**ACCESS SERVICE****5. Ordering Switched and Special Access Service (Cont'd)****5.3 Access Order Charges (Cont'd)****5.3.1 Access Service Request Modifications (Cont'd)****(C) Design Change Charge**

The customer may request a design change to the service ordered. A design change is any change to an Access Service Request which requires engineering review. An engineering review is a review by the Telephone Company of the service ordered and the requested changes to determine what changes in the design, if any, are necessary to meet the changes requested by the customer. Design changes include such things as the addition or deletion of optional features or functions or a change in the signaling arrangements associated with Switched Access Entrance Facility interface groups. Design changes do not include a change of Switched Access Entrance Facility type, end user premises, end office switch, Feature Group or BSA type or Special Access Service circuit type. Changes of this nature will require the issuance of a new order and the cancellation of the original order with appropriate cancellation charges applied.

The Telephone Company will review the requested change to determine if it can be accommodated and if a new service date is required. The Design Change Charge will apply on a per order per occurrence basis, for each order requiring a design change. The applicable charge is:

	<u>USOC</u>	<u>Rate</u>	
Design Change Charge, per order	H28		
Special Access			
Price Cap		\$150.00	(I)
Price Bands 4, 5, and 6		150.00	
All Other Services		28.00	

If a change of service date is required, the Service Date Change Charge as set forth in (A) preceding will also apply.
