5. Ordering Options for Switched and Special Access Service (Cont'd)

5.2 Access Order (Cont'd)

5.2.2 Access Order Modifications (Cont'd)

(A) Service Date Change Charge (Cont'd)

- (2) For services other than Special Access Services, Access Order service dates for the installation of new services or rearrangements of existing services may be changed, but the new service date may not exceed the original service date by more than 30 calendar days. When, for any reason, the customer indicates that service cannot be accepted for a period not to exceed 30 calendar days, and the Telephone Company accordingly delays the start of service, a Service Date Change Charge will apply.

If the customer requested service date is more than 30 calendar days after the original service date, or if the customer or the customer's end user is unable to accept Access Service within 30 calendar days of the original service date, the order will be cancelled by the Telephone Company on the 31st day with the appropriate Cancellation Charge as set forth in 5.2.3 following applied. If the customer still requires the service, the customer must place a new Access Order with the Telephone Company.

- (3) A new service date may be established that is prior to the original standard or negotiated interval service date if the Telephone Company determines it can accommodate the customer's request without delaying service dates for orders of other customers. If the service date is changed to an earlier date, the customer will be notified by the Telephone Company that a Special Handling Charge as set forth in (D) following will apply. Such charges will apply in addition to the Service Date Change Charge.
- (4) Except as otherwise specified in (A)(1) preceding, a Service Date Change Charge will apply, on a per order per occurrence basis, for each service date changed. The applicable charge is:

| Service Date Change Charge, per order | | |
|---------------------------------------|----------|-----|
| Special Access | \$150.00 | (N) |
| Price Cap | 150.00 | (C) |
| Price Bands 4, 5 and 6 | 150.00 | (N) |

5.2.2 Access Order Modifications (Cont'd)

(B) Partial Cancellation Charge

Any decrease in the number of ordered Special Access Service channels, Switched Access Service lines, trunks, or out of band signaling connections (OBSC) ordered will be treated as a partial cancellation and the charges as set forth in 5.2.3(B) following will apply.

(C) Design Change Charges

The customer may request a design change to the service ordered. A design change is any change to an Access Order which requires engineering review. An engineering review is a review by Telephone Company personnel, of the service ordered and the requested changes to determine what change in the design, if any, are necessary to meet the changes requested by the customer. Design changes include such things as the addition or deletion of optional features or functions or a change in the type of Transport Termination (Switched Access only), type of channel interface, type of Interface Group or technical specification package. Design changes do not include a change of customer premises, end user premises, end office switch, Feature Group, Lineside BSA, Trunkside BSA, or Special Access Service, or Switched Transport facilities channel type. Changes of this nature will require the issuance of a new order and the cancellation of the original order with appropriate cancellation charges applied.

The Telephone Company will review the requested change, notify the customer whether the change is a design change, if it can be accommodated and if a new service date is required. If the customer authorizes the Telephone Company to proceed with the design change, a Design Change Charge will apply. ACCESS SERVICE

7. Special Access Service (Cont'd)7.2 Service Descriptions (Cont'd)7.2.15 Dedicated SONET Entrance Facilities (DSEF)#

Dedicated SONET Entrance Facilities, DSEF, provides customers with high capacity access between their premises and their Serving Wire Center over a self-healing SONET ring. The SONET ring will pass through the customer's serving wire center and one other wire center as determined by the Telephone Company. The customer is assured continuity of communication between the customer premises and the Serving Wire Center (SWC) even if there is a fiber facility failure between the premises and the SWC.

(A) Definitions

Add/Drop Multiplexing, (ADM): a multiplexing function that allows lower level signals to be added or dropped from an optical carrier channel.

Dedicated SONET Entrance Facilities, (DSEF): an alternative service that enhances channel termination survivability.

Dedicated SONET Service: a Telephone Company family of SONET based services that have a high level performance guarantee.

Fractional OC# Interface: a feature of DSEF that provides either an OC3 or OC12 optical network interface at the customer's premises. Fractional capacity equal to or less than the OC# level can be activated by the customer. Capacity is ordered and billed in increments of STS1, STS3, or STS12.

