed to an NDP prior to December 2, 2010, the customer may choose to apply either the upgrade terms and conditions set forth in Section 25.2.7 following to a Technology Migration or the terms and conditions for a Technology Migration set forth in this Section 2.10. The terms and conditions that the customer chooses for the first such order placed on or after December 2, 2010 shall be the same terms and conditions that will apply to all of the customer's subsequent Technology Migration orders during the remainder of the current term commitment.

For customers who subscribe to an NDP on or after December 2, 2010, or renew their subscription to NDP on or after December 2, 2010, this Section 2.10 applies to each Technology Migration ordered on or after December 2, 2010.

ACCESS SERVICE

5. Ordering Options for Switched and Special Access Service (Cont'd)5.2 Access Order (Cont'd)

For all Special Access Services and Vertical Services (i.e., NRS or FRS), the customer must specify the customer designated premises and/or Hubs involved; the customer designated premises, multiplexing Hub or Frame Relay Service Hub and Expanded Interconnection multiplexing node(s) or virtual collocation arrangement(s) involved; the channel type (e.g., Metallic, Telegraph Grade, Video, Voice Grade, High Capacity, etc.), the channel interface; technical specification package if applicable and options desired. When establishing NYNEX Enterprise Network Reconfiguration Service, the customer must also specify the manner in which the Network Controller will be accessed. For multipoint services, the channel interface at each premises may, at the request of the customer, be different but all such interfaces shall be compatible. (D)

For NYNEX Enterprise Service, the customer must specify the customer designated premises and/or Hub(s) involved. When NYNEX Enterprise Service is ordered in conjunction with NYNEX Enterprise Network Reconfiguration Service, the customer must specify the customer designated premises and Hub involved or the Hubs involved, as applicable.

In addition, for NYNEX Enterprise DS1 and DS3 service, IBT, IDSR, and DSR ordered with the Shared Billing Arrangement option, the ordering customer must specify, when ordering other Optional Features and Functions, the billing account to which the Optional Features or Functions should be billed (i.e., Host Customer's billing account or Service User's billing account).

For DSR and IntelliLight® Optical Transport Service, the Telephone Company will construct the customer's dedicated ring prior to issuance of an Access Service Request (ASR). The customer must provide the Telephone Company with complete and accurate information to design and construct the customer's dedicated ring. Construction will not begin until the customer and the Telephone Company agree on the design of the ring. The order date for the ring is the date on which the customer provides the Telephone Company with written or electronic authorization to begin construction. Upon subsequent notification by the Telephone Company that construction is complete, the customer must submit an ASR for the constructed service so that billing may commence. In the event that the customer cancels its request, or part of its request, for construction of the ring, or fails to subsequently issue the ASR so that billing of the constructed ring may commence, cancellation charges as set forth in 5.2.3 (B)(4) following will apply.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.1 General (Cont'd)7.1.1 Channel Types (Cont'd)

High-Definition (Hi-Def) Digital Video Transport Service - a channel for one-way broadband transmission of high quality video signals in a digital format, at a rate of 19.39 Mbps conforming to the ANSI/SMPTE Standard 310M or at a rate of 1.485 Gbps conforming to the ANSI/SMPTE Standard 292M.

45 Mbps Digital Video Transport Service - a channel for one-way broadband transmission, at a rate of 45 Mbps, of high quality video signals in digital format conforming to ANSI digital hierarchy.

Channel Extension Service - a channel for broadband data transmission between mainframe computers, between mainframes and peripheral devices and/or between Local Area Networks (LANs). The transmission may be provided at data rates up to 1.25 Gbps.

(D)
|
(D)

DSR - a dedicated high capacity customized network in a ring architecture or topology that assures survivability.

IntelliLight® Dedicated SONET Ring (IDSR) - a dedicated high capacity customized network in a ring architecture or topology that assures survivability.

IntelliLight® Optical Transport Service - a managed customized network in a ring architecture for the transport of multiple protocols of various wavelengths.

Bonded Digital Link Service - connecting channels for transmission of voice or data between an end user's local exchange service terminating at a digital cross-connect facility and a Telephone Company provided Special Access service within that same wire center or a different wire center within the same LATA.

LAN Extension Service - a channel for fiber transport connectivity at 10 Mbps, 16 Mbps Token Ring, 100 Mbps, 1 Gbps Ethernet, or 1 Gbps Extended Distance Interface.

Verizon Optical Networking - a channel for managed optical transport of data signals at various speeds over a Telephone Company shared network.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.2 Service Descriptions

For the purposes of ordering, there are fourteen categories of Special Access Service. These are:

Metallic (MT)
Telegraph Grade (TG)
Voice Grade (VG)
Program Audio (AP)
Video (TV)
Digital Data (DA)
High Capacity (HC)
WATS Access Line (WAL)
DIGIPATH digital service II (DDS II)
NYNEX Enterprise Service (NES)
Advanced Video Services
Channel Extension Service

Verizon Dedicated SONET Ring

(D)

Each service consists of a basic channel to which a technical specifications package (customized or predefined), if applicable, channel interface(s) and, when desired, optional features and functions or BSEs are added to construct the service desired by the customer. Each of the components of the service are described in this section.

Customized technical specifications packages will be provided where technically feasible. If the Telephone Company determines that the requested parameter specifications are not compatible, the customer will be advised and given the opportunity to change the order.

