Expanded Interconnection Service is offered pursuant to Federal Communications Commission Orders in CC Docket No. 91-141.

16.1 Service Description

Expanded Interconnection Service (EIS) provides for the collocation and interconnection of collocater-provided fiber optic facilities and basic transmission equipment, and upon bona fide request, microwave transmission facilities, where feasible, to certain Telephone Company-provided Switched, or Special Access. EIS will be provided via physical collocation, subject to space availability, in Telephone Company Central Offices listed in the NECA Tariff No. 4. Physical collocation may be sought in additional Telephone Company locations via bona fide request.

Virtual collocation is provided in accordance with FCC requirements, in Telephone Company Central Offices listed in NECA Tariff No. 4.

In any central office in which all options for physical collocation offered by the Telephone Company have been exhausted, the Telephone Company shall not be permitted to provide additional space in that central office for any of its affiliates.

Interconnection between Collocater-provided facilities and Telephone Company Switched, or Special Access will be provided via the EIS Cross-Connection (EISCC) Low Speed, Analog Video, EISCC DS1, EISCC DS3 or SONET. Interconnection between collocater-provided facilities and Telephone Company Switched Access Services will be provided via the EISCC DS1 or DS3 for Switched Access Service. The Special Access EISCC is only available with Special Access Metallic, Telegraph Grade, Voice Grade, Analog Video, GDS, DS1 High Capacity, Fiber Advantage<sup>SM</sup> DS1 or DS3, SONET Ring and Access Services<sup>(1)</sup>, Optical Carrier Network (OCN) Point-to-Point Service, WaveMAN<sup>SM</sup> (OC-48 and OC-192), AT&T Switched Ethernet Service<sup>SM</sup> (1 and 10 Gigabit Ethernet), GigaMAN<sup>®</sup> (1 Gigabit Ethernet), (T) Customized Switched Metro Ethernet Service (CSME) (1 Gigabit Ethernet), AT&T Dedicated Ethernet Service (1, 2.5, 10, 40 and 100 Gigabit (N) Ethernet), DecaMAN<sup>®</sup> (10 Gigabit Ethernet) or Switched Access. (N) Interconnection to other Switched or Special Access Services may be sought via bonafide request.

<sup>(1)</sup> Effective 01/03/06, SONET Ring and Access Service is limited to existing customers at existing locations except where spare capacity exists; customers may add additional locations on existing rings. New SONET ring services will be provided via Dedicated SONET Ring Service.

The regulations, rates, and charges contained herein are supplemented by and in addition to the applicable regulations, rates, and charges specified in other sections of this tariff.

16.2.1 Obligation to Provide Service

The Telephone Company's obligation to provide EIS is contingent upon the Telephone Company's receipt of a collocation application and prepayment of 50% of the nonrecurring charges specified in Section 16.7.1(A) (1) and (2) or Section 16.7.2(D) or the amount quoted by the Telephone Company. The collocater customer also has the option of submitting a surety bond to cover the 50% prepayment, in lieu of a check. Upon receipt and verification of the remaining balance of the nonrecurring charges, the cage will be turned over to the collocater.

16.2.2 Microwave Collocation

Expanded interconnection will be available for microwave transmission facilities upon bona fide request on a case by case basis, where reasonably feasible. Charges calculated on a time and materials basis will apply for determining the feasibility of microwave interconnection.

16.2.3 Termination and Cancellation

## 17.1.1 General Regulations

Term Pricing Plan vintage rates are those rates that apply to existing services provided under a term pricing plan in the event the Telephone Company initiates a rate increase. Vintage rates as set forth following are classified as vintage because the Telephone Company ensures that rates provided under a term pricing plan will not be increased by the Telephone Company, above the term pricing plan rate in effect at the beginning of the customer's term pricing plan.

Customers under their current term pricing plans will continue to pay the rates as shown in the original sections until such time as:

- the effective tariff rate in the original section becomes lower than the vintage rate, or
- the customer's existing term pricing plan expires, or
- the service is terminated by the customer.

