FACILITIES FOR INTERSTATE ACCESS

2. GENERAL REGULATIONS (Cont'd)2.6 Definitions (Cont'd)Circuit Code

The term "Circuit Code" denotes the service class routing of an SS7 call that indicates the interexchange carrier trunk group to which the traffic will be routed (e.g., 0+, 0-, 500, 900, etc.).

Common Channel Signaling System 7 Network (CCS7)

The term "Common Channel Signaling System 7 Network (CCS7)" denotes a dedicated out-of-band signaling network which utilizes Signaling System 7 (SS7) protocol to provide call handling and data base access services.

Common Line

The term "Common Line" denotes a line, trunk, coin line or other facility provided under the Telephone Company General and/or Local Tariffs, terminated on a Central Office switch. A Common Line - Residence is a line or trunk provided under the residence regulations of the Telephone Company General and/or Local Tariffs. A Common Line - Business is a line or trunk provided under the business regulations of the Telephone Company General and/or Local Tariffs. A coin line is a line provided under the public and/or semi-public service regulations of the Telephone Company General and/or Local Tariffs.

(M)

Communications System

The term "Communications System" denotes circuits and other facilities which are capable of communications between terminal equipment provided by other than the Telephone Company or Telephone Company stations.

(M)

Competitive County

The term "Competitive County" denotes the geographic unit of a county or county-equivalent that passes or has passed a competitive market test specified by the FCC. Competitive County also denotes a county or county-equivalent that failed a competitive market test specified by the FCC, but was granted Phase II, Level 2 pricing flexibility prior to June 1, 2017.

FACILITIES FOR INTERSTATE ACCESS

2. GENERAL REGULATIONS (Cont'd)2.6 Definitions (Cont'd)Concatenated

The term "Concatenated" denotes the linking together of various data structures, e.g., two bandwidths joined to form a single bandwidth.

Confirmed ASR

The term "Confirmed ASR" denotes a customer's ASR for a) Switched Access FIA which the Telephone Company has processed with the Engineering Department to confirm for the customer and the Telephone Company the availability of facilities and/or equipment, and b) Special Access FIA for which the Telephone Company confirms to the customer that the established due date can be met. The date the ASR is confirmed, the standard service date interval commences.

Confirming Design Layout Report Date

The term "Confirming Design Layout Report (CDLR) Date" identifies the date that the Telephone Company is scheduled to receive confirmation that the Design Layout Report provided by the Telephone Company for a confirmed ASR is acceptable.

Connecting Facility Assignment

The term "Connecting Facility Assignment" denotes the identification of a channel or circuit to be used from a high capacity facility.

Conventional Signaling

The term "Conventional Signaling" denotes the inter-machine signaling system which has been traditionally used in North America for the purpose of transmitting the called number's address digits from the originating end office to the switching machine which will terminate the call. In this system, all of the dialed digits are received by the originating switching machine, a path is selected, and the sequence of supervisory signals and outpulsed digits is initiated. No overlap outpulsing, ten-digit ANI, ANI information digits, or acknowledgement wink are included in this signaling sequence.

Customer

The term "Customer" denotes any individual, partnership, association, joint-stock company, trust, corporation, or governmental entity or any other entity which subscribes to the services offered under this tariff.

Certain material previously found on this page can now be found on 2nd Revised Page 2-25.

(This page filed under Transmittal No. 1351.)

Vice President, Federal Regulatory (T)
1300 I Street NW, Washington, DC 20005 (T)

Issued: August 31, 2017

Effective: September 15, 2017

FACILITIES FOR INTERSTATE ACCESS

2. GENERAL REGULATIONS (Cont'd)2.6 Definitions (Cont'd)Network Channel Interface Code

The "Network Channel Interface" code (NCI) is an ordering code that provides an indication of the generic channel type. The NCI code provides the technical characteristics of the interface and describes the physical and electrical characteristics of the special access interface to the customer designated locations. A complete description and listing of these interface codes is specified in Section 6103 of the GTE Technical Interface Reference Manual.