When a customized channel is ordered the customer will be notified whether Additional Engineering Charges apply. In such cases, the customer will be given an estimate of the hours to be billed before any further action is taken on the order.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations

This section contains the specific regulations governing the rates and charges that apply for Special Access Service.

7.4.1 Types of Rates and Charges

There are three types of rates and charges. These are monthly rates, daily rates and nonrecurring charges. Additionally, certain Special Access rates and charges are applied based on "Price Cap" or "Price Bands". Price Cap rates may be further differentiated by "Rate Zones".

(C)
|
(C)

In the states where Expanded Interconnection has become operational, Price Cap monthly rates for Standard Channel Terminations, and certain Optional Features and Functions/Basic Service Elements for 1.544 Mbps and 44.736 Mbps (electrical) Special Access High Capacity Services and certain SNET Services are arranged in pricing zones. The pricing zone for each serving wire center in the states where Expanded Interconnection has become operational is specified in the NATIONAL EXCHANGE CARRIER ASSOCIATION, INC. TARIFF F.C.C. No. 4.

(C)

(D)

(D)

Competitive Counties and Non-Competitive Counties are defined in Section 2.6 and the wire centers within such counties are listed in Section 15.4. In wire centers within a Competitive County, monthly rates and nonrecurring charges for Special Access rate elements are arranged in price bands. The price band for each serving wire center within a Competitive County is specified in Section 15.4, following.

(N)

For Interexchange Carrier Point of Presence Channel Terminations, Channel Mileage and Optional Features and Functions, including Multiplexing, Price Band rates and charges apply regardless of whether the applicable county is Competitive or Non-Competitive. In cases where Channel Mileage crosses price bands, the charge for the higher numbered price band applies.

For End User Channel Terminations, the application of "Price Cap" or "Price Band" is dependent upon whether or not the serving wire center is located in a Competitive County. If the End User Channel Termination is in a Competitive County, Price Band rates and charges apply. If the End User Channel Termination is in a Non-Competitive County, Price Cap rates and charges apply.

(N)

Certain material previously found on this page can now be found on 3rd Revised Page 7-225.1.

ACCESS SERVICE

7. Special Access Service (Cont'd)
 7.4 Rate Regulations (Cont'd)
 7.4.1 Types of Rates and Charges (Cont'd)
 (A) Monthly Rates (Cont'd)

Monthly rates are flat recurring rates that apply each month or fraction thereof that a Special Access Service is provided. For billing purposes, each month is considered to have 30 days.

(M)

When a rate is shown as a three year rate or a five year rate, the rate applies each month or fraction thereof that the Special Access Service is provided. However, early termination charges apply as set forth in (D) following if the service is disconnected prior to completion of the three or five year term for the service. Section 7.4.9(C) following contains regulations which are specific to the application of three year and five year rates. Service Discount Plans as set forth in Section 7.4.10 following are not available with Channel Extension Service.

(M)

When a customer's designated premises is served by a serving wire center located in a state other than the state in which the customer's designated premises is located, the rates for Special Access Services for such customer shall be the Special Access Service rates then in effect for the serving wire center from which the customer is served.

(D)

(D)

The application of monthly rates for Special Access DSR is set forth in Section 34.1 following. The application of monthly rates for Special Access IDSR is set forth in Section 26.1 following.

 7.4.1 Types of Rates and Charges (Cont'd)
 (C) Nonrecurring Charges (Cont'd)
 (3) Service Rearrangements (Cont'd)

Coordinated Retermination

(N)

For 1.544 Mbps/DS1 High Capacity, 44.736 Mbps/DS3 High Capacity (excluding Short-Term DS3), the customer may pay a Coordinated Retermination Charge in lieu of treating the move as a discontinuance and start of service. The Coordinated Retermination Charge applies per circuit reterminated. The Telephone Company will coordinate the work activities required in order to minimize the length of time the service being moved is unavailable. Monthly rates will apply as if the circuit remained in service with no disruption. There will be no change in minimum period requirements. No termination liabilities will apply except where the retermination eliminates chargeable services such as IOF mileage for which specific termination liabilities exist.

(D) Early Termination Charges

Early Termination charges apply to Special Access Service which is provided under a term plan and disconnected in full or in part prior to the customer satisfying the selected term plan for the service. Unless otherwise specified for the specific Special Access Service, the early termination charge will be the calculated using the methods set forth in (1) and (2) following.

- (1) For disconnects prior to the end of the selected term plan for which there is no term plan less than the actual time the service has been in effect, the Early Termination Charge is 100% of the applicable monthly rates for each month and fraction thereof in the balance of the term plan.
- (2) For disconnects prior to the end of the selected term plan for which a term plan exists which is less than the actual time the service has been in effect, the Early Termination Charge is the lesser amount of (i) 100% of the applicable monthly rates for each month and fraction thereof in the balance of the selected term plan or (ii) the difference between the monthly rates for the highest term plan that could have been satisfied prior to disconnection of the service and the monthly rate for the selected term plan multiplied by the actual number of months the service has been in effect.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.4 Minimum Periods

Except for the following services, the minimum period for all services is three months. The minimum period for optional features and functions or BSEs is the same minimum period as the associated Special Access Service, unless otherwise specified.