In addition, other customer modifications, other than termination, that cause a new rate or term pricing plan to be established will result in the service becoming non-vintage and the rates as specified in the original sections will apply.

## ACCESS SERVICE

21. Internet Transport Access Service (ITAS)21.1 Service Description

Internet Transport Access Service (ITAS) is a switched based, data transport service that aggregates and hands off traffic using a one way data connection to the customer. The customer is defined as an entity providing dial access service via a data switch. ITAS will support calls from analog modem users or ISDN Basic Rate Interface (BRI) lines. ITAS is provisioned through the use of end office (EO) switching, and transport from the Telephone Company's EO. Dial-Up user data is transmitted to the customer via dedicated EO port groups. Routing of end user traffic to the customer's data switch requires Signaling System 7 (SS7) call setup or Primary Rate Interface (PRI) service. The customer may purchase SS7 access from Section 6 (Switched Access Service). The customer must also purchase a Direct Trunked Transport (DTT) and an Entrance Facility separately from Section 6 (Switched Access Service). In addition, the customer may need to purchase multiplexing from Section 6 (Switched Access Service). Customers who require physical or virtual collocation must purchase interconnection cross connects from Section 16 (Expanded Interconnection Service). (C)

ITAS is available in Telephone Company central offices (CO) that support 64 kbp clear channel capability (CCC) or Integrated Services Digital Network (ISDN). These locations are listed in the National Exchange Carrier Association, Inc. (NECA) Tariff F.C.C. No.4. (C)

21.2 Service Components

ITAS consists of the following service components as described below.

A. Telephone Numbers

ITAS is accessed by end users dialing telephone numbers dedicated to the customer's service and within their designated calling scope. All telephone numbers will be routed to Telephone Company provided dedicated switch ports. There will be a minimum of one telephone number per connected EO.

B. Access Port Groups

Allows end users, located within a specific local exchange area, dial access to the customer. The access port consists of local switching, and a dedicated EO switch port to the customer and will be provisioned with Telephone Company Provided Telephone Numbers (TPTN). A maximum of three trunk groups will be allowed to be provisioned against any one port group. Telephone numbers may be purchased from Section 21.5 (Rates and Charges).

When the traffic for an end user exceeds the capacity for a DS1 to any given end office, the Telephone Company reserves the right to require the customer to connect directly to the EO identified by the Telephone Company. If the customer refuses to connect to the identified EO the customer will be given a thirty day written notice to connect to the identified EO. If at the end of the thirty days the customer has not connected to the identified EO its ITAS will be terminated.

## ACCESS SERVICE

21. Internet Transport Access Service (ITAS) (Cont'd)21.3 Regulations

ITAS is subject to the General Regulations and Ordering Options for access service as specified in Sections 2 and 5, respectively. In addition, the following apply:

- A. ITAS only supports one way data applications to the customer.
- B. Provisioning of this service is subject to the availability and operational limitations of the Telephone Company's equipment and associated facilities.
- C. The customer is responsible for the installation, operation and maintenance of any and all customer provided equipment (CPE) including terminal equipment, communication system and software. The CPE must be compatible with the Telephone Company's equipment and facilities. The CPE must conform to industry standards and specifications set forth in the Telephone Company's technical publication (TP) 76642.
- D. Toll charges will apply if the call is originated outside of the customer's subscribed calling area.
- E. The Telephone Company reserves the right to monitor its network at all times to ensure its proper use. If the Telephone Company determines that the service is being used for non-data applications, the customer will be given thirty days written notification to discontinue the unauthorized use. Failure to do so will result in the customer's ITAS being disconnected. During the thirty days the customer will be given the option to purchase an applicable switched access product.
- F. Any CPE must not:
  - 1. Endanger the safety of the Telephone Company's employees or the public;
  - 2. Damage, harm, require change in or alteration of the equipment or other services of the Telephone Company; or
  - 3. Interfere with the proper operation of the Telephone Company's equipment.

