## ACCESS SERVICE

2. General Regulations (Cont'd)2.8 Service Level Agreements (Cont'd)2.8.1 Basic Service Level Agreements (Basic SLAs) (Cont'd)2.8.1.1 Credit Allowance for Service Interruptions (Cont'd)

## (B) When a Credit Allowance Applies (Cont'd)

- (7) Under NYNEX PERFORMANCE PLUS, Special Access High Capacity 1.544 and 44.736 Mbps\*, Verizon Dedicated SONET Ring (DSR) as set forth in Section 34.1 following, IntelliLight Dedicated SONET Ring as set forth in Section 26.1 following, Enterprise SONET Service, NES Services, are guaranteed service restoral within one minute in the event of a service failure except as specified in Section 2.8.4(B) following. If this commitment is not met, a credit allowance of 100% of the monthly rate for the applicable rate elements of the affected service(s) will apply. Only one such credit is allowed in a single month's billing period. Credits for 44.736 Mbps channel terminations will be based upon the rate effective and rate band applicable to the customer at the time of service failure.

- \* Section 2.8.1.1(B)(7) is not available for Special Access High Capacity 1.544 and 44.736 Mbps services (DS1 and DS3 services) installed after June 1, 2006. The preceding sentence applies to both DS1 and DS3 services that are provided on a month-to-month basis and DS1 and DS3 services that are provided under a Discount Plan (as defined below).

For DS1 and DS3 services installed on or before June 1, 2006, Section 2.8.1.1 (B)(7) will not be available as follows:

- (a) For DS1 or DS3 services provided on a month-to-month basis, after June 1, 2006.
- (b) For DS1 or DS3 services provided under a Discount Plan (as defined below), after the date of expiration, termination, or cancellation of the Discount Plan commitment period that is in effect on June 1, 2006.
- (c) For DS1 or DS3 services provided under a Discount Plan (as defined below) that are covered by a National Service Level Agreement Plan, during the period that a customer participates in such National Service Level Agreement Plan. The customer has the option to subscribe to National Service Level Agreement Plans as set forth in Section 2.8.3 following. Nothing in this paragraph (c) shall in any way limit the effect of paragraph (b) preceding. (D)

As used in this note, "Discount Plan" means any tariff arrangement for the provision of DS1 or DS3 services other than on a month-to-month basis.

(TR 1357)

Issued: November 16, 2017

Effective: December 1, 2017

Vice President, Federal Regulatory  
1300 I Street, NW, Washington, DC 20005

## ACCESS SERVICE

## 2. General Regulations (Cont'd)

2.8 Service Level Agreements (Cont'd)2.8.1 Basic Service Level Agreements (Basic SLAs) (Cont'd)2.8.1.1 Credit Allowance for Service Interruptions (Cont'd)(B) When a Credit Allowance Applies (Cont'd)

## (7) (Cont'd)

When DSR as set forth in Section 34.1 following is arranged with subtending rings, credit allowance for a service interruption is applied independently to each ring. For example, if the main DSR becomes interrupted and is eligible for credit allowance, no credit allowance is due on the subtending ring(s) associated with that main ring unless service on the subtending ring(s) is also interrupted.

For services provided as part of a Shared Use Arrangement or provided under a Service Discount Plan, the same reduction or discount percentage will be applied to the credit allowance(s) specified above. For instance, if a DS1 Service is under a 24 month plan and is subject to a 5% discount, the applicable DS1 credit(s) listed above for a service interruption will also be subject to a 5% discount; or if a DS1 Service is being reduced by 1/24th as a result of a Shared Use Arrangement, the applicable DS1 credit(s) listed above for a service interruption will also be reduced by 1/24th.

- (8) For certain Special Access services, a Special Access Service Guarantee (SASG) credit allowance will apply in the event that such services experience a service interruption of four (4) or more consecutive hours except as specified in Section 2.8.4(B) following. The SASG credit allowance will apply to Metallic, Telegraph Grade, Voice Grade, monthly Program Audio and Video, Digital Data, WATS Access Line Service, DIGIPATH Digital Service II (DDS II) and High Capacity DS1 (excluding the portion of a Special Access High Capacity 1.544 Mbps Service that is derived at a customer designated premises using a DS3 Premises Multiplexer) and DS3 Special Access services (collectively, Special Access Services).

The customer has the option to subscribe to National SLA Plans as set forth in Section 2.8.3 following. When a customer subscribes to a National SLA plan, SASG credit allowances under this Section 2.8.1.1(B)(8) do not apply to services covered by the National SLA Plan. (D)

If a Special Access Service is eligible for an SASG credit allowance, the Telephone Company shall provide the applicable credit amount as set forth in the table following. The Telephone Company shall bill customer the applicable monthly rate for the Special Access Service, and if customer is eligible to receive the SASG credit allowance, the customer shall receive the SASG credit in a later invoice. The SASG credit allowance is in addition to any other credit allowances available under this Section 2.8.1.1. The maximum amount of all credit allowances

Effective: December 1, 2017

Vice President, Federal Regulatory  
1300 I Street, NW, Washington, DC 20005

## ACCESS SERVICE

2. General Regulations (Cont'd)2.8 Service Level Agreements (Cont'd)2.8.1 Basic Service Level Agreements (Basic SLAs) (Cont'd)2.8.1.2 Service Provisioning Warranty

## (A) General

The Telephone Company assures that when a customer orders certain Access Service, as specified in (B) following, service will be installed and available for customer use no later than the Confirmed Due Date as defined in Section 2.6 preceding.