Effective November 21, 2017, new orders for DSEF are no longer permitted; previous elements of this plan had been grandfathered as of August 30, 2007. The Telephone Company will continue to provide DSEF pursuant to this Section 7.2.15 on any existing DSEF that is already in-service as of August 30, 2007, or on any order for DSEF that is placed with the Telephone Company prior to August 30, 2007 (collectively, Existing DSEF), subject to the following conditions:

(C)

- a. For any Existing DSEF that is currently subscribed to a term plan (i.e., commitment periods of 3- and 5-years), the Telephone Company will continue to provide Existing DSEF for an additional six (6) months beyond the expiration date of the customer's current commitment period, or until the customer replaces the Existing DSEF with a comparable Telephone Company provided service, or discontinues service, whichever occurs first. Orders involving additions and/or changes to Existing DSEF are not permitted after August 30, 2007.
- b. For any Existing DSEF whose term plan expired prior to August 30, 2007, but the Existing DSEF continues on a month-to-month basis at prevailing rates, the Telephone Company will continue to provide the Existing DSEF until February 29, 2008, or until the customer replaces the Existing DSEF with a comparable Telephone Company provided service, or discontinues service, whichever occurs first. Orders involving additions and/or changes to such Existing DSEF are not permitted after August 30, 2007.

(H) Rate Regulations (Cont'd)

- (3) For example, a customer purchases five (5) DSEFs that are in-service at three (3) different customer designated premises, with the 5 DSEFs being billed under two (2) different BANs.
- (a) The first customer designated premises has two (2) DSEFs, one with fifteen (15) in-service STS1 DSEF Terminations and the other with five (5) in-service STS1 DSEF Terminations for a total of twenty (20) STS1 DSEF Terminations. Both DSEFs are billed under the same BAN. The monthly rate to be billed for each DSEF Termination in the 2 DSEFs at the first customer designated premises is the monthly rate shown for 20 STS1 DSEF Terminations. Monthly rates for STS1 DSEF Terminations are set forth in Section 7.5.21(A) following and apply in accordance with Section 14 (T)
- (b) The second customer designated premises has two (2) DSEFs, one with twenty (20) in-service STS1 DSEF Terminations and the other with twenty-two (22) in-service STS1 DSEF Terminations, for a total of forty-two (42) STS1 DSEF Terminations. Each DSEF at the second customer designated premises is billed under a separate BAN. The monthly rate to be billed for the DSEF with 20 STS1 Terminations is the monthly rate shown for 20 STS1 DSEF Terminations. The monthly rate to be billed for the DSEF with 22 STS1 Terminations is the monthly rate shown for 22 STS1 DSEF Terminations. Monthly rates for STS1 DSEF Terminations are set forth in Section 7.5.21(A) following and apply in accordance with Section 14 following. (T)
- (c) The third customer designated premises has one (1) DSEF with nine (9) in-service STS1 DSEF Terminations billed under the same BAN. The monthly rate to be billed for each such DSEF Termination is the monthly rate shown for 9 STS1 DSEF Terminations. Monthly rates for STS1 DSEF Terminations are set forth in Section 7.5.21(A) following and apply in accordance with Section 14 following. (T)
- (4) Monthly rates for electrical DSEF Interfaces are set forth in Section 7.5.21(B) following and apply in accordance with Section 14 following. When a customer orders an DSEF with an STS1 DSEF Termination and an electrical interface, both the monthly rate for the electrical DSEF Interface (as set forth in Section 7.5.21(B) following) and the monthly rate for the STS1 Termination (as set forth in Section 7.5.21(A) following) apply. The monthly rates are differentiated by the term plan selected by the customer. Nonrecurring charges as set forth in Section 7.5.21(C) following apply to each electrical DSEF Interface installed. 7.4 Rate Regulations

This section contains the specific regulations governing the rates and charges that apply for Special Access Service.

7.4.1 Types of Rates and Charges

There are three types of rates and charges. These are monthly rates, daily rates and nonrecurring charges. Additionally, certain Special Access rates and charges are applied based on "Price Cap" or "Price Bands". Price Cap rates may be further differentiated by "Rate Zones".

(C)

Rate Zones are defined in Section 2.6 and are listed in Section 14.

(D)

|

(D)

Competitive Counties and Non-Competitive Counties are defined in Section 2.6 and the wire centers within such counties are listed in Section 14. In wire centers within a Competitive County, monthly rates and nonrecurring charges for Special Access rate elements are arranged in price bands. The price band for each serving wire center within a Competitive County is specified in Section 14 following.

