SECTION 1 - DEFINITIONS AND ABBREVIATIONS, (CONT'D)

Carrier Partner

Competitive Local Exchange Carrier (CLEC) that provides the connectivity and supporting functions that an IPES provider needs in order to interconnect with the PSTN. Also known as IPES “hosting”. (T)

Central Office (CO)

The term “Central Office” or "End Office" denotes the switching system office or serving wire center (or functionally equivalent or analogous facilities) from which End Users, or other customers under an ICB or contractual agreement, receive local exchange or other telecommunications service. End Users, or other customers under an ICB or contractual agreement, may be collocated with the Company at the End Office; or they may receive service at another location.

SECTION 1 - DEFINITIONS AND ABBREVIATIONS, (CONT'D)

Common Line

The term "Common Line" denotes a line, trunk or other equivalent facility provided by the Company, terminated on a Central Office Switch. A common line associated with a residence is a line or trunk provided under the residence regulations of the general and/or local exchange service tariffs and/or ICB and/or contractual agreement. A common line associated with a business is a line provided under the business regulations of the general and/or local exchange service tariffs and/or ICB and/or contractual agreement.

Communications Systems

The term "Communications Systems" denotes channels and other facilities which are capable of communications between terminal equipment provided by other than the Company.

Company or Telephone Company

(T)

Used throughout this tariff to indicate Wide Voice, LLC.

Customer(s)

Unless otherwise specified herein, the term "customer(s)" or "Customer(s)" denotes any individual, partnership, association, joint-stock company, trust, corporation, governmental entity or any other entity which utilizes the services offered under this Tariff, including Interexchange Carriers (ICs), End Users and interconnectors.

SECTION 1 - DEFINITIONS AND ABBREVIATIONS, (CONT'D)

Signal Point (SP)

The term "Signal Point" (SP) denotes an end node in a Common Channel Signaling Network (CCSN). Signal Points can be switches (i.e., End Offices and Access Tandems), data bases or operator service systems that are equipped with CCS.

(T)

Signal Transfer Point (STP)

The term "Signal Transfer Point" (STP) denotes a switch which provides CCSN access and performs CCSN message routing and screening.

Signal Transfer Point Port (STP PORT)

The term "Signal Transfer Point Port" (STP PORT) denotes the point of termination on the STP which provides CCSN access.

Signaling System 7 (SS7)

The term "Signaling System 7" (SS7) denotes the signaling protocol in the CCSN.

Switch

The terms "switch," "switching" or "switched" refer to any technical means by which a call is directed from an input source onwards towards a destination or output location by performing, for example, call set-up, supervision, and management functions or their functional equivalents. Switching may include (without limitation) either circuit or packet switching, and switching of communications individually (including, if applicable, individual packets) or in groups, depending on the technology deployed. A "switch" is a device, software, or any technical arrangement that performs or accomplishes switching. A call is "switched" when any of the above functions, or functional equivalents, is performed.

SECTION 2 - RULES AND REGULATIONS, (CONT'D)

2.10 Billing and Payment for Service (Continued)

2.10.4 Disputed Charges

- A. All bills are presumed accurate and shall be binding on the Customer unless written notice of a good faith dispute is received by the Company. A good faith dispute requires the Customer to provide a written claim to the Company. Such claim must identify in detail the basis for the dispute, and if the Customer withholds disputed amounts, it must identify the account number under which the bill has been rendered, the date of the bill and the specific items on the bill being disputed, to permit the Company to investigate the merits of the dispute.

(C)
|
|
|
|
(C)

SECTION 2 - RULES AND REGULATIONS, (CONT'D)

2.10 Billing and Payment for Service (Continued)

2.10.4 Disputed Charges (Continued)

- B. Prior to or at the time of submitting a good faith dispute, Customer shall tender payment for any undisputed amounts. (C)
- C. The date of the dispute shall be the date on which the Customer furnishes the Company the account information required by Section 2.10.4 A above.
- D. The date of resolution shall be the date on which the Company completes its investigation of the dispute, notifies the Customer in writing of the disposition and, if the billing dispute is resolved in favor of the Customer, applies the credit for the amount of the dispute resolved in the Customer's favor to the Customer's bill.
- E. If the dispute is decided to be in favor of the Company, then the resolution date will be the date upon which a written decision on this dispute is sent to the Customer.
- F. If the dispute is resolved in favor of the Customer, and the Customer has withheld the disputed amount, no interest credits or penalties will apply.
- G. If the dispute is resolved in favor of the Company and the Customer has withheld the disputed amount, any payments withheld pending settlement of the disputed amount shall be subject to the late payment penalty as set forth in 2.10.5.
- H. If the dispute is resolved in favor of the Customer and the Customer has paid the disputed amount, the Customer will receive an interest credit from the Company for the disputed amount times a late factor as set forth in 2.10.5.
- I. If the dispute is resolved in favor of the Company and the Customer has paid the disputed amount on or before the payment due date, no interest credit or penalties will apply.
- J. Collections Fees

In the event that the Company pursues and prevails on a claim in Court or before any regulatory body arising out of a Customer's refusal to make payment pursuant to this Tariff, Customer shall be liable for the payment of the Company's reasonable fees or expenses, including attorneys' fees, expended in collecting those unpaid amounts.