Node

The term "Node" denotes a SONET ring service element that designates either a customer designated location or a Telephone Company wire center location on the SONET ring. It also denotes the location/address of where a channelized service originates or terminates on a ring.

Non-Competitive County

The term "Non-Competitive County" denotes the geographic unit of a county or county-equivalent that failed a competitive market test specified by the FCC (excluding those that were granted Phase II, Level 2 pricing flexibility prior to June 1, 2017 and thus are defined as "Competitive Counties").

(N)
|
|
|
(N)Non-Overlap Outpulsing

The term "Non-Overlap Outpulsing" is the feature of the exchange access signaling system which provides initiation of pulsing to the customer's premises after the calling subscriber has completed dialing an originating call.

Nonrecoverable Cost

The term "Nonrecoverable Cost" denotes the cost of specially constructed facilities for which the Telephone Company has no foreseeable use should the customer terminate service.

Nonsynchronous Test Line

The term "Nonsynchronous Test Line" denotes an arrangement in step-by-step end offices which provides operational tests which are not as complete as those provided by the synchronous test lines, but which can be made more rapidly.

North American Numbering Plan

The term "North American Numbering Plan" denotes a three-digit area or Numbering Plan Area (NPA) code and a seven-digit telephone number made up of a three-digit Central Office code (NXX) plus a four-digit station number (XXXX).

NSEP Treatment

The term "NSEP Treatment" denotes the provisioning of a telecommunications service before others based on the provisioning priority level assigned by the Executive Office of the President.

Octet

The term "Octet" denotes a group of eight binary digits operated upon as an entity.

FACILITIES FOR INTERSTATE ACCESS

2. GENERAL REGULATIONS (Cont'd)2.6 Definitions (Cont'd)Off-Hook

The term "Off-Hook" denotes the active condition of Switched Access or a Telephone Company local service line.

On-Hook

The term "On-Hook" denotes the idle condition of Switched Access or a Telephone Company local service line.

Open Circuit Test Line

The term "Open Circuit Test Line" denotes an arrangement in an end office which provides an ac open circuit termination of the trunk or line by means of an inductor of several Henries.

Optical Carrier Rate (OC-N)

The term "OC-N" denotes an Optical Networking transmission signal, speed, line rate, or service and may be commonly referred to as follows:

<u>OC-N Rate</u>	<u>Bandwidth Capacity</u>
OC-1	51.84 Mbps
OC-3	155.52 Mbps
OC-12	622.08 Mbps
OC-24	1.25 Gbps
OC-48	2.488 Gbps

Order Interval

The term "Order Interval" denotes the interval between the Scheduled Issue Date and the Service Date.

Originating Direction

The term "Originating Direction" denotes the use of Switched Access for the origination of calls from an end user to a CDL.

Originating Point Code

The term "Originating Point Code (OPC)" denotes the identity assigned to each Operator Service System (OSS) location.

Overlap Outpulsing

The term "Overlap Outpulsing" is the feature of the exchange access signaling system which permits initiation of pulsing to the customer's premises before the calling subscriber has completed dialing an originating call.

OZZ Code

The term "OZZ Code" denotes the service class routing code of a multifrequency (MF) call that indicates the interexchange carrier trunk group to which the traffic will be routed (e.g., 0+, 0-, 500, 900, etc.).

5 SPECIAL ACCESS (Cont'd)
5.6 Rate Regulations

This section contains specific regulations governing the rates and charges that apply for Special Access Service.

Competitive Counties and Non-Competitive Counties are defined in Section 2.6 and the wire centers within such counties are listed in Section 19.2. In wire centers within a Competitive County, monthly rates and nonrecurring charges for Special Access rate elements are arranged in price bands. The price band for each serving wire center within a Competitive County is specified in Section 19.2 following. (N)

For Interexchange Carrier Point of Presence Special Access Lines, Special Transport and Optional Features and Functions, including Multiplexing Arrangements, Price Band rates and charges apply regardless of whether the county is Competitive or Non-Competitive. In cases where Special Transport crosses price bands, the charge for the higher numbered price band applies.