(C)

For Interexchange Carrier Point of Presence Special Access lines, Special Transport and Optional Features and Functions, including Multiplexing Arrangements, Price Band rates and charges apply regardless of whether the county is Competitive or Non-Competitive. In cases where Special Transport crosses price bands, the charge for the higher numbered price band applies.

For End User Special Access Lines, the application of "Price Cap" or "Price Band" is dependent upon whether or not the serving wire center is located in a Competitive County. If the End User Special Access Line is in a Competitive County, Price Band rates and charges apply. If the End User Special Access Line is in a Non-Competitive County, Price Cap rates and charges apply. Any rate element that is not labeled as either Price Band or Price Cap will apply in both Competitive and Non-Competitive Counties.

(C)

MSA's are defined in Section 2.6 and are listed in Section 14.3. In wire centers within a qualifying MSA, monthly rates and nonrecurring charges for certain Special Access and SONENT service rate elements are arranged in price bands. The price band for each serving wire center within a qualifying MSA and the type of Special Access Services which are subject to price band rating are specified in Section 14.3, following. In cases where Channel Mileage crosses price bands, the charge for the higher numbered price band applies. When channel mileage is between an MSA price band and a Non-qualifying MSA (N-MSA) wire center, the rates and charges for the N-MSA wire center (a rate zone charge or a basic (N-MSA) channel mileage charge) applies.

7.4 Rate Regulations

This section contains the specific regulations governing the rates and charges that apply for Special Access Service.

7.4.1 Types of Rates and Charges

The three types of rates and charges are described as follows:

(A) Monthly Rates

Monthly rates are flat recurring rates that apply each month or fraction thereof that a Special Access Service is provided. For billing purposes, each month is considered to have 30 days.

Monthly rates for Dedicated SONET Optical Transport Service are billed at Category I and Category II rates in accordance with 7.2.14(C)(4)(d)(11) preceding.

(6) Coordinated Retermination

For 1.544 Mbps/DS1 High Capacity, 44.736 Mbps/DS3 High Capacity (excluding Short-Term DS3), or Facilities Management Service moves of a primary circuit termination from one Telephone Company Central Office to another Telephone Company Central Office, the customer may pay a Coordinated Retermination Charge in lieu of treating the move as a discontinuance and start of service. The Coordinated Retermination Charge applies per circuit or DS1/DS3 equivalent circuit reterminated. The Telephone Company will coordinate the work activities required in order to minimize the length of time the service being moved is unavailable. Monthly rates will apply as if the circuit remained in service with no disruption. There will be no change in minimum period requirements. No termination liabilities will apply except where the retermination eliminates chargeable services such as IOF mileage or primary premises Channel Terminations for which specific termination liabilities exist.

ACCESS SERVICE

7. Special Access Service (Cont'd)**7.4 Rate Regulations (Cont'd)****7.4.5 Moves**

A move involves a change in the physical location of the customer's premises which also involves a connection to a different rate demarcation point.

The charges for the move are dependent on whether the move is to a new location within the same building or to a different building.

(A) Moves Within the Same Building

When the move is to a new location within the same building, the charge for the move will be an amount equal to one half of the first nonrecurring (i.e., installation) charge for the service termination affected. There will be no change in the minimum period requirements.

(B) Moves To a Different Building

Moves to a different building will be treated as a discontinuance and start of service and all associated nonrecurring charges will apply. New minimum period and/or Service Discount Plan requirements will be established for the new services. The customer will also remain responsible for satisfying all outstanding minimum period and/or termination liability charges for the discontinued service except as specified in 25.2.5 following.

ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.16 Video Service Arrangements(T)

(A) Minimum Service Period

Multichannel Video Service and Advanced Video Switching provisioned as a dedicated switching arrangement are only offered on a long term basis, 5 and 10-year term plans and a 10-year rate stability plans (RSP). **Effective April 20, 2002, the 10-year RSP for the Video Switch is not available to new customers**. The 10-year rate stability plan guarantees that rates will not increase during the plan period but may decrease. The minimum service period is one year for all service periods and all are subject to termination liability.

At the expiration of an existing term or payment plan, customers will be automatically converted to a new one year minimum service period at the then prevailing rate unless the customer gives written notice within 90 days of the expiration of the existing plan period to the telephone company of its intention to terminate service. After the expiration of an existing service period, contracts can only be renewed for minimum one year term period.

