

CenturyLink Operating Companies
Transmittal No. 102 – Mid-Year Exogenous Cost Adjustment

September 14, 2018

Description and Justification

1.0 Introduction

The CenturyLink Operating Companies (CLOC)¹ hereby submit the following information in support of the accompanying revisions to CLOC Tariff F.C.C. Nos. 1, 2, 3, 4, 6, 7, 8, 9, and 11.

This filing is being made on at least 16 days' notice as required by Section 61.58 (2) (ii) of the Code of Federal Regulations Part 47 and includes price cap adjustments consistent with the requirements of Sections 61.41 through 61.49 of the FCC's Rules. This filing adjusts Subscriber Line Charges (SLC), Access Recovery Charges (ARC) and Non-Competitive Special access rates as a result of the decrease of the North American Numbering Plan Administration (NANPA) and true-up of the Telecommunications Relay Services and Regulatory Fee contribution factors. In addition, this filing changes the following items:

- Revises the Federal Universal Service Fund (FUSF) contribution for 4th quarter 2018 consistent with the requirements of the Commission's USF Order². (CLOC Tariff F.C.C. Nos. 1, 2, 3, 6, 7, 8, 9 and 11).

¹ The CenturyLink Operating Companies are listed in Exhibit 1 at the end of this volume.

² *In the Matter of Federal-State Joint Board on Universal Service*, CC Docket No. 96-45, Public Notice (DA 18-944) released September 12, 2018.)

- Revises and standardizes tariff language for the Subscriber Line Charge (SLC). This charge has been referred to as the End User Line Charge, Interstate Access Surcharge, Interstate Line Charge, etc. All tariff references will now consistently use the term Subscriber Line Charge (SLC). (CLOC Tariff F.C.C. Nos. 1, 2, 3, 6, 7, 8, 9 and 11).
- Removes Call Event and Management Signaling Service (CEMSS). A 214 Application was filed on March 23, 2018 to discontinue this service with no customers. A public notice was released on April 2, 2018 (DA 18-331) stating that the 214 would be deemed granted automatically on June 1, 2018. (CLOC Tariff F.C.C. No. 11).
- Cancels the CLOC Tariff F.C.C. No. 4. Only two advanced services, which were required to be detariffed under the BDS Order, remain in the tariff and no customers subscribe to these services. (CLOC Tariff F.C.C. No. 4).

In addition to the description and justification contained in this submission, the following information is submitted to provide specific support data at the proposed tariff level of detail for the CenturyLink operating companies.

Description and Justification

- Exhibit 1 - CenturyLink Operating Companies and Study Area Designators
- Exhibit 2 - PCI Development & Exogenous Cost Changes
- Exhibit 3 - CenturyLink ELOC Pooling (CLOC Tariff F.C.C. No. 9)
- Exhibit 4 - Jurisdictional Common Line Composite Rate Development (CLOC Tariff F.C.C. Nos. 8, 9 & 11)
- Exhibit 5 - Federal USF End User Charge Development
- Exhibit 6 - Price Cap Revenue Impact Analysis

Tariff Review Plan (8 spreadsheets cosa9148 09-14-18)

- * ***Summary Eligible Recovery Worksheet (1 spreadsheet CLOCSUMER18 09-14-18)***

* Both Public and Confidential Exhibits are included.

2.0 Determination of Exogenous Changes

In accordance with the Commission's Rules, CenturyLink developed certain exogenous changes for inclusion in the price cap formula. These changes include the North American Numbering Plan Administration, the Telecommunications Relay Service and Regulatory Fee contribution factors. Due to the change in these factors since the July 3, 2018 Annual Access filing, CenturyLink is making this mid-year filing.

North American Numbering Plan Administration (NANPA)

On June 27, 2001, the Federal Communications Commission released an order approving the compensation plan for the North American Numbering Plan Administration (NANPA) for fiscal year 2001³. The impact of the NANPA exogenous cost for CenturyLink's 2018 Annual Access Filing (Transmittal No. 101) was calculated using the then-current 0.0000518 contribution factor.

NANPA's 2018 contribution factor of 0.0000427 was released as prescribed in the Commission's Public Notice DA 18-727⁴. The contribution factor is applied to total end user revenues from the 2017 FCC 499a adjusted for Price Cap only revenues for the NANPA 2018 Fiscal Year (October 2018 to September 2019).

³ *In the Matter of Administration of the North American Number Plan*, CC Docket No. 92-237 and *North American Number Plan Cost Recovery Contribution Factor and Fund Size*, NDS File No. L-00-72, Order (DA 01-1524), released June 27, 2001 (*NANP Order*).