End User Special Access Lines, the application of "Price Cap" or "Price Band" is dependent upon whether or not the serving wire center is located in a Competitive County*. If the End User Special Access Line is in a Competitive County, Price Band rates and charges apply. If the End User Special Access Line is in a Non-Competitive County, Price Cap rates and charges apply. (N)

5.6.1 Types of Rates and Charges

There are five types of rates and charges. These are monthly rates, weekly rates, daily rates, time sensitive rates and nonrecurring charges. The rates and charges are described as follows:

(A) Monthly Rates

Monthly rates are recurring charges that apply each month or fraction thereof that a Special Access Service is provided. For billing purposes, each month is considered to have 30 days.

(B) Daily Rates

Daily rates are recurring charges that apply to each 24 hour period or fraction thereof that a part-time Program Audio or VideoConnect® Special Access Service is provided. When part-time Program Audio service is provided for ten or more consecutive days it will be treated as a full-time service and monthly rates will apply. In no event will the charges for continuous part-time Program Audio or VideoConnect® service exceed the amount that would be charged in the same billing time period for full-time service.

(C) Weekly Rates

Weekly rates are charges that apply to each seven day usage period that a VideoConnect® Service is provided, as requested by the customer. In no event will these part-time charges for continuous weekly usage, within the billing period, exceed the monthly rate.

(D) Time Sensitive Rates

Time sensitive rates are charges that are applied on an hourly basis.

(1) Hourly Rates

Hourly rates are recurring charges that apply to each 60 minute period, or fraction thereof, that a part-time VideoConnect® Special Access Service is provided. The billing period commences when the video circuit is available for the customer's use and ceases when the customer's use is discontinued. There is a maximum monthly charge that may be assessed to any Temporary VideoConnect® - Type I Special Access Service. The maximum charge during any 30 day period will be that amount equal to 100 hours of use.

FACILITIES FOR INTERSTATE ACCESS

19. Wire Center Information (Cont'd) (C)19.1 Rate Zones and Metropolitan Statistical Areas (C)

This section contains a list of each Telephone Company wire center that has been assigned to a rate zone. Rate zones are applicable to the services specified in Sections 4 and 5. This table lists, by jurisdiction, wire centers assigned to Rate Zones 1, 2, 3, and Price Bands A, B and C, Metropolitan Statistical Area (MSA) and MSA Level.

Metropolitan Statistical Areas (MSAs) may achieve various phases of pricing relief pursuant to Subpart H of the Commission's Part 69 Rules. For purposes of Switched Access Services, Telephone Company MSAs which qualify for Phase II pricing relief are identified in this section by MSA Name and level of pricing relief. MSAs are applicable to the services specified in Section 4. (C)
(N)
(N)

(A) Level 1 MSA Pricing

MSAs assigned to a Level 1 pricing are those MSAs which have achieved Phase II pricing relief for all Switched Access rate elements associated with the portion of the transmission path connecting an Interexchange Carrier's (ICs) customer designated location (CDL) to the wire center serving the secondary CDL, (i.e. end user premises). The rate elements associated with the transmission path are those rate elements applicable for the type of service involved. (C)
(D)

Vice President, Federal Regulatory
1300 I Street NW, Washington, DC 20005

Issued: August 31, 2017

FACILITIES FOR INTERSTATE ACCESS

19. Wire Center Information (Cont'd) (C)19.1 Rate Zones and Metropolitan Statistical Areas (Cont'd) (C)

(B) Level 2 MSA Pricing

MSAs assigned to Level 2 pricing are those MSAs which have achieved Phase II pricing relief for all Switched Access rate elements associated with the end-to-end transmission path connecting the Interexchange Carrier's CDL to the secondary CDL involved. The rate elements associated with the transmission path are those rate elements applicable for the type of service involved. (C)