Advanced Video Switching provisioned through a shared switching arrangement is offered on a month-to-month basis or under 1-year, 3-year, and 5-year term plans. The minimum service period for month-to-month service is one month. The minimum service period for term plans is one year and service provided under a term plans is subject to termination liability.

(B) Terms and Conditions

For a Multichannel Video Service, the customer must specify the number of channels per service arrangement. Premises to premises arrangements are available in 3 to 8 channel arrangements; premise to Hub arrangements are available in 4 to 8 channel arrangements.

A customer must maintain the minimum number of channels per Multichannel Video Service arrangement or disconnect the service. Additional channels may be added or deleted during the life of the contract subject only to a one year minimum service guarantee for that particular channel (see termination liability following). All channels associated with a given arrangement are in the same term plan.

A change from Basic Video Service to Multichannel Video Service or vice versa requires a complete disconnect and a new service order for installation.

A move of any video service to another video hub/TVOC will be treated as a disconnect and new service orders.

Effective November 21, 2017, new subscriptions to Video Service Arrangements are no longer permitted. Video Service Arrangements customers subscribed as of November 21, 2017 may continue with their existing subscriptions. If at any time an existing customer terminates its Video Service Arrangements, the customer may not re-subscribe to the plan.

(C) Termination Liability

Term and rate stability plans for Multichannel Video and Advanced Video Switching are subject to termination liability for early discontinuance.

With the exception of Advanced Video Switching provisioned through a shared switching arrangement on a month-to-month basis, notice of discontinuance must be given by the customer at least three months prior to actual discontinuance. Monthly charges will apply for a period of three months from the date the Telephone Company receives discontinuance notification or until the requested discontinuance date, whichever period is longer.

(1) Five and Ten-year Term Plans

For contracts discontinued prior to the first year of the initial five or ten year period, the customer will be liable for 100% of the total monthly charges at the then-prevailing rate for the unexpired portion of the first year. In addition the customer will be responsible for 15% of the total monthly charges for the remaining portion of the 5-year period, or 10% of the total monthly charges for the remaining portion of the 10-year period.

For contracts discontinued beyond the first year of the initial contract period, the 5 year plan customer will be liable for 15% and the 10 year plan customer will be liable for 10% of the total monthly charges for the remaining portion of the initial period or of the one-year renewal period as is applicable.

(2) 10-Year Rate Stability

For the Video Switch 10-year RSP Plans, the maximum termination liability is \$30,000.00 and is reduced by 1/120th for each month the service has been in effect.

For the 10-year RSP Multichannel Video Service Arrangement, the maximum termination liability for each initial arrangement is \$15,000.00 and is reduced by 1/120th for each month this service has been in effect. Additionally, channel terminations subsequently added to the initial arrangement and disconnected prior to the one-year minimum service period are subject to termination liability of 100 percent for the remainder of the minimum period.

(D) Discontinuance Without Termination Liability

A customer may discontinue a 5 or 10-year term plan for a Multichannel Video Service and/or Advanced Video Switching without termination liability should the applicable tariff rates increase more than 8% in any year and the customer provides notice of discontinuance within thirty (30) days after the effective rate increase.

A change to a new Video Service term plan of equal or greater value in revenue than the remainder of the present Multichannel Video term plan will not be subject to termination liability.

Customers who upgrade to a larger Video Switch Arrangement will not be subject to termination liability. However, the upgrade is subject to all applicable nonrecurring charges, and a new service period.

Advanced Video Switching customers who change from a shared switching arrangement to a dedicated switching arrangement will not be subject to termination liability. However, the change is subject to all applicable nonrecurring charges, and a new service period.

Advanced Video Switching customers may at any time prior to the expiration of a 5-year term plan, change to a longer-term plan without termination liability. Time in-service credit for the old/cancelled plan is applied to the new extended plan. The rate for the new longer commitment period applies effective with the first bill date following extension of the commitment period and continue through the remainder of the commitment period of the new term plan. No adjustment for the increased discount associated with the extended plan will be made to the monthly rates already billed on the old/cancelled plan.