⁴ *In the Matter of Administration of the North American Numbering Plan*, Proposed North American Numbering Plan Administration Fund Size Estimate and Contribution Factor for October 2018 through September 2019, Public Notice (DA 18-727), released July 13, 2018, CC Docket No. 92-237.

Regulatory Fees

Earlier Commission decisions⁵ allow local exchange companies to reflect the impact of regulatory fees as an exogenous cost in annual price cap filings. The impact of regulatory fee changes for CenturyLink's 2018 Annual Access Filing (Transmittal No. 101) was calculated using the then-current factor of .00276.

The 2018 Regulatory Fee factor of .00291 was released as prescribed in the Commission's *Public Notice DA 18-126*.⁶ The contribution factor is applied to the 2017 Interstate end user revenues from the FCC 499a adjusted for Price Cap only revenues. CenturyLink proposes an exogenous cost adjustment to implement this new factor. The exogenous adjustment has been grossed up by 12/9 to credit the annual amount over the remaining 9 months of the fiscal year. This change is displayed on Exhibit 2.

Telecommunications Relay Service

The Americans with Disabilities Act (ADA) required that all common carriers providing interstate voice telecommunications provide Telecommunications Relay Service (TRS) to customers effective July 26, 1993. In its *Third Report and Order* in CC Docket No. 90-571,⁷ the Commission required that all common carriers providing interstate telecommunications services contribute to an interstate shared fund to support the TRS

⁵ *Price Cap Treatment of Regulatory Fees Imposed by Section 9 of the Communications Act*, 9 FCC 6060 (1994), erratum (November 2, 1994).

⁶ *In the Matter of Assessment and Collection of Regulatory Fees for Fiscal Year 2018*, Report and Order, FCC18-126 released August 29, 2018 (*Regulatory Fee*).

⁷ *In the Matter of Telecommunications Relay Services and the Americans with Disabilities Act of 1990*, Third Report and Order, CC Docket No. 90-571, released July 20, 1993 (*Third Report and Order*).

function. The impact of the TRS exogenous cost for CenturyLink's 2018 Annual Access Filing (Transmittal No. 101) was calculated using the proposed 0.03034 contribution factor.

A revised TRS contribution factor of 0.02801 was released as prescribed in the Commission's *TRS Notice*.⁸ CenturyLink proposes an exogenous cost adjustment to implement this new factor. The exogenous adjustment has been grossed up by 12/9 to credit the annual amount over the remaining 9 months of the fiscal year. This change is displayed on Exhibit 2.

3.0 CenturyLink ELOC Pooling (Applicable to Tariff F.C.C. No.9)

Pursuant to Section 61.48(m)(1)(ii) of the Commission's rules, CenturyLink elected to pool local switching revenues transferred to the common line basket. Exhibit 3, Page 1, shows the local switching revenues subject to pooling along with the allocation of the shortfall between companies. Pages 2 and 3 of the exhibit display the new pooled local switching amount based on access line growth along with the allocation of the pooled revenues to the multi-line business SLC for each individual CenturyLink Tariff F.C.C. No. 9 operating company.

4.0 Jurisdictional Common Line Composite Rate Development

(Applicable to Tariff F.C.C. Nos. 8, 9 & 11)

Exhibit 4 displays the state specific End User Common Line (EUCL) / (SLC) rates, along with each state's demand. State revenues are first calculated by multiplying demand

⁸ *In the Matter of Telecommunications Relay Services and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities*, CG Docket No. 03-123, DA 18-680 released June 29, 2018 (*TRS Notice*).

times rate; composite rates are the result of dividing total revenue by total demand for each state. This exhibit is provided for the CenturyLink system wide rollup for each applicable tariff.

5.0 Fourth Quarter Universal Service Support

(Applicable to Tariff F.C.C. No. 1,2,3,6,7,8,9, 11)

For all companies, excluding those in CLOC Tariff F.C.C. No. 9 and 11, a surcharge equal to the fourth quarter 2018 USF contribution factor of 0.201 is applied to end users being billed local exchange service (i.e., primary residential, non-primary residential, ISDN-BRI, single-line business, multi-line business, ISDN-PRI, and Centrex), switched dedicated, special access, or other interstate access services (i.e., Presubscription Change Charges, Access Recovery Charge). The percentage surcharge is reflected as a separate line item, clearly identified on the customer's bill. The detailed calculations for Tariff F.C.C. No. 9 and 11 are defined below.