Subject to Section 2.8.4(A) following, the failure of the Telephone Company to meet this Confirmed Due Date will result in the credit of all applicable nonrecurring charges for each Access Service associated with the missed commitment. All the nonrecurring charges for services subject to the Service Provisioning Warranty will be applied as a credit on the customer's first bill. The nonrecurring charges will be credited at the rate at which they are billed.

These credits of applicable nonrecurring charges for failure to meet the Confirmed Due Date are an exclusive remedy; and, are in lieu of any other claims as described in Section 2.1.3 preceding.

## (B) Services Subject to the Service Provisioning Warranty

The following Access Services will be subject to the conditions of the Service Provisioning Warranty:

High Capacity 1.544 Mbps Service

High Capacity 44.736 Mbps Service

The customer has the option to subscribe to National SLA Plans as set forth in Section 2.8.3 following. When a customer subscribes to a National SLA plan, credits under this Section 2.8.1.2 do not apply to services covered by the National SLA Plan.

(D)

## (C) When a Credit Allowance Does Not Apply

Services will not be eligible for credits when any of the conditions set forth in Section 2.8.4(A) following exist.

(TR 1357)

Vice President, Federal Regulatory  
1300 I Street, NW, Washington, DC 20005

## ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations

This section contains the specific regulations governing the rates and charges that apply for Special Access Service.

## 7.4.1 Types of Rates and Charges

There are three types of rates and charges. These are monthly rates, daily rates and nonrecurring charges. Additionally, certain Special Access rates and charges are applied based on "Price Cap" or "Price Bands". Price Cap rates may be further differentiated by "Rate Zones".

In the states where Expanded Interconnection has become operational, Price Cap monthly rates for Standard Channel Terminations, and certain Optional Features and Functions/Basic Service Elements for 1.544 Mbps and 44.736 Mbps (electrical) Special Access High Capacity Services and certain SONET Services are arranged in pricing zones. The pricing zone for each serving wire center in the states where Expanded Interconnection has become operational is specified in the NATIONAL EXCHANGE CARRIER ASSOCIATION, INC. TARIFF F.C.C. No. 4.

Competitive Counties and Non-Competitive Counties are defined in Section 2.6 and the wire centers within such counties are listed in Section 15.4. In wire centers within a Competitive County, monthly rates and nonrecurring charges for Special Access rate elements are arranged in price bands. The price band for each serving wire center within a Competitive County is specified in Section 15.4, following.

For Interexchange Carrier Point of Presence Channel Terminations, Channel Mileage and certain Optional Features and Functions ordered for such Interexchange Carrier Point of Presence Channel Terminations, including Multiplexing, Price Band rates and charges apply regardless of whether the applicable county is Competitive or Non-Competitive. In cases where Channel Mileage crosses price bands, the charge for the higher numbered price band applies. (C)

For End User Channel Terminations and certain Optional Features and Functions ordered for such End User Channel Terminations (e.g., Bridging), the application of "Price Cap" or "Price Band" is dependent upon whether or not the serving wire center is located in a Competitive County. If the End User Channel Termination and related Optional Features and Functions are in a Competitive County, Price Band rates and charges apply. If the End User Channel Termination and related Optional Features and Functions are in a Non-Competitive County, Price Cap rates and charges apply. (C)

## ACCESS SERVICE

15. Operating Territory and Metropolitan Statistical Areas of the Verizon Telephone Companies (Cont'd)15.4 Competitive and Non-Competitive Counties

## (A) General

Counties and county-equivalents within the Telephone Company's operating territories are either Competitive or Non-Competitive for the purposes of pricing Special Access Services. The effect of the Competitive and Non-Competitive designations is described in Section 7.4.1 preceding.

Rates and charges are shown in Section 30 (Price Band) and Section 31 (Price Cap) following.

## (1) Competitive Pricing

The rate elements associated with the transmission path are those rate elements applicable for the type of service involved. Rates and charges for competitive rate elements are shown in terms of price bands, regardless of the status of the county for a particular wire center. To determine the price band for a rate element, first locate the county and the wire center from which the service is provided in Section 15.4(C) following and find the corresponding price band. For DS3 and below Special Access Services in Non-Competitive Counties, rates and charges for End User Channel Terminations and certain Optional Features and Functions ordered for such End User Channel Terminations (e.g., Bridging) are the Price Cap rates.
