APPLICATION OF TARIFF

- 1.1 This tariff contains regulations, rates and charges applicable to Carrier Common Line, Switched Access, Special Access, End User Access, Lifeline Assistance, Universal Service Fund, Expanded Interconnection Service, Advanced Communications Networks, Ethernet Private Line Access Service or, in combination, as Facilities for Interstate Access, hereinafter referred to as FIA, provided by the issuing carriers of this tariff, hereinafter referred to as the Telephone Company to customers. This tariff further provides for Ancillary and Miscellaneous Services. This tariff does not apply to other services offered by the Telephone Company.
- 1.2 Regulations, rates and charges as specified in this tariff apply to FIA and shall not serve as a substitute for IC tariff offerings of services to end users. The provision of such FIA by the Telephone Company as set forth in this tariff does not constitute a joint undertaking with an IC for the furnishing of any service.
- 1.3 References in this tariff to a Special Construction Tariff refers to the following tariff as effective in its respective territories:

TARIFF F.C.C. NO. 7 for Frontier Midstates Inc., Frontier North Inc., Citizens Telecommunications Company of California, Inc., Frontier Communications of the Carolinas Inc.

Marshfield and  
Wausau, Wisconsin      Wisconsin

Rate regulations and charges applicable to CCS7 Access service are in 4.5.2(G), 4.6.6(A) and (B) and 4.6.8.

---

FACILITIES FOR INTERSTATE ACCESS

---

4. SWITCHED ACCESS (Cont'd)4.2 Description of Switched Access (Cont'd)4.2.10 Common Channel Signaling System 7 Access Service (Cont'd)(C) SS7 Transport

SS7 Transport provides for message transport in support of services which require receiving and terminating signaling information using the SS7 protocol. SS7 Transport will route messages to the appropriate global title address or to the signaling point code address based on STP translations. Customer STP interconnection can be obtained by interconnection at any of the Telephone Companies STP pair locations as shown in this section.

Interconnection at primary STP locations will provide for SS7 transport to other primary STP locations within the Telephone Companies' SS7 Network. The Telephone Companies primary STP locations are:

Fort Wayne and Garrett, Indiana

(D)

SS7 Transport is comprised of two rates. One rate is applicable for SS7 Transport between Primary STP locations. The second rate is applicable for SS7 Transport between a Primary STP location and any local STP location.

A customer ordering SS7 Transport must, at minimum, subscribe to the Telephone Company's Common Channel Signaling System 7 (CCS7) Access Service as shown in this section.

## FACILITIES FOR INTERSTATE ACCESS

5 SPECIAL ACCESS (Cont'd)5.6 Rate Regulations (Cont'd)5.6.13 Four-Wire Voiceband and Digital Data Service (DDS) Rate Stability Plan (RSP)# (Cont'd)(C) RSP Terms and Conditions (Cont'd)

## (4) Continued

The penalty charged is equal to the unweighted average of the customer's applicable RSP Four-Wire Voiceband SAL and DDS SAL monthly rates multiplied by the deficient number of SALs.

Example:

Customer has Four-Wire Voiceband and DDS services in California, Indiana and Illinois. RSP rates for these jurisdictions are as follows: (T)

<u>Effective RSP Rate</u>				
<u>Type SAL</u>	<u>California WC</u>	<u>Indiana</u>	<u>Illinois</u>	(T)
Four-Wire Voiceband	\$47.88	\$42.00	\$28.15	(T)
DDS (2.4, 4.8, 9.6, 19.2 Kbps)	63.84	60.80	52.25	(T)
DDS (56, 64 Kbps)	<u>79.80</u>	<u>79.80</u>	<u>64.60</u>	
Totals	\$191.52	+ \$182.60	+ \$145.00 = \$519.12	(T)

UNWEIGHTED AVERAGE OF RSP RATES:  $\$519.12 / 9 = \$57.68$  (T)

Review of customer's records reveals commitment deficiency of eight SALs. The applicable penalty charged would be  $\$57.68 \times 8 = \$461.44$ . (T)

(D) RSP Nonrecurring Charges

No nonrecurring charge will apply for the ASRs processed to convert existing SALs to or from the RSP. All applicable Special Access NRCs will apply for ASRs processed to add new SALs. Refer to Section 5.7.2 for Voiceband SAL NRCs and Section 5.7.5 for Digital Data Service SAL NRCs.

(E) RSP Services

This Plan is offered only for Four-Wire Voiceband and Digital Data Service (DDS).

# Service Availability is limited. Refer to # footnote on page 5-92.

## FACILITIES FOR INTERSTATE ACCESS

5 SPECIAL ACCESS (Cont'd)5.6 Rate Regulations (Cont'd)5.6.14 DS1 Term Volume Plans# (Cont'd)(I) Penalties for Failing To Meet CommitmentOne-, Two-, Three-, Five-Year DS1 Term Volume Plans (TVP)

When the number of TVP DS1 SALs at the annual review is less than the commitment quantity minus 3%, the penalty will be the lowest TVP rate for the current threshold in the states where the service is located, multiplied by the shortfall multiplied by 4 months.

For example, if the commitment quantity is 100 and the customer has 90 DS1 TVP SALs at the time of the annual review, the penalty described below will be applied to the shortfall difference of 97 (3% less than 100), and 90. Customer has DS1 SALs in Indiana. (T)

- Current threshold level is 61-120, 5 Year term
- In-service quantity at annual review = 90
- Shortfall is  $97 - 90 = 7$
- Penalty is calculated as follows:

$$\$142.97^* \times 7 \times 4 \text{ months} = \$4,003.16 \text{ penalty} \quad (T)$$

\* Lowest TVP MRC applied the customer (Indiana rate) (T)

Eight- and Ten-Year DS1 Term Volume Plan (ETTVP)

When the number of ETTVP DS1 SALs at the annual review is less than the commitment quantity, the penalty will be the average ETTVP MRC per circuit, multiplied by the shortfall multiplied by 6 months.