The services which are subject to the MSA rate bands are as follows:

- Switched Transport, Entrance Facilities (N)
- Switched Transport, Direct Trunked Transport (N)
- Switched Transport, Optional Features, Multiplexing (N)

(D)

(D)

To determine the pricing for the Switched Transport rate element when the wire centers involved are located within different price zones/bands, apply the rates for the higher price zone or price band. Rates subject to pricing flexibility are noted as Price Band A, B, or C. Traditional Price Cap rates are in Zones 1, 2 and 3. Rates between corresponding zones/bands (1/A- 2/B- 3/C) are maintained for services not awarded pricing flexibility. The MSA Level indicates whether dedicated Switched Access trunking services (DSW) may be subject to pricing flexibility band assignment. (C)

(D)

For the avoidance of doubt, in accordance with Section 2.7 of this Tariff, only Telephone Company wire centers in the operating territory of this Tariff will be considered in order to determine the applicable Switched Transport rate element. If one wire center is in the operating territory of this Tariff and the other wire center is not, the rates and charges applicable to the Switched Transport rate element will be dependent upon the level of pricing flexibility of only the wire center that is in the Telephone Company's operating territory. (C)

19.2 Competitive and Non-Competitive Counties*

(C)

(D)

(A) General

(N)

Counties and county-equivalents within the Telephone Company's operating territories have been designated by the Federal Communications Commission to be either Competitive or Non-Competitive for the purposes of pricing Special Access Services.

Rates and charges are shown in Sections 3, 5, 6 and 11 preceding and Section 20 following for Special Access Services.

(1) Competitive Pricing

The rate elements associated with the transmission path are those rate elements applicable for the type of service involved. Rates and charges for competitive rate elements are shown in terms of price bands, regardless of the status of the county for a particular wire center. To determine the price band for a rate element, first locate the county and the wire center from which the service is provided in Section 19.2(C) following and find the corresponding price band. For DS3 and below Special Access Services in Non-Competitive Counties, rates and charges for End User Special Access Lines are the Price Cap rates. Any rate element that is not labeled as either Price Band or Price Cap will apply in both Competitive and Non-Competitive Counties.

(N)

* This section applies in the State of Pennsylvania only.

19.2 Competitive and Non-Competitive Counties* (Cont'd) (C)

(A) General (Cont'd) (T)

The Special Access services which are subject to price bands are as follows: (N)

- Voiceband
- Digital Data Service (DDS)
- Program Audio
- High Capacity Digital
- MetroLAN Special Transport
- High Voltage Protection
- Bonded Digital Link Service
- Supplemental Features
- Multiplexing Arrangements
- Clear Channel Capability
- Federal Government Banded Optical Transport
- Banded Optical Transport
- Custom Connect DS1, DS3, STS1 Riders and DS1/DS3 Transport
- Dedicated SONET Ring DS1, DS3, DS3 Transmux, and STS1 ports and DS1, DS3 or STS1 Partial Ring Channel Mapping
- IntelliLight Entrance Facilities (IEF)

(N)

* This section applies in the State of Pennsylvania only. (N)

* Until February 1, 2018, End User Special Access Lines that had not qualified for Phase II, Level 2 pricing flexibility prior to June 1, 2017 will be rated at the Price Cap rate regardless of the status of the county in which the applicable wire center is located. (N)

(C)

19.2 Competitive and Non-Competitive Counties* (Cont'd)

(C)

(B) Rate Regulations

To determine the price band for the special transport rate element when the wire centers involved are located within different price bands, apply the rates and charges for the higher price band number.

(N)

For the avoidance of doubt, in accordance with Section 2.7 of this Tariff, only Telephone Company wire centers in the operating territory of this Tariff will be considered in order to determine the price band of the applicable special transport rate elements. If one wire center is in the operating territory of this Tariff and the other wire center is not, the rates and charges applicable to the special transport rate element will be determined by the band that applies based on the wire center that is in the Telephone Company's operating territory.

