

CenturyLink Operating Companies

Transmittal No. 95 – Mid-Year Exogenous Cost Adjustment

September 15, 2017

Description and Justification

1.0 Introduction

The CenturyLink Operating Companies (CLOC)¹ hereby submit the following information in support of the accompanying revisions to CLOC Tariff F.C.C. Nos. 1, 2, 3, 5, 6, 7, 8, 9, 11 and 12.

This filing is being made on at least 16 days notice as required by Section 61.58 (2) (ii) of the Code of Federal Regulations Part 47 and includes price cap adjustments consistent with the requirements of Sections 61.41 through 61.49 of the FCC's Rules. This filing adjusts end user common line charges and Access Recovery Charge (ARC) rates as a result of the increase of the North American Numbering Plan Administration (NANPA) and true-up of the Telecommunications Relay Services contribution factors. In addition, this filing revises the Federal Universal Service Fund (USF) contribution for 4th quarter 2017 consistent with the requirements of the Commission's USF Order.², replaces the former Louisiana Company names with CenturyLink of Louisiana, LLC , adds the missing Company name for CenturyTel of Upper Midwest in CLOC Tariff F.C.C. No. 5, proposes one special construction case in CLOC Tariff F.C.C. No. 12 and makes a couple of minor tariff language

¹ The CenturyLink Operating Companies are listed in Exhibit 1 at the end of this volume.

² *In the Matter of Federal-State Joint Board on Universal Service*, CC Docket No. 96-45, Public Notice (DA 17-884) released September 12, 2017.)

corrections to clarify the provision of interstate access services in CLOC Tariff F.C.C. No. 11.

In addition to the description and justification contained in this submission, the following information is submitted to provide specific support data at the proposed tariff level of detail for the CenturyLink operating companies.

Description and Justification

* Both Public and Confidential Exhibits are included.

2.0 Determination of Exogenous Changes

In accordance with the Commission's Rules, CenturyLink developed certain exogenous changes for inclusion in the price cap formula. These changes include the North American Numbering Plan Administration and the Telecommunications Relay Service contribution factor. Due to the fact that these factors have changed since the July 1, 2017 Annual Access filing, CenturyLink is making this mid-year filing.

North American Numbering Plan Administration (NANPA)

On June 27, 2001, the Federal Communications Commission released an order approving the compensation plan for the North American Numbering Plan Administration (NANPA) for fiscal year 2001³. The impact of the NANPA exogenous cost for CenturyLink's 2017 Annual Access Filing (Transmittal No. 93) was calculated using the then-current 0.0000368 contribution factor.

NANPA's 2017 contribution factor of 0.0000518 was released as prescribed in the Commission's Public Notice DA 17-783⁴. The contribution factor is applied to total end user revenues from the 2016 FCC 499a adjusted for Price Cap only revenues for the NANPA 2017 Fiscal Year (October 2017 to September 2018).

Telecommunications Relay Service

The Americans with Disabilities Act (ADA) required that all common carriers providing interstate voice telecommunications provide Telecommunications Relay Service (TRS) to customers effective July 26, 1993. In its *Third Report and Order* in CC Docket No. 90-571,⁵ the Commission required that all common carriers providing interstate

³ *In the Matter of Administration of the North American Number Plan*, CC Docket No. 92-237 and *North American Number Plan Cost Recovery Contribution Factor and Fund Size*, NDS File No. L-00-72, Order (DA 01-1524), released June 27, 2001 (*NANP Order*).

⁴ *In the Matter of Administration of the North American Numbering Plan*, Proposed North American Numbering Plan Administration Fund Size Estimate and Contribution Factor for October 2017 through September 2018, Public Notice (DA 17-783), released August 17, 2017, CC Docket No. 92-237.

⁵ *In the Matter of Telecommunications Relay Services and the Americans with Disabilities Act of 1990*, Third Report and Order, CC Docket No. 90-571, released July 20, 1993 (*Third Report and Order*).

telecommunications services contribute to an interstate shared fund to support the TRS function. The impact of the TRS exogenous cost for CenturyLink's 2017 Annual Access Filing (Transmittal No. 93) was calculated using the proposed 0.02244 contribution factor.

A revised TRS contribution factor of 0.02289 was released as prescribed in the Commission's *TRS Notice*.⁶ CenturyLink proposes an exogenous cost adjustment to implement this new factor. The exogenous adjustment has been grossed up to 12/9 to credit the annual amount over the remaining 9 months of the fiscal year. This change is displayed on Exhibit 2.