- (A) For part-time and occasional Broadcast Video, Advanced Video and Program Audio services, the minimum period is one day (i.e., a continuous 24 hour period, not limited to a calendar day).
- (B) For Advanced Uncompressed Digital Video Service, Advanced Broadcast Video Service, Serial Component Video Service, Fiber Based Multichannel Video Service and Supertrunking Transport Video Service, the minimum period is one year. The CODEC optional feature, available with 45 Mbps Digital Video Transport Service, has a minimum period of one year.
- (C) For Channel Extension Service, the minimum period is three years.
- (D) For service provided under a Commitment Discount Plan as set forth in Section 25.1 following, the minimum period is one year from the date that service is installed and is in lieu of the minimum period which would normally apply to that service. Commitment Discount Plan minimum period regulations are specified in Section 25.1.10 following.
- (E) For DSR as set forth in Section 34.1 following, the minimum period is one year for the mileage and node rate elements and one month for the port rate elements.
- (F) For IntelliLight® Optical Transport Service as set forth in 7.2.19 preceding, the minimum period is two years for the ring mileage, node, network optimization and SONET optical transport rate elements and three months for the data optical transport channel rate elements.
- (G) Reserved. (C)
- (H) For Verizon Optical Networking (VON) as set forth in 7.2.20(E) preceding, the minimum period is one year for all term plans, including Month-to-Month.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.5 Moves

A move involves a change in the physical location of one of the following:

- The Point of Termination at the customer's designated premises
- The customer's designated premises

The charges for the move are dependent on whether the move is to a new location within the same building or to a different building.

(A) Moves Within the Same Building

When the move is to a new location within the same building, the charge for the move will be an amount equal to one half of the applicable channel termination nonrecurring charge for the service affected as set forth in 7.4.1 preceding. There will be no change in the minimum period or Service Discount Plan requirements.

(B) Moves To A Different Building

Moves to a different building will be treated as a discontinuance and start of service and all associated nonrecurring charges will apply. New minimum period and/or Service Discount Plan requirements will be established for the new services. The customer will also remain responsible for satisfying all outstanding minimum period and/or termination liability charges for the discontinued service except as specified in 7.4.10(C)(5) following.

Certain material previously found on this page can now be found on 2nd Revised Page 7-243.

ACCESS SERVICE

15. Operating Territory and Metropolitan Statistical Areas of the Verizon Telephone Companies (Cont'd)15.3 Metropolitan Statistical Areas of the Verizon Telephone Companies

(A) General

For purposes of Switched Access Services, wire centers within the Telephone Company' operating territories have been arranged in Metropolitan Statistical Areas (MSAs). MSAs may achieve various phases of pricing relief pursuant to Subpart H of the Commission's Part 69 Rules. Telephone Company MSAs which qualify for Phase II pricing relief are shown in (C) following which identifies the MSA Name, MSA identification number, level of pricing relief for the MSA, and the CLLI, State and price band for each wire center within the MSA. Switched Access Services in wire centers within a non-qualifying, Phase II MSA are not subject to price banding and are not included in (C) following. Switched Access Service provided from a wire center within a non-qualifying MSA is subject to the rates and charges set forth in Section 31. following. Service provided from a qualifying MSA is subject to the rates and charges set forth in Sections 30. and 31. as determined by the level of pricing relief described in (1) and (2) following.

(1) Level 1 MSA Pricing

MSAs assigned to Level 1 pricing are those MSA which have achieved Phase II pricing relief for all rate elements associated with the portion of the transmission path connecting an Interexchange Carrier's Point of Presence to the wire center serving the secondary location involved (i.e., End User's designated premises). The rate elements associated with the transmission path are those rate elements applicable for the type of service involved, whether configured on a point-to-point basis or in a ring architecture. For example, a High Capacity 1.544 Mbps Service as set forth in Section 7.2.9 preceding is comprised of channel termination, channel mileage and optional features and functions or BSE rate elements. An OC12 DSR ring as set forth in Section 34.1 following is comprised of nodes, channel mileage and port rate elements.

ACCESS SERVICE

15. Operating Territory and Metropolitan Statistical Areas of the Verizon Telephone Companies (Cont'd)15.3 Metropolitan Statistical Areas of the Verizon Telephone Companies (Cont'd)

(A) General (Cont'd)

(1) Level 1 MSA Pricing (Cont'd)

Rates and charges for rate elements subject to Level 1 pricing are set forth in Section 30. following and are shown in terms of price bands. To determine the price band for a rate element, first locate the wire center in (C) following from which the service is provided and find the corresponding rate band. Rates and charges for the rate elements associated with connecting the secondary location to its serving wire center are shown in Section 31. following.

(2) Level 2 MSA Pricing

MSAs assigned to Level 2 pricing are those MSAs which have achieved Phase II pricing relief for all Switched Access Service rate elements associated with the end-to-end transmission path connecting the Interexchange Carrier's Point of Presence to the secondary location involved. The rate elements associated with the transmission path are those rate elements applicable for the type of service involved, whether configured on a point-to-point basis or in a ring architecture. (C)

Rates and charges for rate elements subject to Level 2 pricing are set forth in Section 30. following and are shown in terms of price bands. To determine the price band for a rate element, first locate the wire center in (C) following from which the service is provided and find the corresponding rate band.