When service is provided under a National Discount Plan as set forth in Section 23.1 following, the discount percentage shall be applied to the rate applicable to the price band involved.

When service is provided as part of a Shared Use Arrangement, price band billing under Section 19.1 preceding may apply to the switched access portion of the facility, while price band billing under this Section 19.2 applies to the special access portion of the facility, or Rate Zone billing under Section 19.1 preceding may apply to the switched access portion of the facility, while price band billing under this Section 19.2 applies to the special access portion of the facility.

The application of rates and charges for Special Access service subject to Competitive and Non-Competitive Counties pricing relief are described in Section 5.6.1 preceding.

23. Discount Plans (Cont'd)23.1 National Discount Plan (Cont'd)23.1.1 General (Cont'd)

(B) Specific Terms and References (Cont'd)

- (6) **Annual True-Up Period**: shall mean the most recent Plan Year that has just been completed for which the Annual True-Up is being conducted.
- (7) **Assigned Discount Tier**: shall mean the applicable Discount Tier that was in effect during an Annual True-Up Period.
- (8) **Average Monthly Rate Per Equivalent DS1 CM**: shall mean the rate as calculated in accordance with Section 23.1.7(C)(2) following.
- (9) **Average Monthly Rate Per Equivalent DS1 CT**: shall mean the rate as calculated in accordance with in Section 23.1.7(C)(1) following.
- (10) **Channel Termination(s)**: shall mean the applicable Special Access channel terminations for Qualifying Services (as used in the Telephone Company's Tariff F.C.C. No. 1 (FCC1) and the Telephone Company's Tariff F.C.C. No. 11 (FCC11), the applicable Special Access Lines (SAL(s)) for Qualifying Services (as used in this tariff), and the applicable Circuit Terminations for Qualifying Services (as used in the Telephone Company's Tariff F.C.C. No. 16 (FCC16) as follows.
 - (a) Channel Terminations for Special Access DS1 Services are described in Section 7.2.9 of FCC1, Section 7.2.9 of FCC11, Section 5.3.6 preceding of this tariff, and Section 7.11.1 of FCC16; and
 - (b) Channel Terminations for Special Access DS3 Services using electrical and optical interfaces are described in Section 5.3.6 preceding of this tariff and Section 7.11.1 of FCC16; and
 - (c) Primary and Secondary Channel Terminations for Special Access DS3 Services using electrical and optical interfaces are set forth in Section 7.2.9 of FCC1, and Section 7.2.9 of FCC11; and
 - (d) Channel Terminations for FMS Services are set forth in Section 7.2.13 of FCC1; and (D)
 - (e) Channel Terminations for IEF Services.
- (11) **Channel Termination Revenue Cap**: shall mean the total discounted monthly revenues associated with all in-service channel termination rate elements for Equivalent DS1 CTs for month one of the NDP multiplied by the appropriate Commitment Level percentage (e.g., 92% for Deluxe). In the event the Commitment Level changes (e.g., as a result the NDP Customer exceeding its Maximum Service Level), the Telephone Company will make a commensurate adjustment to the Channel Termination (CT) Revenue Cap.

23. Discount Plans (Cont'd)23.1 National Discount Plan (Cont'd)23.1.1 General (Cont'd)

(B) Specific Terms and References (Cont'd)

(12) **Channel Mileage:** shall mean the applicable channel mileage for Qualifying Services (as used in FCC1 and FCC11), the applicable Special Transport for Qualifying Services (as used in this tariff), and the applicable Circuit Mileage for Qualifying Services (as used in FCC16) as follows.

(a) Channel Mileage for Special Access DS1 Services and Special Access DS3 Services are described in Section 7.2.9 of FCC1, Section 7.2.9 of FCC11, Section 5.3.6 preceding of this tariff, and Section 7.11.1 of FCC16; and

(b) Channel Mileage for FMS Services which are described in Section 7.2.13 of FCC1.