3.0 CenturyLink LOC Pooling (Applicable to Tariff F.C.C. No.9)

Pursuant to Section 61.48(m)(1)(ii) of the Commission's rules, CenturyLink elected to pool local switching revenues transferred to the common line basket. Exhibit 3, Page 1, shows the local switching revenues subject to pooling along with the allocation of the shortfall between companies. Pages 2 and 3 of the exhibit display the new pooled local switching amount based on access line growth along with the allocation of the pooled revenues to the multi-line business SLC for each individual CenturyLink Tariff F.C.C. No. 9 operating company.

4.0 Jurisdictional EUCL and PICC Composite Rate Development

(Applicable to Tariff F.C.C. Nos. 1, 8, 9 & 11)

⁶ *In the Matter of Telecommunications Relay Services and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities*, CG Docket No. 03-123, DA 17-642 released June 30, 2017 (*TRS Notice*).

Exhibit 4 displays the state specific EUCL and PICC rates, along with each state's demand. State revenues are first calculated by multiplying demand times rate; composite rates are the result of dividing total revenue by total demand for each state. This exhibit is provided for the CenturyLink system wide rollup for each applicable tariff.

5.0 Fourth Quarter Universal Service Support

(Applicable to Tariff F.C.C. No. 1,2,3,6,7,8,9, 11)

For all companies, excluding those in CLOC Tariff F.C.C. No. 9 and 11, a surcharge equal to the fourth quarter 2017 USF contribution factor of 0.188 is applied to end users being billed local exchange service (i.e., primary residential, non-primary residential, ISDN-BRI, single-line business, multi-line business, ISDN-PRI, and Centrex), switched dedicated, special access, or other interstate access services (i.e., Presubscription Change Charges). The percentage surcharge is reflected as a separate line item, clearly identified on the customer's bill. The detailed calculations for Tariff F.C.C. No. 9 and 11 are defined below.

Calculations for CenturyLink Operating Companies Tariff F.C.C. No. 9

CenturyLink adjusts their Federal Universal Service Fund (USF) end user charges to reflect its full contribution obligation, which is based on interstate end user revenues used by the Universal Service Administration Company (USAC) to calculate CenturyLink's fourth quarter 2017 assessment.

Consistent with the requirements of the Commission's USF Interim Methodology Orders,⁷ CenturyLink recovers its Federal Universal Service contributions through per line

⁷ *In the Matter of Federal-State Joint Board on Universal Service*, CC Docket No. 96-45, Report and

monthly charges assessed to end users subscribing to local exchange service (i.e., primary residential, non-primary residential, ISDN-BRI, single-line business, multi-line business, ISDN-PRI, and Centrex). Contributions for end users being billed switched dedicated, special access, or other interstate access services (i.e., Presubscription Change Charges) are recovered by applying a surcharge equal to the fourth quarter 2017 USF contribution factor of 0.188 to the total of the end user customer's interstate access charges. Both the per line charge and percentage surcharge are reflected as a separate line item, clearly identified on the customer's bill.

As detailed on Exhibit 5, Page 1, the Federal USF end user charges for primary residential, non-primary residential, ISDN-BRI and single-line business are calculated by applying the fourth quarter 2017 contribution factor of 0.188 to the sum of the charges representing the interstate portion of the customer's bill (i.e., the customer's end user common line or subscriber line charges).

Page 2 of Exhibit 5 details the calculation of the Federal USF end user charges for Centrex, ISDN-PRI and multi-line business customers. The USF Interim Methodology Orders allow the Federal USF end user charges for Centrex customers to be recovered using an "equivalency ratio." Initially, the Federal USF charges for Centrex, ISDN-PRI and multi-line business customers are calculated by applying the 0.188 fourth quarter 2017 contribution factor to the sum of the charges representing the interstate portion of the customer's bill in the same manner as outlined above. For multi-line business and ISDN- PRI, the Federal USF charges are calculated by first determining the difference, on a per line basis, between

Order and Second Further Notice of Proposed Rulemaking (FCC 02-329), released December 13, 2002; Order and Second Order on Reconsideration (FCC 03-58), released March 14, 2003; and Public Notice (DA 03-1909) (Collectively *USF Interim Methodology Orders*).

assessing Centrex lines based on the equivalency ratio and applying the remaining USF recovery across multi-line business and ISDN-PRI lines on an averaged basis. Once the difference is determined, a portion (\$0.50) is allocated back to Centrex, and the remainder is added to the initial multi-line business Federal USF charge to produce the Federal USF end user charge for multi-line business customers. The Federal USF end user charge for ISDN-PRI customers is calculated by multiplying the multi-line business charge by 5. The Federal USF end user charge for Payphone Service Providers is calculated by applying the 0.188 fourth quarter 2017 contribution factor to the multi-line business subscriber line charge.