Service Availability is limited. Refer to # footnote on page 7-229. (N)

ACCESS SERVICE

14. Operating Territory of the Frontier Telephone Companies (Cont'd)

14.3 Metropolitan Statistical Areas

(A) General

For purposes of Switched Access Services, wire centers within the Telephone Company's operating territories have been arranged in Metropolitan Statistical Areas (MSAs). MSAs may achieve various phases of pricing relief pursuant to Subpart H of the Commission's Part 69 Rules. Telephone Company MSAs which qualify for Phase II pricing relief are shown in (C) following which identifies the MSA Name, MSA identification number, level of pricing relief for the MSA, and the CLLI, State and price band for each wire center within the MSA. Switched Access Services in wire centers within a non-qualifying Phase II MSA are not subject to price banding and are not included in (C) following. Switched Access Service provided from a qualifying MSA is subject to price band rates as determined by the level of pricing relief described in (1) and (2) following. Rates and charges are shown in Section 6 preceding. (C)

(1) Level 1 MSA Pricing

MSAs assigned to Level 1 pricing are those MSAs which have achieved Phase II pricing relief for all rate elements associated with the portion of the transmission path connecting an Interexchange Carrier's Point of Presence to the wire center serving the secondary location involved (i.e., End User's designated premises). The rate elements associated with the transmission path are those rate elements applicable for the type of service involved whether configured on a point-to-point basis or in ring architecture. For example, a High Capacity 1.544 Mbps Service as set forth in Section 7.2.9 preceding is comprised of channel termination, channel mileage and optional features and functions rate elements. An OC12 DSR ring as set forth in Section 23.1 following is comprised of nodes, channel mileage and port rate elements. Rates and charges for rate elements subject to Level 1 pricing are shown in terms of price bands. To determine the price band for a rate element, first locate the wire center in (C) following from which the service is provided and find the corresponding rate band. Rates and charges for the rate elements associated with connecting the secondary location to its serving wire center are either the N-MSA (non-qualifying MSA) rates or the appropriate Rate Zone rates.

(2) Level 2 MSA Pricing

MSAs assigned to Level 2 pricing are those MSAs which have achieved Phase II pricing relief for all Switched Access Service rate elements associated with the end-to-end transmission path connecting the Interexchange Carrier's Point of Presence to the secondary location involved. The rate elements associated with the transmission path are those rate elements applicable for the type of service involved whether configured on a point-to-point basis or in a ring architecture. (C)

Rates and charges for rate elements subject to Level 2 pricing are set forth in Section 6 preceding and are shown in terms of price bands. To determine the price band for a rate element, first locate the wire center in (C) following from which the service is provided and find the corresponding rate band.

(B) Services Subject to MSA Price Banding

The Switched Access services, which are subject to MSA price bands, and which are also subject to Contract Tariff Options in those MSAs which qualify for Phase I or Phase II pricing relief, are as follows:

- Local Transport, Entrance Facilities
- Local Transport, Direct Trunked Transport

(C) Rate Regulations

When the Interexchange Carrier's Point of Presence is located at a Collocated Interconnection Service multiplexing node or virtual collocation arrangement, price band rates and charges do not apply to the Channel Termination or any other rate element associated with providing service to the Collocated Interconnection arrangement.

To determine the price band for the Switched Access Service channel mileage rate element when the wire centers involved are located within different price bands, apply the rates and charges for the higher price band number. When one of the wire centers involved is subject to price band rating and the other wire center involved is not subject to price band rating, the rates and charges applicable to the channel mileage element will be the N-MSA or Rate Zone rates and charges. (C)

For the avoidance of doubt, in accordance with Section 2.4.6 of this Tariff, only Telephone Company wire centers in the operating territory of this Tariff will be considered in order to determine the applicable Special Transport rate element. If one wire center is in the operating territory of this Tariff and the other wire center is not, the rates and charges applicable to the Special Transport rate element will be dependent upon the level of pricing flexibility of only the wire center that is in the Telephone Company's operating territory.

When service is provided under a Term Pricing Plan with a Commitment Discount as set forth in Sections 7.4.13(A) and (B) preceding, the discount percentage shall be applied to the price band involved. (D)

When service is provided as part of a Shared Use Arrangement, price band billing may apply to both, the switched access and the special access, portions of the facility. Price Band billing regulations for switched access are specified in this Section 14.3, while price band billing regulations for special access are found in Section 14.4 following. (N)
(N)
(N)

The application of rates and charges for service subject to MSA pricing relief are described in Sections 6.8.1 preceding. (D)

(N)

(A) General

Counties and county-equivalents within the Telephone Company's operating territories are either Competitive or Non-Competitive for the purpose of pricing Special Access Services. The effect of the Competitive and Non-Competitive designations are described in section 7.4.1 preceding.