For example, if the commitment quantity is 9000 and the customer has 8700 DS1 ETTVP SALs at the time of the annual review, the penalty described below will be applied to the shortfall difference of 9000 and 8700. Customer has DS1 SALs in every state.

- Current threshold level is 6001-10,000, 8 Year term
- Commitment quantity is 9000
- In-service quantity at annual review = 8700
- ETTVP monthly billing \$1,070,100
- Average ETTVP MRC per circuit  $(\$1,070,100 / 8700) = \$123$
- Shortfall is  $9000 - 8700 = 300$
- Penalty is calculated as follows:

$$\$123.00^* \times 300 \times 6 \text{ months} = \$ 221,400 \text{ penalty}$$

\* Average ETTVP MRC (MRC revenue divided by the number of SALs in-service)

# Service availability is limited. See # footnote on Page 5-99.

6. MISCELLANEOUS SERVICES (Cont'd)6.19 Incidental InterLATA Call Management Signaling Service(A) General

Call Management Signaling Service ("Service" or "CMSS") provides a customer with terminating detail information and with the capability to provide instructions back to the Telephone Company regarding the forwarding or other disposition of calls terminating or attempting to terminate at the customer's end user's telephone number. The Telephone Company will deliver this service over a secure IP (Internet Protocol) network connection using standard XML-based formatted data.

In every instance that a call attempts to terminate at a Telephone Company end office to a customer's end user's telephone line provisioned with the Service, The Telephone Company will provide the customer with signaling information describing the attempted call termination and terminating detail for the call (collectively "Terminating Detail"). All Terminating Detail will be provided to a Telephone Company interface server and then made available to customers through a secure IP network connection using an XML-based data format.

In every instance that a customer is provided with Terminating Detail for a call, the customer will be required to respond with a valid response ("Response") within 18 seconds, as further described in the Technical Memorandum documentation referenced in the front of this tariff under Reference to Technical Publications (Technical Memorandum for Incidental InterLATA Call Management Signaling Service associated with the Telephone Company FCC Short Term Notice of Network Change dated March 2007). Valid Responses include an instruction for the Telephone Company to forward the call to a different domestic telephone number, to block the call or to permit the call to terminate to the customer's end user's line.

In the event no Response is received within 18 seconds, the Telephone Company will proceed with terminating the call to the customer's end user's line. Responses to the Telephone Company from the customer are received through a secure IP network connection and in an XML-based data format.

(B) Service Availability

Call Management Signaling Service will be provided where technical capability exists on the customer's end-user lines that originate from a Telephone Company end office, in the Service Areas listed below, equipped with Advanced Intelligent Network (AIN) capability. The AIN capability information can be found in the NECA Tariff FCC No. 4.

## FACILITIES FOR INTERSTATE ACCESS

8. ANCILLARY SERVICES8.1 General8.1.1 Directory Assistance Service/Preferred Directory Assistance Service

The Telephone Company will provide Directory Assistance Service/Preferred Directory Assistance Service to a customer from Directory Assistance Service locations.

Regulations, rates and charges as follow apply to Directory Assistance Service/Preferred Directory Assistance Service and shall not serve as a substitute for customer tariff offerings of services to end users. The provision of such Directory Assistance Service/Preferred Directory Assistance Service by the Telephone Company as set forth following does not constitute a joint undertaking with the customer for the furnishing of any service.

The Telephone Company's undertaking to provide Directory Assistance Service/Preferred Directory Assistance Service is made only in conjunction with interstate services. The facilities offered for connection to Preferred Directory Assistance may be Switched Access or Special Access, at the customer's option.

The regulations, rates and charges contained herein are in addition to the applicable regulations, rates and charges specified in other sections of this tariff and in other tariffs of the Telephone Company which are referenced herein.

For Switched Access connections to the Directory Assistance Service/Preferred Directory Assistance location, the rates as set forth in Section 4 apply. Switched Access connections to Directory Assistance service locations shall require the use of Switched Access Entrance Facilities and Direct-Trunked Transport. Switched Access Entrance Facilities provide the facilities and necessary interface between the customer's CDL and the serving wire center. Switched Access Direct-Trunked Transport provides the interoffice facilities between the serving wire center and the Directory Assistance service location. In addition to Directory Assistance rates described in this section, Entrance Facility and Direct-Trunked Transport rates are applied as described in Section 4.5.2.(H)(2)(d) and 4.5.2.(H)(2)(e).

For Special Access connections to Preferred Directory Assistance, the rates set forth under Section 5 will apply. Switched Access rate elements will not apply.

8.2 Description of Service

Directory Assistance Service provides access to Directory Assistance Service locations, use of Directory Assistance Service equipment, and use of Directory Assistance operators. This function consists of Directory Assistance Service to a customer to enable end users to obtain local telephone numbers maintained by the Telephone Company.

Preferred Directory Assistance provides Directory Assistance to a customer to enable their end users to obtain local published telephone numbers in designated NPAs served by the Telephone Company. Complete directory listings for each NPA include those customers served by the Telephone Company and those served by other local exchange companies. Preferred Directory Assistance service incorporates the following characteristics:

- (A) The carrier must presubscribe to all NPAs indicated per jurisdiction.
