

**NEVADA BELL TELEPHONE COMPANY
DESCRIPTION AND JUSTIFICATION
DECEMBER 7, 2017
TRANSMITTAL NO. 306**

PURPOSE

With this filing, Nevada Bell Telephone Company (NBTC) is proposing to detariff Special Access services from Section 22, Metropolitan Statistical Area Access Services, in its F.C.C. Tariff No. 1, as required by the Commission pursuant to FCC Order No. 17-43 (the “*Order*”), released April 28, 2017.

DESCRIPTION

The *Order* requires price cap local exchange carriers to “remove from their tariffs:

- (1) Any packet-based business data service;
- (2) Any circuit-based business data service above the DS3 bandwidth level;
- (3) Transport services as defined in § 69.801;
- (4) DS1 and DS3 end user channel terminations, and all other tariffed special access services, in any market deemed competitive as defined in § 69.801; and
- (5) DS1 and DS3 end user channel terminations, and all other tariffed special access services, in any grandfathered market as defined in § 69.801 for which the price cap local exchange carrier was granted Phase II pricing flexibility prior to June 2017.”

The detariffing must be completed within thirty-six months of the *Order* being published in the Federal Register.

NBTC hereby proposes to detariff Special Access services from Section 22, Metropolitan Statistical Area Access Services, in its F.C.C. Tariff No. 1. The detariffed service provisions will be available online at www.att.com/guidebook.