Upon notice from the Telephone Company that the equipment provided by the customer or end user is causing, or is likely to cause, such hazard or interference, the customer shall take such steps as shall be necessary to remove or prevent such hazard or interference.

## ACCESS SERVICE

21. Internet Transport Access Service (ITAS) (Cont'd)21.4 Rate Applications (Cont'd)B. Term Pricing Plan (TPP) (Cont'd)5. Termination Charges (Cont'd)

If service is terminated by the customer after the implementation date and after the effective date, the termination charge shall be the lesser of:

- The difference between the rates and charges for the completed months of the service term at the time of termination and the rates and charges for the next lower service term <sup>(1)</sup> that the customer has actually completed, plus interest charges based on the approved discount rate in effect at the time of termination; or
- The present value of the monthly payments remaining on the service term, using the approved discount rate in effect at the time of termination.

Payment of the termination charges does not release the customer from other previous amounts owed to the Telephone Company for services actually received.

6. Moves to a New Location

A customer with an existing TPP may move the existing service to a new location within the LATA, or move and change ITAS to another Telephone Company service without incurring termination charges provided all of the following conditions are met:

- The new service is provided solely by the Telephone Company,
- The new service maintains the existing Initial Service Period at the new location or establishes a new Initial Service Period equal to or greater than the Original Initial Service Period at the old location,
- The customer's request for disconnect of the existing service and the request for new service are received at the same time,
- The customer's disconnect order for the existing services references the new connect order for the new service,
- The due date of the new connect order must be within 120 days of the due date of the disconnect order, and
- For other Telephone Company services, the total monthly rate of the new service is equal to or greater than the total monthly rate of the existing service being discontinued.

Any moves to a location outside of the LATA will be treated as termination of service and all termination charges will apply.

(1) If the service is terminated before the completion of the least available term the calculation is based on month to month rates and applicable nonrecurring charges.

Full Service Relief MSAs are those MSAs which qualified for Phase II pricing flexibility for all elements of service, i.e., local channels (channel terminations) between LEC end offices and customer (end user) premises; entrance facilities; dedicated interoffice facilities; local channels (channel terminations) between an interexchange carrier's point of presence and a serving wire center. The Full Service Relief MSAs are set forth in Section 31.2(A), following.

(2) Limited Service MSAs

Limited Service Relief MSAs are those MSAs that qualified for Phase II pricing flexibility for all elements of service except local channels (channel terminations) between a LEC end office and a customer (end user) premise. The Limited Service Relief MSAs are set forth in Section 31.2(B), following.

- (B) The services provided in MSAs pursuant to this section of the tariff are set forth in Section 31.3, following. (D)  
The general regulations, service descriptions, and rate regulations for the SWA Dedicated Transport Services in Section 6 and the Special Access Services in Section 7 <sup>(1)</sup> (D) are also applicable to the services specified in this section, except as provided below.

An exception in 31.4(F) applies for term pricing plans.

- (C) Unless otherwise provided for in this section, regulations set forth in Sections 1, 2, 5, 13 and 14 are also (C) applicable.