ACCESS SERVICE

15. Operating Territory and Metropolitan Statistical Areas of the Verizon Telephone Companies (Cont'd)15.3 Metropolitan Statistical Areas of the Verizon Telephone Companies (Cont'd)(C) Rate Regulations

When the Interexchange Carrier's Point of Presence is located at an Expanded Interconnection multiplexing node or virtual collocation arrangement, price band rates and charges do not apply to any rate element associated with providing service to the Expanded Interconnection arrangement.

To determine the price band for the Switched Access Service channel mileage rate element when the wire centers involved are located within different price bands, apply the rates and charges for the higher price band number. When one of the wire centers involved is subject to Section 30 price band rating and the other wire center involved is not subject to price band rating (i.e, rating from Section 31), the rates and charges applicable to the channel mileage element will be the Section 31 rates and charges for non-price banded elements. Pricing bands are further described in Section 7.1.2(B) preceding. (C)

For the avoidance of doubt, in accordance with Section 2.4.7 of this Tariff, only Telephone Company wire centers in the operating territory of this Tariff will be considered in order to determine the applicable channel mileage rate element. If one wire center is in the operating territory of this Tariff and the other wire center is not, the rates and charges applicable to the channel mileage rate element will be dependent upon the level of pricing flexibility of only the wire center that is in the Telephone Company's operating territory.

However, for service within the New York-New Jersey Corridor, any Verizon wire center within the operating territory of the New York - New Jersey Corridor will be considered in order to determine the applicable channel mileage rate element.

When service is provided under a Commitment Discount Plan as set forth in Section 25. following, the discount percentage shall be applied to the rate applicable to the price band involved. (D)

When service is provided as part of a Shared Use Arrangement, price band billing applies to both the switched access and the special access portion of the facility.

The application of rates and charges for service subject to MSA pricing relief are described in Section 6.1.3 preceding. (D)

(TR 1351)

15. Operating Territory and Metropolitan Statistical Areas of the Verizon Telephone Companies (Cont'd)(D)
(D)15.4 Competitive and Non-Competitive Counties

(N)

(A) General

Counties and county-equivalents within the Telephone Company's operating territories are either Competitive or Non-Competitive for the purposes of pricing Special Access Services. The effect of the Competitive and Non-Competitive designations is described in Section 7.4.1 preceding.

Rates and charges are shown in Section 30 (Price Band) and Section 31 (Price Cap) following.

(1) Competitive Pricing

The rate elements associated with the transmission path are those rate elements applicable for the type of service involved. Rates and charges for competitive rate elements are shown in terms of price bands, regardless of the status of the county for a particular wire center. To determine the price band for a rate element, first locate the county and the wire center from which the service is provided in Section 15.4(C) following and find the corresponding price band. For DS3 and below Special Access Services in Non-Competitive Counties, rates and charges for End User Channel Terminations are the Price Cap rates.

(D)(D)
(D)
(N)15.4 Competitive and Non-Competitive Counties (Cont'd)

(B) Rate Regulations

To determine the price band for the channel mileage rate element when the wire centers involved are located within different price bands, apply the rates and charges for the higher price band number.

For the avoidance of doubt, in accordance with Section 2.4.7 of this Tariff, only Telephone Company wire centers in the operating territory of this Tariff will be considered in order to determine the price band of the applicable channel mileage rate elements. If one wire center is in the operating territory of this Tariff and the other wire center is not, the rates and charges applicable to the channel mileage rate element will be determined by the band that applies based on the wire center that is in the Telephone Company's operating territory.

However, for service within the New York-New Jersey Corridor, any Verizon wire center within the operating territory of the New York - New Jersey Corridor will be considered in order to determine the price band of the applicable channel mileage rate elements.

When service is provided under a Service Discount Plan as set forth in Sections 7.4.10 preceding, the discount percentage shall be applied to the rate applicable to the price band involved.

When service is provided as part of a Shared Use Arrangement, price band billing may apply to both, the switched access and the special access, portions of the facility. Price band billing regulations for special access are specified in this Section 15.4, while price band billing regulations for switched access are found in Section 15.3 preceding.

The application of rates and charges for Special Access service subject to Competitive and Non-Competitive Counties pricing relief are described in Section 7.4.1 preceding.

ACCESS SERVICE

25. Discount Plans (Cont'd)25.1 Commitment Discount Plans (Cont'd)25.1.3 Plan Commitment Levels (Cont'd)

(A) Minimum Commitment Levels (Cont'd)

- (6) CDP Customers have the option of combining the following services for the purposes of establishing commitment levels. Switched Access and Special Access DS1 channel terminations may be combined into a single commitment level. Switched Access and Special Access DS3 channel terminations may be combined into a single commitment level. Each service that is part of a combined service plan may have different commitment periods and rates for each service. If the CDP Customer chooses to combine IEF terminations with Switched Access and Special Access DS3 Channel Terminations, the CDP Customer must combine its Switched Access and Special Access DS3 Channel Terminations into a combined plan. When Special Access DS1 Services or Special Access DS3 Services that are under a combined service type are subsequently included in NDP, the combined commitment level will be reduced under Section 25.1.10(E)(2)(a) following. (D)
- (7) If the CDP Customer fails to maintain its Minimum Commitment for DDS II, the CDP Customer may opt to reduce its existing commitment level for DDS II by fifteen percent (15%). The CDP Customer may only exercise this option one (1) time each year. The CDP Customer must notify the Telephone Company of its desire to reduce the existing commitment level within thirty (30) days of receiving the results of the true-up process provided by the Telephone Company in accordance with Section 25.1.7 following.
- (8) The CDP Customer may increase the Minimum Commitment coincident with the results of the six months true-up process as set forth in Section 25.1.7 following with the increased commitment applying for the balance of the commitment period or until such time as a subsequent adjustment is requested or required under the terms of this Section 25.1.