Rates and charges are shown in Section 5, 7, 8 and 13 preceding and Section 23 and 24 following for Special Access Services and in Section 16.5 following for Packet Services.

(1) Competitive Pricing

The rate elements associated with the transmission path are those rate elements applicable for the type of service involved. Rates and charges for competitive rate elements are shown in terms of price bands, regardless of the status of the county for a particular wire center. To determine the price band for a rate element, first locate the county and the wire center from which the service is provided in section 14.4 (C) following and find the corresponding price band. For DS3 and below Special Access Services in Non-Competitive counties, rates and charges for End User Channel Terminations are the Price Cap rates. Until February 1, 2018, End User Channel Termination that had not qualified for phase II, Level 2 pricing flexibility prior to June 1, 2017 will be rated at the Price Cap rate regardless of the status of the county in which the applicable wire center is located. Any rate element that is not labeled as either Price Band or Price Cap will apply in both Competitive and Non-Competitive Counties.

(B) Rate Regulation

To determine the price band for the channel mileage rate element when the wire centers involved are located within different price bands, apply the rates and charges for the higher price band number.

For the avoidance of doubt, in accordance with Section 2.4.7 of this Tariff, only Telephone Company wire centers in the operating territory of this Tariff will be considered in order to determine the price band of the applicable channel mileage rate elements. If one wire center is in the operating territory of this Tariff and the other wire center is not, the rates and charges applicable to the channel mileage rate element will be determined by the band that applies based on the wire center that is in the Telephone Company's operating territory.

When service is provided under a Term Pricing Plan with a Commitment Discount as set forth in Sections 7.4.13(A) and (B) preceding, the discount percentage shall be applied to the rate applicable to the price band involved.

25. Discount Plans (Cont'd)25.2 Service Discount Plan## (T)25.2.1 General

- (A) Service Discount Plans are available for the following types of services:
- Basic Video Service
 - Supertrunking Transport Video Service (SVS)
- (B) A customer with one or more services has the option of requesting, at any time, a Service Discount Plan for some or all services of the same type. The services must be billed on the same billing account.
- (1) When requesting a Service Discount Plan, the customer must specify which services are to be included in the Service Discount Plan.
- (2) When requesting any activity set forth in Sections 25.2.4 through Section 25.2.8 following, the customer must specify by circuit identification which services are affected.
- (C) A Service Discount Plan applies to:
- Channel Terminations, Channel Mileage and applicable Optional Features and Functions monthly rates, as set forth in Section 7 preceding
- (D) Service Discount Plans are not applicable to Optional Features and Functions except as specified following. Optional Features and Functions associated with the service will have the same commitment period as the corresponding service. Optional Features and Functions may be added subsequent to the establishment of the service discount plan on the corresponding service, subject to the provisions set forth in 25.2.9 following for Additions of Service.
- (E) The monthly rates for such service are reduced by a fixed percentage. The amount of the discount percentage differs based on the length of the commitment period selected by the customer. The customer must specify the number of months selected as the commitment period for its Service Discount Plan.
- (F) The discount percentage is applied to the currently effective monthly rates. Such rates may change during the commitment period, thereby causing an increase or decrease in the rates applicable to the customer.
- (G) The discount percentage will not be subject to Telephone Company initiated decreases during that period. However, if the Telephone Company initiates an increase in the discount percentage during that period, the increased discount will be used to determine the rates applicable to the customer.

Effective November 21, 2017, new subscriptions to Service Discount Plan are no longer permitted. Service Discount Plan customers subscribed as of November 21, 2017 may continue with their existing subscriptions. If at any time an existing customer terminates its Service Discount Plan, the customer may not re-subscribe to the plan.

