## ACCESS SERVICE

7. MISCELLANEOUS ACCESS SERVICE (Cont'd)

## 7.2 Services Offered (Cont'd)

## 7.2.5 Presubscription (Cont'd)

If an IC elects to change or discontinue use of a Carrier Identification Code (CIC), the IC will identify to the Company any affected end users and advise the Company of the new CIC to be assigned to these end users. If the CIC change involves a change of carrier for any end users, the IC will notify the affected end users of the change. The Company will change the predesignated carrier code of each end user identified by the IC to the new CIC and bill the IC the non-recurring charge for each end user line or trunk that is changed.

A Customer may initiate a presubscription change at any time. The Company will maintain a listing of all available interexchange carriers and provide them on a random sequential basis to aid the Customer in the selection process. The change of an IC is subject to the appropriate non-recurring charge.

If an IC requests a primary interexchange carrier (PIC) change on behalf of a billed party with the appropriate authorization and the Customer advises the Company the authorization is denied and the IC is unable to substantiate the change, the Customer will be reassigned to its previously selected IC if a change has already taken place and the IC that requested the change will be subject to an Unauthorized PIC Change Charge in addition to the normal PIC change charge.

## 7.2.6 Maintenance of Service

The Customer shall be responsible for payment of a Maintenance of Service charge when the Company dispatches personnel to the Customer designated premises and trouble is found to be with Customer facilities or equipment.

## 7.2.7 Specialized Service or Arrangements

Specialized Service or Arrangements may be provided by the Company at the request of the Customer on an individual case basis (ICB) if such services or arrangements meet the following:

- The service(s) or arrangement(s) are not offered under other sections of the tariff;
- The service(s) or arrangement(s) are a type normally used by the Company, the service(s) or arrangement(s) are compatible with other Company Service(s), facilities and engineering and maintenance practices; and
- The offering is subject to availability of Company personnel and capital resources.
