**SECTION 6 - SPECIAL ARRANGEMENTS (CONT'D)**

**6.2 NON-ROUTINE INSTALLATION AND/OR MAINTENANCE**

At the customer's request, installation and/or maintenance may be performed outside the Company's regular business hours, or (in the Company's sole discretion and subject to any conditions it may impose) in hazardous locations. In such cases, charges based on the cost of labor, material, and other costs incurred by or charged to the Company will apply. If installation is started during regular business hours but, at the Customer's request, extends beyond regular business hours into time periods including, but not limited to, weekends, holidays, and/or night hours, additional charges may apply.

**6.3 INDIVIDUAL CASE BASIS (ICB) ARRANGEMENTS**

Rates for ICB arrangements will be developed on a case-by-case basis in response to a bona fide request from a customer or prospective customer for services which vary from tariffed arrangements. Rates quoted in response to such requests may be different for tariffed services than those specified for such services in the Rate Attachment. ICB rates will be offered to customers in writing and will be made available to similarly situated customers. A summary of each ICB contract pricing arrangement offered pursuant to this paragraph will be filed as an addendum to this Tariff within 30 days after the contract is signed by both the Company and the customer. The following information will be included in the summary:

- 1) LATA and type of switch
- 2) Service description
- 3) Rates and charges
- 4) Quantity
- 5) Length of the agreement.

**6.3.1. U.S. General Services Administration (GSA)**

The Company entered into the Enterprise Infrastructure Solution (EIS) contract number GS00Q17NSD3007 with the U.S. General Services Administration (GSA). The contract provides for various business Services across various Switch Types, LATAs and vertical and horizontal loop distances. The EIS contract is a nationwide arrangement available to federal governmental entities or entities qualifying for purchase under the federal EIS contract as the case may be without a specific committed Service volume. The initial contract term is five (5) years. Rates and charges for all Services under the contract will be available to the public through the GSA eLibrary website at <http://www.gsaelibrary.gsa.gov>.

**6.4 ISP ORIGATION SERVICE**

ISP Origination Service applies to end user telecommunications traffic delivered by the Company to an Internet Service Provider. ISP Traffic Origination Service reimburses the Company for the interstate cost of handing off information access traffic that is bound for the Internet to an ISP and is intended to cover the cost of the Company switching this traffic. Application rates appear in Section 9.