25. Discount Plans (Cont'd)25.2 Service Discount Plan## (Cont'd) (T)25.2.3 Termination Liability

- (A) A termination liability applies during the selected commitment period. Except as set forth in Sections 25.2.4 through 25.2.8 following, if service is disconnected in full or in part prior to the end of the selected commitment period, the customer is liable for a termination liability charge. Further, except as provided in Sections 25.2.9 and 25.2.10 following, when a customer cancels a Service Discount Plan prior to the end of the selected commitment period, the customer is liable for a termination liability charge.
- (1) The termination liability charge applies to each service and Optional Feature or Function, or in the case of cancellation of a Service Discount Plan, to each service and Optional Feature or Function which had been included in the cancelled Service Discount Plan.
- (2) The termination liability charge is calculated for the applicable Channel Termination, Channel Mileage and Optional Features or Function monthly rates as set forth in 25.2.3 (B) or (C) following. When calculating termination liability charges, the Telephone Company will apply the option that provides the customer with the lowest termination liability charge.
- (B) Option 1
- (1) For disconnects on or prior to the end of the minimum period and prior to the end of the selected commitment period, the termination liability charge is 50% of the applicable monthly rates for each month and fraction thereof remaining between the end of the minimum period and the end of the selected commitment period.
- (2) For disconnects after the end of the minimum period but prior to the end of the selected commitment period and for cancellations prior to the end of the selected commitment period, the termination liability charge is 50% of the applicable monthly rates for each month and fraction thereof in the balance of the selected commitment period.

25.2.3 Termination Liability (Cont'd)

(C) Option 2

- (1) For disconnects on or prior to the end of the minimum period and prior to the end of the selected commitment period, the termination liability charge will be the difference between the full monthly rates and the discounted monthly rates for the period the service has been in effect.
 - (2) For disconnects after the end of the minimum period but prior to the end of the selected commitment period and for cancellations of the Service Discount Plan prior to the end of the selected commitment period, the following applies.
 - Where there is no Service Discount Plan commitment period less than the actual time the services have been in effect, the termination liability charge will be the difference between the full monthly rates and the discounted monthly rates for the period the service has been in effect.
 - Where there is a Service Discount Plan commitment period less than the actual time the services have been in effect, the termination liability charge will be calculated as follows:
 - (i) Termination Liability is calculated as the difference between the monthly rates for the highest Service Discount Plan commitment period that could have been satisfied prior to disconnection of the service or cancellation of the plan and the monthly rates for the selected commitment period multiplied by the actual number of months the service has been in effect. For example, if the customer has a 120 month commitment period and disconnects a Supertrunking Video Service after forty months and 5 days, the highest Service Discount Plan commitment period that could have been satisfied is forty months. To determine the termination liability charge, the monthly rate for the 120 month plan is subtracted from the monthly rate for the 40 month plan and the difference is multiplied by the forty months that the service has been in effect. If the monthly rate for the 120 month plan and the monthly rate for the 40 month plan are the same rate, the termination liability charge is zero.
- (D) The termination liability charge applies in addition to the applicable minimum period charges.

25.2.4 Upgrades

- (A) Upgrades include the following types of customer requests:
- (1) A request to disconnect Supertrunking Transport Video Service (SVS) in order to replace it with Serial Component Video Service.
 - (2) A request to upgrade existing Advanced Uncompressed Video Service (AUDVS) may be upgraded to SVS without termination liability.
- (B) Termination liability charges do not apply to the preceding requests provided that:
- (1) The orders for the disconnect of the existing services and the connect of the new services are placed with the Telephone Company at the same time; and
 - (2) The new services are provided between the same locations as the existing services were provided; and
 - (3) The replacing services have a total channel capacity equal to or greater than the total channel capacity of the services being disconnected; and
 - (4) The replacing services are provided under a Service Discount Plan for a commitment period equal to or longer than that of the service being disconnected.
 - (5) An existing 750 Mhz SVS system may be upgraded to an 870 MHz system without termination liability provided the upgrade term is of equal or greater length than the remainder of the existing 750Mhz term contract. The customer will be required to pay the new rates associated with the 870Mhz service.

25.2.5 Moves

When a customer requests that some or all of its services under a Service Discount Plan be moved to a different building, no termination liability charge applies provided the services remain on the same billing account.

25.2.6 Replacements

- (A) When a customer with existing services under a Service Discount Plan wishes to replace one or more of the service(s) included in that Service Discount Plan with other new or existing service(s) of the same speed or type, as appropriate, for the balance of the commitment period for that Service Discount Plan, no termination liability will apply provided that:
- (1) The orders to accomplish the replacement are placed with the Telephone Company at the same time to be completed at the same time; and
 - (2) The number of services included in the Service Discount Plan remains the same. The replacing services may not be equipped with the same Optional Features and Functions as the services they replace. In this case, the appropriate termination liability charges apply to the Optional Features and Functions no longer provided.