(D)

(13) **Channel Mileage Revenue Cap:** shall mean the total discounted monthly revenues associated with all in-service channel mileage rate elements for Equivalent DS1 CMs for month one of the NDP multiplied by the appropriate Commitment Level percentage (e.g., 92% for Deluxe). In the event the Commitment Level changes (e.g., as a result the NDP Customer exceeding its Maximum Service Level), the Telephone Company will make a commensurate adjustment to the Channel Mileage (CM) Revenue Cap.

(14) **Commitment Buy Up Bonus:** shall mean an option available to the NDP Customer which allows the NDP Customer to increase (buy-up) their CT Commitment Level and/or their CM Commitment Level, and receive a discount on one or both Commitment Levels, as described in Section 23.1.7(E) following.

(15) **CBB Discount:** shall mean the Commitment Buy-Up Bonus Discount as described in Section 23.1.7(E) following.

(16) **Commitment Level:** shall mean the CM Commitment Level (i.e., the total number of Equivalent DS1 CMs) and/or the CT Commitment Level (i.e., the total number of Equivalent DS1 CTs) that the NDP Customer must commit to the NDP, as described further in Section 23.1.4 following. If the NDP Customer has Channel Terminations and Channel Mileage, then the NDP Customer must establish a separate Commitment Level for Channel Terminations (CT Commitment Level) and a separate Commitment Level for Channel Mileage (CM Commitment Level).

(17) **Commitment Matrix:** shall mean the Premier Commitment Matrix, the Standard Commitment Matrix or the Deluxe Commitment Matrix, as each is described in Section 23.1.4(C) following.

23. Discount Plans (Cont'd)23.1 National Discount Plan (Cont'd)23.1.1 General (Cont'd)

(B) Specific Terms and References (Cont'd)

- (18) **Discount Tier**: shall mean the tier in each of the tables set forth in Section 23.1.4(B) following into which the NDP Customer falls based on the actual quantities of Equivalent DS1 CTs or Equivalent DS1 CMs, as applicable.
- (19) **Discount Tier Adjustment**: shall mean the adjustment (if applicable) to a higher or a lower Discount Tier based on the difference (if any) between the NDP Customer's Achieved Discount Tier and Assigned Discount Tier, as calculated during the Annual True-Up Period. See Section 23.1.7(D) following for further explanation.
- (20) **Discounted Rate Elements**: shall mean those rate elements of the Qualifying Services that receive a discount under the NDP. A listing of the Discounted Rate Elements is set forth in Section 23.1.5(A) following.
- (21) **Equivalent DS1 CTs**: shall mean the total number of equivalent DS1 Channel Terminations for Qualifying Services as determined in accordance with Section 23.1.4 following.
- (22) **Equivalent DS1 CMs**: shall mean the total number of equivalent DS1 Channel Miles for Qualifying Services as determined in accordance with Section 23.1.4 following.
- (23) **FMS Services**: shall mean Special Access Service provided as Facilities Management Service under Section 7.2.13 of FCC1. (D)
- (24) **IEF Services**: shall mean, as applicable, either (a) Special Access IntelliLight® Entrance Facilities STS1 terminations (excluding interface options) as described in Section 7.2.15 of FCC1, Section 26.1.4 of FCC11, Section 20.4 preceding of this tariff, and Section 20.4 of FCC16; or (b) Telephone Company provided SONET entrance facility STS1 terminations (excluding interface options) provided by the Telephone Company where such service is technically and operationally feasible, as determined by the Telephone Company.
- (25) **Initial Term**: shall mean the five (5) year initial term of the NDP.
- (26) **Monthly Average Count of Equivalent DS1 CMs**: shall mean the average number of Equivalent DS1 CMs that were in-service during each month of the Annual True-Up Period, as calculated in accordance with Section 23.1.7(B)(1) following.