Calculations for CenturyLink Operating Companies Tariff F.C.C. No. 11

Consistent with the requirements of the Commission's USF Interim Methodology Orders,⁸ CenturyLink recovers its Federal Universal Service contributions through per line monthly charges assessed to end users subscribing to local exchange service (i.e., primary residential, non-primary residential, ISDN-BRI, single-line business, multi-line business, ISDN-PRI, and Centrex). Contributions for end users being billed switched dedicated, special access, or other interstate access services (i.e., Presubscription Change Charges) are recovered by applying a surcharge equal to the fourth quarter 2017 USF contribution factor of 0.188 to the total of the end user customer's interstate access charges. Both the per line charge and percentage surcharge are reflected as a separate line item, clearly identified on the customer's bill.

As detailed on Exhibit 5, Page 3, the Multiline Business charge factor for each study

⁸ *In the Matter of Federal-State Joint Board on Universal Service*, CC Docket No. 96-45, Report and Order and Second Further Notice of Proposed Rulemaking (FCC 02-329), released December 13, 2002; Order and Second Order on Reconsideration (FCC 03-58), released March 14, 2003; and Public Notice (DA 03-1909) (Collectively *USF Interim Methodology Orders*).

area is calculated by dividing the Multiline Business lines subject to FCC end user charges by the total number of lines subject to PICC charges pursuant to 47 C.F.R. 69.153. This ratio is multiplied by the fourth quarter 2017 USF Factor to determine the appropriate Multiline Business USF Charge Factor. This Multiline Business USF Charge Factor is then divided by nine to arrive at the Centrex USF Charge Factor.

6.0 Special Construction (Applicable to Tariff F.C.C. No. 12)

Exhibit 6 is included detailing the special construction cases applicable to Tariff F.C.C. No 12.

Access Recovery Charge (ARC-Rate Ceiling) Worksheet

The change in the NANPA contribution factor and the telecommunications relay service factor triggered a change in the Exogenous Cost as noted above. This change resulted in unrecovered exogenous cost dollars in the Common Line rates, thus this shortfall was then included in the Eligible recovery dollars. The change to Exogenous Cost requires CenturyLink to refresh the Eligible Recovery column of the Access Recovery Charges Worksheet.

In compliance with the FCC's USF/ICC Transformation Order, CenturyLink is including the Rate Ceiling-No CAF and the Tariff Rate Comparison-No CAF workbooks. The Rate Ceiling-No CAF workbook is utilized by CenturyLink to calculate the Access Recovery Charge ("ARC") allowed by 47 C.F.R. §51.915(e). Since CenturyLink's Eligible Recovery is less than the Maximum ARC Revenue in 2017, CenturyLink is not permitted any CAF ICC 47 C.F.R. §51.915(f). CenturyLink's supporting calculations utilize the

templates released by the Federal Communications Commission ("FCC") on April 24, 2017.

The FCC Rate Ceiling-No CAF workbook template provides the methodology for calculating Expected Access Recovery Charge Revenues and any CAF ICC. For each exchange, CenturyLink totaled the Residential Rate Ceiling Components and measured against the Residential Rate Ceiling benchmark of \$30.00⁹. A maximum Residential ARC is determined as \$0.00 when the total of the Residential Rate Ceiling Components are \$30.00 or greater, up to \$2.50 when the total of the Residential Rate Ceiling Components is between \$27.50 and \$30.00 or capped at \$2.50 when rate ceilings are below \$27.50. Once the residential ARC per line is determined that value is multiplied by the eligible lines to result in the Residential ARC Revenue.

Single line business ARC Revenue is determined by multiplying single line business line counts by the per-line cap of \$2.50. Multiline business ARC Revenue is capped when the multi-line business end user common line charge plus the ARC is greater than \$12.20. Therefore the multiline business ARC is the difference between \$12.20 and the \$5.00 per-line cap of the multi-line end user charge¹⁰.

