ACCESS SERVICE**7. Special Access Service (Cont'd)****7.2 Rate Categories, Applications and Regulations**

This section contains the specific regulations governing the rates and charges that apply for Special Access.

7.2.1 Rate Categories

The following rate categories apply to Special Access Service:

- Circuit Terminations
- Circuit Mileage
- Optional Features and Functions
- Non Recurring Charges
- Special Access Surcharge
- Special Access Cross Connect
- Term Payment Plan (TPP) - DS1
- Optional Payment Plan (OPP) - Fractional T1#

These rate categories are described in Sections 7.2.1. (A) through (H) following.

Additionally, certain Special Access rates and charges are applied based on "Price Cap" or "Price Bands".

Competitive Counties and Non-Competitive Counties are defined in Section 2.6 and the wire centers within such counties are listed in Section 21.3. In wire centers within a Competitive County, monthly rates and nonrecurring charges for Special Access and certain SONET service rate elements are arranged in price bands. The price band for each serving wire center within a Competitive County is specified in Section 21.3, following. For Interexchange Carrier Point of Presence Circuit Terminations, Circuit Mileage and Optional Features and Functions ordered for such Interexchange Carrier Point of Presence Circuit Terminations, including Multiplexing, (C) Price Band rates and charges apply. In cases where Circuit Mileage crosses price bands, the charge for the higher numbered Price Band applies. For End User Circuit Terminations and certain Optional Features and (C) Functions ordered for such End User Circuit Terminations (e.g., Bridging), the application of "Price Cap" or "Price Bands" is dependent upon whether or not the serving wire center is located in a Competitive County. If the End User Circuit Termination and related Optional Features and Functions are in a Competitive County, Price Band rates and charges apply. If the End User Circuit Termination and related Optional Features and Functions are in a Non-Competitive County, Price Cap rates and charges apply. (C)

ACCESS SERVICE

21. Operating Territories of the Verizon Telephone Companies (Cont'd)

21.3 Competitive and Non-Competitive Counties

(A) General

Counties and county-equivalents within the Telephone Company's operating territories have been designated by the Federal Communications Commission to be either Competitive or Non-Competitive for the purposes of pricing Special Access Services.

Rates and charges are shown in Sections 5, 7, 8, and 10 preceding and Section 20 following for Special Access Services.

(1) Competitive Pricing

The rate elements associated with the transmission path are those rate elements applicable for the type of service involved. Rates and charges for competitive rate elements are shown in terms of price bands, regardless of the status of the county for a particular wire center. To determine the price band for a rate element, first locate the county and the wire center from which the service is provided in Section 21.3(C) following and find the corresponding price band. For DS3 and below Special Access Services in Non-Competitive Counties, rates and charges for End User Circuit Terminations and certain Optional Features and Functions ordered for such End User Channel Terminations (e.g., Bridging) are the Price Cap rates. Any rate element that is not labeled as either Price Band or Price Cap will apply in both Competitive and Non-Competitive Counties.