Calculations for CenturyLink Operating Companies Tariff F.C.C. No. 9

CenturyLink adjusts their Federal Universal Service Fund (FUSF) end user charges to reflect its full contribution obligation, which is based on interstate end user revenues used by the Universal Service Administration Company (USAC) to calculate CenturyLink's fourth quarter 2018 assessment.

Consistent with the requirements of the Commission's USF Interim Methodology Orders,⁹ CenturyLink recovers its Federal Universal Service contributions through per line

⁹ *In the Matter of Federal-State Joint Board on Universal Service*, CC Docket No. 96-45, Report and Order and Second Further Notice of Proposed Rulemaking (FCC 02-329), released December 13, 2002; Order and

monthly charges assessed to end users subscribing to local exchange service (i.e., primary residential, non-primary residential, ISDN-BRI, single-line business, multi-line business, ISDN-PRI, and Centrex). Contributions for end users being billed switched dedicated, special access, or other interstate access services (i.e., Presubscription Change Charges, Access Recovery Charge) are recovered by applying a surcharge equal to the fourth quarter 2018 USF contribution factor of 0.201 to the total of the end user customer's interstate access charges. Both the per line charge and percentage surcharge are reflected as a separate line item, clearly identified on the customer's bill.

As detailed on Exhibit 5, Page 1, the Federal USF end user charges for primary residential, non-primary residential, ISDN-BRI and single-line business are calculated by applying the fourth quarter 2018 contribution factor of 0.201 to the sum of the charges representing the interstate portion of the customer's bill (i.e., subscriber line charges).

Page 2 of Exhibit 5 details the calculation of the Federal USF end user charges for Centrex, ISDN-PRI and multi-line business customers. The USF Interim Methodology Orders allow the Federal USF end user charges for Centrex customers to be recovered using an "equivalency ratio." Initially, the Federal USF charges for Centrex, ISDN-PRI and multi-line business customers are calculated by applying the 0.201 fourth quarter 2018 contribution factor to the sum of the charges representing the interstate portion of the customer's bill in the same manner as outlined above. For multi-line business and ISDN- PRI, the Federal USF charges are calculated by first determining the difference, on a per line basis, between assessing Centrex lines based on the equivalency ratio and applying the remaining USF recovery across multi-line business and ISDN-PRI lines on an averaged basis. Once the difference is

Second Order on Reconsideration (FCC 03-58), released March 14, 2003; and Public Notice (DA 03-1909) (Collectively *USF Interim Methodology Orders*).

determined, a portion (\$0.50) is allocated back to Centrex, and the remainder is added to the initial multi-line business Federal USF charge to produce the Federal USF end user charge for multi-line business customers. The Federal USF end user charge for ISDN-PRI customers is calculated by multiplying the multi-line business charge by 5. The Federal USF end user charge for Payphone Service Providers is calculated by applying the 0.201 fourth quarter 2018 contribution factor to the multi-line business subscriber line charge.

Calculations for CenturyLink Operating Companies Tariff F.C.C. No. 11

Consistent with the requirements of the Commission's USF Interim Methodology Orders,¹⁰ CenturyLink recovers its Federal Universal Service contributions through per line monthly charges assessed to end users subscribing to local exchange service (i.e., primary residential, non-primary residential, ISDN-BRI, single-line business, multi-line business, ISDN-PRI, and Centrex). Contributions for end users being billed switched dedicated, special access, or other interstate access services (i.e., Presubscription Change Charges, Access Recovery Charge) are recovered by applying a surcharge equal to the fourth quarter 2018 USF contribution factor of 0.201 to the total of the end user customer's interstate access charges. Both the per line charge and percentage surcharge are reflected as a separate line item, clearly identified on the customer's bill.

As detailed on Exhibit 5, Page 3, the Multiline Business charge factor for each study area is calculated by dividing the Multiline Business lines subject to FCC end user charges by the total number of lines subject to PICC charges pursuant to 47 C.F.R. 69.153. This ratio is

¹⁰ *In the Matter of Federal-State Joint Board on Universal Service*, CC Docket No. 96-45, Report and Order and Second Further Notice of Proposed Rulemaking (FCC 02-329), released December 13, 2002; Order and Second Order on Reconsideration (FCC 03-58), released March 14, 2003; and Public Notice (DA 03-1909) (Collectively *USF Interim Methodology Orders*).

multiplied by the fourth quarter 2018 USF Factor to determine the appropriate Multiline Business USF Charge Factor. This Multiline Business USF Charge Factor is then divided by nine to arrive at the Centrex USF Charge Factor.