SECTION 3 - SWITCHED ACCESS SERVICE, (CONT'D)

3.2 Provision and Description of Switched Access Service

- 3.2.1 Switched Access Service is provided as a FGD (or the functional equivalent of ILEC FGD) serving arrangement. The provision of FGD Switched Access Service requires transport facilities (for example, Entrance Facilities, DTT facilities, and TST facilities for tandem routed traffic), multiplexing equipment and the appropriate switching functions, including ports, or the functional equivalents of these components/services. It is the responsibility of the Customer seeking dedicated access (e.g., Entrance Facilities and DTT) to obtain these services on its own, or where commercial feasible CLEC shall aid in the provision of such services subject to capacity, space, and power limitations. (T)
- 3.2.2 Serving arrangements are arranged for either originating, terminating or two-way calling. Originating calling permits the delivery of calls from Telephone Exchange Service locations to the customer's premises. Terminating calling permits the delivery of calls from the customer's premises to Telephone Exchange Service locations. Two-way calling permits the delivery of calls in both directions, but not simultaneously. The Company will determine the type of calling to be provided unless the customer requests that a different type of directional calling is to be provided. In such cases, the Company will work cooperatively with the customer to determine the directionality.

SECTION 3 - SWITCHED ACCESS SERVICE, (CONT'D)

3.3 Rate Categories

There are two rate categories which apply to Switched Access Service:

- Tandem-Switched Transport (described in 3.3.1, following)
- End Office (described in 3.3.2, following)

(T)

In addition to the two rate categories, there are rate elements applicable to certain Switched Access services:

- 800 DB Access Service Charges, applicable to 800 DB Access Service provided in conjunction with Trunkside Access. The description and application of these charges are set forth in 3.3.4, following.

Company may bill on a composite basis whereby multiple functions/elements are combined into a single billed rate per access minute. In such cases the total rate per minute will not exceed the sum of the applicable elements per minute.

SECTION 3 - SWITCHED ACCESS SERVICE, (CONT'D)

3.3 Rate Categories (Continued)

3.3.1 Tandem-Switched Transport

(T)

A. General Description

The Tandem-Switched Transport access service category includes tandem switching and common transport between the tandem switch and end office, or any functional equivalent of the incumbent local exchange carrier Tandem-Switched Transport access service provided by the Company via analogous facilities.

(T)

(T)

Tandem-Switched Transport may include the following rate elements: Tandem Switched Transport-Termination, Tandem-Switched Transport-Facility, Tandem Switching, Common Transport Multiplexing ("CMUX"), and Dedicated Tandem Trunk Port charges.

(T)

(T)

B. [Reserved for Future Use]

SECTION 3 - SWITCHED ACCESS SERVICE, (CONT'D)

3.3 Rate Categories (Continued)

3.3.1 Tandem-Switched Transport (Continued)

(T)

C. [Reserved for Future Use]

SECTION 3 - SWITCHED ACCESS SERVICE, (CONT'D)

3.3 Rate Categories (Continued)

3.3.1 Tandem-Switched Transport (Continued)

(T)

D. Switched Transport TST Rate Category

Customers may connect with the Company's Access Tandem on a direct basis (i.e., by choosing to purchase Access Tandem ports dedicated to the sole use of that Customer) or on an indirect basis (i.e., by choosing not to purchase Access Tandem ports dedicated to the sole use of that Customer).

Tandem Switched Transport (TST) provides the common, or shared, transmission facilities between a third party Access Tandem, for example, and a Company Access Tandem (on indirect basis tandem connections only) and between a Company Access Tandem and End Offices subtending that tandem utilizing tandem switching functions. TST consists of circuits used in common by multiple customers.

The TST rate category is composed of the rate elements set forth in (1) through (4), following based on the functions performed.

(1) Tandem Transmission

Tandem Transmission is composed of a fixed per-MOU rate ("Tandem Switched Transport - Termination") and per-mile/per-MOU rate ("Tandem Switched Transport – Facility"). The fixed rate provides for the circuit equipment at the end of the interoffice transmission paths. The per-mile rate provides for the transmission facilities, including intermediate transmission circuit equipment between the end points of the interoffice circuit. For purposes of determining the per-mile rate, mileage will be measured as airline mileage using the V & H coordinates method in accordance with standard industry practices.

(2) Tandem Switching

Tandem Switching is a per-MOU rate assessed for utilizing tandem switching functions when tandem routing is provided for trunkside services.

(3) Dedicated Tandem Trunk Port

A dedicated tandem trunk port (DTTP) is provided for trunks terminated on the Customer side of the Access Tandem. The DTTP rate is assessed on a per minute equivalent basis pursuant to Section 3.6.A herein.

SECTION 3 - SWITCHED ACCESS SERVICE, (CONT'D)

3.6 Rate Regulations (Continued)

3.6.3 Service Rearrangements

- A. Service rearrangements are changes to existing services which do not result in either a change in the minimum period requirements or a change in the physical location of the Point of Termination at the Customer's premises or the Customer's End User's premises. Changes which result in the establishment of new minimum period obligations are treated as disconnects and starts.
- B. The charge to the Customer for the service rearrangement is dependent on whether the change is administrative only in nature or involves an actual physical change to the service.
- C. Administrative changes will be made without charge(s) to the Customer. Such changes require the continued provision and billing of the Access Service to the same entity or change in jurisdiction.

(D)

(D)

(D)

(D)

SECTION 3 - SWITCHED ACCESS SERVICE, (CONT'D)

3.6 Rate Regulations (Continued)

3.6.4 Terminating Tandem-Switched Transport charges are billed as “Terminating to Telephone Company End Offices” and “Terminating to Third Party”. Third Party locations are all offices or other locations that are not Telephone Company End Offices. Examples of Third Party locations include termination of traffic to the following terminating carriers/providers:

- Price Cap LEC (ILEC*, RBOC*)
- CLEC (CLEC*, ULEC*); other than termination to Wide Voice
- VoIP (IPES*) Provider; hosted by Wide Voice
- VoIP (IPES*) Provider; not hosted by Wide Voice
- CMRS (PCS*, WIRE*) Provider

* Industry Company Code type
