Section 5 – ORDERING OPTIONS FOR SWITCHED ACCESS SERVICES

5.1 General

This section sets forth the regulations and order related charges for Access Orders for Switched Access Services. These charges are in addition to other applicable charges as set forth in other sections of this Tariff.

An Access order is an order to provided the customer with Switched Access Service or specialized services and arrangement or to provide charges to existing services. A Signal Transfer Point (STP) port and the Dedicated Network Access Link connecting that STP port to a customer designated premises is considered one service.

5.1.1 Ordering Conditions

A customer may order any number of services of the same type and between the same premises on a single Access Order. All details for services for a particular order must be identical except for those for multi-point service. All services on an Access order must have the same customer requested service date.

An Administrative Charge applies any time a customer initiates an order for service. This charge applies once per customer order, regardless of the number of facilities ordered.

A Design and Central Office Connection Charge applies any time customer initiated order for service requires engineering design and or connection or changes at the Company central office. This charge applies once per circuit. A separate Design and Central Office Connection Charge applies for each switched Access Service line or trunk activated on Switched Transport Services. (C)

A Customer Connection Charge applies any time a customer initiated order for service requires connection of or changes to a line or trunk for Switched Access, or a Local Distribution Channel (LD), if appropriate. This charge applies once per LDC, line or trunk affected by the order.

The three charges described in the preceding page do not apply to any services in Section 4 preceding.