25.2 National Discount Plan (Cont'd)
25.2.1 General (Cont'd)

(B) Specific Terms and References (Cont'd)

- (6) **Annual True-Up Period:** shall mean the most recent Plan Year that has just been completed for which the Annual True-Up is being conducted.
- (7) **Assigned Discount Tier:** shall mean the applicable Discount Tier that was in effect during an Annual True-Up Period.
- (8) **Average Monthly Rate Per Equivalent DS1 CM:** shall mean the rate as calculated in accordance with Section 25.2.7(C)(2) following.
- (9) **Average Monthly Rate Per Equivalent DS1 CT:** shall mean the rate as calculated in accordance with in Section 25.2.7(C)(1) following.
- (10) **Channel Termination(s):** shall mean the applicable Special Access channel terminations for Qualifying Services (as used in the Telephone Company's Tariff F.C.C. No. 1 (**FCC1**) and in this tariff, the applicable Special Access Lines (SAL(s)) for Qualifying Services (as used in the Telephone Company's Tariff F.C.C. No. 14 (**FCC14**), and the applicable Circuit Terminations for Qualifying Services (as used in the Telephone Company's Tariff F.C.C. No. 16 (**FCC16**) as follows.
- (a) Channel Terminations for Special Access DS1 Services are described in Section 7.2.9 of FCC1, Section 7.2.9 preceding of this tariff, Section 5.3.6 of FCC14, and Section 7.11.1 of FCC16; and
 - (b) Channel Terminations for Special Access DS3 Services using electrical and optical interfaces are described in Section 5.3.6 of FCC14, and Section 7.11.1 of FCC16; and
 - (c) Primary and Secondary Channel Terminations for Special Access DS3 Services using electrical and optical interfaces are set forth in Section 7.2.9 of FCC1, and Section 7.2.9 preceding of this tariff; and
 - (d) Channel Terminations for FMS Services are set forth in Section 7.2.13 of FCC1; and (D)
 - (e) Channel Terminations for IEF Services.
- (11) **Channel Termination Revenue Cap:** shall mean the total discounted monthly revenues associated with all in-service channel termination rate elements for Equivalent DS1 CTs for month one of the NDP multiplied by the appropriate Commitment Level percentage (e.g., 92% for Deluxe). In the event the Commitment Level changes (e.g., as a result the NDP Customer exceeding its Maximum Service Level), the Telephone Company will make a commensurate adjustment to the Channel Termination (CT) Revenue Cap.

(TR 1351)

(B) Specific Terms and References (Cont'd)

- (12) **Channel Mileage**: shall mean the applicable channel mileage for Qualifying Services (as used in this tariff and FCC1), the applicable Special Transport for Qualifying Services (as used in FCC14), and the applicable Circuit Mileage for Qualifying Services (as used in FCC16) as follows.
- (a) Channel Mileage for Special Access DS1 Services and Special Access DS3 Services are described in Section 7.2.9 preceding of this tariff, Section 7.2.9 of FCC1, Section 5.3.6 of FCC14, and Section 7.11.1 of FCC16; and
- (b) Channel Mileage for FMS Services which are described in Section 7.2.13 of FCC1. (D)
- (13) **Channel Mileage Revenue Cap**: shall mean the total discounted monthly revenues associated with all in-service channel mileage rate elements for Equivalent DS1 CMs for month one of the NDP multiplied by the appropriate Commitment Level percentage (e.g., 92% for Deluxe). In the event the Commitment Level changes (e.g., as a result the NDP Customer exceeding its Maximum Service Level), the Telephone Company will make a commensurate adjustment to the Channel Mileage (CM) Revenue Cap.
- (14) **Commitment Buy Up Bonus**: shall mean an option available to the NDP Customer which allows the NDP Customer to increase (buy-up) their CT Commitment Level and/or their CM Commitment Level, and receive a discount on one or both Commitment Levels, as described in Section 25.2.7(E) following.
- (15) **CBB Discount**: shall mean the Commitment Buy-Up Bonus Discount as described in Section 25.2.7(E) following.
- (16) **Commitment Level**: shall mean the CM Commitment Level (i.e., the total number of Equivalent DS1 CMs) and/or the CT Commitment Level (i.e., the total number of Equivalent DS1 CTs) that the NDP Customer must commit to the NDP, as described further in Section 25.2.4 following. If the NDP Customer has Channel Terminations and Channel Mileage, then the NDP Customer must establish a separate Commitment Level for Channel Terminations (**CT Commitment Level**) and a separate Commitment Level for Channel Mileage (**CM Commitment Level**).
- (17) **Commitment Matrix**: shall mean the Premier Commitment Matrix, the Standard Commitment Matrix or the Deluxe Commitment Matrix as each is described in Section 25.2.4(C) following.