The total Maximum ARC Revenue from residential, single-line business and multiline business are compared to the total Eligible Recovery. CenturyLink's total Maximum ARC Revenue is greater than the Eligible Recovery and therefore CenturyLink is not eligible for CAF ICC support¹¹,

The Tariff Rate Comparison-No CAF workbook demonstrates that CenturyLink has not included any tariffs which would allow for greater recovery than allowed through the

⁹ 47 C.F.R. §51.915(b)(12)

¹⁰ 47 C.F.R. §51.915(e)(5)

¹¹ 47 C.F.R. §51.915(f)

ARC methodology included in the Rate Ceiling-No CAF template. This workbook includes the ARC tariff by exchange.

CenturyLink has prepared redacted and non-redacted versions of the workbooks.

Eligible Recovery Worksheet

Due to the change in the NANPA contribution factor and the telecommunications relay service factor, CenturyLink has refreshed the Eligible Recovery Worksheet with only the Exogenous Cost ARC Recoverable column having changed from CenturyLink's 2017 Annual Access Filing (Transmittal No. 93).

In compliance with the FCC's USF/ICC Transformation Order, CenturyLink is including the Eligible Recovery-TRP workbook. The Eligible Recovery-TRP workbook is utilized by CenturyLink to calculate the total Eligible Recovery allowed by 47 C.F.R. §51.915(d). CenturyLink's supporting calculations utilize the "Eligible Recovery" template released by the Federal Communications Commission ("FCC") on April 24, 2017.

Summary Eligible Recovery Worksheet

Included with the 2017 Price Cap Long Forms Tariff Review Plan forms is a workbook that summarizes, at the Study Area level, the required forms outlined above for both the 2016 filing and this 2017 filing. The change in the NANPA and TRS factors created Exogenous Cost increases unrecoverable through EUCLs, resulting in a change to the Eligible Recovery. CenturyLink has changed only the column Eligible Recovery for 2017.

CenturyLink has prepared redacted and non-redacted versions of the workbooks.

Conclusion

The CenturyLink Operating Companies are submitting the accompanying information consistent with the requirements of the Commission's price cap regulations for local exchange carriers. The adjustments proposed herein are demonstrated to be just and reasonable, and are supported by detailed exhibits reflecting the calculation of the required revisions, price cap indices, and exogenous costs.

TRANSMITTAL NO. 95
CENTURYLINK OPERATING COMPANIES
ACCESS SERVICE
TARIFF F.C.C. NO. 12
DESCRIPTION AND JUSTIFICATION
SPECIAL CONSTRUCTION

INTRODUCTION AND DESCRIPTION

This filing is being made by CenturyLink Operating Companies (CenturyLink) in its Tariff F.C.C. No. 12, Special Construction to add one new case in Section 9 of this tariff.

CASE DETAIL

Case No. 224

(Reference No. AZ16S0653)

Description:

Special construction for placement of DS3 fiber termination equipment on non-shared customer floor space to provide DS3 Service. The location for this construction is 2120 W Ina Rd., Tucson, AZ. A total charge of \$7,128.32 is due and payable in a one-time, up-front payment.

COST SUPPORT AND WORKPAPERS

Construction Costs

This case meets the conditions for Special Construction as specified in CenturyLink's Special Construction Tariff. The costs are for the engineering and placement of facilities and loadings to recover overhead costs.

The Direct Costs consist of the non-reusable investment associated with these Special Construction Cases. These are costs directly associated with the project such as engineering the job, the equipment, the labor to install the equipment, placement of the fiber or cable, and shipping of the material.

Once these Direct Costs have been identified, an "Overhead Loading for Special Construction" is than calculated. The overhead loading includes the following type of expenses: administrative expenses, product management expenses, sales expenses, common overhead expenses, and business fees.

Workpaper A-1 displays the direct costs and the overhead loading.

Case Preparation Cost

The case preparation charge, as displayed on Workpaper A-1 covers the one-time preparation costs and filing fees associated with these special construction cases. The charge consists of labor to prepare cost documentation; to write the tariff; and to prepare the Description and Justification (D&J), the Transmittal Letter and coordinate the filing. These fees are based on average 2009 case preparation times.

After the work functions were identified, the time required for case preparation was calculated (an average of 1 hour per case). The task time identified was then multiplied by the appropriate labor rate ($1 \times \$70.93 = \70.93).

The prorated cost of the filing fees was calculated by taking the number of special construction cases filed in 2009 divided by the number of special construction tariff filings to produce an average number of special access cases per filing (14.2). The FCC's \$815 filing fee was then divided by this factor to come up with a prorated filing fee of \$57.39 per special construction case.

The sum of the labor calculations plus the prorated cost of the filing fee produces the case preparation charge.
