ACCESS SERVICE

7. Special Access Service (Cont'd)

7.4 Special Access Service Rate Categories

The following rate categories apply to Special Access Services:

This section contains the specific regulations governing the rates and charges that apply for Special Access Service.

Effective November 16, 2017, Competitive Counties and Non-Competitive Counties have been established and are defined in Section 2.13 and the wire centers within such counties are listed in Section 23.1.3 and 23.1.4.

For all rate elements other than End User channel terminations and their applicable optional features, price flex rates and charges, as provided in this tariff, apply, regardless of whether the county is Competitive or Non-Competitive.

For End User channel termination and their applicable optional features*, the application of "price cap" or "price flex" is dependent upon whether or not the serving wire center is location in a Competitive County. If the End User channel termination is in a Competitive County, price flex rates and charges apply, as provided in this tariff. If the End User channel termination is in a Non-Competitive County, price cap rates and charge apply, as provided in Section 7.

7.4.1 Standard Channel Termination

A Standard Channel Termination provides for the transmission facilities between a customer premises and the serving wire center of that premises. One Channel Termination charge applies per customer premises at which the Special Access Service is terminated. This charge applies even if the customer premises and the serving wire center are colocated in a Telephone Company building, e.g., Centrex CO type switch.

A Standard Channel Termination includes a standard network channel interface arrangement based on the technical characteristics of the Telephone Company facilities at the point of termination and the type of signaling capability, which, if required, is provided as an optional feature.

The Standard Channel Termination rate will apply for all Telephone Company Access Connections except High Capacity Services utilizing an Expanded Interconnection Arrangement. A Standard Channel Termination monthly rate will apply even when the customer designated premises and the serving wire center are located in the same Telephone Company building unless the customer establishes an Expanded Interconnection Arrangement, in which case the Cross-Connect Termination monthly rate will apply as specified in Section 18 following.

ACCESS SERVICE

23. Operating Territory of the Frontier Telephone Companies

23.1 Competitive and Non-Competitive Counties

23.1.1 General

Counties and county-equivalents within the Telephone Company's operating territories are either Competitive or Non-Competitive for the purposes of pricing Special Access Services. The application of the Competitive and Non-Competitive designations is described in Section 7.4.

Rates and charges for Competitive rate elements are provided in Section 24, and for Non-Competitive rate elements, the rates and charges are provided in Section 7.

For Special Access Services, as provided in Section 7, rates and charges for End User Channel Terminations and their applicable optional features in Non-Competitive Counties are price cap rates.*

23.1.2 Rate Regulations

The application of rates and charges for Special Access services, as provided in Section 7, is based upon the county classification as Competitive or Non-Competitive, as provided in section 7.4. A list of Competitive and Non-Competitive Counties is located in Section 23.1.3 and 23.1.4.