25. Discount Plans (Cont'd)25.2 National Discount Plan (Cont'd)25.2.1 General (Cont'd)

(B) Specific Terms and References (Cont'd)

- (18) **Discount Tier**: shall mean the tier in each of the tables set forth in Section 25.2.4(B) following into which the NDP Customer falls based on the actual quantities of Equivalent DS1 CTs or Equivalent DS1 CMs, as applicable.
- (19) **Discount Tier Adjustment**: shall mean the adjustment (if applicable) to a higher or a lower Discount Tier based on the difference (if any) between the NDP Customer's Achieved Discount Tier and Assigned Discount Tier, as calculated during the Annual True-Up Period. See Section 25.2.7(D) following for further explanation.
- (20) **Discounted Rate Elements**: shall mean those rate elements of the Qualifying Services that receive a discount under the NDP. A listing of the Discounted Rate Elements is set forth in Section 25.2.5(A) following.
- (21) **Equivalent DS1 CTs**: shall mean the total number of equivalent DS1 Channel Terminations for Qualifying Services for the ACNA(s) included in NDP as determined in accordance with Section 25.2.4 following.
- (22) **Equivalent DS1 CMs**: shall mean the total number of equivalent DS1 Channel Miles for Qualifying Services for the ACNA(s) included in NDP as determined in accordance with Section 25.2.4 following.
- (23) **FMS Services**: shall mean Special Access Service provided as Facilities Management Service under Section 7.2.13 of FCC1. (D)
- (24) **IEF Services**: shall mean, as applicable, either (a) Special Access IntelliLight® Entrance Facilities STS1 terminations (excluding interface options) as described in Section 7.2.15 of FCC1, Section 26.1.4 preceding of this tariff, Section 20.4 of FCC14, and Section 20.4 of FCC16; or (b) Telephone Company provided SONET entrance facility STS1 terminations (excluding interface options) provided by the Telephone Company where such service is technically and operationally feasible, as determined by the Telephone Company.
- (25) **Initial Term**: shall mean the five (5) year initial term of the NDP.
- (26) **Monthly Average Count of Equivalent DS1 CMs**: shall mean the average number of Equivalent DS1 CMs that were in-service during each month of the Annual True-Up Period, as calculated in accordance with Section 25.2.7(B)(1) following.

1300 I Street, NW, Washington, D.C. 20005

ACCESS SERVICE

25. Discount Plans (Cont'd)25.2 National Discount Plan (Cont'd)25.2.3 Qualifying Services

(A) Inclusion of Qualifying Services in NDP

The Qualifying Services are included in the NDP for purposes of determining the Equivalent DS1 CTs and Equivalent DS1 CMs.

- (1) If the NDP Customer purchases one or more of the Qualifying Services under this tariff, and/or under FCC1, and/or FCC14 and/or FCC16, and subscribes to the NDP, the NDP Customer's NDP must include the Qualifying Services in the quantities set forth in (B) following that are purchased under such affected tariffs for the ACNA(s) included in NDP. For each Qualifying Service, with the exception of FMS Services, for which only seventy-five percent (75%) must be included, the NDP Customer must include all quantities (i.e., one hundred percent (100%)) of such Qualifying Services purchased under all affected tariffs for the ACNA(s) included in NDP.
- (2) The NDP will be administered as a single discount plan across all such tariffs for which a single set of Commitment Levels, Discount Tiers, and Term shall apply.

For example, assume an NDP Customer purchases Special Access DS3 Services under this tariff and under FCC1 and FCC14, and FMS Services under FCC1. In this case, the NDP Customer must (D) subscribe to the NDP all (i.e., 100%) of such Special Access DS3 Services purchased under this tariff and under FCC1 and FCC14 for the ACNA(s) included in the NDP Customer's NDP. However, the NDP Customer is only required to include 75% of the FMS Services purchased by the NDP Customer under FCC1 for the (D) ACNA(s) included in the NDP Customer's NDP. The NDP Customer's NDP shall be administered as one discount plan across this tariff, FCC1, and FCC14. Assume further that in Plan Year 2, the NDP Customer purchases Special Access DS1 Services in FCC 16. Then, the Telephone Company shall include all (i.e., 100% of such Special Access DS1 Services for the ACNA(s) included in the NDP Customer's NDP.

(TR 1351)

Issued: August 31, 2017

Effective: September 15, 2017

Vice President, Federal Regulatory
1300 I Street, NW, Washington, D.C. 20005

ACCESS SERVICE

25. Discount Plans (Cont'd)25.2 National Discount Plan (Cont'd)25.2.3 Qualifying Services

(B) Qualifying Services

Subject to the terms of Section 25.2.1(D) preceding, the applicable percentage (as listed below) of each Qualifying Service provided by the Telephone Company to the NDP Customer pursuant to this tariff, FCC1, FCC14, and FCC16, for the ACNA(s) included in the NDP Customer's NDP, shall be included in the NDP at the time of subscription to NDP and, as applicable, at any time during the Term when the NDP Customer purchases additional quantities of such Qualifying Services.