FACILITIES FOR INTERSTATE ACCESS

23. Discount Plans (Cont'd)23.1 National Discount Plan (Cont'd)23.1.3 Qualifying Services

(A) Inclusion of Qualifying Services in NDP

- (1) If the NDP Customer purchases one or more of the Qualifying Services under this tariff, and/or under FCC1, and/or FCC11 and/or FCC16, and subscribes to the NDP, the NDP Customer's NDP must include the Qualifying Services in the quantities set forth in (B) following that are purchased under such affected tariffs for the ACNA(s) included in NDP. For each Qualifying Service, with the exception of FMS Services, for which only seventy-five percent (75%) must be included, the NDP Customer must include all quantities (i.e., one hundred percent (100%)) of such Qualifying Service purchased under all affected tariffs. The Qualifying Services are included in the NDP for purposes of determining the Equivalent DS1 CTs and Equivalent DS1 CMs for the ACNA(s) included in NDP.

- (2) The NDP will be administered as a single discount plan across all such tariffs for which a single set of Commitment Levels, Discount Tiers, and Term shall apply.

For example, assume the NDP Customer purchases Special Access DS3 Services under this tariff and under FCC1 and FCC11, and FMS Services under FCC1. In this case, the NDP Customer must subscribe to the NDP all (i.e., 100%) of such Special Access DS3 Services purchased under this tariff and under FCC1 and FCC11 for the ACNA(s) included in the NDP Customer's NDP. However, the NDP Customer is only required to include 75% of the FMS Services purchased by the NDP Customer under FCC1 for the ACNA(s) included in the NDP Customer's NDP. The NDP Customer's NDP shall be administered as one discount plan across this tariff, FCC1, and FCC11. Assume further that in Plan Year 2, the NDP Customer purchases Special Access DS1 Services in FCC 16. Then, the Telephone Company shall include all (i.e., 100% of such Special Access DS1 Services for the ACNA(s) included in the NDP Customer's NDP.

23. Discount Plans (Cont'd)23.1 National Discount Plan (Cont'd)23.1.3 Qualifying Services

(B) Qualifying Services

Subject to the terms of Section 23.1.1(D) preceding, the applicable percentage (as listed below) of each Qualifying Service provided by the Telephone Company to the NDP Customer pursuant to this tariff, FCC1, FCC11, and FCC16, for the ACNA(s) included in the NDP Customer's NDP, shall be included in the NDP at the time of subscription to NDP and, as applicable, at any time during the Term when the NDP Customer purchases additional quantities of such Qualifying Services.

- (1) All quantities (one hundred percent (100%)) of Special Access DS1 Service Channel Terminations (see Note 1);
- (2) All quantities (one hundred percent (100%)) of Special Access DS3 Service Channel Terminations (including Individual System, 3 System, and Unlimited System configurations in this tariff and FCC16, and 12 Capacity System configurations in FCC16) (see Note 2);
- (3) All quantities (one hundred percent (100%)) of Special Access DS1 Service Channel Mileage (see Notes 1 and 3);
- (4) All quantities (one hundred percent (100%)) of Special Access DS3 Service Channel Mileage (including Individual System, 3 System, and Unlimited System configurations in this tariff, and Individual System, 3 Capacity System, 12 Capacity System and Unlimited System configurations in FCC16);
- (5) All quantities (one hundred percent (100%)) of IEF STS1 Channel Terminations;
- (6) Seventy-five percent (75%) of the quantities of FMS Service Primary Premises Channel Terminations with a DS1 Interface or a DS3 Interface in FCC1; (D)
- (7) Seventy-five percent (75%) of the quantities of FMS Service Channel Mileage in FCC1, (D)

Note 1: High Capacity Digital FT1 Facilities in this tariff and FCC16 are not Qualifying Services.

Note 2: Channel Terminations and Channel Mileage for 12 and 24 Group System configurations in this tariff are not Qualifying Services.

Note 3: The MetroLAN Optional Arrangement in this tariff and FCC16 is not a Qualifying Service.