32. Pricing Flexibility Contract Offerings Jointly Administered by AT&T and Frontier Communications (Cont'd) (T)
- 32.1 Contract Offer No. 161 - Special Access Service Offer (Cont'd) (T)
- 32.1.4 Terms and Conditions (Cont'd) (T)
- (I) The Telephone Company will calculate and issue (when applicable) DS3 Credits for each three (3) month period during the Term Period, beginning from the Subscription Date (each such period to be referred to as a "Quarter"). DS3 Credits will be based on the equivalent of one terminated DS3 Subject Service for every twenty-eight (28) DS1 Subject Services that have been terminated without termination liability pursuant to Section (G), above, during the relevant Quarter ("Eligible DS1s"). The Telephone Company will determine the number of Eligible DS1s for the Quarter, divide the number of Eligible DS1s by twenty-eight (28), and round the quotient down to the nearest whole number. The result of this calculation will be referred to as the "DS3 Termination Allowance." The amount of the DS3 Credit will be calculated by multiplying the DS3 Termination Allowance times the average amount of all termination liability charges billed to the Customer per terminated DS3 Subject Service during the Quarter ("Average DS3 TLC"). (T)
- Formula: DS3 Termination Allowance x Average DS3 TLC = DS3 Credit (M)
- Example: During Quarter X of the Term Period, the Customer terminates one hundred sixty-five (165) DS1 Subject Services without termination liability, as provided in Section 32.1.4(G). During Quarter X, the Customer also terminates six (6) DS3 Subject Services. Total termination liability charges for the terminated DS3 Subject Services are \$24,000. The DS3 Termination Allowance is 5 (165/28 = 5.89). The Average DS3 TLC is \$4,000 (\$24,000/6 = \$4,000). The DS3 Credit is \$20,000 (\$4,000 x 5 = \$20,000) (M)
- (J) The Customer must include the Contract Number associated with this Contract Offer on all disconnect orders for Subject Services. (T)

(T)32.2 Contract Offer No. 164 - Access Service (Cont'd) (T)32.2.5 Minimum Annual Revenue Commitment (MARC) (T)(A) MARC Establishment (M)

The Customer must satisfy a Minimum Annual Revenue Commitment (MARC) for each Term Year. Calculations related to the MARC (including satisfaction of the MARC) shall be determined according to gross billed recurring charges under Eligible ACNAs, after application of any discounts or credits applicable to those recurring revenues (except Area Commitment Plan credits under the BellSouth Tariff F.C.C. No. 1, any credits issued under the Concurrently Subscribed Contract Offers and any circuit-specific monthly recurring charge credits for any broadband services provided under a broadband services agreement with the Qualified Companies, as well as adjustments for overbilling, under billing and billing dispute settlements addressed during the Annual True-up Process only, for MARC-Eligible Services, as defined in the Concurrently Subscribed Contract Offers and purchased under the Eligible ACNAs (collectively, "MARC-Eligible Charges"). MARC-eligible services, as described in the Concurrently Subscribed Contract Offers, are collectively referred as "MARC-Eligible Services." The Customer's MARC-Eligible Charges shall specifically exclude MARC Attainment Credits, non-recurring charges, usage-based charges. The Customer's MARC obligation shall be a continuing obligation during the entire Term Period.

(B) MARC Calculations

The Customer's MARC for the first year of the Term Period shall be the greater of: (i) ninety five million dollars (\$95,000,000), or (ii) Customer's MARC-Eligible Charges during the three (3) months immediately prior to the Subscription Date, multiplied by four (4), rounded up to the nearest thousand dollars. The MARC for each subsequent Term Year shall be the greater of the MARC-Eligible charges for the last three (3) full calendar months of the previous Term Year multiplied by four (4), rounded up to the nearest thousand dollars or the MARC from the previous Term Year.

32.2 Contract Offer No. 164 - Access Service (Cont'd) (T)

32.2.6 MARC Attainment Credit (T)

- (A) The Customer will qualify for MARC Attainment Credits ("MAC") as provided in this Section 32.2.6 if it meets the requirements specified in this Section 32.2.6. The amount of the MAC for which the Customer qualifies will be determined according to the amount of the Customer's MARC-Eligible Charges, as provided in Table F, below, subject to the provisions of this Section 32.2.6.