6.0 Price Cap Revenue Impact Analysis

Exhibit 6 is included as required by the Commission's Rules and depicts the change in revenues associated with the rate adjustments resulting from the price cap revisions included in this filing. This exhibit details the Subscriber Line Charge impacts, along with the impacts for special access charges including both recurring and nonrecurring.

Access Recovery Charge (ARC-Rate Ceiling) Worksheet

The change in the NANPA contribution factor, regulatory fee and telecommunications relay service factor triggered a change in the Exogenous Cost as noted above. This change resulted in unrecovered exogenous cost dollars in the Common Line rates, thus this shortfall was then included in the Eligible recovery dollars. The change to Exogenous Cost requires CenturyLink to refresh the Eligible Recovery column of the Access Recovery Charges Worksheet.

In compliance with the FCC's USF/ICC Transformation Order, CenturyLink is including the Rate Ceiling-No CAF and the Tariff Rate Comparison-No CAF workbooks. The Rate Ceiling-No CAF workbook is utilized by CenturyLink to calculate the Access Recovery Charge ("ARC") allowed by 47 C.F.R. §51.915(e). CenturyLink is not seeking any CAF ICC per 47 C.F.R. §51.915(f). CenturyLink's supporting calculations utilize the templates released by the Federal Communications Commission ("FCC") on April 25, 2018.

The FCC Rate Ceiling-No CAF workbook template provides the methodology for calculating Expected Access Recovery Charge Revenues and any CAF ICC. For each exchange, CenturyLink totaled the Residential Rate Ceiling Components and measured against the Residential Rate Ceiling benchmark of \$30.00¹¹. A maximum Residential ARC is determined as \$0.00 when the total of the Residential Rate Ceiling Components are \$30.00 or greater, up to \$2.50 when the total of the Residential Rate Ceiling Components is between \$27.50 and \$30.00 or capped at \$2.50 when rate ceilings are below \$27.50. Once the residential ARC per line is determined that value is multiplied by the eligible lines to result in the Residential ARC Revenue.

Single line business ARC Revenue is determined by multiplying single line business line counts by the per-line cap of \$2.50. Multiline business ARC Revenue is capped when the multi-line business end user common line charge plus the ARC is greater than \$12.20. Therefore the multiline business ARC is the difference between \$12.20 and the \$5.00 per-line cap of the multi-line end user charge¹².

The total Maximum ARC Revenue from residential, single-line business and multiline business are compared to the total Eligible Recovery. CenturyLink's total Maximum ARC Revenue is greater than the Eligible Recovery and therefore CenturyLink is not eligible for CAF ICC support¹³,

The Tariff Rate Comparison-No CAF workbook demonstrates that CenturyLink has not included any tariffs which would allow for greater recovery than allowed through the ARC methodology included in the Rate Ceiling-No CAF template. This workbook includes the ARC tariff by exchange.

¹¹ 47 C.F.R. §51.915(b)(12)

¹² 47 C.F.R. §51.915(e)(5)

¹³ 47 C.F.R. §51.915(f)

CenturyLink has prepared redacted and non-redacted versions of the workbooks.

Eligible Recovery Worksheet

Due to the change in the NANPA contribution factor, regulatory fee and telecommunications relay service factor, CenturyLink has refreshed the Eligible Recovery Worksheet with only the Exogenous Cost ARC Recoverable column having changed from CenturyLink's 2018 Annual Access Filing (Transmittal No. 101).

In compliance with the FCC's USF/ICC Transformation Order, CenturyLink is including the Eligible Recovery-TRP workbook. The Eligible Recovery-TRP workbook is utilized by CenturyLink to calculate the total Eligible Recovery allowed by 47 C.F.R. §51.915(d). CenturyLink's supporting calculations utilize the "Eligible Recovery" template released by the Federal Communications Commission ("FCC") on April 25, 2018.

Summary Eligible Recovery Worksheet

Included with the 2018 Price Cap Long Forms Tariff Review Plan forms is a workbook that summarizes, at the Study Area level, the required forms outlined above for both the 2017 filing and this 2018 filing. The change in the NANPA, TRS and Regulatory Fee factors created changes to the prior Exogenous Cost increases unrecoverable through SLCs, resulting in a change to the Eligible Recovery. CenturyLink has changed only the column Eligible Recovery for 2018.

CenturyLink has prepared redacted and non-redacted versions of the workbooks.

Conclusion

The CenturyLink Operating Companies are submitting the accompanying information consistent with the requirements of the Commission's price cap regulations for local exchange carriers. The adjustments proposed herein are demonstrated to be just and reasonable, and are supported by detailed exhibits reflecting the calculation of the required revisions, price cap indices, and exogenous costs.