- (1) All quantities (one hundred percent (100%)) of Special Access DS1 Service Channel Terminations (see Note 1);
- (2) All quantities (one hundred percent (100%)) of Special Access DS3 Service Channel Terminations (including Individual System, 3 System, and Unlimited System configurations in FCC14 and FCC16, and 12 Capacity System configurations in FCC 16) (see Note 2);
- (3) All quantities (one hundred percent (100%)) of Special Access DS1 Service Channel Mileage (see Notes 1 and 3);
- (4) All quantities (one hundred percent (100%)) of Special Access DS3 Service Channel Mileage (including Individual System, 3 System, and Unlimited System configurations in FCC14, and Individual System, 3 Capacity System, 12 Capacity System and Unlimited System configurations in FCC16) (see Note 3);
- (5) All quantities (one hundred percent (100%)) of IEF STS1 Channel Terminations.
- (6) Seventy-five percent (75%) of the quantities of FMS Service Primary Premises Channel Terminations with a DS1 Interface or a DS3 Interface in FCC1; (D)
- (7) Seventy-five percent (75%) of the quantities of FMS Service Channel Mileage in FCC1. (D)

Note 1: High Capacity Digital FT1 Facilities in FCC14 and FCC16 are not Qualifying Services.

Note 2: Channel Terminations and Channel Mileage for 12 and 24 Group Systems in FCC14 are not Qualifying Services.

Note 3: The MetroLAN Optional Arrangement in FCC14 and FCC16 is not a Qualifying Service.

ACCESS SERVICE

25. Discount Plans (Cont'd)25.2 National Discount Plan (Cont'd)25.2.3 Qualifying Services (Cont'd)

(E) Addition of Services and Removal of Services

(1) Addition of Services

- (a) The NDP Customer may add Special Access DS3 Service and Special Access DS1 Service for the ACNA(s) included in the NDP Customer's NDP at any time during the Term of the NDP. Qualifying Services are added to the NDP for the remainder of the Term (i.e., on a coterminous basis). The NDP Customer may add Special Access DS3 Service and Special Access DS1 Service for ACNA(s) not included in NDP only if it adds the ACNA(s) to the NDP Customer's NDP pursuant to Section 25.3.11 following.
- (b) When the NDP Customer adds one or more Special Access DS3 Services or Special Access DS1 Services to NDP at any time during the Term, the Channel Termination nonrecurring charge which applies for such service is \$1.00 per Channel Termination added.
- (c) When the NDP Customer adds one or more IEF Services or one or more FMS Services during the Term of the NDP, the added IEF Service or FMS Service will be added to the NDP solely for the purpose of calculating the number of Equivalent DS1 CTs and/or the number of Equivalent DS1 CMs used to administer the NDP.

(2) Removal of Services

- (a) When the NDP Customer removes one or more Special Access DS3 Services or Special Access DS1 Services for the ACNA(s) included in the NDP Customer's NDP, but not all Special Access DS3 Services and Special Access DS1 Services, from NDP at any time during the Term, no termination liability charge applies.
- (b) When the NDP Customer removes one or more IEF Services for the ACNA(s) included in the NDP Customer's NDP, or one or more FMS Services for the ACNA(s) included in the NDP Customer's NDP during the Term of the NDP, no termination liability under this Section 25.2 applies. However, the NDP Customer may be subject to termination liability under its applicable term plan for IEF Service. (D)
- (c) When the NDP Customer removes all Special Access DS3 Services and all Special Access DS1 Services for the ACNA(s) included in the NDP Customer's NDP from the NDP (i.e., the NDP Customer cancels its NDP in its entirety), termination liability applies in accordance with Section 25.2.13 following. (D)

(TR 1351)

Issued: August 31, 2017

Effective: September 15, 2017

Vice President, Federal Regulatory

ACCESS SERVICE

26. SONET Services (Cont'd)26.1 Service Descriptions (Cont'd)26.1.4 IntelliLight® Entrance Facility (IEF)# (Cont'd)

(B) Service Description (Cont'd)

The IEF OC48 is an optical fiber interface option in which SONET based transport is provided between SONET-based equipment at the Telephone Company serving wire center offering a fiber interconnection (midspan meet) and the associated customer designated premises. The entire bandwidth of the IEF OC48 optical fiber interface is committed to the customer. It operates in a terminal/linear mode with diversely routed fiber between the serving wire center and the customer's designated premises. At the customer's designated premises, the customer must provide SONET based equipment which complies with Telephone Company SONET based equipment located in the Telephone Company serving wire center and with the requirements for SONET transmission in Technical Reference GR-253-CORE, Issue 4. Mapping over the IEF OC48 interface is allowed at DS3, STS1 and OC#s as well, however, mapping at OC48 is prohibited. The customer's optical cable will be spliced to the Telephone Company's optical cable (i.e., midspan meet) at a site which is considered the best use of existing Telephone Company and customer facilities and contains a suitable environment for the midspan meet. The customer's fiber for the midspan meet must be compatible with the fiber employed by the Telephone Company. The physical interface for the connecting fiber optic cables will be at a fiber connector panel situated in a location which is mutually agreeable to both the Telephone Company and the customer. The handoff will be 4-fiber, 1 x 1 protection.

Each IEF Termination can be connected to other Special Access Service channel terminations or to advanced data services via the Telephone Company's interoffice facilities and Hubs. IEF can also be substituted for certain Switched Access Entrance Facilities. One STS1 can be connected to an IDSR STS1 central office extension or port or to a channel of a multiplexed IBT facility. Three STS1s (D) can be connected to an IBT OC3 service. Twelve STS1s can be connected to an IBT OC12 service or forty-eight STS1s can be connected to an IBT OC48 service. The transmission rate of the IEF interface must be equal to, or greater than, the transmission rate of the connecting service.