Each Term Year will be divided into three (3) periods of four (4) consecutive months, for purposes of applying MAC (each such period to be referred to as an "Attainment Credit Period"). During the first two (2) Attainment Credit Periods of each Term Year, the Customer will qualify for a MAC for any Attainment Credit Period during which the Customer's MARC-Eligible Charges are equal to or greater than one-third (1/3) of the MARC that applies during that Term Year. The MAC for the first two (2) Attainment Credit Periods of each Term Year will be calculated by multiplying the Applicable Credit Percentage (as shown in Table F) associated with the "Initial Credit Tier" for that Term Year by the amount of the Customer's MARC-Eligible Charges attributable to Subject Services during that Attainment Credit Period. For the avoidance of doubt, the Applicable Credit Percentage (as shown in Table F) is based on the Term Year 1 MARC for all Term Years, and shall not be adjusted for any increases in the MARC after Term Year 1. The "Initial Credit Tier" for each Term Year will be the Credit Tier for which the MARC for that Term Year falls within the range from the Minimum MARC-Eligible Charges through the Maximum MARC-Eligible Charges associated with that Credit Tier. The MAC for the third (3<sup>rd</sup>) Credit Attainment Period of each Term Year shall be determined according to the "Annual True-Up of MARC Attainment Credits," as described in Section 32.2.6(B), below. If the Customer does not qualify for a MAC for any Attainment Credit Period, no MAC will be issued at the end of that Credit Attainment Period; however, the Customer may be eligible to receive the MAC subsequently, as provided in the "Annual True-Up of MARC Attainment Credits," as described in Section 32.2.6(B), below.

(T)32.2 Contract Offer No. 164 - Access Service (Cont'd) (T)32.2.6 MARC Attainment Credit (Cont'd) (T)

## (A) (Cont'd) (M)

Any MAC shall be allocated among the Concurrently Subscribed Contract Offers in proportion to the MARC-Eligible Charges attributable to Subject Services, and billed under each of the Concurrently Subscribed Contract Offers during the relevant Attainment Credit Period. Any MAC will be issued in arrears, within ninety (90) days after the end of the Attainment Credit Period during which the Customer qualified for the MAC.

## Example 1:

Assume that the Customer's MARC for Term Year 1 is \$100 million. The Initial Credit Tier for Term Year 1 will be Tier 1 (which includes the range from \$100 million to \$109,999,999.99), and the "Applicable Credit Percentage" for the first two Credit Attainment Periods of Term Year 1 will be five percent (5%). During the first Credit Attainment Period of Term Year 1, the Customer's total MARC-Eligible Charges are \$34 million, and the MARC-Eligible Charges attributable to Subject Services are \$20 million. Because the Customer's MARC-Eligible Charges are greater than one-third of the MARC, a MAC will be issued for five percent (5%) of \$20 million, or \$1 million, for the first Credit Attainment Period of Term Year 1.

## Example 2:

Assume that the Customer's MARC for Term Year 2 is \$110 million. The Initial Credit Tier for Term Year 2 will be Tier 2 (which includes the range from \$110 million through \$120,999,999.99), and the "Applicable Credit Percentage" for the first two Credit Attainment Periods of Term Year 2 will be six percent (6%). During the first Credit Attainment Period of Term Year 2, the Customer's total MARC-Eligible Charges are \$38 million, and the MARC-Eligible Charges attributable to Subject Services are \$25 million. Because the Customer's MARC-Eligible Charges are greater than one-third of the MARC, a MAC will be issued for six percent (6%) of \$25 million, or \$1.5 million, for the first Credit Attainment Period of Term Year 2.

(T)32.2 Contract Offer No. 164 - Access Service (Cont'd) (T)32.2.6 MARC Attainment Credit (Cont'd) (T)(B) Annual True-up Process (M)

- (1) Annual Shortfall. If, at the end of any Term Year, the amount of the Customer's MARC-Eligible Charges is less than the MARC for that Term Year, the Qualified Companies shall bill, and the Customer shall pay, an amount equal to the difference between the MARC and the Customer's MARC-Eligible Charges for that Term Year ("Annual Shortfall"). Any Annual Shortfall will be allocated among the Qualified Companies according to the amounts of MARC-Eligible Charges attributable to Subject Services and billed by the Qualified Companies during the relevant Term Year. Upon payment of the Annual Shortfall, the Qualified Companies shall issue to the Customer a credit in the amount, if any, by which the "Minimum Annual MAC" exceeds the MAC previously issued to the Customer during that Term Year. The "Minimum Annual MAC" is the product of (a) the Applicable Credit Percentage associated with the Initial Credit Tier for that Term Year times (b) the MARC-Eligible Charges attributable to Subject Services during the relevant Term Year. Notwithstanding the foregoing, the Qualified Companies may, with the agreement of the Customer, offset all or part of the credit amount against all or part of the Annual Shortfall, in lieu payment of the full amount of the Annual Shortfall. In either case, the credit issued to the Customer may be referred to as a "Shortfall True-Up Credit." ## Example:

Assume that, the Customer's Term Year 1 MARC was \$100 million, and its Term Year 2 MARC is \$110 million, so the Initial Credit Tier is Tier 2, and the Applicable Credit Percentage is six percent (6%). Also assume that, during Term Year 2, the Customer receives \$2 million in MAC during the first two Credit Attainment Periods of Term Year 2 and that, as of the end of Term Year 2, the Customer's MARC-Eligible Charges are \$109 million, of which the amount attributable to Subject Services is \$80 million. The Customer must pay an Annual Shortfall of \$1 million. Upon payment of that amount, the Qualified Companies will issue a Shortfall True-Up Credit to the Customer in the amount of \$2.8 million (6% x \$80 million = \$4.8 million, minus \$2 million in MAC previously issued during Term Year 2). In the alternative, with the Customer's agreement, the Qualified Companies could instead offset the \$1 million Annual Shortfall against the \$2.8 million credit amount, and issue to the Customer a Shortfall True-Up Credit of \$1.8 million.

- (1) Annual True-Up of Attainment Credits. If, at the end of a Term Year, the amount of the Customer's MARC-Eligible Charges is equal to, or greater than, the MARC for that Term Year, the Telephone Company will issue a credit (a "MAC Achievement Credit") in the amount by which the "Achieved Annual MAC" exceeds the MAC previously issued to the Customer during that Term Year. The "Achieved Annual MAC" is equal to the product of (a) the Applicable Credit Percentage for the Credit Tier associated with the amount of the Customer's MARC-Eligible Charges for that Term Year times (b) the MARC-Eligible Charges attributable to Subject Services and billed by the Qualified Companies during the relevant Term Year. Any MAC Achievement Credit will be allocated among the Qualified Companies according to the amounts of MARC-Eligible Charges attributable to Subject Services during the relevant Term Year.

## Example:

Assume that the Customer's Term Year 1 MARC was \$100 million, and its Term Year 2 MARC is \$110 million. Also assume that the Customer's MARC-Eligible Charges for Term Year 2 are \$123 million, of which the amount attributable to Subject Services is \$80 million, and that the Customer has received \$2 million in MAC during the first two Credit Attainment Periods of Term Year 2. The Credit Tier applicable in Term Year 2 will be Tier 3 (which applies if the Customer's MARC-Eligible Charges fall in the range from \$121,000,000 through \$133,099,999.99), and the Applicable Credit Percentage is seven percent (7%). The Qualified Companies will issue a MAC Achievement Credit in the amount of \$3.6 million (7% x \$80 million = \$5.6 million, minus \$2 million in MAC previously issued in Term Year 2).

(M)

32.2.7 Rate Stability Credit (T)

If the Telephone Company increases the Monthly Recurring Charges (MRCs) applicable to Subject Services in Phase II pricing flexibility MSAs, as listed in PBTC Tariff F.C.C. No. 1, Section 31, the Telephone Company will issue credits to the Customer to offset the increase in MRCs. The amount of such credits, if applicable, will be equal to the difference between the increased MRCs and the MRCs in effect as of the Subscription Date, during the period to be covered by the credits. Any such credits will be issued concurrently with MAC, as provided in Section 32.2.6, provided, however, that the following shall not be considered such a rate increase: (i) any rate change resulting from a grant of Phase II pricing flexibility for any MSA subject to this Contract Offer, or (ii) any change in applicable charges due to the expiration of a term commitment or payment plan.