(D)

Service availability limited. Refer to # footnote on Page 26-48

(TR 1351)

Issued: August 31, 2017

Effective: September 15, 2017

ACCESS SERVICE

26. SONET Services (Cont'd)26.1 Service Descriptions (Cont'd)26.1.4 IntelliLight® Entrance Facility (IEF)# (Cont'd)

(G) Deployment

IEF Service is provided where suitable SONET facilities and bandwidth are available to provide the requested service and interfaces. The Telephone Company will work cooperatively with the customer in determining the availability of such facilities and if service can be provided.

(H) Rate Regulations

- (1) Monthly rates, as set forth in Section 30.26.4 following for price band rates and charges and Section 31.26.4 for all other rates and charges, apply to IEF Terminations. The monthly rates are differentiated by the term plan and IEF Interface selected by the customer. Nonrecurring charges, as set forth in Section 30.26.4(A)(3) and (B)(3) following for price band rates and charges and Section 31.26.4(A)(3) and (B)(3) for all other rates and charges, apply to initial and subsequent installations of IEF Terminations.
- (2) Additionally, the monthly rates for IEF Terminations apply on a tapered schedule basis as set forth in Section 30.26.4(A)(1) and (B)(1) following for price band rates and Section 31.26.4(A)(1) and (B)(1) following for all other rates. The rate to be billed for each IEF Termination is based on the total number of IEF Terminations that are in-service as of each billing date, on a per customer designated premises and per Billing Account Number (BAN) basis. To determine the total number of IEF Terminations for the bill period, the Telephone Company will count (i) all IEF Terminations; and (ii) all Telephone Company provided SONET entrance facilities that are provided in connection with a Telephone Company provided point-to-point SONET service or ethernet private line service that terminate at such customer designated premises, inclusive of all such IEF Terminations and SONET entrance facilities that are in service and billed under the same BAN.
- (3) For example, a customer purchases five (5) IEFs that are in-service at three (3) different customer designated premises, with the 5 IEFs being billed under two (2) different BANs.
 - (a) The first customer designated premises has two (2) IEFs, one with fifteen (15) in-service STS1 IEF Terminations and the other with five (5) in-service STS1 IEF Terminations for a total of twenty (20) STS1 IEF Terminations. Both IEFs are billed under the same BAN. The monthly rate to be billed for each IEF Termination in the 2 IEFs at the first customer designated premises is the monthly rate shown for 20 STS1 IEF Terminations. Monthly rates for STS1 IEF Terminations are as set forth in Section 30.26.4(A)(1) and (B)(1) following for price band rates and Section 31.26.4(A)(1) and (B)(1) following for all other rates and apply in accordance with Section 15.4 preceding. (T)

(H) Rate Regulations (Cont'd)

(3) (Cont'd)

- (b) The second customer designated premises has two (2) IEFs, one with twenty (20) in-service STS1 IEF Terminations and the other with twenty-two (22) in-service STS1 IEF Terminations, for a total of forty-two (42) STS1 IEF Terminations. Each IEF at the second customer designated premises is billed under a separate BAN. The monthly rate to be billed for the IEF with 20 STS1 Terminations is the monthly rate shown for 20 STS1 IEF Terminations. The monthly rate to be billed for the IEF with 22 STS1 Terminations is the monthly rate shown for 22 STS1 IEF Terminations. Monthly rates for STS1 IEF Terminations are as set forth in Section 30.26.4(A)(1) and (B)(1) following for price band rates and Section 31.26.4(A)(1) and (B)(1) following for all other rates and apply in accordance with Section 15.4 preceding. (T)
- (c) The third customer designated premises has one (1) IEF with nine (9) in-service STS1 IEF Terminations billed under the same BAN. The monthly rate to be billed for each such IEF Termination is the monthly rate shown for 9 STS1 IEF Terminations. Monthly rates for STS1 IEF Terminations are as set forth in Section 30.26.4(A)(1) and (B)(1) following for price band rates and Section 31.26.4(A)(1) and (B)(1) following for all other rates and apply in accordance with Section 15.4 preceding. (T)
- (4) Monthly rates for electrical IEF Interfaces are set forth in Section 30.26.4(A)(2) and (B)(2) following for price band rates and Section 31.26.4(A)(2) and (B)(2) following for all other rates and apply in accordance with Section 15.4 preceding. When a customer orders an IEF with an STS1 IEF Termination and an electrical interface, both the monthly rate for the electrical IEF Interface (as set forth in Section 30.26.4(A)(2) and (B)(2) following for price band rates and Section 31.26.4(A)(2) and (B)(2) following for all other rates) and the monthly rate for the STS1 Termination (as set forth in Section 30.26.4(A)(1) and (B)(1) following for price band rates and Section 31.26.4(A)(1) and (B)(1) following for all other rates) apply. The monthly rates are differentiated by the term plan selected by the customer. Nonrecurring charges as set forth in Section 30.26.4(A)(2) and (B)(2) following for price band rates and Section 31.26.4(A)(2) and (B)(2) following for all other rates apply to each electrical IEF Interface installed.
